

Preparation Strategy for CA Foundation Students.

First of all, we are listing Some Important Points, common to all subjects:

- Clear all the concepts of every topic from the teacher notes from where you have taken your coaching classes. (Which is very important for CA exams)
- Study from ICAI Study Material
 - i) Modules
 - ii) RTPs
 - iii) MTPs
 - iv) Past Exam Suggested Answers

➔ Note: Practicing more questions from other reference books is good but 1st preference should be given to ICAI Study Material mentioned above.

“Revise again & again from ICAI Modules.”

At the Time of your Revisions, you must cover all the following points:

- Cut out the questions which you are damn sure that you can solve easily.
- Write your own comments to every hard/different question, stating which part of it is hard/strange, so that you can just see that part at the last moments of exam.
- Have Self-control over your beloved smartest phones.... Have fixed time to use them and use only at that time and forget all the posts/messages/comments.... at the time of starting study again.
- Do not count study hours only but also count EFFECTIVE study hours... Remember that no one can study with 100% efficiency at all the time, so u have to increase study time as well as efficiency to achieve your goals.
- Give maximum tests of each subject, including topic wise tests as well as Full Length tests and focus where u make mistakes...
- Start as early as possible for CA foundation preparation.

Subject Wise Tips:

• Accounts :

- ❖ Don't miss out any page of ICAI modules.
- ❖ Solve all the questions of Module in writing, especially of Partnership Accounts, NPO, Final Accounts.
- ❖ Must solve RTP questions with cuttings and markings.
- ❖ Don't forget that theory part (from chapter 1) accounts for at least 4-6 marks in accounts paper.
Do read it properly.

• Laws :

- ❖ Read and revise module at least 4 times
- ❖ Understand the logic behind each provision first.
- ❖ Practice all the questions in RTPs/MTPs in writing with speed: - 1 mark = 1.8 min.
- ❖ Compare your answers with suggested answers.
- ❖ Write maximum full length papers of Law-English.

• BCR :

- ❖ Read Communication chapter at least 6-7 times as it is for at least 8-10 marks out of 40.
- ❖ Have a command over formats of all writing skills.
- ❖ Practice writing skills with Stopwatch.

- **Maths :**

- ❖ There are more than 1500 MCQs in module so u have to sort out which MCQs in module you need to see in the 1.5 days' exam time (bcoz u also need to see important Q. of past exam, i.e. scanner in this exam period).
- ❖ Maintain a formulae book (write only formulae and properties in it & nothing else).
- ❖ Read the entire formulae book at least once in a week.
- ❖ Practice more and more Q.

- **Economics :**

- ❖ Read and understand each concept with logic.
- ❖ Mark important points with different colour pens/highlighters as human brain tends to remember pattern/pictures rather than data.
- ❖ Make your own notes on “Economists & their sayings” as there are at least 2 Q. in exam in this context.

- **BCK :**

- ❖ Read chapter no. 3 & 6 again & again
- ❖ Read Chart on Chp.3 at least once a week in last 2 month.(U can get it online in pdf/jpg format).

- ❖ Make your own notes, especially of chp. 2,4 & 5.
- ❖ I m once again repeating that read module as much times as possible.

Some More Important Tips:

- ✓ Small goals are the steps towards the BIG GOAL....
- ✓ Once you have decided your big goal, start preparing on small goals
- ✓ For e.g., give topic wise tests with your best preparation which will ultimately lead to success in Final Test.

Believe in yourself.

“As told by Nelson Mandela, “It always seems impossible until it’s done.”

If u can dream it. u can achieve it!!

ALL THE VERY BEST!

Best Regards

CA Exam Test Series.
