PREFACE

I am thankful to everyone – my colleagues in the CA industry, my students and most importantly the readers of this book who have shared their thoughts about the first edition. Their recommendations inspired me to bring out the 4th edition with more energy and enthusiasm.

This edition contains:

- 100% coverage of ICAI's Syllabus.
- Entire GST & Customs Revision
- Tables & Charts for Easy Understanding
- Summarized Points for Quick Recap
- Updated with all Amendments upto 31st October 2023

In the last few years, I have been training students for CA Examinations and I have not come across a single summary book for Indirect Tax Laws that puts adequate emphasis on all topics. Hence, I decided to write a book that would cater to full coverage of topics and at the same time reflect the changing patterns of examination.

While curating this book, I have paid utter attention to avoid including inappropriate or non-relevant topics, Also, I have explicitly emphasized keeping the language as simple as possible.

Although I have tried to be meticulous in preparing this book, some human errors may have crept in. I would be highly grateful if any of the readers would like to contribute to enhancing the value of this book by providing their suggestions or bringing up to our notice the errors if any so that subsequent editions can be corrected. You can reach me at sirakshansh@gmail.com

Good Luck!!

Best Regards,

ACKNOWLEDGEMENT

This book bears the engraving of many - my family, my students and my colleagues who have made an impact on my thought process and have generously extended what I strive for.

I am especially thankful to my Parents, for all your support, care, sacrifices & valuable advices and positive appreciation.

I owe thanks to my brother for his continued & unfailing support to me throughout this journey.

Writing a book is harder than I thought and more rewarding than I could have imagined, none of these would have been possible, without my team – Keyur & Shweta, they stood by me during every struggle being the backbone of this process and AKG.

I extend my heartfelt thanks to all my students – past & present, who have helped me to improve the content and the presentation of the book.

And most importantly, to the Almighty God, for giving me strength and knowledge for making this book.

I may have forgotten a few names here. I wish to express my gratitude towards all who have contributed to the development of this book.

Believe in yourself! Have faith in your abilities. Without a humble but reasonable confidence in your own powers, you cannot be successful. My best wishes are always there for you all.

Hope you have a phenomenal journey with this book. Also, you can share your positive and constructive views with me. Hoping to listen from you soon.

Thanks, Everyone!!

- Double taxation of certain transactions as both goods and services.

GST COMMON PORTAL

- ❖ GST being a **destination-based tax**, the inter-State trade of goods and services (IGST) needed a robust settlement mechanism amongst the States and the Centre. A Common Portal was needed which could act as a clearing house & verify the claims and inform the respective Governments to transfer the funds.
- ❖ Resultantly, Common GST Electronic Portal – www.gst.gov.in – a website managed by Goods and Services Network (GSTN) [a wholly owned Government Company] is set by the Government to establish a uniform interface for the tax payer and a common and shared IT infrastructure between the Centre & States.
- ❖ The GST portal is accessible over Internet (by taxpayers and their CAs/Tax Advocates etc.) & Intranet by Tax Officials etc. The portal is one single common portal for all GST related services.
- ❖ A common GST system provides linkage to all State/ UT Commercial Tax Departments, Central Tax authorities, Taxpayers, Banks and other stakeholders. The eco-system consists of all stakeholders starting from taxpayer to tax professional to tax officials to GST portal to Banks to accounting authorities.

Functions of GSTN:

- facilitating registration;
 - forwarding the returns to Central and State authorities;
 - computation and settlement of IGST;
 - matching of tax payment details with banking network;
 - providing various MIS reports to the Central and the State Governments based on the taxpayerreturn information;
 - providing analysis of taxpayers' profile.
- ❖ Common GST Electronic Portal for furnishing electronic way bill is www.ewaybillgst.gov.in [managed by the National Informatics Centre, Ministry of Electronics & Information Technology, Government of India]. E-way bill is an electronic document generated on the GST portal evidencing movement of goods.

- ❖ Further, Invoice Registration Portal (IRP) is the website for uploading/reporting of e-invoices by the notified persons*. It is managed by the National Informatics Centre, Ministry of Electronics & Information Technology, Government of India.

* All registered businesses with an aggregate turnover (based on PAN) in any preceding financial year from 2017-18 onwards **greater than ₹ 5 crore** are required to issue e-invoices.

GSPs/ASPs

- ❖ GSTN has selected certain Information Technology, Information Technology enabled Services and financial technology companies, to be called GST Suvidha Providers (GSPs).
- ❖ GSPs have access to GST System and have the capability to develop applications to be used by taxpayers for interacting with the GSTN.
- ❖ GSP develops applications having features like –
 - return filing,
 - reconciliation of purchase register data with auto populated data for acceptance/rejection/modification,
 - dashboards for taxpayers for quick monitoring of GST compliance activities,
 - provide role-based access to divide various GST related activities like uploading invoice, filing returns etc. among different set of users inside a company (medium or large companies will need it),
 - applications for tax professional to manage their client's GST compliance activities,
 - integration of existing accounting packages/ERP with GST system, etc.
- ❖ GSP is an additional channel being made available for facilitating the taxpayers for performing some of the functions and use of their services is optional. GSPs may take the help of Application Service Providers (ASPs) who act as a link between taxpayers and GSPs.

COMPENSATION CESS

A GST Compensation Cess at specified rate is imposed under the Goods and Services Tax (Compensation to States) Cess Act, 2017 on the specified luxury items or demerit goods, like pan masala, tobacco, aerated waters, motor cars etc., computed on value of taxable supply.

Compensation cess is leviable on intra-State supplies and inter-State supplies with a view to provide for compensation to the States for the loss of revenue arising on account of implementation of the GST. Initially, it was levied for a period of 5 years upto 30th June, 2022. However, its levy and collection has been extended till **31st March, 2026**.

Compensation is to be provided to a State for a period of 5 years from the date on which the State brings its SGST Act into force.

CONCEPT OF SUPPLY [SECTION 7 OF CGST ACT]

Section 7	Meaning and scope of supply
Schedule I	Activities to be treated as supply even if made without consideration (Deemed Supply)
Schedule II	Activities or transactions to be treated as supply of goods or as supply of services
Schedule III	Activities or transactions which shall be treated neither as supply of goods nor as supply of services.
Section 8	Taxability of composite and mixed supplies

SECTION 7: MEANING AND SCOPE OF SUPPLY

7(1) Supply includes-

- a. **All forms of supply of goods or services or both such as sale, transfer, barter, exchange, licence, rental, lease or disposal made or agreed to be made for a consideration by a person in the course or furtherance of business.**
- aa. the activities or transactions, by a person, other than an individual, to its members or constituents or vice versa, for cash, deferred payment or other valuable consideration.
- b. **Importation of services, for a consideration whether or not in the course or furtherance of business, and**
- c. The activities specified in **Schedule I**, made or agreed to be made **without a consideration**.

7(1A) where certain activities or transactions, constitute a supply in accordance with the provisions of sub-section (1), they shall be treated either as supply of goods or supply of services as referred to in Schedule II.

7(2) Notwithstanding anything contained in sub-section (1)

- b. such activities or transactions undertaken by the Central Government, a State Government or any local authority in which they are engaged as public authorities, as may be notified by the Government on the recommendations of the Council **shall be treated neither as a supply of goods nor a supply of services.**

PARAMETERS OF SUPPLY

Supply should be of goods or services. Supply of anything other than goods or services like money, securities etc. does not attract GST.

Supply should be made for a consideration.

Supply should be made in the course or furtherance of business.

SUPPLY

Includes

- Supply for consideration in course or furtherance of business [Section 7(1)(a)]
- Importation of services for consideration whether or not in course or furtherance of business [Section 7(1)(b)]
- Supply without consideration - Deemed Supply [Section 7(1)(c) read with Schedule I]

Excludes

- Negative list [Section 7(2) + Schedule III]

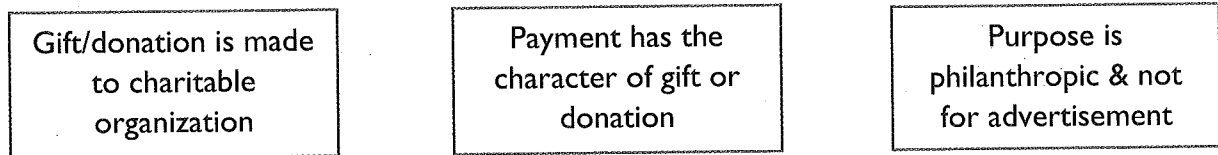

Examples:

1. Rishabh buys a car for his personal use and after a year sells it to a car dealer. Sale of car by Rishabh to car dealer is not a supply under CGST Act because said supply is not made by Rishabh in the course or furtherance of business.
2. Manikarnika sold her old gold bangles and earrings to 'Aabhushan Jewellers.' Sale of old gold jewellery by an individual to a jeweller will not constitute supply as the same cannot be said to be in the course or furtherance of business of the individual.

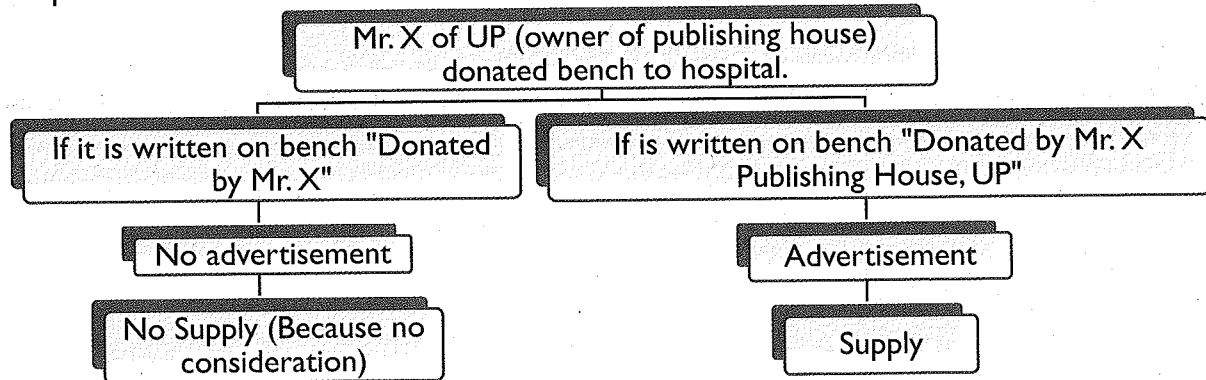

IMPORTANT CIRCULARS

1. Donations received by charitable institutions from individual donors without quid pro quo i.e., nothing is to be done by donee in return

GST is not levied when below 3 conditions are satisfied: -

Example: -

2. Art works sent by artists to galleries for exhibition is not a supply as no consideration flows from the gallery to the artists.
3. Service by way of grant of alcoholic liquor license, against consideration in the form of license fee or application fee or by whatever name it is called (valid on alcoholic licence only, not on other licences) will not be treated as Supply.
4. **'No Claim Bonus' offered by an insurance company to the insured**
No supply of service by the insured to the insurance company in lieu of 'No Claim Bonus' offered by said insurance company to him.

As per practice prevailing in the insurance sector, the insurance companies deduct 'No Claim Bonus' from the gross insurance premium amount, when no claim is made by the insured person during the previous insurance period(s). The customer/ insured procures insurance policy to indemnify himself from any loss/ injury as per the terms of the policy and is not under any contractual obligation not to claim insurance claim during any period covered under the policy, in lieu of NCB.

It is, therefore, clarified that there is no supply provided by the insured to the insurance company in form of agreeing to the obligation to refrain from the act of lodging insurance claim during the previous year(s) and **NCB cannot be considered as a consideration for any supply** provided by the insured to the insurance company.

ANALYSIS OF SEC 7(1)(a): SUPPLY FOR CONSIDERATION IN COURSE OR FURTHERANCE OF BUSINESS (BOTH GOODS & SERVICES)

- all forms of supply of goods or services or both such as **sale, transfer, barter, exchange, license, rental, lease or disposal**
- made or agreed to be made
- for consideration
- in course or furtherance of business.

ANALYSIS OF SEC 7(1)(b): IMPORT OF SERVICES FOR A CONSIDERATION WHETHER OR NOT IN THE COURSE OF FURTHERANCE OF BUSINESS

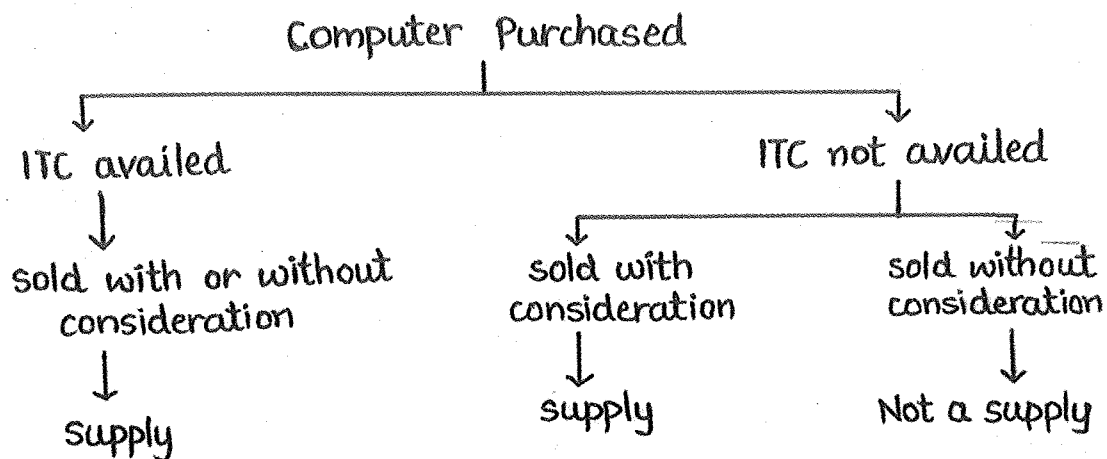

Section 7(1)(b) which brings within the ambit of 'supply', the importation of services for a consideration whether or not in the course or furtherance of business. This is the only exception to the condition of supply being made in course or furtherance of business.

Example: Ramaiyaa, a proprietor, has received the architect services for his personal residence from an architect located in New York at an agreed consideration of \$ 5,000. The import of services by Ramaiyaa is supply u/s 7(1)(b) though it is not in course or furtherance of business.

ANALYSIS OF SEC 7(1)(c) SCHEDULE 1: ACTIVITIES TO BE TREATED AS SUPPLY EVEN IF MADE WITHOUT CONSIDERATION (DEEMED SUPPLY)

Para I of Schedule I

1. **Permanent transfer or disposal of business assets where input tax credit has been availed on such assets.**

Para II of Schedule I

2. Supply of goods or services or both

- between **related persons** or between distinct persons as specified in section 25
- made in the course or furtherance of business.

❖ Gifts not exceeding ₹ 50,000 in value in a financial year by an employer to an employee shall not be treated as supply of goods or services or both (e.g.: if value is ₹ 51,000, then tax will be liable on ₹ 51,000 not on ₹ 1,000).

RELATED PERSON

- Such persons are officers / directors of one another's business.
- Search persons are legally recognised partners in business.
- Search persons are employer and employee.
- Third person controls / owns / holds (directly/indirectly) $\geq 25\%$ voting stock / shares of both of them.
- One of them controls (directly / indirectly) the other.
- A third person controls directly / indirectly both of them.
- Such persons together control directly / indirectly a third person.
- Such persons are members of the same family.
- One of them is the sole agent / sole distributor / sole concessionaire of the other.

DISTINCT PERSONS SPECIFIED UNDER SECTION 25

Registration in GST is PAN based, once a supplier is liable to register, he has to obtain registration in each of the States/UTs in which he operates [and makes a taxable supply] under the same PAN. Further, he is normally required to obtain single registration in a State/UT.

However, where he has multiple places of business in a State/UT, he has the option either to get a single registration for said State/UT or to get separate registrations for each place of business in such State/UT.

The establishments of a person with separate registrations whether within the same State/UT or in different States/UTs are considered as distinct person.

Where a person who has obtained or is required to obtain registration in a State or Union territory in respect of an establishment, has an establishment in another State or Union territory, then such establishments shall be treated as establishments of distinct persons. [Section 25(5) of the CGST Act].

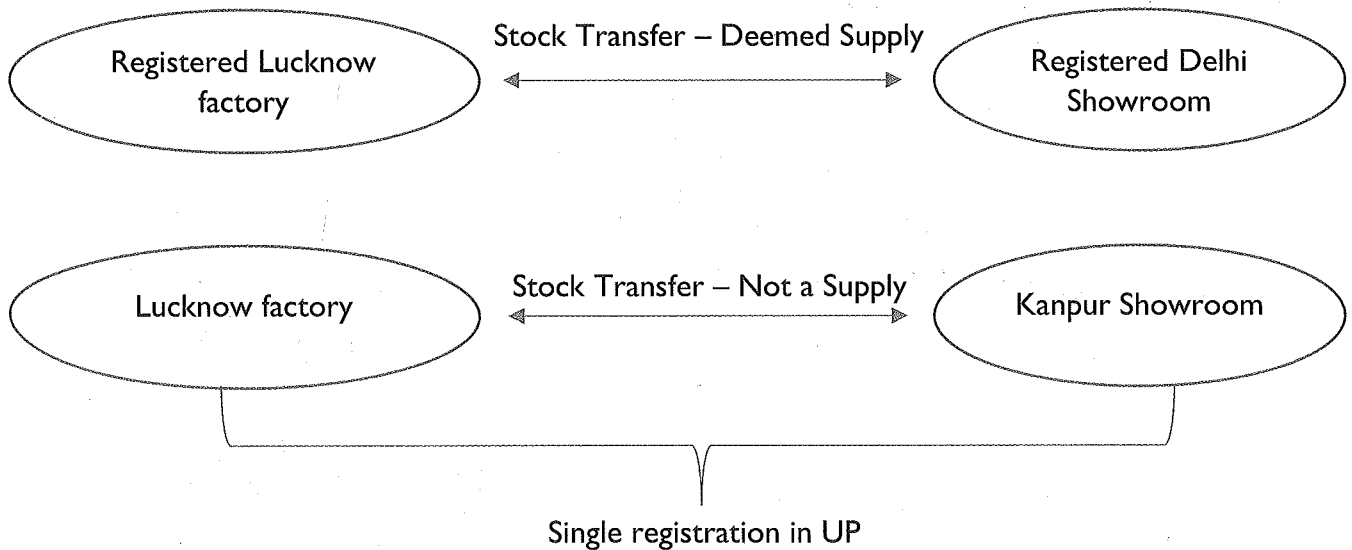

❖ Even if one branch is registered and another branch is not registered (or not liable to register), then also stock transfer will be considered as Supply.

Example: Rishabh Enterprises, a registered supplier, owns an air-conditioned restaurant in Virar, Maharashtra. It has opened a liquor shop in Raipur, Uttarakhand for trading of alcoholic liquor for human consumption.

Since supply of alcoholic liquor for human consumption in Uttarakhand is a non-taxable supply, Rishabh Enterprises is not required to obtain registration with respect to the same in Uttarakhand.

In this case, air-conditioned restaurant in Maharashtra and liquor shop [though unregistered] in Uttarakhand shall be treated as establishment of distinct persons. Supply by Maharashtra restaurant to Uttarakhand shop, in course or furtherance of business even without consideration will qualify as supply.

STOCK TRANSFER

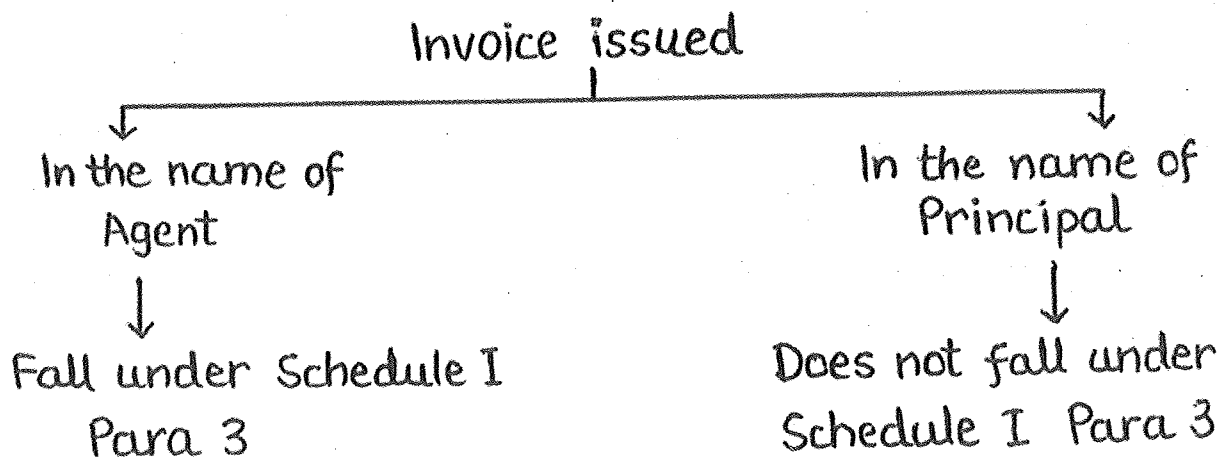

PRINCIPAL- AGENT:**Para III of Schedule I**

Supply of GOODS:

- a. By a principal to his agent, without consideration, where the agent undertakes to supply such goods on behalf of the principal is considered as supply.
 - b. By an agent to his principal, without consideration, where the agent undertakes to receive such goods on behalf of the principal is considered as supply.
- ❖ In order to determine whether a particular principal-agent relationship falls within the ambit of Para 3 of Schedule I as discussed above or not?

The deciding factor is whether the invoice for the further supply of goods on behalf of the principal is being issued by the agent or not. In other words, the crucial point is **whether or not the agent has the authority to pass or receive the title of the goods on behalf of the principal.**

- Where the invoice for further supply is being **issued by the agent in his name** then, any provision of goods from the principal to the agent would fall within the fold of Para 3. Above
- However, where the invoice is issued by the agent to the customer **in the name of the principal**, such agent shall NOT fall within the ambit of Para 3. Above.
- Similarly, where the goods being procured by the agent on behalf of the principal are **invoiced in the name of the agent** then further provision of the said goods by the agent to the principal would be covered by Para 3. Above.

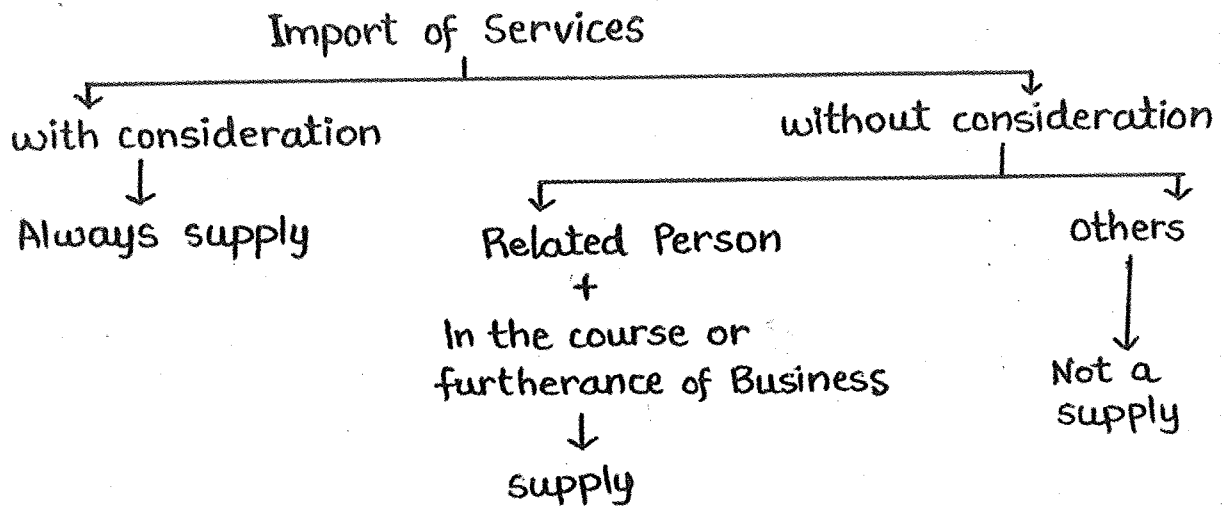

IMPORTATION OF SERVICES IMPORT OF SERVICES BY A PERSON

Para IV of Schedule I

From a related person or from his establishments located outside India, **without consideration.**

❖ In the course or furtherance of business shall be treated as “supply.”

Examples:

- Jhumroo Associates received legal consultancy services from its head office is located in Malaysia. The head office has rendered such services free of cost to its branch office. Since Jhumroo Associates and the head office are related persons, services received by Jhumroo Associates will qualify as supply even though the head office has not charged anything from it.
- Chakmak, a proprietor registered in Delhi, has sought architect services from his son located in US, with respect to his newly constructed house in Delhi.

Although services have been received by Chakmak without consideration from his son - a related person, yet it will not qualify as supply since the same has not been received in course of furtherance of business.

However, if in the above case, Chakmak receives architect services without consideration from his son with respect to his office in Delhi, the same shall be treated as supply because the same have been received in the course of business.

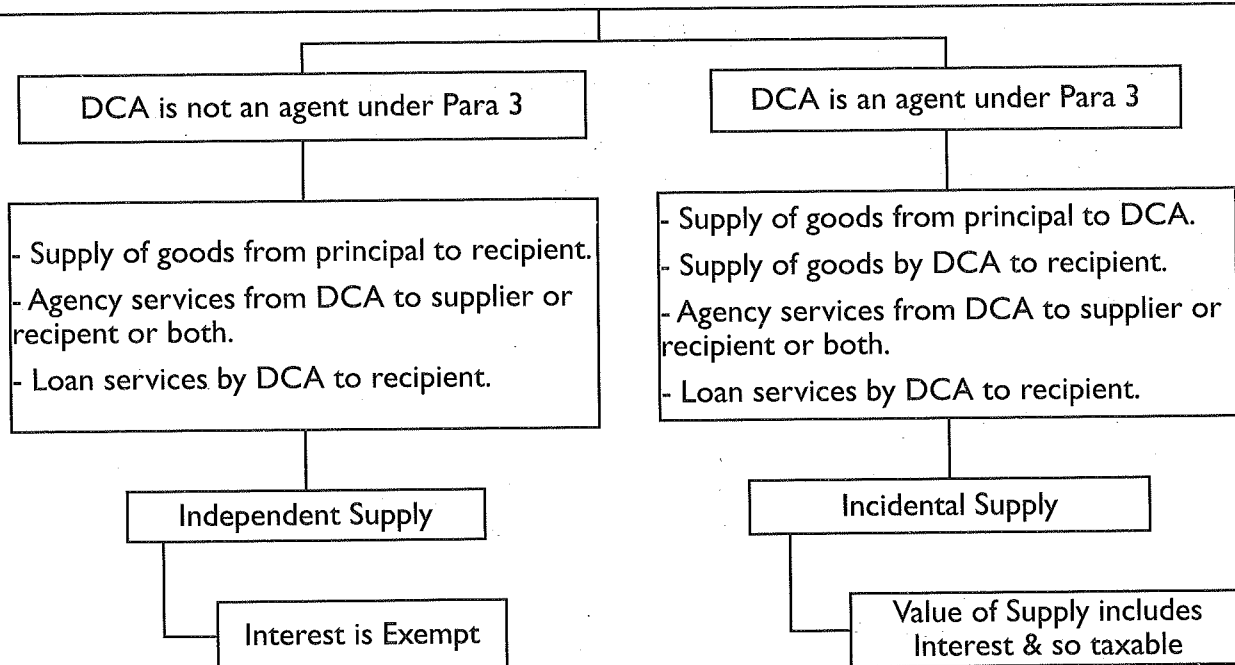

- Mr. Ankit imported interior designing services for his house from his son Mr. John (lives in USA) for free.
Not a Supply
- Mr. Ankit imported interior designing services for his office from his son Mr. John (lives in USA) for free.
Supply (although without consideration but from related person + in course / furtherance of business)

Clarification of issues pertaining to Del-credere agent (DCA)

- DCA guarantees the payment to the supplier.
- Where the buyer fails to make payment to the principal by due date, DCA makes payment to principal on behalf of the buyer.
- DCA collects the payment from the buyer along with interest.

Issue 1: Whether a DCA falls within the scope of Para 3?

- If invoice is issued by DCA in his own name – DCA covered under Para 3
- If invoice issued by DCA in the name of principal – DCA not covered under Para 3

Issue 2: Whether temporary short-term transaction based loan extended by DCA to recipient with interest charged by DCA?**SCHEDULE II: ACTIVITIES OR TRANSACTIONS TO BE TREATED AS SUPPLY OF GOODS OR AS SUPPLY OF SERVICES**

Section 7(1A) classifies certain activities / transactions constituting supply, either as supply of goods or supply of services. Schedule II to the CGST Act contains the list of activities or transactions which have been classified either as supply of goods or supply of service.

The matters listed out in Schedule II are as follows: -

Para No.	Activity / Transaction	Type	Nature of Supply

SECTION 8: TAX LIABILITY ON COMPOSITE AND MIXED SUPPLIES

STATUTORY PROVISIONS

Clauses	Particulars
	The tax liability on a composite or a mixed supply shall be determined in the following manner, namely: -
(a)	a composite supply comprising two or more supplies, one of which is a principal supply, shall be treated as a supply of such principal supply ; and
(b)	a mixed supply comprising of two or more supplies shall be treated as supply of that particular supply that attracts highest rate of tax .

COMPOSITE SUPPLY

Consists of

- two or more taxable supplies,
- are naturally bundled
- one of which is a principal supply.

Note: In case of Composite Supply there might be **two cases**:

- ❖ Single price is charged for complete bundle (no separate price is given for Individual Products): **GST is Levied @ Principal product tax rate.**
- ❖ Different prices are shown for different products in Invoice but they are composite in nature, then also **GST is Levied @ Principal product tax rate on whole value.**

MIXED SUPPLY

Consists of

- two or more individual supplies of goods or services, or any combination thereof, made in conjunction with each other by a taxable person,
- for a single price where such supply does not constitute a composite supply,
- the individual supplies are independent of each other and are not naturally bundled.

SOME IMPORTANT & RELEVANT CLARIFICATIONS

1. **Sales Promotion Schemes:** The goods or services which are supplied free of cost (without any consideration) shall not be treated as “supply” except in case of activities mentioned in Schedule I of the CGST Act. In view of the same, few sales promotion schemes have been examined as under:

- **Free samples and gifts:** Samples which are supplied free of cost, without any consideration, do not qualify as “supply” under GST, except where the activity falls within the ambit of Schedule I of the CGST Act.
- **Buy one get one free offer:** It may appear at first glance that in case of offers like “Buy One, Get One Free”, one item is being “supplied free of cost” without any consideration. In fact, it is not an individual supply of free goods, but a case of two or more individual supplies where a single price is being charged for the entire supply. It can at best be treated as supplying two goods for the price of one. Taxability of such supply will be dependent upon as to whether the supply is a composite supply or a mixed supply and the rate of tax shall be determined accordingly.

2. Taxability of ‘tenancy rights’ under GST:

Activity of transfer of tenancy right against consideration [i.e., tenancy premium] is squarely covered under supply of service liable to GST.

3. Clarification on taxability of printing contracts:

Printing contracts are composite supply.

In the case of printing of books, pamphlets, brochures, annual reports, and the like, where only content is supplied by the publisher or the person who owns the usage rights to the intangible inputs while the physical inputs including paper used for printing belong to the printer, supply of printing is the principal supply and therefore such supplies would constitute supply of service.

In case of supply of printed envelopes, letter cards, printed boxes, tissues, napkins, wall paper etc. printed with design, logo etc. supplied by the recipient of goods but made using physical inputs including paper belonging to the printer, predominant supply is that of goods and the supply of printing of the content is ancillary to the principal supply of goods and therefore such supplies would constitute supply of goods.

4. Clarification regarding servicing of cars involving both supply of goods (spare parts) and services (labour):

The taxability of supply would have to be determined on a case-to-case basis looking at the facts and circumstances of each case.

Where a supply involves supply of both goods and services and the value of such goods and services supplied are shown separately, the goods and services would be liable to tax at the rates as applicable to such goods and services separately.

5. Clarification regarding retreading of tyres is a supply of goods or services?

Retreading of tyres, which is a **composite supply**, the pre-dominant element is the process of retreading which is a supply of service.

Supply of retreaded tyres, where the old tyres belong to the supplier of retreaded tyres, is a supply of goods.

6. Clarification regarding Cost Petroleum

When an oil exploration & production contractor gets a license/lease to explore/mine the petroleum crude and/or natural gas from the Govt. it enters into a Production Sharing Contract (PSC) with Govt. The relationship of the contractors with the Govt. is of licensor/lessor & licensee/lessee.

The value of petroleum which the contractor is entitled to take in a year for recovery of the contract costs is called the cost petroleum & the total value of petroleum produced & saved from the contract area in a particular period, as reduced by cost petroleum is called the profit petroleum.

The govt's share of **profit petroleum** paid by contractor to govt. for grant of lease is **exempt from GST**. The **cost petroleum** is **not taxable** as it is not a consideration received by the contractor for services provided to govt.

7. Clarification regarding moulds and dies

Moulds & dies owned by Original Equipment Manufacturers (OEM) are sent free of cost to component manufacturer, in course or furtherance of business, **do not constitute supply** as they are not related persons or distinct persons and there is no consideration involved.

8. Clarification on GST applicability on Liquidated Damages, Compensation and Penalty arising out of breach of contract or other provisions of law

"Agreeing to the obligation to refrain from an act or to tolerate an act or a situation, or to do an act" has been specifically declared to be a supply of service in para 5(e) of Schedule II of CGST Act if the same constitutes a "supply" within the meaning of the Act.

The above statement has following 3 parts:

Parts	Example
Agreeing to the obligation refrain from an act	Non-Compete Agreements
Agreeing to the obligation tolerate an act or a situation	A shopkeeper allowing a hawker to operate from the common pavement in front of his shop against a monthly payment by the hawker.
Agreeing to the obligation to do an act	An Industrial unit agrees to install equipment for zero emission/discharge residential complex against a consideration paid by such RWA, even though the emission/discharge from the industrial unit was within permissible limits and there was no legal obligation upon the individual unit to do so.

Taxability of various transactions:

Transaction	Taxability
Liquidated damages	<ul style="list-style-type: none"> ➤ Liquidated damages are compensation payable for breach of contract to the aggrieved party. ➤ Where an amount is paid only to compensate for injury, loss or damage suffered by aggrieved party, then such payments are merely flow of money and are not a consideration for any supply. Hence, such payment does not constitute consideration for a supply and are not taxable. ➤ Examples: - <ul style="list-style-type: none"> - Damages resulting from damage to property – Not Taxable - Penalty stipulated in a contract for delayed construction of houses – Not Taxable - Forfeiture of earnest money by Govt. or local authority in the event of a successful bidder failing to act after winning the bid, for allotment of natural resources – Not Taxable - A contract for lease of movable or immovable property may stipulate that the lessee shall not terminate the lease before a certain period and if he does so he will have to pay certain amount as early termination fee or penalty – Taxable
Cheque dishonor	<ul style="list-style-type: none"> ➤ The supplier wants payment to be received on time & there is never an implied or express offer/willingness of supplier. ➤ Therefore, cheque dishonor fine is not a consideration and not taxable.
Penalty imposed for violation of laws	<ul style="list-style-type: none"> ➤ Not a consideration for any supply received and not taxable. ➤ E.g., Traffic violations, pollution norms or other laws.
Forfeiture of salary or payment of bond amt in event of employee leaving employment before minimum agreed period	<ul style="list-style-type: none"> ➤ Not taxable since it is incorporated in employment contract to discourage non-serious employees & also employee does not get anything in return from employer against payment of such amount.
Late payment fees or surcharge	<ul style="list-style-type: none"> ➤ The facility of accepting late payments with interest or late payment fee, fine or penalty is a facility granted by supplier naturally bundled with the main supply. Since, it is ancillary to and naturally bundled with the principal supply such as of electricity, water, telecommunication, cooking gas, insurance etc., it should be assessed at the same rate as the principal supply.
Fixed Capacity charges for Power	<ul style="list-style-type: none"> ➤ The minimum fixed charge is payable even if '0' units of electricity is consumed so thus not taxable as electricity is exempt from GST.
Cancellation charges	<ul style="list-style-type: none"> ➤ The amount forfeited in the case of non-refundable ticket for air travel or security deposit or earnest money forfeited in case of the customer failing to avail the travel, tour operator or hotel

accommodation service or such other intended supplies are elements of composite supply and should be assessed at the same rate as applicable to the service contract, say air transport or tour operator service, or other such services.

➤ Examples: -

- Forfeiture of earnest money is not a consideration for any supply and is not taxable.
- Cancellation charges of railway tickets for a class would attract GST at the same rate as applicable to the class of travel (i.e., 5% GST on first class or AC coach ticket and nil for other classes such as second sleeper class). Same is the case for air travel.

9. Clarifications regarding applicability of GST on Sale of Land after levelling, laying down of drainage lines, etc.

- (i) Land may be sold either as it is or after some development such as levelling, laying down of drainage lines, water lines, electricity lines, etc. It is clarified that sale of such developed land is also sale of land and is covered by Sr. No. 5 of Schedule III of the CGST Act, 2017 and accordingly does not attract GST.
- (ii) However, it may be noted that any service provided for development of land, like levelling, laying of drainage lines (as may be received by developers) shall attract GST at applicable rate for such services.

13.

10. Clarification on taxability of shares held in a subsidiary company by the holding company.

It is clarified that the activity of holding of shares of subsidiary company by the holding company cannot be treated as a supply of services by a holding company to the said subsidiary company and cannot be taxed under GST laws. Further, purchase or sale of shares or securities, in itself is neither a supply of goods nor a supply of services.

11. Clarification whether services supplied by director of a company in his personal capacity such as renting of immovable property to the company or body corporate are subject to Reverse Charge mechanism.

It is hereby clarified that services supplied by a director of a company or body corporate to the company or body corporate in his private or personal capacity such as services supplied by way of renting of immovable property to the company or body corporate are not taxable under RCM. Only those services supplied by director of company or body corporate, which are supplied by him as or in the capacity of director of that company or body corporate shall be taxable under RCM in the hands of the company or body corporate.

12. Clarification whether supply of food or beverages in cinema hall is taxable as restaurant service.

It is hereby clarified that supply of food or beverages in a cinema hall is taxable as 'restaurant service' as long as:

- a) the food or beverages are supplied by way of or as part of a service, and
- b) supplied independent of the cinema exhibition service.

It is further clarified that where the sale of cinema ticket and supply of food and beverages are clubbed together, and such bundled supply satisfies the test of composite supply, the entire supply will attract GST at the rate applicable to service of exhibition of cinema, the principal supply.

13. Clarification on Taxability of Personal Guarantee & Corporate Guarantee in GST.

a) Taxability of Personal Guarantee by Directors

It deals with the taxability of personal guarantees provided by directors to banks for securing credit facilities for the company, especially when provided without any consideration. According to the CGST Act, the director and the company are treated as related persons. The circular explains that even when provided without consideration, this activity is treated as a supply of service as per the CGST Act.

To determine the taxable value, Rule 28 of the CGST Rules is invoked. However, it mentions that if the RBI mandates that no consideration, including commission or fees, can be paid to directors for providing personal guarantees, the open market value is effectively zero. Therefore, no GST is payable on such supplies when no consideration can be paid.

In exceptional cases where promoters, directors, other managerial personnel or guarantors are paid remuneration, the taxable value of the supply of service shall be the remuneration / consideration provided to such a person / guarantor by the company, directly or indirectly.

b) Taxability of Corporate Guarantee

It addresses the taxability of corporate guarantees provided by one company on behalf of another related company or a holding company to secure credit facilities, even when provided without consideration. In both cases, the activities are treated as supplies of service between related parties as per Schedule I of the CGST Act.

To determine the taxable value, Rule 28 of the CGST Rules is employed. However, recognizing the variations in practices followed by field formations and taxpayers in determining the taxable value, a new sub-rule (2) has been added to Rule 28 of the CGST Rules. This sub-rule provides a standardized method for determining the taxable value of such supplies between related persons.

The circular emphasizes that the new sub-rule (2) will apply to all cases of supply of services involving the provision of corporate guarantees between related persons, irrespective of whether the full ITC is available to the recipient of services or not.

The new sub-rule (2) shall not be applicable for transactions of personal guarantee by directors.

- @ 12% (6% CGST + 6% SGST/UTGST or 12% IGST) where GTA opts to pay GST at said rate on all the services of GTA supplied by it. In this case, there is no restriction on availing ITC on goods or services used in supplying GTA service by GTA.

CERTAIN CLARIFICATIONS

1. Supply of satellite launch services supplied by ANTRIX Corporation Limited.

- Satellite launch service to International Customers- Sec 13(9), PoS will be outside India (export case)
- Satellite launch service to India Customers - Sec 12(8), PoS is India (Taxable)

2. Place of supply in case of software/ design services related to Electronics Semiconductor and Design Manufacturing (ESDM) industry.

The place of supply of software / design by supplier located in taxable territory to service recipient located in non-taxable territory by using sample prototype hardware / test kits in a composite supply, where such testing is an ancillary supply, is the location of the service recipient as per section 13(2). Provisions of section 13(3)(a) do not apply separately for determining the place of supply for ancillary supply in such cases.

3. Cargo handling services provided by ports to clients

Such services are ancillary to / related to cargo handling services and not related to immovable property. So, for Place of Supply - general rule i.e., Sec 12(2) / 13(2) shall apply.

4. Recipient entitled to ITC where the place of supply determined in terms of the proviso to Section 12(8) of the IGST Act, 2017 is Outside India

The proviso to the section 12(8) provides that where the transportation of goods is to a place outside India, the place of supply of the said service shall be the place of destination of such goods.

Issue	Clarification
➤ Whether such supply of services will be treated as inter-state supply of intra-state supply?	The supply of services would be considered as Inter-State supply as per Sec. 7(5) of IGST Act as the location of supplier is in India & the place of supply is outside India. So, IGST would be chargeable.
➤ Whether the recipient of service of transportation of goods would be eligible to avail ITC in respect of said input services of transportation of goods?	Yes, the recipient of service of transportation of goods shall be eligible to avail ITC in respect of the IGST so charged by the supplier, subject to the fulfilment of other conditions laid down in section 16 & 17 of the CGST Act.

5. Clarification relating to export of services – Section 2(6)(iv) of the IGST Act 2017

Issue: Various representations have been received requesting for clarification regarding admissibility of export remittances received in Special INR Vostro account, as permitted by RBI, for the purpose of consideration of supply of services to qualify as export of services as per the provisions of section 2(6) of the IGST Act, 2017.

Clarification: It is clarified that, when Indian exporters are paid export proceeds in INR from the Special Rupee Vostro Accounts of correspondent bank(s) of the partner trading country, opened by Authorised Dealer (AD) banks, the same shall be considered to be fulfilling the condition in section 2(6)(iv) of the IGST Act, subject to the conditions/ restrictions mentioned in Foreign Trade Policy, 2023, and RBI circulars and without prejudice to permissions/ approvals, if any, required under any other law.

6. Clarification regarding determination of place of supply in various cases

A. Place of supply in case of supply of service of transportation of goods, including through mail and courier

Issue: Section 13(9) of IGST Act, 2017 has been omitted vide section 162 of Finance Act, 2023 w.e.f. 01.10.2023. After the said amendment, doubts have been raised as to whether the place of supply in case of service of transportation of goods, including through mail and courier, in cases where location of supplier of services or location of recipient of services is outside India, will be determined as per section 13(2) of IGST Act or as per section 13(3) of IGST Act.

Clarification: It has been clarified that the PoS of services of transportation of goods, other than through mail and courier, in cases where location of supplier / recipient of services is outside India, will be determined as per the default rule u/s 13(2) of IGST Act (as below table) and not as performance-based services.

Situation	Place of Supply
• where location of recipient of services is available	location of recipient of services
• where location of recipient of services is not available in the ordinary course of business	location of supplier of services

Further, it also mentions that the PoS in case of service of transportation of goods by mail or courier was not covered u/s 13(9) of the IGST Act before the omission. Thus, the PoS in case of service of transportation of goods by mail or courier will continue to be determined as per the default rule u/s 13(2) of IGST Act (i.e., in case where location of recipient of services is available, the PoS shall be location of recipient of services and in case where location of recipient of services is not available in the ordinary course of business, the PoS shall be location of supplier of services.

B. Place of supply in case of supply of services in respect of advertising sector

Issue: Advertising companies often involve in procuring space on hoardings/ bill boards erected & mounted on buildings/land from various vendors for providing advertisement services to its clients & there may be variety of arrangements.

- **Case I:** Wherein there is supply (sale) of space or supply (sale) of rights to use the space on the hoarding/ structure (immovable property) belonging to vendor to the client/advertising company for display of their advertisement on the said hoarding/ structure. What will be the PoS of services provided by the vendor to the advertising company in such case?

Clarification: The hoarding / structure erected on land & embedded on earth should be considered as immovable structure. Therefore, the PoS shall be governed by section 12(3)(a) of the IGST Act, i.e., **location at which the immovable property is located.**

- **Case II:** Where the advertising company wants to display its advertisement on hoardings/ bill boards at a specific location availing the services of a vendor. The Responsibility of arranging the hoardings/ bill boards lies with the vendor who may himself own such structure or may be taking it on rent or rights to use basis from another person. The vendor is responsible for display of the advertisement of the advertising company at the said location & during this entire time of display of the advertisement, the vendor is in possession of the hoarding/structure at the said location on which advertisement is displayed and the advertising company is not occupying the space or the structure. What will be the PoS of such services provided by the vendor to the advertising company?

Clarification: In this case, the vendor is providing advertisement services by providing visibility to an advertising company's advertisement for a specific period of time on the vendor's structure at the specified location. Therefore, the service does not amount to sale of advertising space or supply by way of grant of rights to use immovable property. Therefore, the PoS shall be determined in terms of **section 12(2) of the IGST Act.**

C. Place of supply in case of supply of the co-location services

Issue: Co-location is a data centre facility in which a business/ company can rent space for its own servers and other computing hardware along with bundled services relating to hosting and information technology infrastructure. A business/ company that avails the co-location services primarily seeks security and upkeep of its server(s), storage and network hardware; operating systems, system software and may require to interact with the system through a web-based interface for the hosting of its websites or other applications and operation of the servers.

In this respect, various doubts have been raised as to

- i. whether supply of co-location services is renting of immovable property service (as it involves renting of space for keeping/storing company's hardware/servers) and hence the place of supply of such services is to be determined in terms of provision of Section 12(3)(a) of the IGST Act which is the location where the immovable property is located; or
- ii. whether the place of supply of such services is to be determined by the default place of supply provision u/s 12(2) of the IGST Act as the supply of service is Hosting and Information Technology (IT) Infrastructure Provisioning services involving providing services of hosting the servers and related hardware, security of the said hardware, air conditioning, uninterrupted power supply, fire protection system, network connectivity, backup facility, firewall services, 24 hrs. Monitoring and surveillance service for ensuring continuous operations of the servers and related hardware, etc.

Clarification:

- It is clarified that co-location services are in the nature of “hosting and information technology infrastructure provisioning services” and arrangement also involves supply of network connectivity, backup facility, firewall services and monitoring and surveillance service for ensuring continuous operations of the servers and related hardware, apart from renting of physical space.
- Therefore, the PoS for co-location services shall be determined by default rule specified u/s 12(2) of the IGST Act, i.e., **location of recipient of co-location service**, since the supply of co-location services cannot be considered as the supply of renting service of immovable property.
- However, where an agreement between parties is **restricted** to providing physical space on rent along with basic infrastructure, **without** components of hosting and information technology infrastructure provisioning services, then the supply shall be considered as the supply of renting service of immovable property. The PoS shall be determined as per section 12(3)(a) of the IGST Act, i.e., **location where immovable property is situated**.

The residual method consists of determination of value by using reasonable means consistent with the principles and general provisions of section 15 and these Rules.

- the supplies procured by the pure agent from the third party as a pure agent of the recipient of supply are in addition to the services he supplies on his own account.

Explanation- For the purposes of this rule, the expression “pure agent” means a person who

TAXABILITY OF AIRPORT LEVIES COLLECTED BY AIRLINES AS PURE AGENT

Services provided by an airport operator to passengers against consideration in the form of user development fee (USF) and passenger development fee (PSF) are liable to GST. PSF and UDF are collected by the airlines as an agent and is not a consideration for any service provided by the airlines. Thus, airline is not responsible for payment of GST on UDF or PSF provided the airline satisfies the conditions prescribed for a pure agent under rule 33 of the CGST Rules. It is the licensee, that is the airport operator which is liable to pay GST on UDF and PSF.

The airline acting as pure agent of the passenger should separately indicate actual amount of PSF and UDF and GST payable on such PSF and UDF by the airport licensee, in the invoice issued by airlines to its passengers. The airline shall not take ITC of GST payable or paid on PSF and UDF. The airline would only recover the actual PSF and UDF and GST payable on such PSF and UDF by the airline operator. The amount recovered will be excluded from the value of supplies made by the airline to its passengers.

In other words, the airline shall not be liable to pay GST on the PSF and UDF (for airport services provided by airport licensee), provided the airline satisfies the conditions prescribed for a pure agent under rule 33 of the CGST Rules.

The registered passengers, who are the ultimate recipient of the airport services, may take ITC of GST paid on PSF and UDF on the basis of pure agent's invoice issued by the airline to them.

IMPORTANT CIRCULARS & CLARIFICATIONS

1. No Claim Bonus permissible as deduction u/s 15(3)(a) for the purpose of calculation of value of supply of the insurance services provided by insurance company to insured

As per Section 15(3)(a), value of supply shall not include any discount which is given before or at the time of supply if such discount has been duly recorded in the invoice issued in respect of such supply.

The insurance companies make the disclosure in insurance policy document. It is, therefore, clarified that **NCB is a permissible deduction**. GST shall be leviable on actual insurance premium amount payable by the policy holders to the insurer, after deduction of NCB mentioned on the invoice.

2. Applicability of GST on incentive paid by MeitY to acquiring banks under Incentive scheme for promotion of RuPay Debit Cards and low value BHIM-UPI transactions

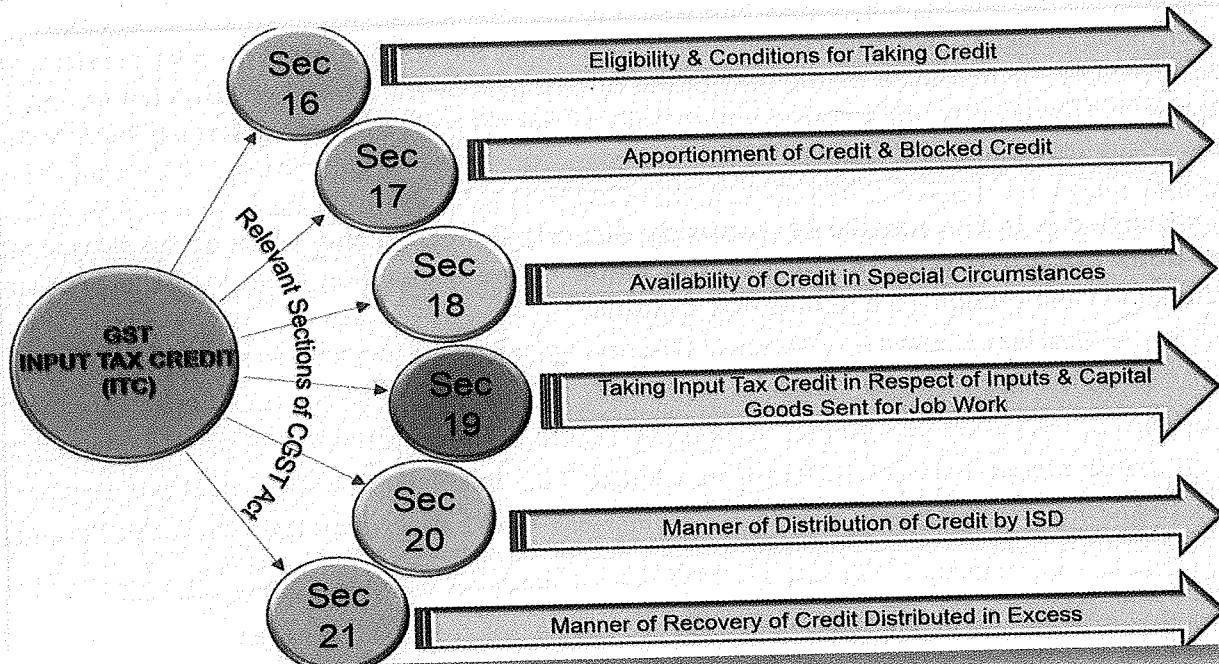

Under the Incentive scheme for promotion of RuPay Debit Cards and low value BHIM-UPI transactions, the Government pays the acquiring banks an incentive as a percentage of value of RuPay Debit card transactions and low value BHIM-UPI transactions up to ₹ 2,000/-. The Payments and Settlements Systems Act, 2007 prohibits banks and system providers from charging any amount from a person making or receiving a payment through RuPay Debit cards or BHIM-UPI.

The service supplied by the acquiring banks in the digital payment system in case of transactions through RuPay/BHIM UPI is the same as the service that they provide in case of transactions through any other card or mode of digital payment. The only difference is that the consideration for such services, instead of being paid by the merchant or the user of the card, is paid by the central government in the form of incentive. However, it is not a consideration paid by the central government for any service supplied by the acquiring bank to the Central Government.

The **incentive is in the nature of a subsidy directly linked to the price** of the service and the same **does not form part of the taxable value** of the transaction in view of the provisions of section 2(31) and section 15 and thus **not taxable**.

STEP 1: Compute Common Credit

Total input tax involved on inputs & input services in a tax period	T
Less: Input tax on input & input services that are intended to be used exclusively for Non Business purposes	(T1)
Less: Input tax on input & input services that are intended to be used exclusively for Exempt supplies	(T2)

Common ITC available for apportionment	C2

STEP 2: Reduction for exempt & non business supply (added to output tax liability)

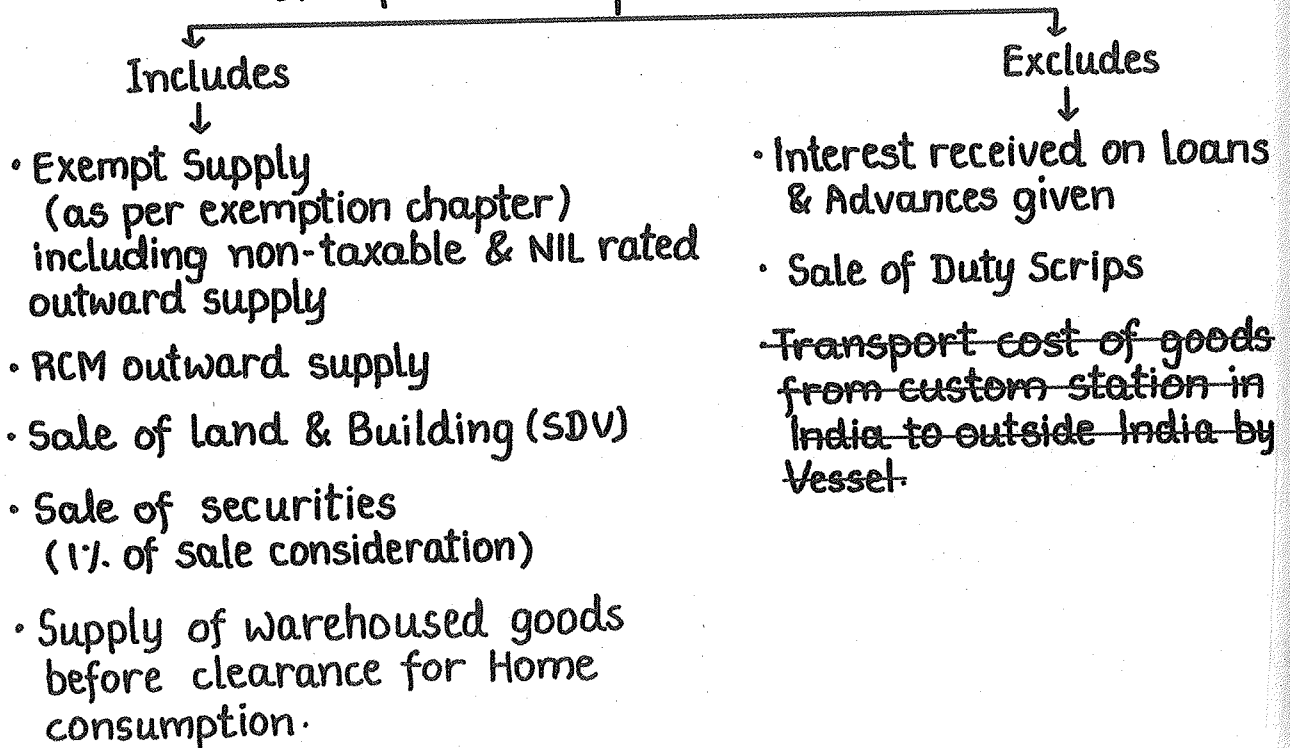

Less: ITC attributable to Exempt Supply

$$= \text{Common ITC} \times \frac{\text{Aggregate Turnover of Exempt Supplies during the tax period}}{\text{Total Turnover in the State during the tax period}}$$

Less: ITC attributable to Non Business Purposes

Eligible Common Credit

Exempt Turnover in ITC Chapter

Aggregate Turnover in ITC chapter includes :

- Taxable Turnover

METHODOLOGY OF APPORTIONMENT OF CREDIT OF CAPITAL GOODS AND REVERSAL THEREOF [RULE 43 OF THE COST RULES]

Steps to follow:

- First take full ITC in the month of Purchase.
- Divide the ITC of each capital goods by 60 (for attributing ITC to that month)
- Reverse ITC in each month

$$\text{ITC attributable to that month} \times \frac{\text{Exempt T/O of that month}}{\text{Total T/O of that month}}$$

Crux:

- First take full ITC, then reverse ITC each month on the basis of Exempt T/O of the next 60 months.
- Life of Capital Goods is assumed as 5 years (i.e., 60 months)

CHANGE IN USAGE OF CAPITAL GOODS:

- i. Capital Goods earlier used for **exempt** supply → Now for **taxable** supply

$$\text{Amount of ITC to be taken now} = \text{Tax paid at the time of purchase} - 5\% \text{ per quarter or part thereof}$$

- ii. Capital goods earlier used for **exempt** supply → Now **both taxable and exempt** supply

(a) Take full ITC of Input Tax paid at the time of purchase (Tc)

(b) Reversal of input tax for period for which it is used exclusively for exempt supply i.e., 5% for each quarter or part thereof

(c) Start monthly reversal for remaining life. $\left(\frac{Tc \times \text{Exempted Turnover}}{60 \text{ Total Turnover}} \right)$

- iii. Capital goods earlier used for **taxable** supply → Now **Exempt**
Reverse ITC on the basis of remaining life of Capital goods in **Months**.

- iv. Capital Goods earlier used for **taxable** supply → Now for both **taxable & exempt**

(a) In this case, ITC has already been availed at the time of purchase.

(b) ITC availed now becomes (Tc)

(c) Do monthly Reversal $\left(\frac{Tc \times \text{Exempted Turnover}}{60 \text{ Total Turnover}} \right)$

for remaining life of Capital goods.

❖ SPECIAL CIRCUMSTANCES**A. Composition Scheme to Regular Scheme**

- In such case, person can take ITC on stock of inputs & capital goods on the day preceding the date of switch over.
- ITC to be taken = Inputs tax paid at the time of purchase of capital goods after doing below adjustments.

Tax Paid at the time of purchase - 5% per quarter or part thereof.

B. Regular to Composition Scheme

- Person can switch from regular to composition scheme only at the beginning of FY.
- ITC has to be reversed.

**C. ITC Treatment in case of Fresh Registration**

D. ITC treatment in case of Sale / Disposal of Capital Goods

 - Tax on Sale Value
 - Reduced ITC (5% per quarter or part thereof)
- [Higher of above]

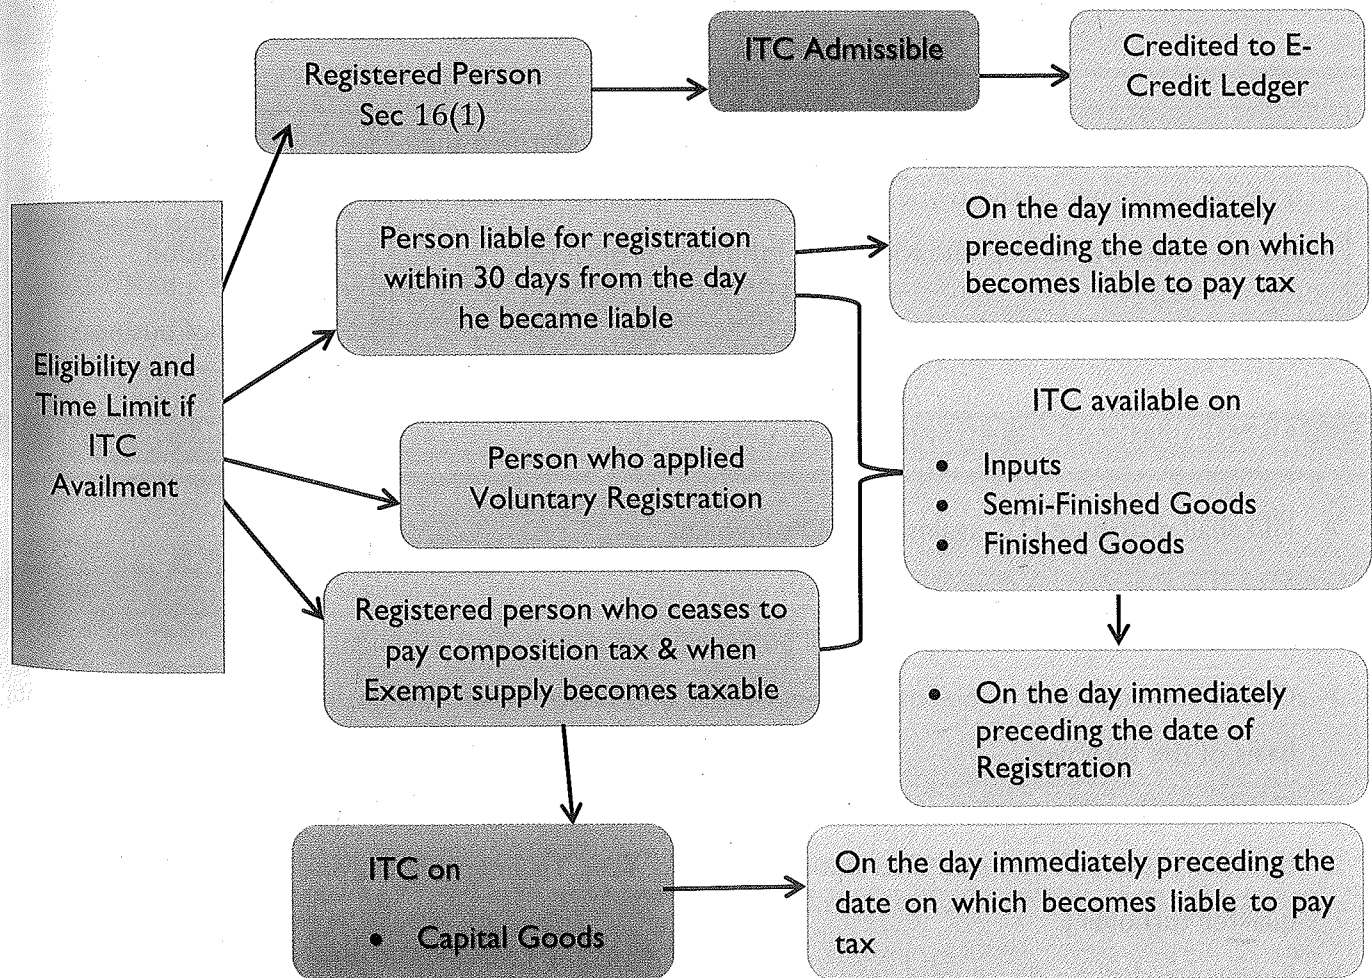

Example

Mr. Ankit purchased machinery for ₹ 10 Lakhs @ 18% GST on 18/06/2021,
Sold machine on 11/01/2023 for ₹ 7 Lakhs.

- (a) Tax on Transaction value = $7,00,000 \times 18\% = 1,26,000$
- (b) Reversal of ITC = $1,80,000 - (1,80,000 \times 5\% \times 4 \text{ quarters})$
 $= 1,80,000 - 36,000 = 1,44,000.$

Hence, Tax has to be paid ₹ 1,44,000.

Clarification:

Moulds and dies provided by the original equipment manufacturer (OEM) to component manufacturer on FOC basis – when not considered as being in the course or furtherance of business?

Case: Moulds and dies owned by the original equipment manufacturer (OEM) which are provided to a component manufacturer (the two not being related persons or distinct persons) on free on cost (FOC) basis does not constitute a supply as there is no consideration involved.

Treatment: Since the moulds and dies are provided on FOC basis by the OEM to the component manufacturer in the course or furtherance of his business, there is no requirement for reversal of ITC availed on such moulds and dies by the OEM.

Case: Where the contract between OEM and component manufacturer is for supply of components made by using the moulds / dies belonging to the component manufacturer, but the same have been supplied by the OEM to the component manufacturer on FOC basis.

Treatment: OEM will be required to reverse the credit availed on such moulds / dies, as the same will not be considered to be provided by OEM to the component manufacturer in the course or furtherance of the former's business.

RESTRICTION ON UTILIZATION OF ITC [RULE 86A]

The commissioner / an officer (not below the rank of an Assistant Commissioner) authorized by him is empowered to impose restrictions on utilization of ITC available in the electronic credit ledger if he has the reason to believe that such ITC has been fraudulently availed or is ineligible.

The restriction can be imposed in the following circumstances:

- i. ITC has been availed on the basis of tax invoices / valid documents-
 - Issued by a non - existing supplier or by a person not conducting any business from the registered place of business; or
 - Without receipt of goods or services or both; or
 - The tax in relation to which has not been paid to the government.
- ii. The registered person availing ITC has been found non - existing or not to be conducting any business from the registered place of business; or
- iii. The registered person availing ITC is not in possession of tax invoice / valid document.

If the ITC is so availed, the restriction can be imposed by not allowing such ITC to be used for discharging any liability under section 49 or not allowing refund of any unutilized amount of such ITC.

Such restrictions can be imposed for a period upto **1 year** from the date of imposing such restrictions.

However, the commissioner / officer authorized by him, can withdraw such restriction if he is satisfied that conditions for imposing the restrictions no longer exist.

RESTRICTIONS ON THE USE OF AMOUNT AVAILABLE IN ELECTRONIC CREDIT LEDGER [RULE 86B]

Rule 86B limits the use of input tax credit available in the electronic credit ledger for discharging output tax liability. The aforesaid rule starts with non-obstante clause and has an over-riding impact on any other provision of the rules.

- **Applicability of Rule 86B:** Rule 86B is applicable to the registered person having value of taxable supply (other than exempt supply and zero-rated supply) in a month exceeding ₹ 50 Lakh.
- **Nature of Restriction Imposed:** The registered person to whom the said rule is applicable cannot utilize ITC in excess of 99% of the output tax liability. In other words, input tax liability shall be utilized only to the extent of 99% of the output tax liability while discharging output tax liability. Balance 1% of the output tax liability needs to be discharged from electronic cash ledger.

The above restriction can be explained with the help of numerical example.

The total value of inter-state supply of Raman & Sons for the month of February is ₹ 100 Lakh. Said supply is taxable @ 18% IGST. Thus, total output tax liability of Raman & Sons is ₹ 18 Lakh. Amount available in electronic credit ledger is ₹ 20 Lakh (IGST).

In terms of restriction imposed by Rule 86B, Raman & Sons can discharge 99% of its output tax liability, i.e., ₹ 17,82,000 (99% of ₹ 18,00,000) from the amount available in electronic credit ledger. However, it has to mandatorily discharge the balance 1% of the output tax liability i.e., ₹ 18,000 (1% of ₹ 18,00,000) through electronic cash ledger only.

➤ Exceptions to the Rule 86B:

- **Payment of income tax more than ₹ 1 Lakh**

Rule 86B may not apply in cases whereby person mentioned below have deposited sum of more than ₹ 1 Lakh as income tax under the Income Tax Act, 1961) in each of the last 2 FY for which the time to file return of income under section 139(1) of the said Act has expired

- ❖ The registered person or
- ❖ The karta / proprietor / the managing director of the registered person;

Any of the two partners, whole time directors, members of Managing Committee of Associations or Board of Trustee of the registered person, as the case may be.

- Receipt of refund of input tax credit of more than ₹ 1 lakh

Rule 86B may not apply whereby registered person has received a refund amount of more than ₹ 1 Lakh on account of unutilized ITC under the following:

- ❖ Zero rated supplies made without payment of tax
- ❖ Inverted duty structure

It is pertinent to note that refund should have been received in the preceding FY.

- Payment of total output tax liability through electronic cash ledger in excess of 1% of total output tax liability

If the registered person has paid more than 1% of total output tax liability using electronic cash ledger upto the said month in the current FY, the restrictions as specified in Rule 86B shall not apply.

Assuming a scenario wherein the FY 2022-23 upto August 2022, the total output tax liability payable is ₹ 30 Lakh and such registered person has deposited ₹ 1 Lakh through electronic cash ledger and balance through electronic credit ledger, rule 86B would not be applicable in September 2022 [if the turnover during this month exceeds ₹ 50 Lakh], since payment made in cash is more than 1% of total output tax liability. (1% of ₹ 30 Lakhs is ₹ 30,000).

Interestingly, the aforesaid exception needs to be evaluated in 'current financial year', and hence, for the month of April of any FY, the said exception will not be applicable. Accordingly, registered person would be required to pay minimum 1% of output liability through electronic cash ledger unless the registered person is covered under any of the other exceptions or if the taxable turnover in a month is less than ₹ 50 Lakh.

It is pertinent to note that GST liability paid under reverse charge mechanism should not be taken into account while calculating the total output tax liability paid through electronic cash ledger.

- Specified Registered Person:

Rule 86B would not be applicable in case of below-mentioned registered person:

- ❖ Government Department; or
- ❖ A public sector undertaking; or
- ❖ A local authority; or
- ❖ A statutory body.

However, commissioner or an officer authorized by him in this behalf may remove the said restriction after such safeguards as he may deem fit.

A. Clarification on availability of ITC in respect of warranty replacement of parts and repair services during warranty period [Circular No. 195/07/2023 - GST, dated 17.07.2023]

1. As a common trade practice, the original equipment manufacturers /suppliers offer warranty for the goods / services supplied by them. During the warranty period, replacement goods /services are supplied to customers free of charge and as such no separate consideration is charged and received at the time of replacement. It has been represented that suitable clarification may be issued in the matter as unnecessary litigation is being caused due to contrary interpretations by the investigation wings and field formations in respect of GST liability as well as liability to reverse ITC against such supplies of replacement of parts and repair services during the warranty period without any consideration from the customers.
2. The matter has been examined and CBIC hereby clarifies as follows:

S.No.	Issue	Clarification
1.	The original equipment manufacturer (OEM) offers warranty for the goods supplied by him to the customer and provides replacement of parts and/ or repair services to the customer during the warranty period, without separately charging any consideration. Whether GST is payable on such replacement of parts or supply of repair services, without any consideration from the customer, as part of warranty?	The value of original supply of goods (provided along with warranty) includes the likely cost of replacement of parts and / or repair services to be incurred during the warranty period, on which tax would have already been paid at the time of original supply of goods & no further GST is chargeable on such replacement of parts and/ or repair service during warranty period. However, if any additional consideration is charged from the customer, then GST is payable on such supply with respect to such additional consideration.
2.	Whether reversal of ITC is required in the above case by OEM?	Applying the above mentioned reasons, tax on original supply of goods is already paid and therefore the supplies made during the warranty period is not to be regarded as "exempt supply" and therefore not required to reverse ITC.
3.	Whether GST would be payable by a distributor on replacement of parts and/ or repair services provided without any consideration from the customer, as part of warranty on behalf of the manufacturer?	Where no separate consideration is received from the customer, no GST would be payable, however for any additional consideration received, then GST will be payable.
4.	Where the distributor provides replacement of parts on behalf of OEM, whether any supply is involved between the distributor & the manufacturer and whether the distributor would be required to reverse the input tax credit in respect of such replacement of parts?	a) Where own stock or purchased stock is used and claim is made from OEM towards the said cost, tax invoice is required to be issued and GST payable by the distributor & no reversal of ITC by distributor is required. b) Requisition of goods made to OEM which is sent free of cost. The said scenario would

		neither involve remittance of tax nor reversal of credit by OEM. c) Goods are replaced by distributor out of the stock supplied by OEM. OEM issues credit note against said warranty supplies on the distributor. OEM can reduce his tax liability subject to condition that distributor reverses the ITC.
5.	Repair service provided by distributor to customer, the consideration in relation to which is received from OEM, whether GST would be payable on such activity by the distributor?	There is a supply of service & GST would be payable on such provision of service by the distributor to the manufacturer and OEM can avail the ITC of the same.
6.	Whether GST payable on extended warranty provided to customers?	a) Where extended warranty is supplied at the time of original supply, consideration towards becomes a part of composite supply and GST would be payable accordingly. b) Where extended warranty contract is entered into after the time of original supply, GST would be payable on the same depending upon the nature of such supply

B. Clarification regarding taxability of services provided by an office of an organisation in one State to the office of that organisation in another State, both being distinct persons [Circular No. 199/11/2023 - GST, dated 17.07.2023]

Various representations have been received seeking clarification on the taxability of activities performed by an office of an organisation in one State to the office of that organisation in another State, which are regarded as distinct persons under section 25 of CGST Act, 2017.

Let us consider a business entity which has Head Office (HO) located in State-I and a branch offices (BOs) located in other States. The HO procures some input services e.g., security service for the entire organisation from a security agency (third party). HO also provides some other services on their own to branch offices (internally generated services).

The issues that may arise with regard to taxability of supply of services between distinct persons in terms of sub-section (4) of section 25 of the CGST Act are being clarified in the Table below: -

S.No.	Issue	Clarification
1.	Common input services procured from a third party by Head Office (HO) - Taxpayer will have option to follow either ISD or cross charge mechanism	<ol style="list-style-type: none"> 1. It has been clarified that HO has an option to either distribute ITC in respect of such common input services by following ISD mechanism or can also issue tax invoices u/s 31 of CGST Act to the concerned Branch Office (BO) in respect of common input services procured from a third party. 2. Such ITC can be transferred only if the services are actually attributable to such BO in both the above cases.
2.	Services procured internally from HO (when full ITC is available to the concerned BOs)	<ol style="list-style-type: none"> 1. In respect of supply of services by HO to BOs, the value of the said supply of services declared in the invoice by HO shall be deemed to be OMV of such services, if the recipient BO is eligible for full ITC. 2. Accordingly, in cases where full ITC is available to a BO, the value declared on the invoice by HO to BO shall be deemed to be the OMV of such services, irrespective of the fact whether cost of any particular component of such services, like employee cost etc., has been included or not in the value of the services in the invoice. 3. It has also been clarified that if HO has not issued a tax invoice to the BO in respect of any particular services being rendered by HO to the said BO, the value of such services may be deemed to be declared as Nil by HO to BO, and may be deemed as OMV.
3.	Services procured internally from HO (when full ITC is not available to the concerned BO)	In respect of internally generated services provided by the HO to BOs, the cost of salary of employees of the HO, involved in providing the said services to the BOs, is not mandatorily required to be included while computing the taxable value of the supply of such services, even in cases where full input tax credit is not available to the concerned BO.

REGISTRATION

INTRODUCTION

- Registration legally recognizes a person as supplier of goods or services or both and legally authorizes him to collect taxes from his customers and pass on the credit of the taxes paid on the goods or services supplied to the purchases / recipients.
- Under GST law, a supplier is required to obtain State-wise registration.
- Where a person has multiple places of business in a State / UT, he has option to either get single registration for the said State/UT or to get separate registrations for each place of business in such State / UT.
- Registration under GST is not tax specific, which means that there is single registration for all the taxes i.e., CGST, SGST / UTGST, IGST and GST Compensation cess.

Separate registration makes separate person.

- Outward Supplies taxable under reverse charge would continue to be part of the 'Aggregate Turnover' of the supplier of such supplies.

JOB WORK MEANING: Job Work implies undertaking any treatment or process by a person on goods belonging to another registered taxable person.

The person who is treating or processing the goods belonging to other person is called '**Job Worker**' and the person to whom the goods belong is called '**Principal**'.

Principal can directly supply the goods from the premises of job worker without bringing it back to his own premises.

In case the job worker is unregistered, principal should declare job worker's premises as his additional place of business and remove goods from the same.

If the job worker is a registered person / principal supplies notified goods, goods can be supplied directly from the premises of the job worker.

Supply of goods, after completion of job work, directly from a registered job worker's premises is treated as supply of goods by the principal.

Further, the value of such goods supplied will be included in the aggregate turnover of the principal and not the job workers.

Thus, there may be a case where two units of a tax payer are located in same State/UT – One in SEZ and another outside SEZ. In that case, separate registrations have to be obtained for each of the two units as separate places of business.**

- For instance, if a person is supplying from multiple states, then he needs to obtain multiple registrations. But, if he is supplying only exempted goods or services from any of the states, then registration is not required for that particular state.

- Turnover of Mumbai Branch (Exempt Supply) – ₹ 2 Lacs

A. The applicable threshold limit will be ₹ 40 Lacs and registration is not required in any state.

* Annual Turnover in preceding F.Y.

E-INVOICING

Rule 48(4) applies to registered person having turnover exceeding ~~₹ 10 crores~~ ₹ 5 crores* making supplies to registered person.

* = T/O exceeding ₹ 5 crores in any preceding F.Y. from 2017-18 onwards.

The person who are exempted from provisions of e – invoicing inspite of their aggregate turnover being more than ₹ 5 crores, shall put the declaration as below:

"We hereby declare that though our aggregate turnover in any preceding financial year from 2017-18 onwards is more than the aggregate turnover notified under sub-rule (4) of rule 48, we are not required to prepare an invoice in terms of the provisions of the said sub-rule".

However, this provision is not applicable to-

- ✓ A Special Economic Zone Unit (not SEZ Developer)
- ✓ Insurer, Banking Company, Financial Institution including NBFC;
- ✓ Goods transport Agency
- ✓ Passenger Transport Service Supplier
- ✓ Supplier of services by way of admission or exhibition of cinematograph films in multiplex screens;
- ✓ A Government Department or a Local Authority.

IRN required on Invoice/ other documents in respect of supply of goods or services or both to registered person or for exports.

Analysis:

- ❖ E-Invoicing is digital invoice for goods / services provided by supplier (for B2B transaction & having turnover exceeding ~~₹ 10 crore~~ ₹ 5 crores in any preceding F.Y.), e-invoice is generated at the government GST portal.
- ❖ Government is doing this to avoid tax evasion by fake invoice and many other ways.
- ❖ Earlier, e-invoicing was mandatory on business entities having turnover exceeding ₹ 500 crore, then it reduced to ₹ 100 crore, after that it reduced to ₹ 50 crore, then it reduced to ₹ 20 crore. Now, it is ~~₹ 10 crore~~ ₹ 5 crores.

Obtaining IRN: These invoices will then be reported to 'Invoice Registration Portal (IRP)'. On such reporting, IRP will generate a unique '**Invoice Reference Number (IRN)**', digitally sign it and return the e-invoice to the supplier. A GST e-invoice will be valid only with a valid IRN. IRN is unit 64- character hash.

Documents covered by E-Invoice: Invoices, Debit notes and Credit notes issued by notified persons (to registered persons (B2B) or for the purpose of exports) are covered under e-invoice.

Exemptions from E-Invoicing: Following entities are exempt from the mandatory requirement of e-invoicing:

- Special economic zone units **

- Insurer or banking company or financial institution including NBFC
- GTA supplying services in relation to transportation of goods by road in a goods carriage
- Supplier of passenger transportation service
- Person supplying services by way admission to exhibition of cinematograph films in multiples screens.

Thus, above mentioned entities are not required to issue e-invoices even if their turnover exceeds ~~₹ 10 crore~~ ₹ 5 crores in the preceding F.Y. from 2017-18 onwards.

** It is important to note here that only SEZ units and not SEZ developers are exempt from issuing e-invoices. Thus, SEZ developers whose turnover exceeds ~~₹ 10 crore~~ ₹ 5 crores in any preceding financial year from 2017-18 onwards are mandatorily required to issue e-invoices.

D. Situations in which e-invoicing is applicable

Supply of goods and/or services to a registered person by notified person [B2B supplies]	•Applicable
Exports by notified persons	•Applicable
B2C supplies by notified persons	•Not applicable
Invoices issued by Input Service Distributor	•Not applicable
Supplies made by notified person, tax on which is payable under reverse charge under section 9(3)	•Applicable
Where specified category of supplies are received by notified persons from unregistered persons [attracting reverse charge under section 9(4)] or through import of services	•Not applicable
Import of goods (Bills of Entry)	•Not applicable

DYNAMIC QR CODE

- All B2C invoice issued by a registered person whose aggregate turnover in any preceding financial year from 2017 – 18 onwards exceeds ₹ 500 crores will have a QR code.
- The purpose of this provision is to enable and encourage digital payment where buyer can scan the dynamic QR code and make payment from mobile wallet directly.

Non applicability of requirement of Dynamic QR Code: Dynamic QR code is not applicable to an invoice issued to an unregistered person by following suppliers:

1. Insurer or banking company or financial institution including NBFC.
2. Goods transport agency supplying services in relation to transportation of goods by road in a goods carriage.
3. Supplier of passenger transportation service.
4. Person supplying services by way admission to exhibition of cinematograph films in multiples screens.
5. Supplier of online information and database access or retrieval (OIDAR) services.

No Dynamic QR code in case of exports: As regards the supplies made for exports, through such supplies are made by a registered person to an unregistered person, however, since e-invoices are required to be issued in respect of supplies for exports treating them as B2B supplies. Dynamic QR code requirement will not be applicable to them.

Debit Note & Credit Note

❖ Credit Note [Sec 34(1)]

- One or more tax invoice for Taxable Value or Tax charged in that tax invoice is found to exceed the Taxable value, or tax payable in respect of such supply, or
- Where the goods supplied are returned by the recipient, or
- Where goods or services supplied are found to be deficient.

❖ Time Limit

Details of credit in the return for the month during which such credit note has been issued, but not later than-

- 30th November following the end of FY in which such supply was made, or
- The date of filing of the relevant annual return, whichever is **earlier**.

Clarification in respect of applicability of Dynamic Quick Response (QR) code

All B2C invoices issued by a registered person whose **aggregate turnover** in any preceding financial year from 2017-18 onwards **exceeds ₹ 500 crores** are **mandatorily required to have a Dynamic QR code** from December 1, 2020 vide Notification No. 14/2020 CT dated 21.03.2020.

In this regard, Circular no. 156/12/2021 GST dated 21.06.2021 and

Circular No. 165/21/2021 GST dated 17.11.2021 have clarified that:

1. Dynamic QR Code is required to be provided on an invoice, issued to a person, who has obtained a UIN. Any person, who has obtained a Unique Identity Number (UIN), is not a “registered person” as per the definition of registered person provided in section 2(94). Therefore, any invoice, issued to such person having a UIN, shall be considered as invoice issued for a B2C supply and shall be required to comply with the requirement of Dynamic QR Code.
2. In cases, where an invoice is issued to a recipient located outside India, for supply of services, for which the place of supply is in India, as per the provisions of the IGST Act, and the payment is received by the supplier, in convertible FOREX or in Indian Rupees wherever permitted by the RBI (such supply of services is not considered as export of services as per the IGST Act), such invoice may be issued without having a Dynamic QR Code, as such dynamic QR code cannot be used by the recipient located outside India for making payment to the supplier.

❖ Debit Note [Sec 34(3)]

One or more tax invoice for Taxable Value or Tax charged in that Tax Invoice is found to be less than the Taxable Value or Tax payable in respect of such supply.

Note: Debit note includes Supplementary Invoice. Details of Debit in the Return for the month during which such Debit Note has been issued.

Procedure in case of return of time expired medicines/drugs

It is a common trade practice in the pharmaceutical sector that the drugs or medicines are sold by the manufacturer to the wholesaler and by the wholesaler to the retailers on the basis of an invoice/bill of supply as the case may be. Such goods have a defined life term which is normally referred to as the date of expiry. Goods which have crossed their date of expiry are colloquially referred to as time expired goods and are returned back to the manufacturer, on account of expiry, through the supply chain.

In case of return of time expired medicines/drugs, either of the following two options can be followed:

Option 1: Return of time expired goods to be treated as fresh supply

In case the person returning the time expired goods is:

A. Person (other than a composition taxpayer)

- he may, at his option, return the said goods by treating it is as a fresh supply and thereby issuing an invoice for the same (“return supply”).
- The value of the said goods as shown in the invoice on the basis of which the goods were supplied earlier may be taken as the value of such return supply.
- The wholesaler or manufacturer, as the case may be, who is the recipient of such return supply, shall be eligible to avail ITC of the tax levied on the said return supply.

B. Composition taxpayer

- he may return the said goods by issuing a bill of supply and pay tax at the rate applicable to a composition taxpayer.
- there will not be any availability of ITC to the recipient of return supply.

C. Unregistered person

- he may return the said goods by issuing any commercial document without charging any tax on the same.

Where the time expired goods which have been returned by the retailer/wholesaler are destroyed by the manufacturer, ITC treatment in such case has already been discussed in chapter 8: Input tax credit.

Option 2: Return of time expired goods by issuing “Credit Note”

- The manufacturer / wholesaler who has supplied the goods to the wholesaler / retailer has the option to issue a credit note in relation to the time expired goods returned. Retailer wholesaler may return the time expired goods by issuing a delivery challan.

If credit note is issued within the limit specified, the tax liability may be adjusted by the supplier, subject to the condition that the person returning the time expired goods has either not availed the ITC or if available has reversed the ITC so availed against the goods being returned.

However, if said time limit has lapsed, credit note may still be issued for such return of goods but the tax liability cannot be adjusted by him in his hands.

- Further, if time expired goods are returned beyond the time period specified and a credit note is issued consequently, there is no requirement to declare such credit note on the common portal by the supplier (i.e., by the person who has issued the credit note) as tax liability cannot be adjusted in this case.

Where such returned time expired goods are destroyed by the manufacturer, he / she is required to reverse the ITC attributable to the manufacturer of such goods [Sec 17(5)(h)].

Date of Supply	Date of Return	Treatment in terms of tax liability & credit
01.07.2022	20.09.2023	Credit note will be issued by the supplier (manufacturer / wholesaler). Subsequently, tax liability can be adjusted by such supplier provided the recipient (wholesaler / retailer) has either not availed ITC or if availed has reversed the ITC.
01.07.2022	15.12.2023	Credit note will be issued by the supplier (manufacturer / wholesaler) but there is no requirement to upload the same on the common portal. Subsequently, tax liability cannot be adjusted by such supplier.

AMENDMENTS & CLARIFICATIONS

1. Tax invoice to contain Name, Address, PIN code & State to be prescribed by OIDAR service provider or through an E – commerce operator [N. No. 26/2022 – CT dated 26th December, 2022][Amendment in Rule 46]

3. Exemption from generation of e-invoices available for the entity as a whole and not restricted by the nature of supply being made by the said entity

Issue: The issue which arose for consideration was whether this exemption from mandatory generation of e-invoices is available for the entity as whole, or whether the same is available only in respect of certain supplies made by the said entity.

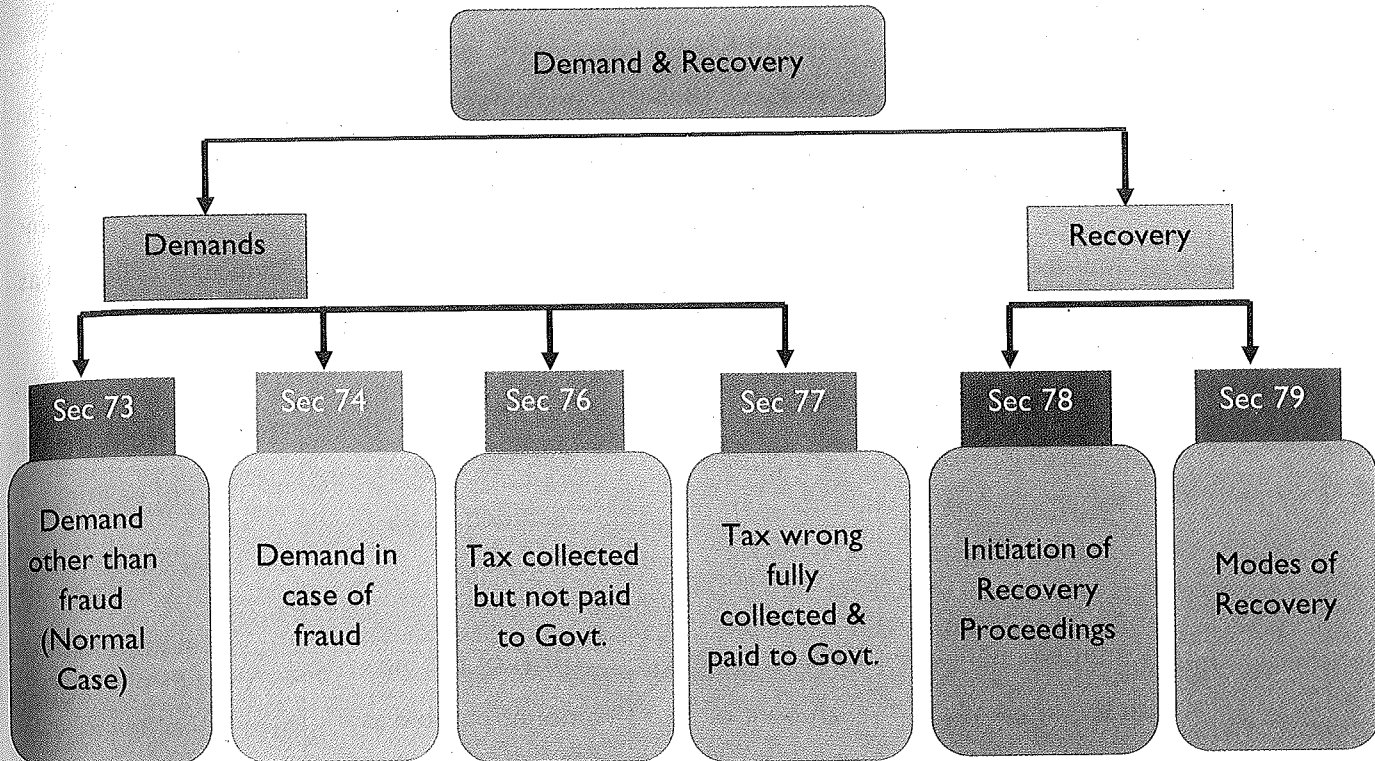

Clarification: Exemption from generation of e-invoices is for the entity as a whole and is not restricted by the nature of supply being made by the said entity.

4. Clarification on applicability of e-invoice w.r.t supplies made to TDS deductors.

Issue: Whether e-invoicing is applicable for supplies made by a registered person, whose turnover exceeds the prescribed threshold for generation of e-invoicing, to Government Departments or establishments/ Government agencies/ local authorities/ PSUs which are registered solely for the purpose of deduction of tax at source as per provisions of section 51 of the CGST Act?

Clarification: Government Departments or establishments / Government agencies / local authorities/ PSUs, registered solely for the purpose of TDS as per provisions of section 51 of the CGST Act, are to be treated as registered persons under the GST law as per provisions of section 2(94) of CGST Act. Accordingly, the registered person, whose turnover exceeds the prescribed threshold for generation of e-invoicing, is required to issue e-invoices for the supplies made to such Government Departments or establishments / Government agencies / local authorities / PSUs, etc. under rule 48(4) of CGST Rules.

SECTION 50: INTEREST ON DELAYED PAYMENT OF TAX

- **Case I: Interest because of delay in payment of tax (either in full or any part thereof):**

- **Case II: Interest on utilisation of wrongly availed ITC:**

Interest Rate: 18% p.a. from the following the date of utilisation of such wrongly availed ITC till the date of reversal of such credit or payment of tax.

[No interest on wrongly availed ITC but not utilised]

Utilised amount is calculated as: ITC wrongly availed – ITC balance in Elec Credit Ledger

Date of utilisation of ITC would be as below:

- **If Tax is paid through return (3B):** Due date to file 3B or actual filing date whichever is earlier
- **If Tax is paid through other means (DRC 03):** the date of debit in the electronic credit ledger when the balance in the electronic credit ledger.

For e.g., If return of July is filed on 17th Aug, then Interest will be levied from 18th Aug (not from 21st Aug).

Let us understand with the help of an example below:

- Mr. Keyur wrongly availed ITC in July (for the month of June) = ₹ 4,00,000

Actual repayment date = 20th October

Other Information:

- Balance in Electronic Credit Ledger in July before availing ITC = ₹ 10,00,000
- Wrongly availed ITC = ₹ 4,00,000
- Total Balance = ₹ 14,00,000

	Case I	Case II	Case III
Liability in the month of Aug. (return filed on 16 th Aug.)	8,00,000	11,00,000	15,00,000
Liability in the month of Sept. (return filed on 17 th Sept.)	5,00,000	4,00,000	3,00,000
Interest	₹ 4,882 [0 + 3,00,000 x 33/365 x 18%]	₹ 8,087.67 [1,00,000 x 65/365 x 18% + 3,00,000 x 33/365 x 18%]	₹ 12,822 [4,00,000 x 65/365 x 18%]

Interest Days Calculation:

Case I: 3 lacs of wrongly availed ITC utilised on 17th Sept.; Interest will be calculated from 18th Sept. to 20th Oct. (33 days)

Case II: 1 lac utilised on 16th Aug.; hence interest will be from 17th Aug. to 20th Oct. (65 days) & 3 lacs utilised on 17th Sept.; hence interest will be from 18th Sept. to 20th Oct. (33 days)

Case III: 4 lacs utilised on 16th Aug.; hence interest will be from 17th Aug. to 20th Oct. (65 days)

Clarification on charging of interest under section 50(3) of the CGST Act, 2017, in cases of wrong availment of IGST credit and reversal thereof.

Issue: Clarification regarding charging of interest u/s 50(3) of the CGST Act in the cases where IGST credit has been wrongly availed by a registered person. Clarification is being sought as to whether such wrongly availed IGST credit would be considered to have been utilized for the purpose of charging of interest u/s 50(3) of CGST Act, read with rule 88B of CGST Rules, in cases where though the available balance of IGST credit in the electronic credit ledger of the said registered person falls below the amount of such wrongly availed IGST credit, the total balance of ITC in the electronic credit ledger of the registered person under the heads of IGST, CGST and SGST taken together remains more than such wrongly availed IGST credit, at all times, till the time of reversal of the said wrongly availed IGST credit.

Case I: In the cases of wrong availment of IGST credit by a registered person and reversal thereof, for the calculation of interest under rule 88B of CGST Rules, whether the balance of ITC available

in electronic credit ledger under the head of IGST only needs to be considered or total ITC available in electronic credit ledger, under the heads of IGST, CGST and SGST taken together, has to be considered.

Clarification: Since the amount of ITC available in electronic credit ledger, under any of the heads of IGST, CGST or SGST, can be utilized for payment of liability of IGST, it is the **total ITC available in electronic credit ledger, under the heads of IGST, CGST and SGST taken together, that has to be considered** for calculation of interest under rule 88B of CGST Rules and for determining as to whether the balance in the electronic credit ledger has fallen below the amount of wrongly availed ITC of IGST, and to what extent the balance in electronic credit ledger has fallen below the said amount of wrongly availed credit.

Thus, in the cases where IGST credit has been wrongly availed & subsequently reversed on a certain date, there will not be any interest liability u/s 50(3) of CGST Act if, during the time period starting from such availment and up to such reversal, the balance of ITC in the electronic credit ledger, under the heads of IGST, CGST and SGST taken together, has never fallen below the amount of such wrongly availed ITC, even if available balance of IGST credit in electronic credit ledger individually falls below the amount of such wrongly availed IGST credit. However, when the balance of ITC, under the heads of IGST, CGST and SGST of electronic credit ledger taken together, falls below such wrongly availed amount of IGST credit, then it will amount to the utilization of such wrongly availed IGST credit and the extent of utilization will be the extent to which the total balance in electronic credit ledger under heads of IGST, CGST and SGST taken together falls below such amount of wrongly availed IGST credit, and will attract interest as per section 50(3).

Case II: Whether the credit of compensation cess available in electronic credit ledger shall be taken into account while considering the balance of electronic credit ledger for the purpose of calculation of interest under rule 88B(3) of CGST Rules in respect of wrongly availed and utilized IGST, CGST or SGST credit.

Clarification: As per proviso to section 11 of GST (Compensation to States) Act, 2017, ITC in respect of compensation cess on supply of goods and services leviable u/s 8 of the said Act can be **utilised only towards payment of compensation cess leviable on supply of goods and services**. Thus, **credit of compensation cess cannot be utilized for payment of any tax under CGST or SGST or IGST heads and/ or reversals of credit under the said heads**.

Accordingly, credit of compensation cess available in electronic credit ledger **cannot be taken into account while considering the balance of electronic credit ledger** for the purpose of calculation of interest under rule 88B(3) of CGST Rules in respect of wrongly availed and utilized IGST, CGST or SGST credit.

Q. Mr. X is a supplier selling his own products through a web site hosted by him. Does he fall under the definition of an “electronic commerce operator”? Whether he is required to collect TCS on such supplies?

Ans: Mr. X will come under the definition of an “electronic commerce operator”. However, according to Section 52 of the Act, TCS is required to be collected on the net value of taxable supplies made through it by other suppliers where the consideration is to be collected by the ECO. In cases where someone is selling their own products through a website, there is **no requirement to collect tax at source** as per the provisions of this Section. These transactions will be liable to GST at the prevailing rates.

Note - The e-commerce operator who is required to collect tax at source as well as supplier supplying goods through an operator need to compulsorily register under GST.

SOME IMPORTANT FAQs ON TCS (CLARIFICATION BY GST COUNCIL)

Q.1 Whether a supplier of goods or services supplying through e-commerce operator would be entitled to threshold exemption?

Ans 1: Every person supplying goods through an e-commerce operator who is required to collect TCS u/s 52 shall be mandatorily required to register irrespective of the value of supply made by him. However, a person supplying services, other than supplier of services under section 9(5) of the CGST Act, 2017, through an e-commerce platform are exempted from obtaining compulsory registration provided their aggregate turnover does not exceed INR 20 lakhs (or INR 10 lakhs in case of specified special category States) in a financial year.

Q.2. Whether e-Commerce operator is required to obtain registration in every State/UT in which suppliers listed on their e-commerce platform are located to undertake the necessary compliance as mandated under the law?

Ans 2: As per the extant law, registration for TCS would be required in each State / UT as the obligation for collecting TCS would be there for every Intra State or Inter State supply. In order to facilitate the obtaining of registration in each State / UT, the e-commerce operator may declare the Head Office as its place of business for obtaining registration in that State/ UT where it does not have physical presence. It may be noted that each State/UT has indicated one administrative jurisdiction where all e-commerce operators having business (but not having physical presence) in that State/UT shall register. The proper officer for the purpose of registration of ECOs has also been notified by each State/UT.

Q.3. Whether TCS to be collected on exempt supplies?

Ans 3: No, TCS is not required to be collected on exempt supplies.

Q.4. Whether TCS is to be collected in respect of supplies made by the composition taxpayer?

Ans 4: As per section 10(2)(d) of the CGST Act, 2017, a composition taxpayer cannot make supplies through e-commerce operators. Thus, question of collecting TCS in respect of supplies made by the composition taxpayer does not arise.

Q.5. Whether TCS to be collected on supplies on which the recipient is required to pay tax on reverse charge basis?

Ans 5: No, TCS is not required to be collected on supplies on which the recipient is required to pay tax on reverse charge basis.

- (i) the ECO shall allow the supply of goods through it by the said person only if enrolment number has been allotted on the common portal to the said person;

Where multiple ECOs are involved in a single supply of goods through ECO platform, “the ECO” shall mean the ECO who finally releases the payment to the said person for the said supply made by the said person through him.

Clarification on TCS liability in case of multiple ECOs in one transaction, in the context of Open Network for Digital Commerce (ONDC) [Circular No. 194/06/2023 – GST, 17.07.2023]

1. In the current platform-centric model of e-commerce, the buyer interface and seller interface are operated by the same ECO. This ECO collects the consideration from the buyer, deducts the TCS u/s 52 of the CGST Act, credits the deducted TCS amount to the GST cash ledger of the seller and passes on the balance of the consideration to the seller after deducting their service charges.
2. In the case of the ONDC Network or similar other arrangements, there can be multiple ECOs in a single transaction - one providing an interface to the buyer and the other providing an interface to the seller. In this setup, buyer-side ECO could collect consideration, deduct their commission and pass on the consideration to the seller-side ECO.

Issue: Which ECO should deduct TCS and make other compliances u/s 52 of CGST Act in such situations, as in such models having multiple ECOs in a single transaction, both the Buyer-side ECO and the Seller-side ECO qualify as ECOs as per Section 2(45) of the CGST Act.

Case I: In a situation where multiple ECOs are involved in a single transaction of supply of goods or services or both through ECO platform and where the supplier-side ECO himself is not the supplier in the said supply, who is liable for compliances u/s 52 including collection of TCS?

Clarification: In such a situation where multiple ECOs are involved in a single transaction of supply of goods or services or both through ECO platform and where the supplier-side ECO himself is not the supplier of the said goods or services, the compliances u/s 52 of CGST Act, including collection of TCS, is to be done by the supplier-side ECO who finally releases the payment to the supplier for a particular supply made by the said supplier through him.

E.g.: Buyer-side ECO collects payment from the buyer, deducts its fees/commissions and remits the balance to Seller-side ECO. Here, the Seller-side ECO will release the payment to the supplier after deduction of his fees/commissions and therefore will also be required to collect TCS, as applicable and pay the same to the Government & also make other compliances u/s 52 of CGST Act.

In this case, the Buyer-side ECO will neither be required to collect TCS nor will be required to make other compliances in accordance with section 52 of CGST Act with respect to this particular supply.

Case II: In a situation where multiple ECOs are involved in a single transaction of supply of goods or services or both through ECO platform and the Supplier-side ECO is himself the supplier of the said supply, who is liable for compliances u/s 52 including collection of TCS?

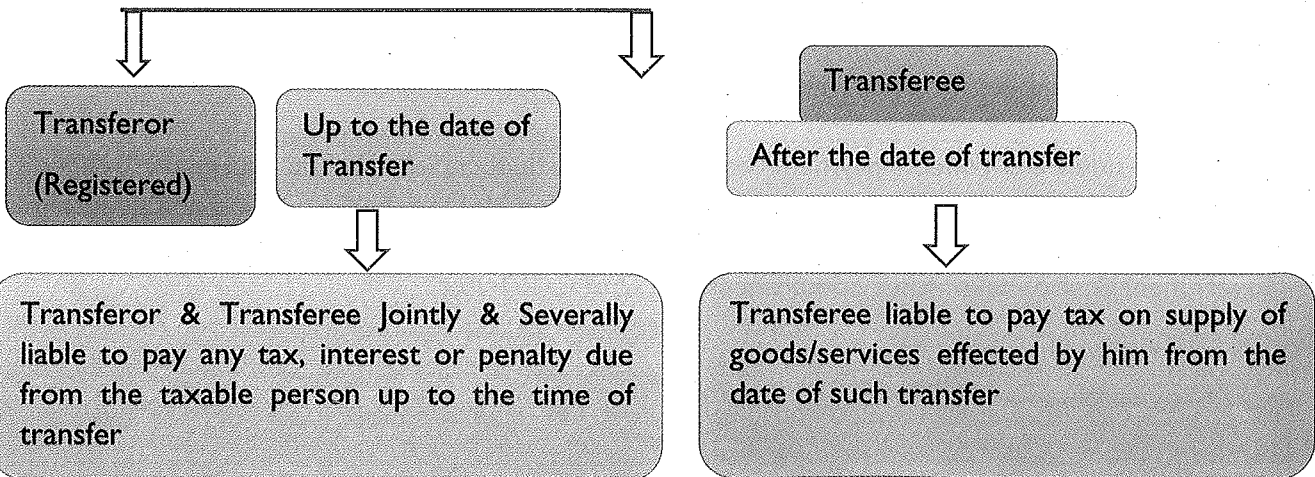

Clarification: In such a situation, TCS is to be collected by the Buyer-side ECO while making payment to the supplier for the particular supply being made through it.

E.g.: Buyer-side ECO collects payment from the buyer, deducts its fees and remits the balance to the supplier (who is itself an ECO as per the definition in Sec 2(45) of the CGST Act). In this scenario, the Buyer-side ECO will also be required to collect TCS, as applicable, pay the same to the Government & also make other compliances u/s 52 of CGST Act.

Thus, unjust enrichment refers to a situation in which a person becomes rich unjustifiably, i.e., at the expense of other. No doubt, GST is payable by supplier but the incidence of tax is borne by ultimate consumer. Now, if on any account, a refund is granted to supplier instead of the consumer who borne the burden of tax which is unreasonable & against the principle of equity.

CLARIFICATION: DETERMINATION OF REFUNDABLE AMOUNT IN CASE OF REFUND OF UNUTILIZED ITC ON ACCOUNT OF:

1. Exports without payment of tax
2. Supplies made to SEZ units/ Developer without payment of tax or
3. Accumulation of inverted tax structure

In case of refund of unutilized ITC in above 3 cases, the common portal calculates the refundable amount as the least of the following amounts:

 - (b) any period of time taken either by the applicant for furnishing the correct details of the bank account to which the refund is to be credited or for validating the details of the bank account so furnished, where the amount of refund sanctioned could not be credited to the bank account furnished by the applicant.

1. INVERTED DUTY STRUCTURE – REFUND [CIRCULAR NO. 173/05/2022-GST]

- Further, there may however, be cases where though inputs and output goods are same but the output supplies are made under a concessional notification due to which the rate of tax on output supplies is less than the rate of tax on inputs. In such cases, as the rate of tax of output supply is less than the rate of tax on inputs at the same point of time due to supply of goods by the supplier under such concessional notification, the credit accumulated on account of the same is admissible for refund under the provisions of clause (ii) of the first proviso to section 54(3) of the CGST Act.
- However, no refund shall be allowed in cases where output supply is either Nil rated or fully exempted.
- Further, no refund shall be allowed in case of supply of such goods or services which are notified by the Government for their exclusion from refund of accumulated ITC under this clause.

2. Prescribing manner of filing an application for refund by unregistered persons [Rule 89(2) amended]

There are cases where the unregistered buyers, who had entered into an agreement / contract for supply of services had to get the said contract / agreement cancelled subsequently due to non-completion or delay or any other reasons. In such cases, the period for issuance of credit note on account of such cancellation of service u/s 34 may have expired & the supplier may refund the amount to the buyer, after deducting the amount of tax collected by him from the buyer. In terms of section 54(8)(e), in cases where the unregistered person has borne the incidence of tax and not passed on the same to any other person, the said refund shall be paid to him instead of being credited to Consumer Welfare Fund (CWF).

Thus, in order to enable such unregistered person to file application for refund under section 54(1), the unregistered persons to take a temporary registration and apply for refund under the category 'Refund for Unregistered person' in Form GST RFD-01. Further, **rule 89(2) has been amended to provide for the documents required** to be furnished along with the application of refund by the unregistered persons and the statement to be uploaded along with the said refund application.

✚ **Documentary evidences required:**

Rule 89(2)(ka):- a statement containing the details of invoices viz. number, date, value, tax paid and details of payment, in respect of which refund is being claimed along with copy of such invoices, proof of making such payment to the supplier,

- the copy of agreement or registered agreement or contract, as applicable, entered with the supplier for supply of service,
- the letter issued by the supplier for cancellation or termination of agreement or contract for supply of service, details of payment received from the supplier against cancellation or termination of such agreement along with proof.

Moreover, it has been provided that a certificate by a Chartered Accountant or a Cost Accountant to the effect that there is no unjust enrichment in the case of the applicant is not required to be furnished in cases where refund is claimed by an unregistered person who has borne the incidence of tax even if the amount of refund claimed exceeds ₹ 2 lakh.

- ✚ **Relevant date for filing of refund:** date of issuance of letter of cancellation of the contract/agreement for supply by the supplier
- ✚ **Proportionate Refund:** In cases where the amount paid back by the supplier to the unregistered person on cancellation/termination of agreement/contract for supply of services is less than amount paid by such unregistered person to the supplier, only the proportionate amount of tax involved in such amount paid back shall be refunded to the unregistered person.

3. Clarification in respect of admissibility of refund where an exporter applies for refund subsequent to compliance of the provisions of rule 96A(1)

Issue: References have been received citing the instances where exporters have voluntarily made payment of due integrated tax, along with applicable interest, in cases where goods could not be exported or payment for export of services could not be received within time frame as prescribed in clause (a) or (b) rule 96A(1) of CGST Rules. Clarification is being sought as to whether subsequent to export of the said goods or as the case may be, realization of payment in case of export of services, the said exporters are entitled to claim not only refund of unutilized input tax credit on account of export but also refund of the integrated tax and interest so paid in compliance of the provisions of rule 96A(1) of CGST Rules.

Clarification: The above clarifications imply that as long as goods are actually exported or as the case may be, payment is realized in case of export of services, even if it is beyond the time frames as prescribed in rule 96A(1), the benefit of zero-rated supplies cannot be denied to the concerned exporters. Accordingly, it is clarified that in such cases, on actual export of the goods or as the case may be, on realization of payment in case of export of services, the said exporters would be entitled to refund of unutilized input tax credit in terms of section 54(3) of CGST act, if otherwise admissible.

It is also clarified that in such cases subsequent to export of the goods or realization of payment in case of export of services, as the case may be, the said exporters would be entitled to claim refund of the integrated tax so paid earlier on account of goods not being exported, or as the case be, the payment not being realized for export of services, within the time frame prescribed in clause (a) or (b) of rule 96A(1). It is further being clarified that no refund of the interest paid in compliance of rule 96A(1) shall be admissible.

E-way Bill is generated electronically in Form GST EWB-01 on the common portal (www.ewaybillgst.gov.in).

Every registered person who causes movement of goods of consignment value exceeding ₹ 50,000 -

- in relation to a supply; or
- for reasons other than supply; or
- due to inward supply from an unregistered person, shall furnish the information relating to the said goods as specified in Part A of Form GST EWB-01 before commencement of such movement. Consignment value of ₹ 50,000 includes GST amount also, but excludes value of exempt supply of goods.

SITUATIONS WHERE E- WAY BILL NEEDS TO BE ISSUED EVEN IF THE VALUE OF THE CONSIGNMENT IS LESS THAN ₹ 50,000

- If received back from job worker, then it will be considered as supply by the job worker to the principal on the basis of which principal can take ITC.
- The ITC shall be allowed even if any inputs and/or capital goods are directly sent to a job worker without being first brought to the premises of the principal and in such case, period of 1 year / 3 years shall be counted from date of receipt of such inputs or capital goods by job worker.

ETHICAL ASPECTS UNDER GST

MEANING OF ETHICS

- The Oxford Dictionary defines the term “Ethics” as the moral principle that governs a person's behavior or how an activity is conducted.
- Ethics provides a framework for distinguishing between right and wrong, guiding decision-making, and determining what is considered morally acceptable in a given context.
- Ethics are fundamental to the effective functioning of any taxation system; this also holds true for the Goods and Services Tax (GST) regime in India. Ethical conduct contributes to increased regulatory compliance and reduced tax evasion which in turn leads to increased Government revenue collection. This tax revenue can be used for public welfare and development projects. It also helps in creating a fair, transparent, and trustworthy tax environment and reduces uncertainty that supports economic growth and development. Unethical practices like issuing bogus invoice without underlying supply, wrongful availment of ITC, etc. not only undermine the tax revenues, but also create an uneven playing field for honest taxpayers. Ethical behavior may also reduce tax-related disputes and litigations.

ROLE OF CHARTERED ACCOUNTANT IN ENSURING ETHICS UNDER GST

- ✦ The professional behaviour of a Chartered Accountant is governed by a set of ethical guidelines and principles - known as Code of Ethics - laid down by the ICAI. Every Chartered Accountant has to abide by this code of ethics. It encourages the Chartered Accountants to be honest, fair, and professional in their working and advocates to follow the rules to ensure that they are doing the right thing for their clients and the public at large.
- ✦ The fundamental principles are: **integrity, objectivity, professional competence and due care, confidentiality, and professional behaviour.**
- ✦ The Chartered Accountants Act, 1949 prescribes the disciplinary action if a Chartered Accountant is found guilty of any Professional or Other Misconduct (as defined in Schedules to the Chartered Accountants Act).
- ✦ A Chartered Accountant in practice would be deemed to be guilty of professional misconduct under
 - clause (7) of Part I of the Second Schedule to the Chartered Accountant Act, 1949, if he does not exercise due diligence, or is grossly negligent in the conduct of his professional duties.
 - clause (8) of Part I of the Second Schedule to the Chartered Accountants Act, 1949, if he fails to obtain sufficient information which is necessary for expression of an opinion or its exceptions are sufficiently material to negate the expression of an opinion.

- ✦ A Chartered Accountant needs to follow ethical conduct while discharging his professional duties under the Goods and Services Tax (GST) law, namely, compliance functions, furnishing certifications/reports and advisory roles, by adhering to a set of principles and practices that promote integrity, transparency, and compliance.
- ✦ He should maintain professional knowledge and skill at the level required to ensure that a client or employer receives competent professional service based on latest applicable positions of GST law. In case of any violation of law in performing the compliance, certifications/reporting and advisory functions, he shall also be liable to applicable penalty and prosecution (in some cases) under GST law.
- ✦ Chartered Accountants play a crucial role in ensuring GST compliance within their clients' organizations. This involves –
 - assisting in the process of obtaining registration,
 - structuring the transactions & conditions stipulated in agreements for making /receiving supply,
 - optimizing tax positions,
 - ensuring the necessary GST compliances including e-way bill,
 - payment of taxes, TDS/TCS compliances,
 - compliances with anti-profiteering provisions and
 - timely filing of periodic returns.

- ✦ Generally, Chartered Accountants are responsible for ensuring the maintenance of accurate and detailed records of all GST-related transactions. This includes invoices, receipts, and other relevant documents. Such meticulous record-keeping is a **legal requirement** as well as an **ethical duty** of the Chartered Accountant.

Another major responsibility of a Chartered Accountant in the realm of GST is to **act as a tax advisor** to their clients. This entails a comprehensive understanding of the client's business operations and goals.

- ✦ Chartered Accountants must assess the impact of GST on various aspects of the business, including supply chain, pricing strategies and financial reporting.
- ✦ A Chartered Accountant, who
 - holds a certificate of practice and
 - has not been debarred from practice,

can also appear on behalf of his client before a **GST officer, GST Appellate Authority or GST Appellate Tribunal** in connection with any proceedings under GST law, as an authorised representative of the client.

- ✦ Furthermore, Chartered Accountants play a vital role in the GST ecosystem by providing certifications that affirm compliance with GST laws and regulations. These certifications are mandatory in specific situations and are required to ensure compliance with GST regulations.

They primarily aim at curbing the unethical practices and preventing the leakage of revenue. Thus, it is the duty of every Chartered Accountant to exercise utmost care and due diligence while granting these certifications.

While providing said certification, the Chartered Accountant has to comply with the ethical requirements of the Code of Ethics issued by the ICAI, the relevant applicable requirements of the Standard on Quality Control (SQC-1), Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

The certifications/reports required to be furnished by a Chartered Accountant under GST law have been explained in detail hereunder.

The registered person should furnish details of change in constitution in Form ITC-02 on the common portal. Further, he needs to submit a certificate from practicing Chartered Accountant or Cost Accountant certifying that the change in constitution has been done with a specific provision for transfer of liabilities.

A Chartered Accountant is required to examine the books of accounts and other relevant documents / records of the taxpayer and to provide a reasonable assurance that the sale, merger, demerger, amalgamation, lease or transfer of business has been done with a specific provision for the transfer of liabilities.

In case the registered person discharges the liabilities as proposed, no further action is taken. Otherwise, the authorities may initiate the proceedings against the registered person u/s 73 or 74 for determination of the tax liability of the person audited.

A Chartered Accountant must approach the Special Audit with an unbiased and impartial mindset, free from any external influences or conflicts of interest. This ensures that the audit findings are based on factual evidence and professional judgment, rather than personal biases. He should first go through the terms of reference provided by the GST authorities to understand the scope and objectives of the special audit. This document outlines the specific areas and tax periods to be audited. He should conduct a comprehensive review of all relevant documents, including financial statements, invoices, transaction records, and any other documentation provided by the taxpayer. This ensures that the audit findings are based on accurate and reliable information. He should take steps to identify and mitigate any potential conflicts of interest that may arise during the special audit. This includes refraining from engaging in any activities or relationships that could compromise their objectivity or independence. If a conflict of interest does arise, it should be promptly disclosed to the relevant parties.

Apart from the aforesaid specific roles defined in the GST Law for Chartered Accountants, there may be specific scenarios where the attested documents, certificates issued by the Chartered Accountants are relied during the proceedings under GST Law by the tax authorities and also judicial forums, as a general practice while dealing with the GST Law related disputes.

Customs (Assistance in Value Declaration of Identified Imported Goods) Rules, 2023 (CAVR, 2023) notified

The second proviso of section 14(1) of the Customs Act lists out certain matters which may be provided for in the rules. The said sub-section was amended vide the Finance Act, 2022 to insert the following text under its second proviso –

“(iv) the additional obligations of the importer in respect of any class of imported goods and the checks to be exercised, including the circumstances and manner of exercising thereof, as the Board may specify, where, the Board has reason to believe that the value of such goods may not be declared truthfully or accurately, having regard to the trend of declared value of such goods or any other relevant criteria:”

The said amendment is a measure to address the issue of undervaluation in imports and it provides for rules to be framed by the Central Government whereby the Board can be enabled to specify the additional obligations of the importer in respect of a class of imported goods whose value is not being declared correctly, the criteria of selection of such goods, and the checks in respect of such goods.

The aspects in these rules include –

- (a) the processes to be followed before the Board may specify a class of imported goods, for which there is a reason to believe that the value may not be declared truthfully or accurately but below it, as identified goods.
- (b) the procedures for an importer of identified goods, once the relevant class of goods have been specified as identified goods by the Board. These include declaring certain aspects while filing the bill of entry. Further, if required by the Customs Automated System, such importer shall also fulfil the specified additional obligations, and specified checks shall be performed so as to enable and assist the importer to demonstrate the truthfulness and accuracy of the declared value.
- (c) the specification that where the proper officer still has reasonable doubt about the truth or accuracy of the value declared in relation to the identified goods, the further proceedings shall be taken in accordance with rule 12 of the Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 (CVR, 2007) only.

The CAVR, 2023 can be applied only by following the processes referred in the rules.

The written reference must have been made to the Board which, if found suitable by Screening Committee for detailed examination, must have been comprehensively examined by Evaluation Committee which should have concluded the likelihood that the value of the relevant class of goods may not be declared truthfully, having regard to the trend of the declared value or other relevant criteria.

Thereafter, the Screening Committee’s recommendation confirming the completeness of such report must have been made to the Board. If satisfied that the recommended report should be accepted, the Board may specify the identified goods.

Refund application must be accompanied by evidence to establish that the amount, was collected from or paid by him, and that the incidence of such amount has not been passed on by him to any other person [Section 27(1A)].

(It must be noted that Section 28D creates a statutory presumption that the incidence of duty has been passed on to the buyer, unless the contrary is proved. The documents enclosed to the refund claim must refute this presumption. Refer the section on unjust enrichment).

PROCESSING OF REFUND CLAIM [SECTION 27(2)]

The application of refund, if found to be complete in all respects by Customs, is processed and order for refund is passed. However, in view of the provisions of unjust enrichment enshrined in the Customs Act, the amount found refundable has to be transferred/credited to the Consumer Welfare Fund.

Only in following situations, the amount of duty and interest found refundable, instead of being credited to the Consumer Welfare Fund, is to be paid to the applicant:

if the importer or the exporter, as the case may be, has not passed on the incidence of such duty and interest to any other person

if imports were made by an individual for his personal use

if the buyer who has borne the duty and interest, has not passed on the incidence of such duty and interest to any other person

if amount found refundable relates to export duty paid on goods which has returned to exporter as specified in section 26

if amount relates to drawback of duty payable under section 74 and 75

if the duty or interest was borne by a class of applicants which has been notified for such purpose in the Official Gazette by the Central Government.

if the duty paid in excess by the importer before an order permitting clearance of goods for home consumption is made where—

- (i) such excess payment of duty is evident from the bill of entry in the case of self-assessed bill of entry; or
- (ii) the duty actually payable is reflected in the reassessed bill of entry in the case of reassessment.

DOCTRINE OF UNJUST ENRICHMENT WITH RESPECT TO REFUND OF DUTY

When an importer imports goods or in case when goods are exported, the incidence or burden of duty is passed on to the purchaser, from whom the importer or exporter collects the customs duty. Subsequently, if the importer or exporter makes a claim for refund of duty and receives the refund from the government, he would be called to have enriched himself as he collected the duty both from his customer and as refund from the government. Such enrichment is referred to as 'unjust enrichment'.

Accordingly, the doctrine of 'unjust enrichment' implies that no person should enrich himself at the cost of others.

Therefore, wherever there is excess collection of duty, the refund is to be given only to the person who has borne the burden of duty and interest, if any. When the person who applies for refund is not the person who has borne the burden of duty, the refund is paid into a fund called 'Consumer Welfare Fund'.

In terms of Section 27, the importer or his agent, or the buyer who has been charged the duty by the importer, has to prove that he has not passed the burden of duty to another person, in order to be given refund of duty. Section 28D creates a statutory presumption that he did pass on the burden of duty; this presumption has to be refuted by proving the contrary. If he succeeds in this, the claimant is given the refund in terms of Section 27(2), clause (a) for the importer and clause (c) for the buyer.

Example 1

The importer has imported an article, which has been valued at ₹ 1,000/-. The customs duty on this article comes to ₹ 250/-. Now the importer adds his profit margin of say ₹ 250/- and sells the article for ₹ 1,500/-. Now the price charged by the importer consists of the duty element which has been passed on to the buyer.

If later on it is found that there was an error resulting in excess payment of duty, such excess duty is liable to be refunded. But as may be seen above, the importer has already collected the duty from the purchaser and if any refund is granted to him, it would confer on him a double benefit to which he does not have a valid right. Therefore, in such cases the refund is credited to the "Consumer Welfare Fund".

The landmark judgment on refund is by a Nine Member Bench of the Supreme Court in *Mafatlal Industries Ltd. v. U.O.I.*- [1997 (89) E.L.T. 247].

The principles laid down in this judgment can be summarized as under:

The theory of unjust enrichment is valid and constitutional. However, the theory that, conversely, the manufacturer would be unjustly impoverished in case of demands has not been agreed to.

Section 27 (Customs Act) is self contained code for refunds; resort to civil suits or writs is not permissible unless the taxing provision is struck down as unconstitutional. The general theory laid down in certain judgments of both the Supreme Court and High Courts that refund could be claimed within three years of discovery of mistake has been disapproved.

Unless the levy is struck down as unconstitutional, all Courts must exercise jurisdiction in terms of section 11B of the Central Excise Act, 1944 and refuse to grant relief if the incidence of tax has been passed on.

Whatever amount is collected as duty will have to be paid to the Government. If excess is collected than that payable, it would be credited to the Consumer Welfare Fund or given as refund to the person who has borne the incidence of duty.

Further, the Supreme Court in the case of CCE v. Allied Photo graphics 2004 (166) ELT 3 has held that doctrine of unjust enrichment applies even when duty is paid under protest.

Exceptions to the Doctrine of Unjust Enrichment

Sub-section (2) provides for certain exceptions to the doctrine of unjust enrichment. In these exceptions refund of duty and interest may be paid to the applicant if such amount is relatable to:

- drawback of duty payable under sections 74 and 75;
- export duty as specified in section 26;
- the duty and interest on imports made by an individual for his personal use;
- the duty and interest borne by any other such class of applicants as the Central Government may, by notification in the Official Gazette, specify.
- the duty paid in excess by the importer before an order permitting clearance of goods for home consumption is made where
 1. such excess payment of duty is evident from the bill of entry in the case of self-assessed bill of entry; or
 2. the duty actually payable is reflected in the reassessed bill of entry in the case of reassessment.

Illustration:

State briefly with reference to the provisions of section 27 of the Customs Act, 1962 whether the principle of “unjust enrichment” will apply in case of refund of excess duty paid on car imported for personal use?

Answer:

The bar of unjust enrichment applies in case of refund of customs duty under section 27(2) of the Customs Act, 1962.

The principle of unjust enrichment will not apply to refund of duty on car imported for personal use, as clause (b) of the proviso to sub-section (2) of section 27 of the Customs Act, 1962 stipulates that in case of imports made by an individual for his personal use, the refund should not be credited to consumer welfare fund, but shall be paid to the applicant.

INTEREST ON DELAYED REFUND [SECTION 27A]

The Customs has to finalize refund claims without delay upon receipt of the refund application in proper form along-with all the documents. In case any duty ordered to be refunded to an applicant is not refunded within 3 months from the date of receipt of application for refund, interest is to be paid to the applicant.

Currently, **the rate of interest is 6%** vide Notification No. 75/2003-Cus (NT) dated 12.09.2003.

The interest is to be paid for the period beginning from the date immediately after the expiry of 3 months from the date of receipt of such application, till the date of refund of such duty.

In cases where no refund claim has been made, if a refund results from an order passed by the appellate authorities mentioned or by a court of law, refund is to be paid within 3 months of the order, and interest will be payable after that.

The interest on delayed refund is payable only in respect of delayed refunds of Customs duty and no interest is payable in respect of deposits such as deposits for project imports, security for provisional release of goods etc.

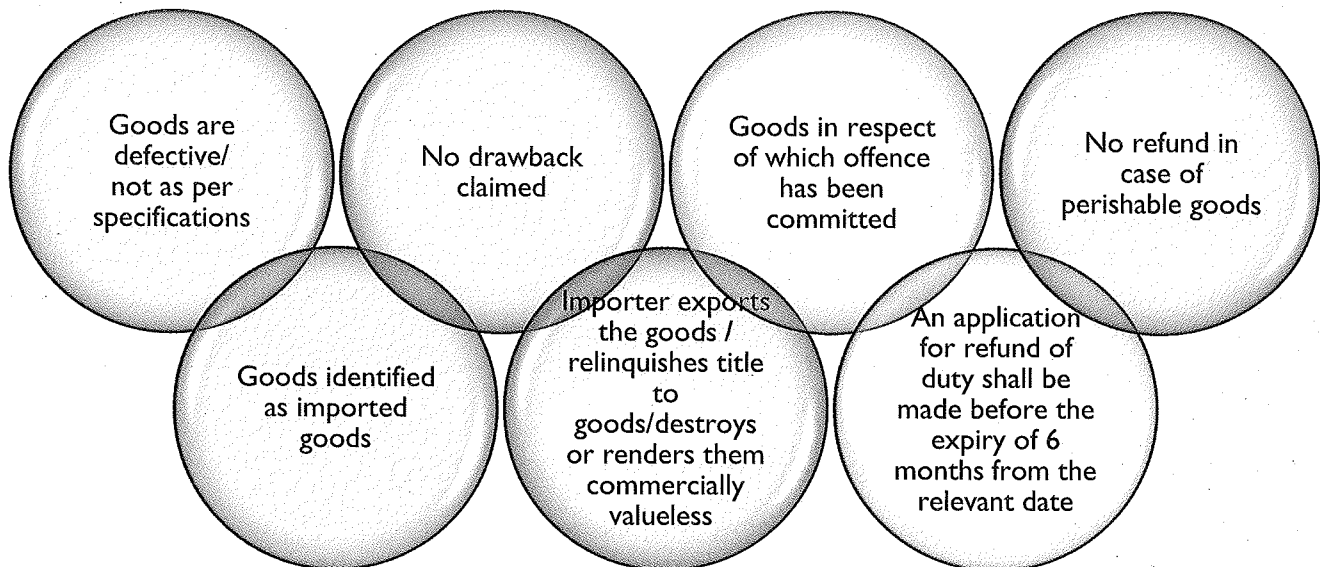

REFUND OF EXPORT DUTY IN CERTAIN CASES [SECTION 26]

Where export duty has been paid on the exportation of any goods, such duty shall be refunded to the person by whom or on whose behalf it was paid, if -

- (a) the goods are returned to such person otherwise than by way of re-sale
- (b) the goods are re-imported within one year from the date of exportation; and
- (c) an application for refund of such duty is made before the expiry of six months from the date on which the proper officer makes an order for the clearance of the goods.

REFUND OF IMPORT DUTY IN CERTAIN CASES [SECTION 26A]

Section 26A provides that the import duty paid on clearance of imported goods for home consumption shall be refunded to the person who has paid such duty subject to the fulfillment of the following conditions:

Meaning of relevant date: Explanation to sub-section (2) provides the relevant dates in various circumstances as under:

S.No.	Case	Relevant date
1.	In case the goods are exported out of India	Date on which proper officer makes an order permitting clearance and loading of goods for exportation u/s 51
2.	In case of relinquishment of title to the goods	Date of such relinquishment
3.	In case of goods being destroyed or rendered commercially valueless	Date of such destruction or rendering of goods commercially valueless

REFUND CLAIM CANNOT BE A SUBSTITUTE FOR APPEAL

Appeal to the Commissioner (Appeals) is to be made within 60 days of receipt of the order against which the person is aggrieved. On the other hand, a refund claim can be filed within 1 year from the date of payment of duty or clearance of goods or such other event as specified in section 27. However, a refund claim cannot be a substitute for an appeal.

In the case of Priya Blue Industries Limited, 2004 (172) ELT 145 (SC), duty was assessed on the imported item and the importer paid the duty under protest. Thereafter, the importer filed a claim for refund of the duty. In this matter the Supreme Court ruled that, "Once an Order of Assessment is passed the duty would be payable as per that order. Unless that order of assessment has been reviewed under Section 28 and/or modified in an Appeal that Order stands. So long as the Order of Assessment stands the duty would be payable as per that Order of Assessment. A refund claim is not an Appeal proceeding. The Officer considering a refund claim cannot sit in appeal over an assessment made by a competent Officer. The Officer considering the refund claim cannot also review an assessment order."

FOREIGN TRADE POLICY

Foreign Trade Policy 2023

Introduction

- Foreign trade policy is set of guidelines or instructions issued by the Central Government which specifies policy for exports and imports viz., foreign trade. Its primary purpose is not merely to earn foreign exchange, but also to stimulate greater economic activity.
- It is governed by Ministry of Commerce and Industry.
- FTP 2023 (as updated) is notified by the Central Government in exercise of powers conferred u/s 5 of the Foreign Trade (Development & Regulation) Act, 1992 [FT(D&R) Act], as amended.
- It was announced and came into force w.e.f. 01.04.2023 and shall continue to be in operation unless otherwise specified or amended.

Objectives of FTP

- Aims at developing export potential
- Improving export performance
- Encouraging foreign trade
- Creating favorable balance of payment position

WTO Provisions in respect of Foreign Trade

India is member of World Trade Organisation (WTO). The four main WTO guidelines are –

- (i) Trade without discrimination
- (ii) Predictable and growing market access
- (iii) Promoting fair competition and
- (iv) Encouraging development and economic reforms.

WTO promotes free trade by lowering tariffs, quotas, import restrictions, quantity restrictions etc. Countries should 'bind' their commitments so that stability and predictability and investment is encouraged.

WTO discourages direct export incentives or subsidies on goods or services exported, as it distorts free competition. However, goods and services can be made free of Indian taxes. Hence, all our export promotion schemes are designed to suit WTO stipulations.

Role of DGFT (Director General of Foreign Trade)

- Issues Authorization for import/export.
- Grants Importer Exporter Code (IEC) Number
- Decision of DGFT is final & binding in respect of interpretation of FTP.
- Grant exemption or relief from policy/procedures by imposing certain conditions.

Importer Exporter Code (IEC)

- It is a 10-character alphanumeric number issued by DGFT.
- IEC is mandatory to export any goods out of India or to import any goods into India.
- DGFT has decided to use Income Tax PAN as IEC.
- IEC details have to be electronically updated every year, even if there are no changes; failing which it will be de-activated till updation.

Authorised Economic Operator (AEO)

- Under AEO programme of Indian Customs, a business entity engaged in international trade is granted AEO status if it is approved by Customs as compliant with supply chain security standards. Such entities are considered as trusted trade partner of Indian customs.
- AEO status holders get extensive benefits including preferential customs treatment in terms of reduced examination and faster processing and clearance of cargo, deferred payment of duty, direct port delivery/entry, enhanced border clearance privileges in Mutual Recognition Agreement (MRA) partner countries, greater facilitation and self- certification. AEO programme is based on WCO's SAFE Framework of Standards (FoS).

Towns of Export Excellence (TEE)

Selected towns which are contributing handsomely to India's exports by producing goods of specified amount may be granted recognition as TEE. They will be provided targeted support and infrastructure development to maximize their export competitiveness and enable them to move up the value chain and also to tap new markets by granting specified privileges to them.
