INDIAN REGULATORY FRAMEWORK

1.5

Types of laws in the Indian Legal System

The laws in the Indian legal system could be broadly classified as follows:

Criminal Law

Criminal law is concerned with laws pertaining to violations of the rule of law or public wrongs and punishment of the same. Criminal Law is governed under the Indian Penal Code, 1860, and the Code of Criminal Procedure, 1973 (Crpc). The Indian Penal Code, 1860, defines the crime, its nature, and punishments whereas the Criminal Procedure Code, 1973, defines exhaustive procedure for executing the punishments of the crimes.

Murder, rape, theft, fraud, cheating and assault are some examples of criminal offences under the law.

Civil Law

Matters of disputes between individuals or organisations are dealt with under Civil Law. Civil courts enforce the violation of certain rights and obligations through the institution of a civil suit. Civil law primarily focuses on dispute resolution rather than punishment. The act of process and the administration of civil law are governed by the Code of Civil Procedure, 1908 (CPC). Civil law can be further classified into Law of Contract, Family Law, Property Law, and Law of Tort.

Some examples of civil offences are breach of contract, non-delivery of goods, non-payment of dues to lender or seller defamation, breach of contract, and disputes between landlord and tenant.

Common Law

A judicial precedent or a case law is common law. A judgment delivered by the Supreme Court will be binding upon the courts within the territory of India under Article 141 of the Indian Constitution. The doctrine of *Stare Decisis* is the principle supporting common law. It is a Latin phrase that means "to stand by that which is decided." The doctrine of *Stare Decisis* reinforces the obligation of courts to follow the same principle or judgement established by previous decisions while ruling a case where the facts are similar or "on all four legs" with the earlier decision.

Principles of Natural Justice

Natural justice, often known as *Jus Natural* deals with certain fundamental principles of justice going beyond written law. *Nemo judex in causa sua* (Literally meaning "No one should be made a judge in his own cause, and it's a Rule against Prejudice), *audi alteram partem* (Literally meaning "hear the other party or give the other party a fair hearing), and reasoned decision are the rules of Natural Justice. A judgement can override or alter a common law, but it cannot override or change the statute.

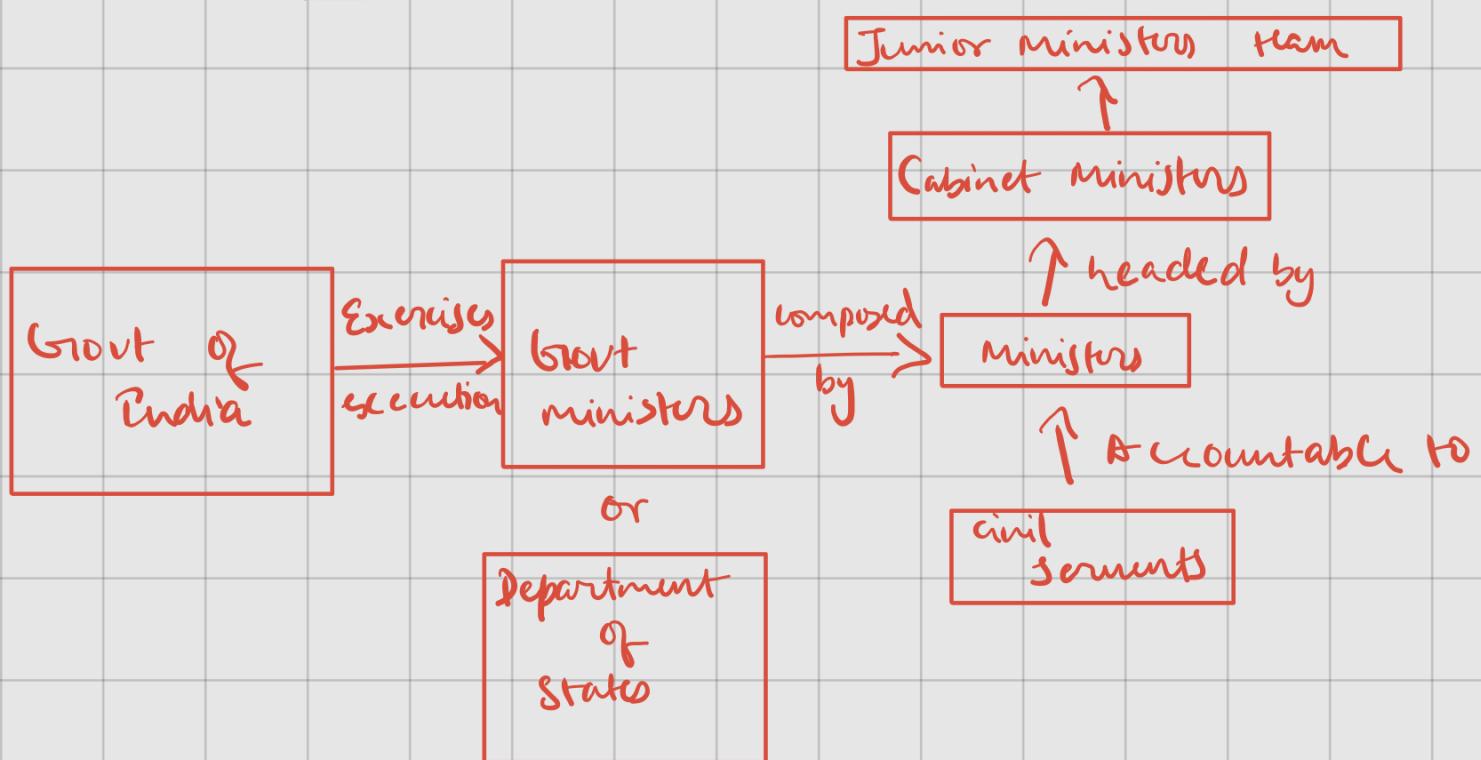

(8) After a law is passed in parliament, what is the enforcing authority of law in India?

=> Enforcement of law :-

- * Once law is passed in parliament It has to be monitored to know whether its being followed or not This is done by an executive.
- * The enforcing authority will fall under central or state law depends on whether the law is central law or state law.

* Various ministers like minister of finance, minister of corporate affairs, MHA, MoLJ etc are allotted this work. They have a ministers heading them and number of IAS and other services officials.

The Structure is somewhat like this:-

Example:-

ministry of finance

↓ Through

Central Board of Direct taxes

[Department of]
revenue

↓ Implementing

Income tax
Act

↓ Administers

IRS officers
