* What is Bills of Exchange ?

— Bills of exchange is a,

- written document
- Issued by drawer containing an unconditional order.
- on Drawee to pay certain sum of money
- on specified date and to drawer of bill or to person ordered by Drawer of Bill.

* These are 3 Parties in Bills of

Exchange :

a) Drawer of Bill

- Creditor
- maker
- seller

b) Drawee of Bill

- debtor
- acceptor
- buyer

C) Payee - who receives payment on behalf of Drawer.

Note: normally Drawer and Payee are same person.

* What is Foreign Bill?

- Foreign Bill are those bill which are Issued in other country and accepted in other country. [Payable in other country]

* Example:

1) Drawn in India and Payable outside India.

2) Drawn in Foreign and Payable in India.

* What is Promissory Note?

- Promissory note is an instrument,
 - in writing
 - containing unconditional promise
 - To pay certain sum of money
 - To Drawee on the person ordered by drawer.
- Promissory note will not include Bank note or currency note.
- Promissory note cannot be made payable to bearer as per sec-31(2) of RBI act.

* These are 2 partners in Promissory

Note :-

1) Maker

- Debtor
- Buyer
- Promiser

2) Promisee

- Creditor
- Seller
- Payee

* Term of Bill :-

a) Payable "after date".

→ calculation of days start from date of Bill.

b) Payable "after sight".

→ calculation of days start from date of Acceptance.

c) "At sight" / "At presentment" or nothing in mentioned.

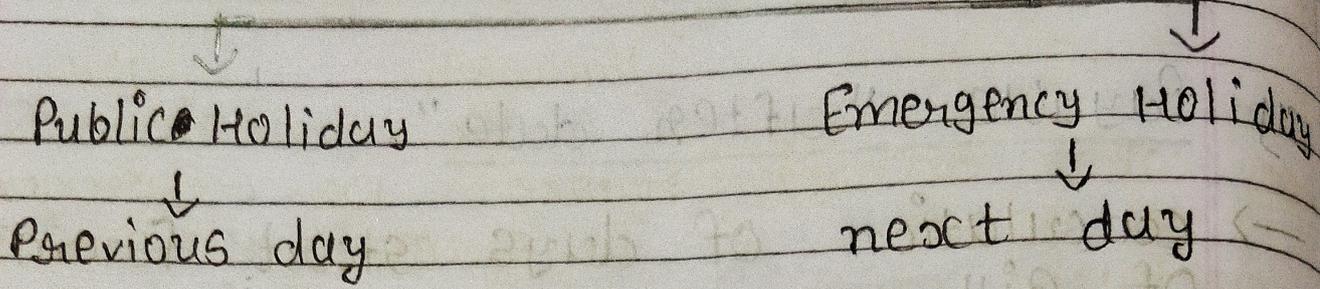

→ Payable on Demand [no grace days allowed]

* What is grace days?

• Normally, 3 days of grace is allowed in case of instrument.

• Grace days is not allowed "on demand."

— Due date of Bill + 3 days of Grace = Maturity date of Bill

* Use of Bill by Drawers:

	To Bank			10,000

* Notes :-

- Normally bills of exchange are used to finance trade transaction that is purchase & sale.
- But any bill of exchange is used for financial need without any trade transaction such type of bill is known as Accommodation bill.
- In accommodation bill one party [drawer] will issue bill to other party [drawee] who will accept the bill & returned it to the first party who will discount the bill with its bank.
- The proceeds received from the bank will be shared between both the party in agreed ratio & in same ratio discount will be distributed.
- On maturity date drawer of the bill will send his share [including discount] to the drawee & drawee will pay the total amount to bank.
- In case drawer of the bill fails to pay amount on maturity, drawee of the first bill will issue a new bill on drawer of the first bill.

- The drawer of first bill [drawee of second bill] will discount the second bill with his bank & the amount received from bank will be first utilized to pay the first bill & any remaining amount will be distributed among both the parties.

* Formula :-

- Discount on second bill to be borne by first drawer :

Benefit of the first bill + Proceed received of second bill \times Discount amount received of second bill after discount
