  - (ii) Objectives of preparing Trial Balance.
  - (iii) Tangible Assets vs. Intangible Assets.
  - (iv) Liability of LLP and its Partners.
  - (v) Requirement to create Debenture Redemption Reserve.

**SUGGESTED ANSWERS/HINTS**

1. (a) **False:** If the fundamental accounting assumption of going concern is not followed, then the assets and liabilities should be stated at realizable value not historical cost.
- (b) **False:** The Sales book is a register especially kept to record credit sales of goods dealt in by the firm, cash sales are entered in the cash book and not in the sales book.
- (c) **False:** Bank reconciliation statement is prepared to reconcile and explain the causes of differences between bank balance as per cash book and the same as per bank statement as on a particular date.

- (d) **False:** Damaged Inventory should be valued at net releasable value.
- (e) **True:** In the early periods of useful life of a fixed assets, repairs and maintenance expenses are relatively low because the asset is new. Whereas in later periods, as the asset become old, repairs and maintenance expenses increase continuously. Under written down value method, depreciation charged is high in the initial period and reduces continuously in the later periods. Thus, depreciation and repair and maintenance expenses become more or less uniform throughout the useful life of the asset.
- (f) **True:** Discount at the time of retirement of a bill is a gain for the drawee and loss for the drawer.
- (g) **False:** Cash withdrawal for personal use by the proprietor from his business should be treated as his drawings and not a business expense chargeable to profit and loss account. Such drawings should be deducted from the proprietors capital.
- (h) **False:** In case of admission of new partner in a partnership firm, profit/loss on revaluation account is transferred to old partners in their old profit-sharing ratio.
- (i) **True:** Where in case of a Non-Profit organization separate trading activity, the profit and loss from the trading account shall be transferred to Income and Expenditure Account at the time of consolidation.
- (j) **True:** According to Section 52 of the Companies Act, 2013, Securities Premium Account may be used by the company to write off preliminary expenses of the company. Thus, the accountant can use the balance in securities premium account to write off the preliminary expenses amounting ₹ 5 lakhs
- (k) **False:** Debenture interest is payable before the payment of any dividend on shares.
2. (a) The practice of accountancy has crossed its usual domain of preparation of financial statements, interpretation of such statements and audit thereof. Chartered Accountants are presently

taking active role in company laws and other corporate legislation matters, in taxation laws matters (both direct and indirect) and in general management problems.

Some of the services rendered by chartered accountants to the society are briefly mentioned hereunder:

- (i) Maintenance of books of accounts;
- (ii) Statutory audit;
- (iii) Internal Audit;
- (iv) Taxation;
- (v) Management accounting and consultancy services;
- (vi) Financial advice and financial investigations etc.
- (vii) Other services like secretarial work, share registration work, company formation receiverships, arbitrations etc.

- (b)** The main advantage of setting accounting standards is that the adoption and application of accounting standards ensure uniformity, comparability and qualitative improvement in the preparation and presentation of financial statements. The other advantages are: Reduction in variations; Disclosures beyond that required by law and Facilitates comparison.

Adjustment for Goodwill:	
Goodwill of the firm	<u>42,000</u>
Mr. X's Share (2/7)	12,000
Gaining ratio of Y & Z;	
Y = $\frac{1}{2} - \frac{3}{7} = \frac{1}{14}$	
Z = $\frac{1}{2} - \frac{2}{7} = \frac{3}{14}$	
Y:Z = 1:3	

Therefore, Y will bear –  $\frac{1}{4} \times 12000$  or ₹3,000

Z will bear =  $\frac{3}{4} \times 12000$  or ₹9,000

**18. (i) Fundamental Accounting Assumptions:** Fundamental accounting assumptions underlie the preparation and presentation of financial statements. They are usually not specifically stated because their acceptance and use are assumed. Disclosure is necessary if they are not followed. The Institute of Chartered Accountants of India issued Accounting Standard (AS) 1 on 'Disclosure of Accounting Policies' according to which the following have been generally accepted as fundamental accounting assumptions:

1. **Going concern:** The enterprise is normally viewed as a going concern, i.e. as continuing operations for the foreseeable future. It is assumed that the enterprise has neither the intention nor the necessity of liquidation or of curtailing materially the scale of the operations.
2. **Consistency:** It is assumed that accounting policies are consistent from one period to another.
3. **Accrual:** Guidance Note on 'Terms used in Financial Statements' defines accrual basis of accounting as "the method of recording transactions by which revenue, costs, assets and liabilities are reflected in the accounts in the period in which they accrue." The accrual 'basis of accounting' includes considerations relating to deferrals, allocations, depreciation and amortisation. Financial statements prepared on the accrual basis inform users not only of past events involving the payment and receipt of cash but also of obligations to pay cash in future and of resources that represent cash to be received in the future. Hence, they provide the type of information about past transactions and other events that is most useful to users in making economic decisions. Accrual basis is also referred to as mercantile basis of accounting.

**(ii) Objectives of preparing Trial Balance**

The preparation of trial balance has the following objectives:

1. **Checking of the arithmetical accuracy of the accounting entries:** Trial Balance enables one to establish whether the

posting and other accounting processes have been carried out without committing arithmetical errors. In other words, the trial balance helps to establish the arithmetical accuracy of the books.

2. Basis for preparation of financial statements: Trial Balance forms the basis for preparing financial statements such as the Income Statement and the Balance Sheet. The Trial Balance represents all transactions relating to different accounts in a summarized form for a particular period. In case, the Trial Balance is not prepared, it will be almost impossible to prepare the financial statements to know the profit or loss made by the business during a particular period or its financial position on a particular date.
3. Summarized ledger: Trial Balance contains the ledger balances on a particular date. Thus, the entire ledger is summarized in the form of a Trial Balance. The position of a particular account can be judged simply by looking at the Trial Balance. The ledger may be seen only when details regarding the accounts are required.

**(iii) Distinction between Tangible and Intangible Assets**

Tangible Assets	Intangible Assets
Tangible Assets are assets that have a physical substance i.e., they can be seen and touched, held for use in the production or supply of goods or services, for rental to others, or for administrative purposes.	Intangible Assets are identifiable assets that do <u>NOT</u> have a physical substance, held for use in the production or supply of goods or services, for rental to others, or for administrative purposes.
Tangible Assets have a finite life based on expected usage.	Intangible Assets have a finite life based on contractual terms. In some cases, intangible assets could also have an indefinite life e.g. purchased goodwill.

Useful life is based on expected usage, with no presumption laid down for the same.	Useful life of Intangible Assets is presumed not to exceed 10 years unless evidence exists to the contrary.
Tangible Assets are depreciated over the useful life. In other words, writing off the value of tangible assets on an annual basis is known as depreciation.	Intangible Assets are amortised over the useful life. In other words, writing off the value of intangible assets on an annual basis is known as amortisation.
Examples include Property, Machinery, Vehicles etc.	Examples include software, streaming rights, landing rights, trademarks, patents etc.

**(iv) Extent of Liability of LLP and its partners**

Every partner of an LLP for the purpose of its business is an agent of the LLP but is not an agent of other partners. Obligations of LLP are solely its obligations and liabilities of LLP are to be met out of properties of LLP.

The partners of an LLP in the normal course of business are not liable for the debts of the LLP. The LLP is liable if a partner of LLP is liable to any person as a result of wrongful or omission on his part in the course of business of the LLP or with his authority. However, a partner will be liable for his own wrongful acts or commissions, but will not be liable for the wrongful acts or commissions of other partners of the LLP. Thus a partner may be called to pay the liability of an LLP under exceptional circumstances.

If an LLP or any of its partners act with the intent to defraud creditors of the LLP or any other person or for any fraudulent purpose, then the liability of the LLP and the concerned partners is unlimited. However, where the fraudulent act is carried out by a partner, the LLP is not liable if it is established by the LLP that the act was without the knowledge or authority of the LLP. Where the business is carried out with fraudulent intent or for fraudulent

purpose, every person who was knowingly a party is punishable with imprisonment and fine.

- (v) Section 71 of the Companies Act 2013 covers the requirement of creating a debenture redemption reserve account. Section 71 states as follows:
- (1) Where a company issues debentures under this section, it should create a debenture redemption reserve account out of its profits which are available for distribution of dividend every year until such debentures are redeemed.
  - (2) The amounts credited to the debenture redemption reserve should not be utilised by the company for any purpose except for the purpose aforesaid.
  - (3) The company should pay interest and redeem the debentures in accordance with the terms and conditions of their issue.
  - (4) Where a company fails to redeem the debentures on the date of maturity or fails to pay the interest on debentures when they fall due, the Tribunal may, on the application of any or all the holders of debentures or debenture trustee and, after hearing the parties concerned, direct, by order, the company to redeem the debentures forthwith by the payment of principal and interest due thereon.
