*"When you stop chasing wrong things, you give right things a chance to catch you..."*

### MEANING OF DEBENTURE

A debenture is an instrument issued by a company under its seal, acknowledging a debt and containing provisions as regards repayment of the principal and interest.

### LEGAL PROVISIONS

- Under Section 71 (1) of the Companies Act, 2013, a company may issue debentures with an option to convert such debentures into shares, either wholly or partly at the time of redemption.
- Provided that the issue of debentures with an option to convert such debentures into shares, wholly or partly, should be approved by a special resolution passed at a duly convened general meeting.
- Section 71 (2) further provides that no company can issue any debentures which carry any voting rights.
- If a charge has been created on any asset or the entire assets of the company, the nature of the charge & the asset(s) charged are described therein.
- Debentures are usually redeemable i.e. either redeemed in cash or convertible after a time period. Redeemable debentures may be redeemed:
  - after a fixed number of years; or
  - any time after a certain number of years has elapsed since their issue; or
  - on giving a specified notice; or

### DEBENTURE REDEMPTION RESERVE (DRR)

A company issuing debentures may be required to create a debenture redemption reserve account out of the profits available for distribution of dividend and amounts credited to such account cannot be utilised by the company except for redemption of debentures.
