

Assignment AS-1 Disclosure of Accounting Policies

| Q. No. | Questions and Solutions |
|--------|---|
| 1. | <p>What are the three fundamental accounting assumptions recognized by Accounting Standard (AS)-1? Briefly describe each one of them.</p> <p style="text-align: right;">(ICAI SM/ Nov. 2020 RTP /May 2013)</p> |
| Sol. | <p>Accounting Standard (AS-1) recognizes three fundamental accounting assumptions. These are as follows: -</p> <ol style="list-style-type: none"> 1) Going Concern: The financial statements are normally prepared on the assumption that an enterprise will continue its operations in the foreseeable future and neither there is intention, nor there is need to materially curtail the scale of operations. 2) Consistency; The principle of consistency refers to the practice of using same accounting policies for similar transactions in all accounting periods unless the change is required (i) by a statute, (ii) by an accounting standard or (iii) for more appropriate presentation of financial statements. 3) Accrual basis of accounting: Under this basis of accounting, transactions are recognised as soon as they occur, whether or not cash or cash equivalent is actually received or paid. |
| 2. | <p>In the books of M/s Prashant Ltd., closing inventory as on 31.03.20X2 amounts to ₹1,63,000 (on the basis of FIFO method).</p> <p>The company decides to change from FIFO method to weighted average method for ascertaining the cost of inventory from the year 20X1 -X2. On the basis of weighted average method, closing inventory as on 31.3.20X2 amounts to ₹1,47,000. Realisable value of the inventory as on 31.03.20X2 amounts to ₹1,95,000.</p> <p>Discuss disclosure requirement of change in accounting policy as per AS-1.</p> <p style="text-align: right;">(ICAI SM/RTP/Nov. 2015)</p> |
| Sol. | <p>Provision: - As per AS-1 "Disclosure of Accounting Policies", <u>any change in an accounting policy which has a material effect should be disclosed in the financial statements. The amount by which any item in the financial statements is affected by such change should also be disclosed to the extent ascertainable.</u></p> <p><u>Where such amount is not ascertainable, wholly or in part, the fact should be indicated.</u></p> <p>Analysis and Conclusion: - In the given case Prashant Ltd. should disclose the change in valuation method of inventory and its effect on financial statements. The Company may disclose the change in accounting policy in the following manner;</p> <p>✓ 'The company values its inventory at lower of cost and net realizable value. Since net realizable value of all items of inventory in the current year was greater than respective costs. <u>The company valued its inventory at cost. In the present year i.e., 20X1-X2, the company has changed to weighted average method, which better reflects the consumption pattern of inventory, for ascertaining inventory costs from the earlier practice of using FIFO for the purpose. The change in policy has reduced current profit and value of inventory by ₹16,000.</u></p> |

| <p>3.</p> | <p>XYZ Company is engaged in the business of financial services and is undergoing tight liquidity position, Since most of the assets of the company are blocked in various claims/petitions in a Special Court. XYZ has accepted Inter-Corporate Deposits (ICDs) and, it is making its best efforts to settle the dues.</p> <p>There were claims at varied rates of interest, from lenders, from the due date of ICDs to the date of repayment. The company has provided interest, as per the terms of the contract till the due date and a note for non-provision of interest on the due date to date of repayment was affected in the financial statements.</p> <p>On account of uncertainties existing regarding the determination of the amount and in the absence of any specific legal obligation at present as per the terms of contract, the company considers that these claims are in the nature of “claims against the company not acknowledged as debt”. And the same has been disclosed by way of a note in the accounts instead of making a provision in the profit and loss accounts. State whether the treatment done by the Company is correct or not.</p> <p style="text-align: right;">(ICAI SM/May 2017/Nov. 2013)</p> | | | | | | | | |
|--|---|-------------|-----|----------------------------|-----------|---|-----------|--|-----------|
| <p>Sol.</p> | <p>Provision: - As per AS-1 ‘Disclosure of Accounting Policies’ recognises ‘<u>prudence</u>’ as <u>one of the major considerations governing the selection and application of accounting policies</u>. In view of the uncertainty attached to future events, <u>profits are not anticipated but recognised only when realised though not necessarily in cash</u>. <u>Provision is made for all known liabilities and losses even though the amount cannot be determined with certainty</u> and represents only a best estimate in the light of available information.</p> <p>Also, as per AS-1, ‘accrual’ is one of the fundamental accounting assumptions. Irrespective of the terms of the contract, so long as the principal amount of a loan is not repaid. The lender cannot be replaced in a disadvantageous position for non-payment of interest in respect of overdue amount.</p> <p>Analysis and Conclusion: - In the given case it is apparent that the company has an obligation on account of the overdue interest. In this situation, the company should provide for the liability (Since it is not waived by the lenders) at an amount estimated or on reasonable basis based on facts and circumstances of each case.</p> <p>However, in respect of the overdue interest amounts, which are settled, the liability should be accrued to the extent of amounts settled. <u>Non-provision of the overdue interest liability amounts to violation of accrual basis of accounting</u>.</p> <p>Therefore, the <u>treatment, done by the company, of not providing the interest amount from due date to the date of repayments is not correct</u>.</p> | | | | | | | | |
| <p>4.</p> | <p>ABC Ltd. was making provision for non-moving inventories based on no issues for the last 12 months up to 31.3.20X0.</p> <p>The company wants to provide during the year ending 31.3.2020 based on technical evaluation:</p> <table border="1" data-bbox="357 1528 1421 1675"> <thead> <tr> <th style="text-align: center;">Particulars</th> <th style="text-align: center;">(₹)</th> </tr> </thead> <tbody> <tr> <td>• Total Value of Inventory</td> <td style="text-align: right;">100 lakhs</td> </tr> <tr> <td>• Provision required based on 12 months issue</td> <td style="text-align: right;">3.5 lakhs</td> </tr> <tr> <td>• Provision required based on technical evaluation</td> <td style="text-align: right;">2.5 lakhs</td> </tr> </tbody> </table> <p>Does this amount to change in Accounting Policy? Can the company change the method of provision?</p> <p style="text-align: right;">(May 2020 RTP /Nov. 2018/ March 2021 MTP)</p> | Particulars | (₹) | • Total Value of Inventory | 100 lakhs | • Provision required based on 12 months issue | 3.5 lakhs | • Provision required based on technical evaluation | 2.5 lakhs |
| Particulars | (₹) | | | | | | | | |
| • Total Value of Inventory | 100 lakhs | | | | | | | | |
| • Provision required based on 12 months issue | 3.5 lakhs | | | | | | | | |
| • Provision required based on technical evaluation | 2.5 lakhs | | | | | | | | |

| | |
|-------------|--|
| Sol. | <p>Provision: - As per AS-1 'Disclosure of Accounting Policies' recognises '<u>Any change in the accounting policies which have material affect in the current period or which is reasonably expected to have a material affect in a later period should be disclosed.</u></p> <p>Analysis and conclusion: - In the given case the <u>decision of making provision for non-moving inventories on the basis of technical evaluation does not amount to change in accounting policy.</u> Accounting policy of a company may require that provision for non-moving inventories should be made. The method of estimating the amount of provision may be changed in case a more prudent estimate can be made. In the given case, considering the total value of inventory.</p> <p><u>The change in the amount of required provision of non-moving inventory from ₹3.5 lakhs to ₹2.5 lakhs is also not material.</u> The disclosure can be made for such change in the following lines by way of notes to the accounts in the annual accounts of ABC Ltd. for the year 20X0-X1.</p> |
| 5. | <p>Jagannath Ltd. had made a rights issue of shares in 20X2. In the offer document to its members, it had projected a surplus of ₹40 crores during the accounting year to end on 31st March, 20X2. The draft results for the year,</p> <p>prepared on the hitherto followed accounting policies and presented for perusal of the board of directors showed a deficit of ₹10 crores. The board in consultation with the managing director, decided on the following:</p> <ol style="list-style-type: none"> 1) Value year-end inventory at works cost (₹50 crores) instead of the hitherto method of valuation of inventory at prime cost (₹30 crores). 2) Provide depreciation for the year on straight line basis on account of substantial additions in gross block during the year, instead of on the reducing balance method. Was hitherto adopted. As a consequence, the charge for depreciation at ₹27 crores is lower than the amount of ₹45 crores which would have been provided had the old method been followed by ₹18 crores. 3) Not to provide for "after sales expenses" during the warranty period. Till the last year. Provision at 2% of sales used to be made under the concept of "matching of costs against revenue". And actual expenses used to be charged against the provision. The board new decided to account for expenses as and when actually incurred Sales during the year total to ₹600 crores. 4) Provide for permanent fall in the value of investments- which fall had taken place over the past five years- the provision being ₹10 crores. <p>As Chief accountant of the company. You are asked by the managing director to draft the notes on accounts for inclusion in the annual report for 20X1-20X2</p> <p style="text-align: right;">(ICAI SM/May 2021 RTP)</p> |

| | |
|--------------------|---|
| <p>Sol.</p> | <p>Provision: -As per AS-1, 'Disclosure of Accounting Policies' recognises <u>any change in the accounting policies which has a material effect in the current period or which is reasonably expected to have a material effect in later periods should be disclosed.</u> In the case of a change in accounting policies which has a material effect in the current period. The amount by which any item in the financial statements is affected by such change should also be disclosed to the extent ascertainable. Where such amount is not ascertainable, wholly or in part, the fact should be indicated. Accordingly, the notes on accounts should properly disclose the change and its effect.</p> <p>Analysis and conclusion: - In the given case following notes to accounts are prepared -:</p> <p>Notes to Accounts: -</p> <ol style="list-style-type: none"> 1) During the year <u>inventory has been valued at factory cost, against the practice of valuing it at prime cost</u> as was the practice till last year. This has been done to take cognizance of the more capital-intensive method of production on account of heavy capital expenditure during the year. As a result of this change, the year-end <u>inventory has been valued at ₹50 crores and the profit for the years is increased by ₹20 crore.</u> 2) In view of the heavy capital-intensive method of production introduced during the year, the company has decided to change the method of providing depreciation from reducing balance method to straight line method. As a result of this change, <u>Depreciation has been provided at ₹27 crores which is lower than the charge which would have been made had the old method and the old rates been applied, by ₹18 crores.</u> To that extent, the profit for the year is increased by Rs.9 crores. 3) So far, the company has been providing 2% of sales for meeting "after sales expenses during the warranty period. With the improved method of production, the probability of defects occurring in the products has reduced considerably. Hence, <u>the company has decided not to make provision for such expenses but to account for the same as and when expenses are incurred.</u> Due to this change, the profit for the year is increased by ₹12 crores than would have been the case if the old policy were to continue. 4) The company has decided to provide ₹10 crores for the permanent fall in the value of investments which has taken place over the period of past five years. <u>The provision so made has reduced the profit disclosed in the accounts by ₹ 10 Crores.</u> |
| <p>6.</p> | <p>State whether the following statements are 'True' or 'False'. Also give reason for your answer;</p> <ol style="list-style-type: none"> 1) Certain fundamental accounting assumptions underline the preparation and presentation of financial statements. They are usually specifically stated because their acceptance and use are not assumed. 2) If fundamental accounting assumptions are not followed in presentation and preparation of financial statements, a specific disclosure is not required. 3) All significant accounting policies adopted in the preparation and presentation of financial statements should form part of the financial statements. <p>Any change in an accounting policy, which has a material effect should be disclosed. Where the amount by which any item in the financial statements is affected by such change is not ascertainable, wholly or in part, the fact need not to be indicated.</p> <p style="text-align: right;">(May 2020 RTP / April 2021 MTP)</p> |

| | |
|-------------|---|
| Sol. | <p>1) False: - As per AS-1 “Disclosure of Accounting Policies”, <u>certain fundamental accounting assumptions underlie the preparation and presentation of financial statements.</u> They are usually not specifically stated because their acceptance and use are assumed. Disclosure is necessary if they are not followed.</p> <p>2) False: -As per AS 1, If the <u>fundamental accounting assumptions, viz. Going Concern, Consistency and Accrual are followed in financial statements. Specific disclosure is not required.</u> If a fundamental accounting assumption is not followed, the fact should be disclosed.</p> <p>3) True: - <u>To ensure proper understanding of financial statements. It is necessary that all significant accounting policies adopted in the preparation and presentation of financial statements should be disclosed.</u> The disclosure of the significant accounting policies as such should form part of the financial statements and they should be disclosed in one place i.e. in the notes to the accounts.</p> <p>4) False: - <u>Any change in the accounting policies which has a material effect in the current period or which is reasonable expected to have a material effect in later periods should be disclosed.</u> Where such amount is not ascertainable, wholly or in part, the fact should be indicated.</p> |
|-------------|---|

Assignment AS-2 Valuation of Inventories

| Q. No. | Questions and Solution |
|-------------|---|
| 1. | <p>What are the items that are to be excluded in determination of the cost of inventories as per AS - 2?</p> <p style="text-align: right;">(May 2008 RTP)</p> <p style="text-align: center;">Or,</p> <p>“In determining the cost of inventories, it is appropriate to exclude certain costs and recognize them as expenses in the period in which they are incurred.” Provide example of such costs as per AS-2; Valuation of Inventories.</p> <p style="text-align: right;">(November 2012/ICAI SM/November 2020 RTP)</p> |
| Sol. | <p>As per AS-2 Valuation of Inventories lists down the specific costs which are to be excluded from cost of inventories.</p> <p>The list is as follows;</p> <ol style="list-style-type: none"> 1) Abnormal Amounts of wasted materials, labour or other production cost. 2) Storage Costs, unless those costs are necessary in the production process prior to a further production stage. 3) Administrative overheads that do not contribute to bringing the inventories to their present location and condition. 4) Selling and distribution costs. 5) Borrowing cost - Interest and other borrowing cost are not relating to bringing the inventories to their present location and condition therefore these costs are not included in cost of inventory however it may be taken as part of inventory cost when inventory takes substantial period of time to get ready for intended sale. |
| 2. | <p>On 31st March 20X1, a business firm finds that cost of a partly finished unit on that date is ₹530. The unit can be finished in 20X1-X2 by an additional expenditure of ₹310. The finished unit can be sold for ₹750 subject to payment of 4% brokerage on selling price.</p> <p>The firm seeks your advice regarding the amount at which the unfinished unit should be valued as at 31st March, 20X1 for preparation of final accounts. Assume that the partly finished unit cannot be sold in semi-finished form and its NRV is zero without processing it further.</p> <p style="text-align: right;">(ICAI SM/November 2021 RTP/May 2013)</p> |
| Sol. | <p>Provision: - As per AS-2(Revised) “Valuation of inventories” Inventories should be valued at lower of cost and net realisable value. <u>Net realisable value is the estimated costs of completion and the estimated costs necessary to make the sale.</u></p> <p>Analysis and conclusion: - In the given case the following computations are given:</p> |

| Valuation of unfinished unit; | |
|---|------------|
| Particulars | (₹) |
| ✓ Net selling price | 750 |
| ✓ Less: Estimated cost of completion | (310) |
| | 440 |
| ✓ Less: Brokerage (4% of 750) | (30) |
| ✓ Net Realisable Value | 410 |
| ✓ Cost of inventory | 530 |
| ✓ Value of inventory (Lower of cost and net realisable value) | 410 |

3. A Limited is engaged in manufacturing of Chemical Y for which Raw Material X is required. The company provides you following information for the year ended 31st March, 2017;

| Particulars | (₹) per unit |
|------------------------|---------------------|
| Raw Material X; | |
| ✓ Cost price | 380 |
| ✓ Unloading Charges | 20 |
| ✓ Freight Inward | 40 |
| ✓ Replacement cost | 300 |
| Chemical Y; | |
| ✓ Material consumed | 440 |
| ✓ Direct Labour | 120 |
| ✓ Variable Overheads | 80 |

Additional Information: -

- Total fixed overhead for the year was ₹4,00,000 on normal capacity of 20,000 units.
- Closing balance of Raw Material X was 1,000 units and Chemical Y was ₹2,400 units.

You are required to calculate the total value of closing stock of Raw Material X and Chemical Y according to AS-2, when

- Net Realizable value of Chemical Y is ₹800 per unit.
- Net Realizable value of Chemical Y is ₹600 per unit.

(November 2017/ May 2015 RTP)

Sol. **Provision:** - As per AS-2 (Revised) "Valuation of inventories" Inventories should be valued at lower of cost and net realisable value. Raw Material is valued at cost if finished goods are sold at cost or above cost otherwise raw materials is valued at replacement cost.

Provision and conclusion: - In the given case following computations are given:
Valuation of finished goods stock;

a) Cost per unit of finished goods;

| | |
|---|--------------|
| ✓ Material | 440 |
| ✓ Add: Direct Labour | 120 |
| ✓ Direct Overhead | 80 |
| ✓ Fixed Production $\left[\frac{4,00,000}{20,000} \right]$ | 20 |
| | ₹ 660 |

∴ Cost per unit of finished goods = ₹ 660 per unit.

| | <p>b) Valuation of finished goods will be;</p> <ul style="list-style-type: none"> ✓ If NRV is ₹ 800 per unit, ✓ Value per unit (Lower of cost ₹ 660 & NRV) = 660 ✓ Total value of finished goods stock = ₹ 660 × 2400 units = ₹ 15,84,000 ✓ If NRV is ₹ 600 per unit, ✓ Value per unit (Lower of cost ₹ 660 & NRV) = 600 ✓ Total value of finished goods stock = ₹ 600 × 2400 units = ₹ 14,40,000 <p>Valuation of Raw Materials;</p> <p>a) Cost per unit of Raw Material;</p> <table border="1" data-bbox="318 617 1442 806"> <thead> <tr> <th>Particulars</th> <th>Cost per unit</th> </tr> </thead> <tbody> <tr> <td>✓ Purchase Price</td> <td>380</td> </tr> <tr> <td>✓ Add: Freight Charges</td> <td>40</td> </tr> <tr> <td>✓ Add: Unloading cost per unit</td> <td>20</td> </tr> <tr> <td></td> <td>₹ 440</td> </tr> </tbody> </table> <p>b) Total Value of Raw Materials (Closing Stock);</p> <p>1) Finished Goods are valued at cost;</p> <table border="1" data-bbox="318 907 1442 1163"> <thead> <tr> <th>Particulars</th> <th>(₹)</th> </tr> </thead> <tbody> <tr> <td>✓ Raw Materials cost per unit</td> <td>₹ 440</td> </tr> <tr> <td>✓ Replacement cost per unit</td> <td>₹ 300</td> </tr> <tr> <td>✓ Relevant value per unit</td> <td>₹ 440 [Since finished goods are valued at cost.]</td> </tr> <tr> <td>✓ Total value for ₹ 1,000 units</td> <td>= 1000 × ₹ 440 = ₹ 4,40,000</td> </tr> </tbody> </table> <p>2) Finished goods are valued at NRV;</p> <table border="1" data-bbox="318 1230 1442 1478"> <thead> <tr> <th>Particulars</th> <th>(₹)</th> </tr> </thead> <tbody> <tr> <td>✓ Raw Materials cost per unit</td> <td>₹ 440</td> </tr> <tr> <td>✓ Replacement cost per unit</td> <td>₹ 300</td> </tr> <tr> <td>✓ Relevant value per unit</td> <td>₹ 300 [Since finished goods are valued at NRV]</td> </tr> <tr> <td>✓ Total value for ₹ 1,000 units</td> <td>= 1000 × ₹ 300 = ₹ 3,00,000</td> </tr> </tbody> </table> | Particulars | Cost per unit | ✓ Purchase Price | 380 | ✓ Add: Freight Charges | 40 | ✓ Add: Unloading cost per unit | 20 | | ₹ 440 | Particulars | (₹) | ✓ Raw Materials cost per unit | ₹ 440 | ✓ Replacement cost per unit | ₹ 300 | ✓ Relevant value per unit | ₹ 440 [Since finished goods are valued at cost.] | ✓ Total value for ₹ 1,000 units | = 1000 × ₹ 440 = ₹ 4,40,000 | Particulars | (₹) | ✓ Raw Materials cost per unit | ₹ 440 | ✓ Replacement cost per unit | ₹ 300 | ✓ Relevant value per unit | ₹ 300 [Since finished goods are valued at NRV] | ✓ Total value for ₹ 1,000 units | = 1000 × ₹ 300 = ₹ 3,00,000 |
|---------------------------------------|--|-------------|---------------|------------------|-----|-------------------------------|----|---------------------------------------|----|--|--------------|-------------|-----|-------------------------------|-------|-----------------------------|-------|---------------------------|--|---------------------------------|---------------------------------------|-------------|-----|-------------------------------|-------|-----------------------------|-------|---------------------------|--|---------------------------------|---------------------------------------|
| Particulars | Cost per unit | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Purchase Price | 380 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Add: Freight Charges | 40 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Add: Unloading cost per unit | 20 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | ₹ 440 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Particulars | (₹) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Raw Materials cost per unit | ₹ 440 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Replacement cost per unit | ₹ 300 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Relevant value per unit | ₹ 440 [Since finished goods are valued at cost.] | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Total value for ₹ 1,000 units | = 1000 × ₹ 440 = ₹ 4,40,000 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Particulars | (₹) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Raw Materials cost per unit | ₹ 440 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Replacement cost per unit | ₹ 300 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Relevant value per unit | ₹ 300 [Since finished goods are valued at NRV] | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| ✓ Total value for ₹ 1,000 units | = 1000 × ₹ 300 = ₹ 3,00,000 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 4. | <p>Hello Ltd. purchased goods at the cost of ₹20 lakhs in October. Till the end of the financial year, 75% of the stocks were sold. The Company wants to disclose closing stock at ₹5 lakhs. The expected sale value is ₹5.5 lakhs and a commission at 10% on sale is payable to the agent. You are required to ascertain the value of closing stock?</p> <p style="text-align: right;">(November 2019 RTP/ICAI SM)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| Sol. | <p>Provision: - As per AS-2 (Revised) "Valuation of Inventories", <u>the inventories are to be valued at lower of cost or net realizable value.</u></p> <p>Analysis and conclusion: - In this case, the cost of inventory is ₹5 lakhs. The net realizable value is ₹4.95 lakhs (₹5.5 lakhs less cost to make the sale @ 10% of ₹5.5 lakhs). So, the closing stock should be valued at ₹ 4.95 lakhs.</p> | | | | | | | | | | | | |
|------------------------------|---|-----------------------------------|------------------------------------|-----------------------------------|----------|----------------------------|-----------|-----------------------------|--------|-----------------|-------------|----|----|
| 5. | <p>Capital Cables Ltd., has a normal wastage of 4% in the production process. During the year 20X1-X2 the Company used 12,000 MT of raw material costing ₹150 per MT. At the end of the year 630 MT of wastage was in stock. The accountant wants to know how this wastage is to be treated in the books. Explain in the context of AS 2 the treatment of normal loss and abnormal loss and also find out the amount of abnormal loss if any.</p> <p style="text-align: right;">(November 2014/ICAI SM)</p> | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-2 (Revised) 'Valuation of Inventories' <u>abnormal amounts of wasted materials, labour and other production costs are excluded from cost of inventories</u> and such costs are recognised as expenses in the period in which they are incurred. The amount of normal loss will be included in computing the cost of inventories (finished goods) at the year end.</p> <p>Analysis and conclusion: - In the case of capital cables Ltd. Amount of Abnormal Loss;</p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 60%;">✓ Material used</td> <td style="width: 40%; text-align: right;">12,000 MT @ ₹ 150 = ₹ 18,00,000</td> </tr> <tr> <td>✓ Normal Loss (12,000 MT 4%)</td> <td style="text-align: right;">480 MT</td> </tr> <tr> <td>✓ Net Quantity of material</td> <td style="text-align: right;">11,520 MT</td> </tr> <tr> <td>✓ Abnormal Loss in Quantity</td> <td style="text-align: right;">150 MT</td> </tr> <tr> <td>✓ Abnormal Loss</td> <td style="text-align: right;">₹ 23,437.50</td> </tr> </table> <p>[150 units @ ₹156.25 (₹18,00,000/11,520)]</p> <p style="text-align: center;"><small>Green Education Academy Focus on Developing Concepts</small></p> <p>*Therefore, ₹ 23,437.50 will be charged to the Profit and Loss Statement.</p> | ✓ Material used | 12,000 MT @ ₹ 150 = ₹ 18,00,000 | ✓ Normal Loss (12,000 MT 4%) | 480 MT | ✓ Net Quantity of material | 11,520 MT | ✓ Abnormal Loss in Quantity | 150 MT | ✓ Abnormal Loss | ₹ 23,437.50 | | |

| 13. | <p>Mr. Mehul gives the following information relating to items forming part of inventory as on 31-03-20X1. His factory produces Product X using Raw material A.</p> <ol style="list-style-type: none"> 1) 600 units of Raw Material A (purchased @ ₹120). Replacement cost of raw material A as on 31-03-20X1 is ₹90 per unit. 2) 500 units of partly finished goods in the process of producing X and cost incurred till date ₹260 per unit. These units can be finished next year by incurring additional cost of ₹60 per unit. 3) 1500 units of finished Product X and total cost incurred ₹320 per unit. <p>Expected selling price of Product X is ₹300 per unit.</p> <ol style="list-style-type: none"> 1) Determined how each item of inventory will be valued as on 31-03-20X1. 2) Also calculate the value of total inventory as on 31-03-20X1. <p style="text-align: right;">(May 2015)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| Sol. | <p>Provision: - As per AS-2(Revised) "valuation of inventories" <u>Inventory is to be valued at cost or realizable value whichever is lower.</u> And if <u>finished product is expected to be sold below cost</u> then <u>raw material should be valued at NRV</u> if there is decline in price of material. In such circumstances, the replacement cost of materials may be best available measure of their net realizable value.</p> <p>Analysis and conclusion: -</p> <p>1) Valuation of Raw Material;</p> <ul style="list-style-type: none"> ✓ Here product X is expected to be sold at ₹300 per unit which is below than total cost per unit which is ₹320. Then <u>raw material is to be valued at replacement cost.</u> ✓ So, valuation of raw material is done as follows; ✓ No. of units × Replacement Cost/unit = $600 \times 90 = ₹ 54,000$ ✓ <u>Raw material is to be valued at ₹54,000</u> <p>2) Valuation of WIP: 500 units of partly <u>finished goods will be valued at ₹240 per unit</u> i.e., lower of cost ₹320 (₹260 + additional cost ₹60) or Net estimated selling price ₹240 (Estimated selling price ₹300 per unit less additional cost of ₹60.) $500 \text{ units} \times ₹240 = ₹ 1.20,000$</p> <p>3) Cost of Finished Goods; Here the cost of finished good is ₹320 per unit and finished good is expected to be sold at ₹300 which is less than the cost of finished goods. So, <u>finished good is valued at expected selling price</u>, as calculated follows;</p> <p style="padding-left: 40px;">$1500 \text{ units} \times ₹ 300 \text{ per unit} = ₹ 4,50,000$ So, finished good is valued at ₹4,50,000 to the year end.</p> <p style="text-align: center;">*Valuation of total inventory as on 31.03.20X1</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th style="text-align: center;">Particulars</th> <th style="text-align: center;">Amount (₹)</th> </tr> </thead> <tbody> <tr> <td>1) Valuation of raw material</td> <td style="text-align: right;">54,000</td> </tr> <tr> <td>2) Valuation of partly finished goods</td> <td style="text-align: right;">1,20,000</td> </tr> <tr> <td>3) Valuation of finished goods</td> <td style="text-align: right;">4,50,000</td> </tr> <tr> <td style="text-align: center;">Total valuation of inventory as on 31.03.20X1</td> <td style="text-align: right;">6,24,000</td> </tr> </tbody> </table> | Particulars | Amount (₹) | 1) Valuation of raw material | 54,000 | 2) Valuation of partly finished goods | 1,20,000 | 3) Valuation of finished goods | 4,50,000 | Total valuation of inventory as on 31.03.20X1 | 6,24,000 |
|--|---|-------------|------------|------------------------------|--------|---------------------------------------|----------|--------------------------------|----------|--|-----------------|
| Particulars | Amount (₹) | | | | | | | | | | |
| 1) Valuation of raw material | 54,000 | | | | | | | | | | |
| 2) Valuation of partly finished goods | 1,20,000 | | | | | | | | | | |
| 3) Valuation of finished goods | 4,50,000 | | | | | | | | | | |
| Total valuation of inventory as on 31.03.20X1 | 6,24,000 | | | | | | | | | | |
| 14. | <p>Z Limited ordered 13,000 kg. of chemicals at ₹90 per kg. The purchase price includes GST of ₹5 per kg. in respect of which full input credit is admissible. Freight incurred amounted to ₹30,000. Normal transit loss is 4%. The company actually received 12,400 kg. and consumed 10,000 kg. The company has received trade discount in the form of cash amounting to ₹1 per kg. The chemicals were delivered in containers.</p> <p>The containers were not reusable, hence sold for ₹500. The administrative expenses incurred to bring the chemicals were ₹10,000.</p> <p>Compute the value of inventory and allocate the material cost as per AS-2.</p> <p style="text-align: right;">May 2016</p> | | | | | | | | | | |

| Sol. | Cost of inventory and allocation of material cost is shown below; | | | |
|------------|--|---------------|------------------|------------------|
| | Particulars | | | (₹) |
| | ✓ Purchase price (13,000 kg × ₹ 89) | | | 11,57,000 |
| | ✓ Less: Input Credit (13,000 kg. × ₹ 5) | | | (65,000) |
| | | | | 10,92,000 |
| | ✓ Add: Freight | | | 30,000 |
| | ✓ Allocated Administrative Expenses | | | 10,000 |
| | a) Total material cost | | | 11,32,000 |
| | b) Number of units to be normally received = 96% of 13,000 kg. | | | Kg. 12,480 |
| | c) Normal cost per kg. (A/B) | | | 90.705 |
| | Allocation of material cost; | | | |
| | Particulars | Kg. | ₹/kg. | (₹) |
| | Material consumed | 10,000 | | 9,07,050 |
| | Cost of inventory (12,400 - 10,000) | 2,400 | 90.705 (approx.) | 2,17,692 |
| | Abnormal loss | 80 | | 7,258* |
| | Total material cost | 12,480 | | 11,32,000 |
| | *The difference due to rounding off of normal cost per kg. has been adjusted. Thus the inventory will be valued at ₹2,17,692. | | | |
| | Note: - | | | |
| | 1) The company has received trade discount in the form of cash. Therefore, discount has been treated as trade discount in the given answer. | | | |
| | 2) Abnormal losses are recognized as separate expenses. | | | |
| | 3) Containers are used for delivery of the chemicals and are not reusable. Cost of these containers is treated as selling and distribution expenses. The sale value of these containers will be credited to Profit and Loss Account and shall not be considered for the purpose of valuation of inventory. | | | |
| | Alternatively. The sales value of container amount of ₹500 may be deducted, while computing material cost. In that case the material cost will be computed as ₹ 11,31,500 (11,32,000 - 500) instead of ₹ 11,32,000. Accordingly the allocation of material cost will get changed. | | | |
| 15. | The closing inventory at cost of a company amounted to INR 2,84,700. The following items were included at cost in total- | | | |
| | a) 400 coats, which had cost INR 80 each and normally sold for INR 150 each. Owing to a defect in manufacture, they were all sold after the Balance Sheet date at 50% of their normal price. Selling expenses amounted to 5% of the proceeds. | | | |
| | b) 800 shoes, which had cost INR 20 each. These too were found to be defective, remedial work in April cost INR 5 per shoes, and selling expenses for the batch totalled INR 800. They were sold for INR 28 each. What should the inventory value be according to AS 2 after considering the above items? | | | |

|-------------|---|--|
| | Short Term Investment in highly liquid Sovereign Debt Mutual fund on 01-03-20X2 (having maturity period of less than 3 months) | 1,00,000 |
| | Bank Balance in a Foreign Currency Account in India (Conversion Rate: On the day of deposit ₹ 69/USD as on 31-03-20X2 ₹ 70/USD) | \$ 1,000 |
| | (ICAI SM) | |
| Sol. | Computation of Cash and Cash Equivalents as on 31st March, 20X2 | |
| | Particulars | Amount (₹) |
| | Cash balance with bank (₹ 25,000 less ₹ 15,000) | 10,000 |
| | Short term investment in highly liquid sovereign debt mutual | 1,00,000 |
| | Bank balance in foreign currency account (\$1,000 × ₹70) | 70,000 |
| | | 1,80,000 |
| | Note: Short term investment in liquid equity shares and fixed deposit will not be considered as cash and cash equivalents. | |
| 4. | In the case of a manufacturing company: i) List the items of "inflows" of cash receipts from operating activities ii) List the items of "outflows" of investing activities. | (May 1998) |
| Sol. | i) Inflows of cash receipts from operating activities: a) Cash receipts from rendering of services. b) Cash receipts from the sale of goods. c) Refund of income-tax . d) Royalties, fees, commission and other revenues. ii) Outflows of investing activities: a) Cash payment for acquiring fixed assets. b) Cash advances and loans to third parties. c) Cash payment for acquisition of shares, warrants or debt instruments of other enterprises and interest in joint ventures. | |
| 5. | Classify the following activities as i) Operating Activities, ii) Investing activities, iii) Financing activities and iv) Cash Equivalents. 1) Cash receipts from Trade Receivables 2) Marketable Securities 3) Purchase of investment 4) Proceeds from long term borrowings 5) Wages and Salaries paid 6) Bank overdraft 7) Purchase of Goodwill 8) Interim dividend paid on equity shares 9) Short term Deposits Underwriting commission paid. (May 2018/ICAI SM) | |
| Sol. | Classification of Activities | |
| | 1) Cash receipt from Trade receivables 2) Marketable Securities 3) Purchase of investment 4) Proceeds from long term borrowings 5) Wages and Salaries paid 6) Bank overdraft 7) Purchase of Goodwill 8) Interim dividend paid on equity shares 9) Short term Deposits 10) Underwriting Commission paid | Operating Activities Cash Equivalents Investing Activities Financing Activities Operating Activities Financing Activities Investing Activities Financing Activities Investing Activities Financing Activities |

| | |
|-------------|--|
| 6. | Define briefly the classification of activities, as suggested in Accounting Standard 3, to be used for preparing a cash flow statement. Give two examples of each such class of activities. <p style="text-align: right;">(May 2001)</p> |
| Sol. | According to AS-3 (Cash Flow Statement), the cash flow statement must report cash flows by operating, investing and financing activities: 1) Operating Activities: These are the <u>principal revenue producing activities of the enterprise</u> . This activity does not include in it the investing and financing activities. Examples of operating activities are, cash receipt from the sale of goods and cash payment to the supplier of goods. 2) Investing Activities: These <u>activities include the acquisition and disposal of long-term assets</u> and other investments which are not included in cash equivalents. Example of investing activities are payment made on acquiring building for business or cash received from the sale of furniture. 3) Financing Activities: Those <u>activities that results in changes in the size and composition of the owner's capital and borrowing of the enterprise</u> . Example of the financing activities are cash proceed from issue of shares and cash paid to redeem debentures. |
| 7. | Money Ltd, a non-financial company has the following entries in its Bank Account. It has sought your advice on the treatment of the same for preparing Cash Flow Statement. i) Loans and Advances given to the following and interest earned on them: 1) To suppliers 2) To employees 3) To its subsidiaries companies ii) Investment made in subsidiary Smart Ltd. and dividend received iii) Dividend paid for the year iv) TDS on interest income earned on investments made v) TDS on interest earned on advance given to suppliers Discuss in the context of AS 3 Cash Flow Statement. <p style="text-align: right;">(ICAI SM)</p> |
| Sol. | Treatment as per AS 3 "Cash Flow Statement" i) Loans and advances given and interest earned 1) To suppliers Cash flows from operating activities 2) To employees Cash flows from operating activities 3) To its subsidiary companies Cash flows from investing activities ii) Investment made in subsidiary company and dividend received Cash flows from investing activities iii) Dividend paid for the year Cash flows from financing activities iv) TDS on interest income earned on investments made No cash inflow/ cash outflow v) TDS on interest earned on advance given to suppliers No cash inflow/ cash outflow |
| 8. | X Ltd. Purchased debenture of ₹10 lakh of Y Ltd. Which are redeemable within three months. How will you show this item as per AS 3 while preparing cash flow statement for the year ended on 31 st march 20X1? <p style="text-align: right;">(ICAI SM)</p> |
| Sol. | As per AS 3, on cash flow statement cash and cash equivalent consists of cash in hand, balance with bank and short term, highly liquid investment. If investment of ₹10 lakh made in debenture is for short term period then it is an item of cash equivalent. However, if investment of ₹10 lakh made in debenture is for long term period then as per AS 3, it should be shown as cash flow from investing activities. |

AS-4 Contingencies and Events occurring after the Balance Sheet Date Assignment

| Q. No. | Questions & Answers |
|--------|---|
| 1. | <p>The financial statements of Sri Radhe Radhe Ltd. for the year 20X0-X1 approved by the Board of Directors on 15th July, 20X1. The following information was provided:</p> <ol style="list-style-type: none"> i) A suit against the company's advertisement was filed by a party on 20th April, 20X1, claiming damages of ₹ 25 lakhs. ii) The terms and conditions for acquisition of business of another company have been decided by March, 20X1. But the financial resources were arranged in April, 20X1 and amount invested was ₹ 50 lakhs. iii) Theft of cash of ₹ 5 lakhs by the cashier on 31st March, 20X1 but was detected on 16th July, 20X1. iv) Company sends a proposal to sell an immovable property for ₹ 40 lakhs in March, 20X1. The book value of the property is ₹ 30 lakhs on 31st March, 20X1. However, the Sri Radhe Radhe Ltd. Deed was registered on 15th April, 20X1. v) A major fire has damaged the assets in a factory on 5th April, 20X1. However, the assets are fully insured. <p>With reference to AS-4 "Contingencies and events occurring after the balance sheet date", state whether the above-mentioned events will be treated as contingencies, adjusting events or non-adjusting events occurring after the balance sheet date.</p> <p style="text-align: center;">(May 2019/May 2016/July 2021/November 2020 RTP(M)/November 2013(M)/ICAI SM /May 2020 RTP(M)/December 2021(M))</p> |
| Sol. | <p>Provision: - As per AS-4, "Contingencies" used in the standard is restricted to following conditions:</p> <ol style="list-style-type: none"> a) There has been an existing event or situations b) result of which is not known on the balance sheet date c) result would be known in future on happening or non-happening of certain event d) result may be either gain or loss <p>Adjusting event: - These are the events which have a contingency on balance sheet date but the event occurred after balance sheet date but before the approval of accounts by competent authority.</p> <p>Non-adjusting event: - These are the events on which there is no contingency on the balance sheet date and event is occurred after the balance sheet date but before the approval of accounts by competent authority.</p> <ol style="list-style-type: none"> i) Analysis and conclusion: - In the given case Suit filed against the company is a <u>contingent liability but it was not existing as on balance sheet date as the suit was filed on 20th April after the balance Sheet date. Hence, it will have no effect on financial statements and will be a non-adjusting event.</u> ii) Analysis and conclusion: - In the given case, terms and conditions for acquisition of business were finalized and carried out before the closure of the books of accounts but transaction for payment of financial resources was affected in April, 20X1. This is clearly an <u>adjusting event occurring after the balance sheet date. Hence, necessary adjustment to assets and liabilities for acquisition of business is necessary in the financial statements for the year ended 31st March 20X1.</u> iii) Analysis and conclusion: - In the given case, theft of cash was detected on 16th July, 18 after approval of financial statements by the <u>Board of Directors, hence no treatment is required because it is clearly the case of non-adjusting event, event occurring after balance sheet date and no contingency is available on the balance sheet date.</u> |

| | |
|------|---|
| | <p>iv) Analysis and conclusion: - In the given case, sale of immovable property was under proposal stage (negotiations also not started) on the balance sheet date so it is the case of <u>non-adjusting event</u>. Therefore, <u>no adjustment to assets for sale of immovable property is required in the financial statements for the year ended 31st March, 20X1.</u></p> <p>v) Analysis and condition: -In the given case, the condition of fire occurrence was not existing on the balance sheet date. Only the disclosure regarding event of fire and loss being completely insured <u>may be given in the report of approving authority.</u></p> |
| 2. | <p>While preparing its final accounts for the year ended 31st March 20X1, a company made a provision for bad-debts @ 4% of its total debtors (as per trend follows from the previous years). In the first week of March 20X1 a debtor for ₹ 3,00,000 had suffered heavy loss due to an earthquake; the loss was not covered by any insurance policy. In April 20X1 the debtor becomes bankrupt. Can the company provide for the full loss arising out of insolvency of the debtor in the final accounts for the year ended 31st March, 20X1.</p> <p style="text-align: center;">(November 2010/ICAI SM/November 2016/November 2011)</p> |
| Sol. | <p>Provision: - As per AS-4, "Contingencies and Events Occurring After the Balance Sheet Date", adjustments to assets and liabilities are required for events occurring after the balance sheet date if <u>such events are related to conditions existing on the balance sheet date.</u></p> <p>Analysis and Conclusion: - In the given case a debtor for ₹ 3,00,000 suffered heavy loss due to earthquake in the first week of March, 20X1, which was not covered by insurance. This information is already known to the company. The fact that he became bankrupt in April 20X1 (after the balance sheet date) is only an additional information related to the existing condition on the balance sheet date. Accordingly, <u>full provision for bad debts amounting ₹ 3,00,000 should be made, to cover the loss arising due to the insolvency of a debtor, in the final accounts for the year ended 31st March, 20X1.</u></p> |
| 3. | <p>A company entered into an agreement to sell its immovable property to another company for 35 lakhs. The property was shown in the Balance Sheet at ₹ 7 lakhs. The agreement to sell was concluded on 15th February, 20X1 and sale deed was registered on 30th April, 20X1. The financial statements for the year ended 31st March 20X1 were approved by the board on 12th May, 20X1. You are required to state, how this transaction would be dealt with in the financial statements for the year ended 31st March, 20X1.</p> <p style="text-align: center;">(November 2009/May 2016/November 2013(M)/RTP)</p> |
| Sol. | <p>Provision: - As per AS-4, "Contingencies and Events Occurring After the Balance Sheet Date", adjustments to assets and liabilities are required for events occurring after the balance sheet date if <u>such events are related to conditions existing on the balance sheet or additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date.</u></p> <p>Analysis and Conclusion: - In the given case, sale of immovable property was carried out before the closure of the books of accounts. <u>This is clearly an event occurring after the balance sheet date but agreement to sell was affected on 15th February 20X1 i.e. before the balance sheet date.</u> Registration of the sale deed on 30th April, 20X1, simply provides additional information relating to the conditions existing at the balance sheet date. Hence, <u>adjustment to assets for sale of immovable property is necessary in the financial statements for the year ended 31st March, 20X2.</u></p> |
| 4. | <p>Cashier of A-One Limited embezzled cash amounting to ₹ 6,00,000 during March, 20X1. However same comes to the notice of company management during April, 20X1 only. Financial statements of the company is not yet approved by the Board of Directors of the company. With the help of provisions of AS 4 "Contingencies and Events Occurring after the Balance Sheet Date" decide, whether the embezzlement of cash should be adjusted in the books of accounts for the year ending March, 20X1?</p> <p>What will be your reply, if embezzlement of cash comes to the notice of company management only after approval of financial statements by the Board of Directors of the company?</p> <p style="text-align: center;">(May 2012/ICAI SM/July 2021/December 2021 (M))</p> |

| | | | |
|-------------|---|----|--|
| Sol. | <p>Provision: - As per AS-4 (Revised) "Contingencies and Events Occurring After the Balance Sheet Date", adjustments to assets and liabilities are required for events occurring after the balance sheet date if <u>such events are related to conditions existing on the balance sheet or additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date.</u></p> <p>Analysis and conclusion: - In the given case, the theft, by the cashier ₹ 6,00,000 was detected after the balance sheet date (before approval of financial statements) <u>but it is an additional information materially affecting the determination of the cash amount relating to conditions existing at the balance sheet date.</u></p> <p>Therefore, it is <u>necessary to make the necessary adjustments</u> in the financial statements of the company for the year ended 31st March, 20X1 for recognition of the loss amounting ₹ 6,00,000.</p> <p>When embezzlement of cash comes to the notice of company management <u>only after approval of financial statements by Board of Directors</u> of the company, then it would be a non-adjusting item. It will be taken <u>as prior period</u> item for year ending 31st March, 20X2.</p> | | |
| 5. | <p>A case is going on between ABC Ltd. and Tax department on claiming the exemption for certain items, for the year 20X1-20X2. The court has issued the order on 15th April and rejected the claim of the company. Accordingly, company is liable to pay the additional tax. The financial statements were approved on 31st May, 20X2. Shall company account for such tax in the year 20X1-20X2 or shall it account for in the year 20X2-20X3?</p> <p style="text-align: right;">(May 2021 RTP /May 2016)</p> | | |
| Sol. | <p>Provision: - As per AS-4, "Contingencies and Events Occurring After the Balance Sheet Date", adjustments to assets and liabilities are required for events occurring after the balance sheet date if <u>such events are related to conditions existing on the balance sheet date but the result is not known on balance sheet date.</u></p> <p>Analysis and conclusion: - In the given case of ABC Ltd. Court order is conclusive evidence which has been received before approval of the financial statements means <u>event occurring after balance sheet date</u> but before the approval of accounts by competent authority, since the <u>liability is related to earlier year and information is available at balance sheet date so the event will be considered as an adjusting event</u> and accordingly the amount will be adjusted in accounts of 20X1-20X2.</p> | | |
| 6. | <p>XYZ Ltd. operates its business into various segments. Its financial year ended on 31st March, 20X0 and the financial statements were approved by their approving authority on 15th June, 20X0. The following material events took place:</p> <p>a) A major property was sold (it was included in the balance sheet at ₹ 25,00,000) for which contracts had been exchanged on 15th March, 20X0. The sale was completed on 15th May, 20X0 at a price of ₹ 26,50,000.</p> <p>b) On 2nd April, 20X0, a fire completely destroyed a manufacturing plant of the entity. It was expected that the loss of ₹ 10 million would be fully covered by the insurance company.</p> <p>You are required to state with reasons, how each of the above items should be dealt with in the financial statements of XYZ Ltd. for the year ended 31st March, 20X0.</p> <p style="text-align: right;">(Nov 2021 RTP/November 2020 RTP(M))</p> | | |
| Sol. | <p>Treatment as per AS 4 'Contingencies and Events Occurring After the Balance Sheet Date'</p> <table border="1" data-bbox="293 1633 1398 1770"> <tr> <td data-bbox="293 1633 375 1770">a)</td> <td data-bbox="375 1633 1398 1770">The sale of property should be <u>treated as an adjusting event since contracts had been exchanged prior to the year-end.</u> The effect of the sale should be reflected in the financial statements ended on 31.3.20X0 and the profit on sale of property ₹ 1,50,000 would be considered.</td> </tr> </table> | a) | The sale of property should be <u>treated as an adjusting event since contracts had been exchanged prior to the year-end.</u> The effect of the sale should be reflected in the financial statements ended on 31.3.20X0 and the profit on sale of property ₹ 1,50,000 would be considered. |
| a) | The sale of property should be <u>treated as an adjusting event since contracts had been exchanged prior to the year-end.</u> The effect of the sale should be reflected in the financial statements ended on 31.3.20X0 and the profit on sale of property ₹ 1,50,000 would be considered. | | |

| | |
|-------------|--|
| | <p>b) <u>The event is a non-adjusting event since it occurred after the year-end and does not relate to the conditions existing at the year-end.</u> However, it is necessary to consider the validity of the going concern assumption having regard to the extent of insurance cover. Also, since it is said that the loss would be fully recovered by the insurance company, the fact should be disclosed by way of a note to the financial statements.</p> |
| 7. | <p>Neel Limited has its corporate office in Mumbai and sells its products to stockists all over India. On 31st March, 20X1, the company wants to recognize receipt of cheques bearing date 31st March, 20X1 or before, as “Cheques in Hand” by reducing “Trade Receivables”. The “cheques in Hand” is shown in the Balance Sheet as an item of cash and cash equivalents. All cheques are presented to the bank in the month of April 20X1 and are also realized in the same month in normal course after deposit in the bank. State with reasons, whether each of the following is an adjusting event and how this fact is to be disclosed by the company, with reference to the relevant accounting standard.</p> <p>i) Cheques collected by the marketing personnel of the company from the stockists on or before 31st March, 20X1.</p> <p>ii) Cheques sent by the stockists through courier on or before 31st March, 20X1.</p> <p style="text-align: right;">(May 2013/May 2010)</p> |
| Sol. | <p>Provision: - As per AS-4 (Revised) “Contingencies and Events Occurring After the Balance Sheet Date”, adjustments to assets and liabilities are required for events occurring after the balance sheet date if <u>such events are related to conditions existing on the balance sheet or additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date.</u></p> <p>i) Cheques collected by the marketing personnel of the company is an adjusting event as the marketing personnel are employees of the company and therefore, are representatives of the company.</p> <ul style="list-style-type: none"> ✓ Handing over of cheques by the stockiest to the marketing employees discharges the liability of the stockist. ✓ <u>Therefore, collection of cheques by the marketing personnel is an adjusting event as per AS-4.</u> Such ‘cheques in hand’ will be shown in the Balance Sheet as ‘Cash and Cash equivalents’ with a disclosure in the Notes to accounts about the accounting policy followed by the company for such cheques. <p>ii) In case if the cheques bear the date 31st March or before and are sent by the stockists through courier on or before 31st March, 20X1, it <u>is presumed that the cheques will be received after 31st March.</u></p> <p>Collection of cheques after 31st March, 20X1 does not represent any condition existing on the balance sheet date i.e. 31st March. Thus, the collection of cheques after balance sheet date is not an adjusting event.</p> |
| 8. | <p>An earthquake destroyed a major warehouse of ACO Ltd. on 20.5.20X2. The accounting year of the company ended on 31.3.20X2. The accounts were approved on 30.6.20X2. The loss from earthquake is estimated at ₹30 lakhs. State with reasons, whether the loss due to earthquake is an adjusting or non-adjusting event and how the fact of loss is to be disclosed by the company.</p> <p style="text-align: right;">(ICAI SM/Nov. 2021 MTP)</p> |
| Sol. | <p>Provision: - As per AS-4, “Contingencies and Events Occurring after the Balance Sheet Date”, states that <u>adjustments to assets and liabilities are not appropriate for events occurring after the balance sheet date, if such events do not relate to conditions existing at the balance sheet date.</u> However, according to the standard, <u>unusual changes affecting the existence or substratum of the enterprise after the balance sheet date may indicate a need to consider the use of fundamental accounting assumption of going concern in the preparation of the financial statements</u></p> |

| | |
|------|--|
| | <p>Analysis and conclusion: - In the given case the <u>destruction of warehouse due to earthquake did not exist on the balance sheet date i.e. 31.3.20X2</u>. Therefore, <u>loss occurred due to earthquake is not to be recognised in the financial year 20X1-20X2</u>.</p> <p>As per the information given, the earthquake has caused major destruction; therefore, fundamental accounting assumption of going concern would have to be evaluated. Considering that the going concern assumption is still valid, the fact of earthquake together with an <u>estimated loss of ₹30 lakhs should be disclosed in the report of the approving authority for financial year 20X1-X2</u> to enable users of financial statements to make proper evaluations and decisions.</p> |
| 9. | <p>A company has filed a legal suit against the debtor from whom ₹15 lakh is recoverable as on 31.3.20X1. The chances of recovery by way of legal suit are not good as per legal opinion given by the counsel in April, 20X1. Can the company provide for full amount of ₹15 lakhs as provision for doubtful debts? Discuss. (ICAI SM)</p> |
| Sol. | <p>Provision: - As per AS-4 (Revised) "Contingencies and Events Occurring After the Balance Sheet Date", adjustments to assets and liabilities are required for events occurring after the balance sheet date if <u>such events are related to conditions existing on the balance sheet or additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date</u>.</p> <p>Analysis and conclusion: - In the given case, <u>company should make the provision for doubtful debts, as legal suit has been filed on 31st March, 20X1 and the chances of recovery from the suit are not good</u>. Though, the actual result of legal suit will be known in future yet situation of non-recovery from the debtors exists before finalisation of financial statements. Therefore, full amount of provision for doubtful debts should be made for the year ended on 31st March, 20X1.</p> |
| 10. | <p>In preparing the financial statements of R Ltd. for the year ended 31st March, 20X1, you come across the following information. State with reasons, how you would deal with this in the financial statements:</p> <p>The company invested 100 lakhs in April, 20X1 before approval of Financial Statements by the Board of directors in the acquisition of another company doing similar business, the negotiations for which had started during the year. (ICAI SM)</p> |
| Sol. | <p>Provision: - As per AS-4 (Revised) defines "Events Occurring after the Balance Sheet Date" as <u>those significant events, both favourable and unfavourable, that occur between the balance sheet date and the date on which the financial statements are approved by the Approving Authority in the case of a company</u>.</p> <p>Analysis and conclusion: - In the given case, <u>the acquisition of another company is an event occurring after the balance sheet date. However, no adjustment to assets and liabilities is required as the event does not affect the determination and the condition of the amounts stated in the financial statements</u> for the year ended 31st March, 20X1. The disclosure should be made in the report of the approving authority of those events occurring after the balance sheet date that represent material changes and commitments affecting the financial position of the enterprise, the <u>investment of ₹100 lakhs in April, 20X1 for the acquisition of another company should be disclosed in the report of the Approving Authority to enable users of financial statements to make proper evaluations and decisions</u>.</p> |
| 11. | <p>A Limited Company closed its accounting year on 30.6.20X1 and the accounts for that period were considered and approved by the board of directors on 20th August, 20X1. The company was engaged in laying pipeline for an oil company deep beneath the earth. While doing the boring work on 1.9.20X1 it had met a rocky surface for which it was estimated that there would be an extra cost to the tune of ₹ 80 lakhs. You are required to state with reasons, how the event would be dealt with in the financial statements for the year ended 30.6.20X1. (ICAI SM)</p> |

| Sol. | <p>Provision: - As per AS-4 (Revised) on Contingencies and Events Occurring after the Balance Sheet Date defines '<u>events occurring after the balance sheet date</u>' as '<u>significant events, both favourable and unfavourable, that occur between the balance sheet date and the date on which financial statements are approved by the Board of Directors in the case of a company</u>'. Analysis and conclusion: - In this case the incidence, which was expected to push up cost, became evident after the date of approval of the accounts. So it is not an 'event occurring after the balance sheet date'.</p> |
| 12. | <p>During the year 20X1-20X2, Raj Ltd. was sued by a competitor for ₹ 15 lakhs for infringement of a trademark. Based on the advice of the company's legal counsel, Raj Ltd. provided for a sum of ₹ 10 lakhs in its financial statements for the year ended 31st March, 20X2. On 18th May, 20X2, the Court decided in favour of the party alleging infringement of the trademark and ordered Raj Ltd. to pay the aggrieved party a sum of ₹ 14 lakhs. The financial statements were prepared by the company's management on 30th April, 20X2, and approved by the board on 30th May, 20X2 (ICAI SM)</p> |
| Sol. | <p>Provision: - As per AS-4 (Revised) "Contingencies and Events Occurring After the Balance Sheet Date", adjustments to assets and liabilities are required for events occurring after the balance sheet date if <u>such events are related to conditions existing on the balance sheet or additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date.</u> Analysis and conclusion: - In the given case, since Raj Ltd. was sued by a competitor for infringement of a trademark during the year 20X1-X2 for which the provision was also made by it, the decision of the Court on 18th May, 20X2, for payment of the penalty will constitute as an adjusting event because it is an event occurred before approval of the financial statements. Therefore, Raj Ltd. should adjust the provision upward by ₹ 4 lakhs to reflect the award decreed by the Court to be paid by them to its competitor. Had the judgment of the Court been delivered on 1st June, 20X2, it would be considered as an event occurring after the approval of the financial statements which is not covered by AS-4 (Revised). In that case, no adjustment in the financial statements of 20X1-X2 would have been required.</p> |
| 13. | <p>The Board of directors of M/s. Sri Govindjee Ltd. In its Board Meeting held on 18th April, 20X2, considered and approved the Audited Financial results along with Auditors Report for the Financial Year ended 31st March, 20X2 and recommended a dividend of ₹ 2 per equity share (on 2 crores fully paid-up equity shares of ₹ 10 each) for the year ended 31st March, 20X2 and if approved by the members at the forthcoming Annual General Meeting of the company on 18th June, 20X2, the same will be paid to all the eligible shareholders. Discuss on the accounting treatment and presentation of the said proposed dividend in the annual accounts of the company for the year ended 31st March, 20X2 as per the applicable Accounting Standard and Other Statutory Requirements. (May 2017)</p> |
| Sol. | <p>Provision: - As per the amendment in AS-4(Revised) "Contingencies and Events Occurring After the Balance Sheet Date" <u>Dividend in respect of period covered by the financial statements is and non-adjusting event. It shall not be recognized at the balance sheet date unless statute requires to do so, such dividends are disclosed in the notes to financial statements.</u> Analysis and conclusion: - In the given case Provision for proposed dividends is not required to be made. Such proposed dividends are to be disclosed in the notes to financial statements. Accordingly, the dividend of ₹ 4 Crores recommended by Sri Govindjee Ltd. in its Board meeting on 18th April, 20X2 shall not be accounted for in the books for the year 20X1-20X2.</p> |

| | |
|------|--|
| 14. | <p>The accounting year of Sri Gopal Limited ended on 31st March, 20X1 but the accounts were approved on 30th April, 20X1. On 15th April, 20X1 a fire occurred in the factory and office premises. The loss by fire is of such a magnitude that it was not possible to expect the enterprise Sri Gopal Limited to start operation again.</p> <p>State with reasons, whether the loss due to fire is an adjusting or non-adjusting event and how the fact of loss is to be disclosed by the company in the context of the provisions of AS – 4 (Revised).</p> <p style="text-align: right;">(November 2018)</p> |
| Sol. | <p>Provision: - As per AS-4 (Revised) “Contingencies and Events occurring after the Balance Sheet Date,” states an event occurring after the balance sheet date should be <u>an adjusting event</u> even if it does not reflect any condition existing on the balance sheet date, if the event is such as to indicate that the <u>fundamental accounting assumption of going concern is no longer appropriate</u>.</p> <p>Analysis and conclusion: - A fire occurred in the factory and office premises of an enterprise after 31/03/20X1. But before approval of financial statement of 20X1-X2. <u>The loss on fire is of such a magnitude that it is not reasonable to expect the company to start its operation again. i.e. the going concern assumption is not valid.</u> Since the fire occurred after 31/3/20X1, the loss on fire is not a result of any condition existing on 31/03/20X1. <u>In such a case, the entire accounts need to be prepared on a liquidation basis</u> with adequate disclosures.</p> |
| 15. | <p>Tee Ltd. closes its books of accounts every year on 31st March. The financial statements for the year ended 31st March 20X3 are to be approved by the approving authority on 30th June 20X3. During the first quarter of 20X3-20X4, the following events / transactions has taken place. The accountant of the company seeks your guidance for the following:</p> <p>i) Tee Ltd. has an inventory of 50 stitching machines costing at ₹ 5,500 per machine as on 31st March 20X3. On 31st March 20X3 the company is expecting a heavy decline in the demand in next year. The inventories are valued at cost or net realisable value, whichever is lower. During the month of April 20X3, due to fall in demand, the prices have gone down drastically. The company has sold 5 machines during this month at a price of ₹ 4,000 per machine.</p> <p>ii) A fire has broken out in the company's go down on 15th April 20X3. The company has estimated a loss of ₹ 25 lakhs of which 75% is recoverable from the Insurance company.</p> <p>iii) The company has entered into a sale agreement on 30th March 20X3 to sell a property for a consideration of ₹ 7,50,000 which is being carried in the books at ₹ 5,50,000 at the year end. The transfer of risk and reward and sale is complete in the month of May 20X3 when conveyance and possession get completed.</p> <p>iv) The company has received, during the year 20X1-20X2, a government grant of ₹ 15 lakhs for purchase of a machine. The company has received a notice for refund of the said grant on 15th June, 20X3 due to violation of some of the conditions of grant during the year 20X2-20X3.</p> <p>You are required to state with reasons, how the above transactions will be dealt with in the financial statement for the year ended 31st March 20X3.</p> <p style="text-align: right;">(October 2021 MTP)</p> |

| | |
|--------------------|---|
| <p>Sol.</p> | <p>Provision: - As per AS-4 (Revised) "Contingencies and Events occurring after the Balance Sheet Date," Events occurring after the balance sheet date are those significant events, both favourable and unfavourable, that occur between the balance sheet date and the date on which the financial statements are approved by the Board of Directors in the case of a company, and by the corresponding approving authority in the case of any other entity.</p> <p><u>Assets and liabilities should be adjusted for events occurring after the balance sheet date that provide additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date or that indicate that the fundamental accounting assumption of going concern is not appropriate.</u></p> <p>In the given case, financial statements are approved by the approving authority on 30th June 20X3.</p> <p>On the basis of above principles, following will be the accounting treatment in the financial statements for the year ended at 31st March 20X3:</p> <p>i) Since on 31st March 20X3, Tee Ltd. was expecting a heavy decline in the demand of the stitching machine. Therefore, <u>decline in the value during April, 20X3 will be considered as an adjusting event.</u> Hence, Tee Ltd. needs to adjust the amounts recognized in its financial statements w.r.t. net realisable value at the end of the reporting period. Accordingly, <u>inventory should be written down to ₹ 4,000 per machine.</u> Total value of inventory in the books will be 50 machines × ₹ 4,000 = ₹ 2,00,000.</p> <p>ii) A fire took place after the balance sheet date i.e. during 20X3 -20X4 financial year. Hence, <u>corresponding financials of 20X2-20X3 financial year should not be adjusted for loss occurred due to fire.</u> However, in this circumstance, the going concern assumption will be evaluated. In case the going concern, assumption is considered to be appropriate even after the occurrence of fire, no disclosure of the same is required in the financial statements. Otherwise, disclosure be given.</p> <p>iii) Since <u>the transfer of risk and reward and sale was complete in the month of May, 20X3 when conveyance and possession got complete, no revenue should be recognised with respect to it in the financial statements of 20X2-20X3.</u> However, a disclosure for the same should be given by the entity.</p> <p>iv) Since the notice has been received after 31st March but before 30th June 20X3 (approval date), the said <u>grant shall be adjusted in the financial statements for financial year 20X2 - 20X3 because the violation of the conditions took place in the financial year 20X2 - 20X3 and the company must be aware of it.</u></p> |
| <p>16.</p> | <p>As per the provision of AS 4, you are required to state with reason whether the following transactions are adjusting event or non-adjusting event for the year ended 31.03.20X1 in the books of NEW Ltd. (accounts of the company were approved by board of directors on 10.07.20X1):</p> <ol style="list-style-type: none"> 1) Equity Dividend for the year 20X0-X1 was declared at the rate of 7% on 15.05.20X1. 2) On 05.03.20X1, ₹ 53,000 cash was collected from a customer but not deposited by the cashier. This fraud was detected on 22.06.20X1. 3) One Building got damaged due to occurrence of fire on 23.05.20X1. loss was estimated to be ₹ 81,00,000. <p style="text-align: right;">(December 2021)</p> |
| <p>Sol.</p> | <p>Provision: - As per AS-4, "Contingencies" used in the standard is restricted to following conditions:</p> <ol style="list-style-type: none"> a) There has been an existing event or situations b) result of which is not known on the balance sheet date c) result would be known in future on happening or non-happening of certain event d) result may be either gain or loss |

| | |
|--|--|
| | <p><u>Adjusting event:</u> - These are the <u>events which have a contingency on balance sheet date but the event occurred after balance sheet date but before the approval of accounts by competent authority.</u></p> <p><u>Non-adjusting event:</u> - These are the <u>events on which there is no contingency on the balance sheet date and event is occurred after the balance sheet date but before the approval of accounts by competent authority.</u></p> <p>1) <u>Analysis and conclusion:</u> - In the given case, <u>dividend is declared after the balance sheet date so there is no contingency on balance sheet date so it is a non-adjusting event.</u></p> <p>2) <u>Analysis and conclusion:</u> - In the given case, the fraud, by the cashier ₹ 53,000 was detected after the balance sheet date (before approval of financial statements) <u>but it is an additional information materially affecting the determination of the cash amount relating to conditions existing at the balance sheet date.</u> Therefore, it is <u>necessary to make the necessary adjustments</u> in the financial statements of the company (<u>Adjusting event</u>) for the year ended 31st March, 20X1 for recognition of the loss amounting ₹ 53,000.</p> <p>3) <u>Analysis and conclusion:</u> - In the given case the <u>building got damaged due to fire did not exist on the balance sheet date i.e. 31.3.20X2.</u> Therefore, <u>loss occurred due to fire is not to be recognised (non-adjusting event) in the financial year 20X1-20X2.</u></p> |

AS-5
Net Profit or Loss for The Period, Prior Period Items and Changes in Accounting Policies
Assignment

| Q. No. | Question & Answers |
|--------|---|
| 1. | <p>i) During the year 20X1-20X2, a medium size manufacturing company wrote down its inventories to net realisable value by ₹ 5,00,000. Is a separate disclosure necessary?</p> <p>ii) A company signed an agreement with the Employees Union on 1.9.20X2 for revision of wages with retrospective effect from 30.9.20X1. This would cost the company an additional liability of ₹ 5,00,000 per annum. Is a disclosure necessary for the amount paid in 20X2-X3? (ICAI SM /May 2011/May 2012)</p> |
| Sol. | <p>i) Provision: - As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies" When <u>items of income and expense within profit or loss from ordinary activities</u> are of such size, nature or incidence that their <u>disclosure is relevant to ascertain the performance of the enterprise for the period</u>. Such items should be disclosed separately. Analysis and conclusion: - In the given case, <u>consideration does not relate to extraordinary item, but the nature and amount of such item may be relevant to users of financial statements</u> Circumstances which may <u>require separate disclosure of items of income and expense in accordance with AS 5 include the write-down of inventories to net realisable value as well as the reversal of such write-downs.</u></p> <p>ii) Provision: - As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies" When <u>items of income and expense within profit or loss from ordinary activities</u> are of such size, nature or incidence that their <u>disclosure is relevant to ascertain the performance of the enterprise for the period</u>, such items should be disclosed separately. Analysis and conclusion: - It is given that revision of wages took place on 1st September, 20X2 with retrospective effect from 30.9.20X1. Therefore, wages payable for the half year from 1.10.20X2 to 31.3.20X3 cannot be taken as an error or omission in the preparation of financial statements and hence this expenditure cannot be taken as a prior period item. Additional wages liability of ₹ 7,50,000 (for 1½ years @ ₹ 5,00,000 per annum) should be included in current year's wages. It may be mentioned that <u>additional wages is an expense arising from the ordinary activities of the company. Such an expense does not qualify as an extraordinary item.</u> Thus, <u>necessary disclosure should be made for the additional liability amounting to ₹ 7,50,000.</u></p> |
| 2. | <p>Explain whether the following will constitute a change in accounting policy or not as per AS 5.</p> <p>i) Introduction of a formal retirement gratuity scheme by an employer in place of ad hoc ex-gratia payments to employees on retirement.</p> <p>ii) Management decided to pay pension to those employees who have retired after completing 5 years of service in the organization. Such employees will get pension of ₹ 20,000 per month. Earlier there was no such scheme of pension in the organization. (May 2020 RTP /ICAI SM/November 2021 RTP)</p> |
| Sol. | <p>Provision: -As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", the <u>adoption of an accounting policy for events or transactions that differ in substance from previously occurring events or transactions, will not be considered as a change in accounting policy</u> Further, the adoption of a <u>new accounting policy for events or transactions which did not occur previously</u> or that were immaterial are not change in accounting policy Analysis and conclusion:-</p> <p>i) In the given case, introduction of a formal retirement gratuity scheme by an employer in place of ad hoc ex-gratia payments to employees on retirement is <u>not a change in an accounting policy.</u></p> |

| | <p>ii) Similarly, the adoption of a new accounting policy for events or transactions which did not occur previously or that were immaterial will <u>not be treated as a change in an accounting policy</u></p> | | | | | | | | |
|---|--|-------------|---|---|----------|---|---------|---|----------|
| 3. | <p>The company finds that the inventory sheets of 31.3.20X1 did not include two pages containing details of inventory worth ₹ 14.5 lakhs. State, how you will deal with the following matters in the accounts of Omega Ltd. for the year ended 31st March, 20X2. (ICAI SM/November 2008)</p> | | | | | | | | |
| Sol. | <p>Provision: - As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", defines <u>Prior Period items as "income or expenses which arise in the current period as a result of errors or omissions in the preparation of the financial statements of one or more prior periods"</u>.</p> <p>Analysis and conclusion: - In the given case, 2 pages of inventory sheets were missing in financial statements of 20X1 due to this the inventory of 20X1 was shown short by ₹ 14.5 lakhs as a result of which the opening inventory was understated resulting into an overvaluation of profit in 20X2. Therefore, <u>separate disclosure of prior period items should be shown separately in the statement of trading and profit and loss A/c in a manner that the impact on the current profit or loss can be perceived.</u></p> | | | | | | | | |
| 4. | <p>Closing Stock for the year ending on 31st March, 20X3 is ₹ 1,50,000 which includes stock damaged in a fire in 20X1-X2. On 31st March, 20X2, the estimated net realizable value of the damaged stock was ₹ 12,000. The revised estimate of net realizable value of damaged stock included in closing stock at 20X2-X3 is ₹ 4,000. Find the value of closing stock to be shown in Profit and Loss Account for the year 20X2-X3, using provisions of Accounting Standard 5. (May 2010/May 2013)</p> | | | | | | | | |
| Sol. | <p>Provision: - As per AS-5 (Revised) 'Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies', the <u>effect of a change in accounting estimate should be classified using the same classification in the statement of profit and loss as was used previously for the estimate.</u></p> <p>Analysis and Conclusion: - In the given case, it is presumed that the loss by fire in the year ended 31.3.20X2 i.e. difference of cost and NRV was shown in the profit and loss account as an extra-ordinary item. Reduction in estimated net realizable value of damaged stock ₹ 8,000 is the effect of <u>change in accounting estimate.</u></p> <p>Thus, in the year 20X2-X3, revision in accounting estimate should also be classified as <u>exceptional item</u> in the profit and loss account and <u>closing stock should be shown excluding the value of damaged stock.</u> Value of closing stock for the year 20X2-X3 will be as follows:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Particulars</th> <th style="text-align: center;">₹</th> </tr> </thead> <tbody> <tr> <td>Closing Stock (including damaged goods)</td> <td style="text-align: right;">1,50,000</td> </tr> <tr> <td>Less: Revised value of damaged goods already done</td> <td style="text-align: right;">(4,000)</td> </tr> <tr> <td>Closing stock (excluding damaged goods)</td> <td style="text-align: right;">1,46,000</td> </tr> </tbody> </table> | Particulars | ₹ | Closing Stock (including damaged goods) | 1,50,000 | Less: Revised value of damaged goods already done | (4,000) | Closing stock (excluding damaged goods) | 1,46,000 |
| Particulars | ₹ | | | | | | | | |
| Closing Stock (including damaged goods) | 1,50,000 | | | | | | | | |
| Less: Revised value of damaged goods already done | (4,000) | | | | | | | | |
| Closing stock (excluding damaged goods) | 1,46,000 | | | | | | | | |
| 5. | <p>Goods worth ₹ 5,00,000 were destroyed due to flood in September, 20X0. A claim was lodged with insurance company and was accepted by insurance company. But no entry was passed in the books for insurance claim in the financial year 20X0.X1. In March, 20X2, the claim was passed and the company received a Payment Of ₹ 3,50,000 against the claim. Explain the treatment of such receipt in final accounts for the year ended 31st March, 20X2. (Nov 2009/May 2018)</p> | | | | | | | | |
| Sol. | <p>Provision: - As per AS-5 "Net Profit for the Period, Prior Period Items and Changes in Accounting Policies", <u>prior period items are incomes or expenses, which arise in the current period as a result of error or omissions in the preparation of financial statements of one or more prior periods.</u> The nature and amount of prior period items should be separately disclosed in the statement of profit and loss:</p> <p>Analysis and conclusion: - In the given case, it is clearly a case of error in preparation of financial statements for the financial year 20X1-X2. Therefore, claim received in the financial year 20X2-X3 is a prior period item and should be separately disclosed in the statement of profit and loss for the year ended 31st March, 20X3.</p> | | | | | | | | |

| | |
|-------------|--|
| 6. | <p>There was a major theft of stores valued at ₹ 10 lakhs in the preceding year which was detected only during current financial year (20X1-20X2). How will you deal with this information in preparing the financial statements of R Ltd. for the year ended 31st March, 20X2.</p> <p style="text-align: right;">(November 2021 RTP)</p> |
| Ans. | <p>Provision: - As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", defines <u>Prior Period items as "income or expenses which arise in the current period as a result of errors or omissions in the preparation of the financial statements of one or more prior periods"</u>.</p> <p>Analysis and conclusion: - In the given case, Due to major theft of stores in the preceding year (20X0-20X1) which was detected only during the current financial year (20X1-20X2), there was overstatement of closing inventory of stores in the preceding year. This must have also <u>resulted in the overstatement of profits of previous year, brought forward to the current year.</u> The <u>adjustments are required to be made in the current year as 'Prior Period Items'</u> Accordingly, the adjustments relating to both opening inventory of the current year and profit brought forward from the previous year should be separately disclosed in the statement of profit and loss together with their nature and amount in a manner that their impact on the current profit or loss can be perceived. Alternatively, it <u>may be assumed that in the preceding year, the value of inventory of stores as found out by physical verification of inventories was considered</u> in the preparation of financial statements of the preceding year. In such a case, <u>only the disclosure as to the theft and the resulting loss is required in the notes to the accounts for the current year i.e, year ended 31st March, 20X2.</u></p> |
| 7. | <p>The Accountant of Virush Limited has sought your opinion, whether the following transactions will be treated as change in Accounting Policy or not for the year ended 31st March, 2020. Please advise him in the following situations in accordance with the provisions of relevant Accounting Standard;</p> <p>i) Till the previous year the machinery was depreciated on straight line basis over a period of 5 years. From current year, the useful life of furniture has been changed to 3 years.</p> <p>ii) Introduction of a formal retirement gratuity scheme by an employer in place of ad hoc ex-gratia payments to employees on retirement. (November 2020 RTP)</p> |
| Ans. | <p>i) Provision: - As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", An Accounting Estimate may have to be revised (a) if there are changes in circumstances on which the estimate was based, or (b) as a result of new information, more experience or subsequent developments.</p> <p>Analysis and conclusion: - In the given case, change in useful life of machinery from 5 years to 3 years is a change in estimate and is not a change in accounting policy.</p> <p>ii) Provision: - As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies" The adoption of a <u>new accounting policy for events or transactions which did not occur previously</u> or that were immaterial are not change in accounting policy.</p> <p>Analysis and conclusion: - In the given case, introduction of a formal retirement gratuity scheme by an employer in place of ad hoc ex-gratia payments to employees on retirement is <u>not a change in an accounting policy.</u></p> |
| 8. | <p>Fuel surcharge is billed by the State Electricity Board at provisional rates. Final bill for fuel surcharge of ₹ 5.30 lakhs for the period October, 20X1 to September, 20X7 has been received and paid in February, 20X8. However, the same was accounted in the year 20X8-X9. Comment on the accounting treatment done in the said case. (ICAI SM)</p> |
| Ans. | <p>Provision: - As per AS-5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", defines <u>Prior Period items as "income or expenses which arise in the current period as a result of errors or omissions in the preparation of the financial statements of one or more prior periods"</u>.</p> |

| | |
|------|--|
| | <p>Analysis and conclusion: - In this case, the final bill having been paid in February, 20X8 should have been accounted for in the annual accounts of the company for the year ended 31st March, 20X8. However, it seems that as a <u>result of error or omission in the preparation of the financial statements of prior period</u> i.e., for the year ended 31st March 20X8, this material charge has arisen in the current period i.e., year ended 31st March, 20X9.</p> <p>Therefore, it <u>should be treated as 'Prior period item'</u> as per AS 5. As per AS 5, prior period items are normally included in the determination of net profit or loss for the current period.</p> |
| 9. | <p>Explain the provisions of AS – 5 regarding accounting treatment of prior period items.</p> <p style="text-align: right;">(May 2009)</p> |
| Sol. | <p>As per AS 5, prior periods items are <u>income or expenses, which arise, in the current period as a result of errors or omission in the preparation of financial statements of one or more prior periods.</u> The term does not include other adjustments necessitated by circumstances, which though related to prior periods, are determined in the current period e.g. arrears payable to workers in current period as a result of revision of wages with retrospective revision of wages.</p> <p>The nature and amount of prior period items should be separately disclosed in the statement of profit and loss in a manner that their impact on profit or loss can be perceived.</p> <p>Prior period items are normally included in determination of net profit or loss for the current profit, they can be added (or deducted as the case may be) from current profit or loss after determination of current net profit or loss. In either case, the objective is to indicate the effect of such items on the current profit or loss.</p> |
| 10. | <p>The accountant of Sri Sai Limited has sought your opinion with relevant reasons, whether the following transactions will be treated as change in Accounting Policy or not for the year ended 31st March, 20X2. Please advise him in the following situations in accordance with the provisions of relevant Accounting Standard:</p> <ol style="list-style-type: none"> i) Provision for doubtful debts was created @ 2% till 31st March, 20X1. From the Financial year 20X1-20X2, the rate of provision has been changed to 3%. ii) During the year ended 31st March, 20X2, the management has introduced a formal gratuity scheme in place of ad-hoc ex-gratia payments to employees on retirement. iii) Till the previous year the furniture was depreciated on straight line basis over a period of 5 years. From current year, the useful life of furniture has been changed to 3 years. iv) Management decided to pay pension to those employees who have retired after completing 5 years of service in the organization. Such employees will get pension of ₹ 20,000 per month. Earlier there was no such scheme of pension in the organization. v) During the year ended 31st March, 20X2. there was change in cost formula in measuring the cost of inventories. <p style="text-align: right;">(November 2017)</p> |
| Sol. | <p>AS – 5 Changes in Accounting Policies</p> <ol style="list-style-type: none"> i) Creating a provision for doubtful debts is an <u>Accounting Estimate</u>. An Accounting Estimate may have to be revised (a) if there are changes in circumstances on which the estimate was based, or (b) as a result of new information, more experience or subsequent developments. Hence, <u>this is not a change in Accounting Policy but change in an Accounting Estimate.</u> ii) <u>Adaptations</u> of an accounting policy for events or transactions that differ in substance from previously occurring events or transactions <u>does not constitute a change in Accounting Policy.</u> iii) As per AS 5 & AS 10 PPE, <u>change in the estimate of useful life of fixed assets should be considered as changes Accounting Estimates.</u> Hence, this is not a change in Accounting Policy. iv) Adoption of a new Accounting Policy for events or transactions which did not occur previously or that were immaterial <u>does not constitute a change in Accounting Policy.</u> |

| | v) <u>Change in cost formula</u> in measuring the cost of inventories <u>is a change in Accounting Policy.</u> | | | | | | | | | | | | | | | | | | | | | |
|---------|---|--|-------------|---------|----|---|--------------------------------|-----|---|-----------------------------|------|---|-----------------------|-----|--|---------------------|----|---|--|-----|--|-------------------|
| 11. | Company created a provision for bad and doubtful debts at 2.5% on debtors in preparing the financial statements for the year 20X1-X2. Subsequently, on a review of the credit period allowed and financial capacity of the customers, the company decides to increase the provision to 8% on debtors as on 31.03.20X2. The accounts were not approved by the Board of Directors till the date of decision. While applying the relevant accounting standard, can this revision be considered as an extra-ordinary item or prior period item? (May 2018) | | | | | | | | | | | | | | | | | | | | | |
| Sol. | Provision: - As per AS-5(Revised), "Net Profit or Loss for the period, prior period Items and changes in Accounting policies", the preparation of financial statements involves making estimates which are based on the circumstances existing at the time when the financial statements are prepared. It may be <u>necessary to revise an estimate in a subsequent period if there is a change in the circumstances on which the estimate was based. Revision of an estimate, by its nature, does not bring the adjustment within definitions of a prior period item or an extraordinary item.</u> Analysis and conclusion: - In the given case, a limited company created 2.5% provision for doubtful debts for the year 20X1-X2. Subsequently in 20X2 the company revised the estimates based on the changed circumstances and wants to create 8% provision so this change in estimate is neither a prior period item nor an extraordinary item. However, a <u>change in accounting estimate which has material effect in the current period, should be disclosed and quantified.</u> Any change in the accounting estimate which is expected to have a material effect in later periods should also be disclosed and quantified. | | | | | | | | | | | | | | | | | | | | | |
| 12. | State whether the following items are examples of change in Accounting Policy / Change in Accounting Estimates / Extraordinary items / Prior period items / Ordinary Activity: i) Actual bad debts turning out to be more than provisions. ii) Change from Cost model to Revaluation model for measurement of carrying amount of PPE. iii) Government grant receivable as compensation for expenses incurred in previous accounting period. iv) Treating operating lease as finance lease. v) Capitalisation of borrowing cost on working capital. vi) Legislative changes having long term retrospective application. vii) Change in the method of depreciation from straight line to WDV. viii) Government grant becoming refundable. ix) Applying 10% depreciation instead of 15% on furniture. x) Change in useful life of fixed assets. (Jan 2021) | | | | | | | | | | | | | | | | | | | | | |

| To Provision for loss | 4 | By Net loss | 15 |
| | 124 | | 124 |

7. Uday Constructions undertake to construct a bridge for the Government of Uttar Pradesh. The construction commenced during the financial year ending 31.03.20X1 and is likely to be completed by the next financial year. The contract is for a fixed price of ₹ 12 crore with an escalation clause. You are given the following information for the year ended 31.03.20X1:

| | |
|---|-----------|
| Cost incurred upto 31.03.20X1 | ₹ 4 crore |
| Further cost estimated to complete the contract | ₹ 6 crore |

Escalation in cost was by 5%. Hence, the contract price is also increased by 5%. You are required to ascertain the stage of completion and compute the amount of revenue and profit to be recognized for the year as per AS 7.

(November 2020 RTP / May 2016)

Sol. **Provision:** - As per AS-7, "Construction Contracts", when the outcome of a construction contract can be estimated reliably, contract revenue and contract costs associated with the construction contract should be recognized as revenue and expenses respectively by reference to stage of completion of the contract activity at the reporting date

Analysis and conclusion: -

| Particulars | ₹ in crore |
|--|-------------------|
| Cost of construction of bridge incurred upto 31.3.20X1 | 4.00 |
| Add: Estimated future cost | 6.00 |
| Total estimated cost of construction | 10.00 |
| Contract Price (12 crore × 1.05) | 12.60 crore |

Stage of completion
Percentage of completion till date to total estimated cost of construction
= $(4/10) \times 100 = 40\%$

Revenue and Profit to be recognized for the year ended 31st March, 20X1 as per AS 7:
Proportion of total contract value recognized as revenue
= Contract price × percentage of completion
= ₹ 12.60 crore × 40% = ₹ 5.04 crore

Profit for the year ended 31st March, 20X1 = ₹ 5.04 crore – ₹ 4 crore = 1.04 crore.

8. Mr. 'X' as a contractor has just entered into a contract with a local municipal body for building a flyover. As per the contract terms, 'X' will receive an additional ₹ 2 crore if the construction of the flyover were to be finished within a period of two years of the commencement of the contract. Mr. X wants to recognize this revenue since in the past he has been able to meet similar targets very easily. Is X correct in his proposal? Discuss.

(Nov. 2021 RTP / May 2021 RTP)

Sol. **Provision:** - As per AS 7 (Revised), "Construction Contracts", incentive payments are additional amounts payable to the contractor if specified performance standards are met or exceeded. For example, a contract may allow for an incentive payment to the contractor for early completion of the contract. Incentive payments are included in contract revenue when both the conditions are met:

- the contract is sufficiently advanced that it is probable that the specified performance standards will be met or exceeded; and the amount of the incentive payment can be measured reliably

| | Analysis and conclusion: - In the given case, the <u>contract has not even begun and hence the contractor (Mr. X) should not recognize any revenue of this contract.</u> | | | | | | | | | | | | | | |
|---|---|-------------|---|--------------------------------------|----------|---|--------|--------------------|-----------|--------------------|-----------|--------------------------------|----------|--|--------|
| 9. | An Amount of ₹ 9,90,000 was incurred on a contract work up to 31-3-20X0. Certificates have been received to date to the value of ₹ 12,00,000 against which ₹ 10,80,000 has been received in cash. The cost of work done but not certified amounted to ₹ 22,500. It is estimated that by spending an additional amount of ₹ 60,000 (Including provision for contingencies) the work can be completed in all respect in another two months. The agreed contract price of work is ₹ 12,50,000. Compute a conservative estimate of the profit to be taken to the Profit and Loss Account as per AS - 7. [Nov. 2010] | | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-7, "Construction Contracts", when the <u>outcome of a construction contract can be estimated reliably, contract revenue and contract costs associated with the construction contract should be recognized as revenue and expenses</u> respectively by reference to stage of completion of the contract activity at the reporting date</p> <p>Analysis and conclusion: -</p> <p>Computation of Estimated Profit as per AS - 7</p> <table border="1"> <thead> <tr> <th>Particulars</th> <th>₹</th> </tr> </thead> <tbody> <tr> <td>Expenditure incurred upto 31.3. 20X0</td> <td>9,90,000</td> </tr> <tr> <td>Estimated additional expenses (including provision for contingencies)</td> <td>60,000</td> </tr> <tr> <td>Estimated cost (A)</td> <td>10,50,000</td> </tr> <tr> <td>Contract price (B)</td> <td>12,50,000</td> </tr> <tr> <td>Total estimated profit [(B-A)]</td> <td>2,00,000</td> </tr> <tr> <td>Percentage of completion $\frac{9,90,000}{10,50,000} \times 100$</td> <td>94.29%</td> </tr> </tbody> </table> <p>Computation of estimate of the profit to be taken to Profit and Loss Account: = Total estimated profit $\times \frac{\text{Expenses incurred till 31.3.2010}}{\text{Total estimated cost}}$ = 2,00,000 $\times \frac{9,90,000}{10,50,000} = 1,88,571$</p> <p>Therefore, estimated profit amounting ₹ 1,88,571 should be recognized as revenue in the statement of profit and loss.</p> | Particulars | ₹ | Expenditure incurred upto 31.3. 20X0 | 9,90,000 | Estimated additional expenses (including provision for contingencies) | 60,000 | Estimated cost (A) | 10,50,000 | Contract price (B) | 12,50,000 | Total estimated profit [(B-A)] | 2,00,000 | Percentage of completion $\frac{9,90,000}{10,50,000} \times 100$ | 94.29% |

| 12. | <p>Rajendra undertook a contract ₹ 20,00,000 on an arrangement that 80% of the value of work done, as certified by the architect of the contractee should be paid immediately and that the remaining 20% be retained until the Contract was completed.</p> <p>In Year 1, the amounts expended were ₹ 8,60,000, the work was certified for ₹ 8,00,000 and 80% of this was paid as agreed. It was estimated that future expenditure to complete the Contract would be ₹ 10,00,000.</p> <p>In Year 2, the amounts expended were ₹ 4,75,000. Three-fourth of the work under contract was certified as done by December 31st and 80% of this was received accordingly. It was estimated that future expenditure to complete the Contract would be ₹ 4,00,000.</p> <p>In Year 3, the amounts expended were ₹ 3,10,000 and on June 30th, the whole Contract was completed.</p> <p>Show how Contract revenue would be recognized in the P & L A/c of Mr. Rajendra each year.</p> <p style="text-align: right;">(Nov 2020)</p> | | | | | | | | | | | | | | | | | | | | | | | | |
| Sol. | <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Year 1</th> <th style="text-align: center;">₹</th> </tr> </thead> <tbody> <tr> <td>Actual expenditure</td> <td style="text-align: center;">8,60,000</td> </tr> <tr> <td>Future estimated expenditure</td> <td style="text-align: center;">10,00,000</td> </tr> <tr> <td>Total Expenditure</td> <td style="text-align: center;">18,60,000</td> </tr> </tbody> </table> <p>% of work completed = $\frac{8,60,000}{18,60,000} \times 100 = 46.24\%$ (rounded off)</p> <p>Revenue to be recognized = 20,00,00 × 46.24%</p> $= ₹ 9,24,800$ | Year 1 | ₹ | Actual expenditure | 8,60,000 | Future estimated expenditure | 10,00,000 | Total Expenditure | 18,60,000 | | | | | | | | | | | | | | | | |
| Year 1 | ₹ | | | | | | | | | | | | | | | | | | | | | | | | |
| Actual expenditure | 8,60,000 | | | | | | | | | | | | | | | | | | | | | | | | |
| Future estimated expenditure | 10,00,000 | | | | | | | | | | | | | | | | | | | | | | | | |
| Total Expenditure | 18,60,000 | | | | | | | | | | | | | | | | | | | | | | | | |

| Year 2 | ₹ |
|--------------------------------|-----------|
| Actual expenditure | 4,75,000 |
| Future Expenditure | 4,00,000 |
| Expenditure incurred in Year 1 | 8,60,000 |
| | 17,35,000 |

$\% \text{ of work completed} = \frac{4,75,000+8,60,000}{17,35,000} = 76.95\% \text{ (rounded off)}$
 Revenue to be recognized = 20,00,000 × 76.95%
 = 15,39,000
 Less: revenue recognized in Year 1 = (9,24,800)
 Revenue to be recognized in Year 2 = ₹ 6,14,200

Year 3
 Whole contract got completed therefore total contract value less revenue recognized up to year 2 will be amount of revenue to be recognized in year 3 i.e. 20,00,000 - 15,39,000 (9,24,800 + 6,14,200) = ₹ 4,61,000.
 Note: Calendar year has been considered as accounting year.

AS - 9 Revenue Recognition Assignment

| Q. No. | Question & Answers |
|--------|--|
| 1. | <p>The following information of Meghna Ltd. is provided:</p> <ol style="list-style-type: none"> i) Goods of ₹60,000 were sold on 20-3-20X1 but at the request of the buyer these were delivered on 10-4-20X1. ii) On 15-1-20X1 goods of ₹1,50,000 were sent on consignment basis of which 20% of the goods unsold are lying with the consignee as on 31 -3-20X1. iii) ₹1,20,000 worth of goods were sold on approval basis on 1-12-20X0. The period of approval was 3 months after which they were considered sold. Buyer sent approval for 75% goods up to 31-1-20X1 and no approval or disapproval received for the remaining goods till 31-3-20X1. iv) Apart from the above, the company has made cash sales of ₹7,80,000 (gross). Trade discount of 5% was allowed on the cash sales. <p>You are required to advise the accountant of Meghna Ltd., with valid reasons, the amount to be recognized as revenue in above cases in the context of AS-9. (May 2020 RTP /ICAI SM/November 2019/May 2019/May 2015/ November 2021 MTP /November 2017/ November 2020 RTP)</p> |
| Sol. | <p>As per AS 9 "Revenue Recognition", Revenue is recognized in case of sale of goods only When the following conditions are fulfilled:</p> <ol style="list-style-type: none"> i) The seller of goods has transferred to the buyer the property in the goods for a price. ii) <u>Significant risks and rewards of ownership on goods transferred to the buyer.</u> and the seller retains no effective control of the goods transferred. iii) <u>No significant uncertainty in ultimate collection at the time of sales.</u> <p>Case (i) Situation - Delay in delivery at Buyer's request. Provision:- As per AS-9, "Revenue Recognition" <u>When the delivery is delayed at buyer's request and buyer's takes title and accepts billing revenue should be recognized immediately.</u> Analysis and conclusion:- The sale is complete but delivery has been postponed at buyer's request. M/s Paper Products Ltd. should recognize the entire sale of ₹60,000 for the year ended 31st March, 20X1.</p> <p>Case (ii) Situation- Consignment Sales. Provision:- As per AS-9, "Revenue Recognition" <u>Revenue should be recognized only when the goods are sold by the agent to the third party.</u> Analysis and conclusion:- In the given case 20% goods lying unsold with consignee should be treated as closing inventory and sales should be recognized for ₹1,20,000 (80% of ₹1,50,000). Because consignment sale revenue should not be recognized until the goods are sold to a third party.</p> <p>Case (iii) Situation- Sales on approval basis. Provision:- As per AS-9, "Revenue Recognition" <u>revenue should be recognized only when the buyer confirms his desire to buy goods by communication.</u> or the time period for rejection has elapsed or where no time has been fixed, a reasonable time has elapsed Analysis and conclusion:- In the given case, total goods worth ₹ 1,20,000 are sold to customers on 1-12-20X0, on approval period of 3 months, Buyer sent approval for 75% goods upto 31-01-20X1 and no approval or disapproval received for remaining goods till 31-03-20X1. As the approval time is elapsed on 31-03-20X1., So the goods sold on 1-12-20X0 is to be considered as sales. So, ₹1,20,000 is to be recognized immediately.</p> |

| | |
|------|---|
| | <p>Case (iv) Situation- Sale on discount.</p> <p>Provision: - As per AS-9, "Revenue Recognition" Revenue should be recognized for sales should be net revenue means after allowing all discounts given to customer.</p> <p>Analysis and conclusion:- In the given case, Trade discounts given should be deducted in determining revenue. Thus ₹39,000 should be deducted from the amount of turnover of ₹7,80,000 for the purpose of recognition of revenue. Thus, revenue should be ₹7,41,000.</p> |
| 2. | <p>Shipra Ltd., has been successful jewellers for the past 100 years and sales are against cash only (returns are negligible). The company also diversified into apparels. A young senior executive was put in charge of Apparels business and sales increased 5 times. One of the conditions for sales is that dealers can return the unsold stocks within one month of the end of season. Sales return for the year was 25% of sales. Suggest a suitable Revenue Recognition Policy, with reference to AS 9.</p> <p style="text-align: right;">(November 2021 RTP /May 2008/November 2008)</p> |
| Sol. | <p>Provision: - As per AS 9 "Revenue recognition", <u>When uncertainty of collection of revenues arises subsequently after the revenue recognition, it is better to make provision for the uncertainty in collection rather than adjustment in already recognized revenue.</u> When uncertainties exist regarding the determination of the amount, or its associated costs, these uncertainties may influence the timing of revenue recognition.</p> <p>Analysis and conclusion:- In the case of the jewellery business the company is selling for cash and returns are negligible. Hence, revenue can be recognized on sales. On the other hand, in Apparels Industry, the dealers have a right to return the unsold goods within one month of the end of the season. In this case, the company is bearing the risk of sales return and therefore, the company should not recognize the revenue to the extent of 25% of its sales. The company may disclose suitable revenue recognition policy in its financial statements separately for both Jewellery and Apparels business.</p> |
| 3. | <p>Tonk Tanners is engaged in manufacturing of leather shoes. They provide you the following information for the year ended 31st March, 20X2:</p> <ol style="list-style-type: none"> i) On 31st December, 20X1 shoes worth ₹3,20,000 were sent to Mohan Shoes for sale on consignment basis of which 25% shoes were unsold and lying with Mohan Shoes as on 31st March, 20X2. ii) On 10th January, 20X2, Tonk Tanner supplied shoes worth ₹4,50,000 to Shani Shoes and concurrently agrees to re-purchase the same goods on 11th April, 20X2. iii) On 21st March, 20X2 shoes worth ₹1,60,000 were sold to Shoe Shine but due to refurbishing of their showroom being underway, on their request, shoes were delivered on 12th April, 20X2. <p>You are required to advise the accountant of Tonk Tanners, when amount is to be recognized as revenue in 20X1-X2 in above cases in the context of AS 9.</p> <p style="text-align: right;">(May 2021 RTP /December 2021)</p> |
| Sol. | <p>As per AS 9 "Revenue Recognition", Revenue is recognized in case of sale of goods only When the following conditions are fulfilled:</p> <ol style="list-style-type: none"> i) The seller of goods has transferred to the buyer the property in the goods for a price. ii) <u>Significant risks and rewards of ownership on goods transferred to the buyer.</u> and the seller retains no effective control of the goods transferred. iii) <u>No significant uncertainty in ultimate collection at the time of sales.</u> <p>Case (i) Situation- Shoes sent to Mohan Shoes (consignee) for consignment sale</p> <p>Provision: - As per AS-9, "Revenue Recognition" <u>Revenue should be recognized only when the goods are sold by the agent to the third party.</u></p> |

| | |
|------|---|
| | <p><u>Analysis and conclusion:</u> - In the given case, Mohan Shoes is the consignee i.e. an agent of Tonk Tanners and not the buyer. Therefore, the risk and reward is considered to vest with Tonk Tanners only till the time the sale is made to the third party by Mohan Shoes; although the goods are held by Mohan Shoes. Hence, in the year 20X1-20X2, <u>the sale will be recognized for the amount of goods sold by Mohan Shoes to the third party i.e. for ₹3,20,000 × 75% = ₹2,40,000.</u></p> <p>ii) Situation - Sale/repurchase agreements i.e. where seller concurrently agrees to repurchase the same goods at a later date</p> <p><u>Provision:</u> - As per AS-9, “Revenue Recognition” transactions that are in substance of a financing agreement, the <u>resulting cash inflow is not revenue and should not be recognized as revenue.</u></p> <p><u>Analysis and conclusion:</u> - In the given case, transactions are in substance of a financing agreement, the resulting cash inflow is not revenue and should not be recognized as revenue in the year 20X1-20X2. Hence, <u>sale of ₹4.50,000 to Shani Shoes should not be recognized as revenue.</u></p> <p>iii) Situation- Delivery is delayed at buyer’s request.</p> <p><u>Provision:</u> - As per AS-9, “Revenue Recognition” <u>When the delivery is delayed at buyer’s request and buyer’s takes title and accepts billing revenue should be recognized immediately.</u></p> <p><u>Analysis and conclusion:</u> -In the given case on 21st March, 20X2, if Shoe Shine takes title and accepts billing for the goods then it is implied that the sale is complete and all the risk and rewards of ownership has been transferred to the buyer. In case no significant uncertainty exists regarding the amount of consideration for sale, revenue shall be recognized in the year 20X1-20X2 irrespective of the fact that the delivery is delayed on the request of Shoe Shine.</p> |
| 4. | <p>Y Ltd., used certain resources of X Ltd. In return X Ltd. received ₹10 lakhs and ₹15 lakhs as interest and royalties respective from Y Ltd. during the year 20X1-X2. You are required to state whether and on what basis these revenues can be recognized by X Ltd.</p> <p style="text-align: right;">(ICAI SM /November 2008)</p> |
| Sol. | <p><u>Provision:</u> -As per AS 9, “Revenue Recognition” revenue <u>arising from the use by others of enterprise resources yielding interest and royalties should only be recognized when no significant uncertainty as to measurability or collectability exists.</u> These revenues are recognized, Interest on a time basis proportion basis taking into account the amount outstanding and the rate applicable. Royalties on accrual basis in accordance with the terms of relevant agreement.</p> <p><u>Analysis and conclusion:</u> -Interest revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Therefore X Ltd. should recognize interest revenue of ₹10 Lakhs.</p> <p>Royalties’ revenue is recognized on an accrual basis in accordance with the terms of the relevant agreement. X Ltd. therefore should recognize royalty revenue of ₹ 15 Lakhs.</p> |
| 5. | <p>A Ltd. entered into a contract with B Ltd. to dispatch goods valuing ₹ 25,000 every month for 4 months upon receipt of entire payment, B Ltd. accordingly made the payment of ₹ 1,00,000 and A Ltd. started dispatching the goods. In third month, due to a natural calamity, B Ltd. requested A Ltd. not to dispatch goods until further notice though A Ltd. is holding the remaining goods worth ₹ 50,000 ready for dispatch A Ltd. accounted ₹ 50,000 as sales and transferred the balance to Advance Received against Sales. Comment upon the treatment of balance amount with reference to the provisions of Accounting Standard 9.</p> <p style="text-align: right;">(Nov 2013/May 2017)</p> |

| | |
|------|---|
| Sol. | <p>Provision: - As per AS 9 "Revenue Recognition", Revenue is recognized in case of sale of goods only When the following conditions are fulfilled:</p> <ol style="list-style-type: none"> i) The seller of goods has transferred to the buyer the property in the goods for a price. ii) <u>Significant risks and rewards of ownership on goods transferred to the buyer.</u> and the seller retains no effective control of the goods transferred. iii) <u>No significant uncertainty in ultimate collection at the time of sales.</u> <p>Analysis and conclusion: - In the given Case, transfer of property in goods results in or coincides with the transfer of significant risks and rewards of ownership to the buyer. Also, the sale price has been recovered by the seller., Hence, the sale is complete but delivery has been postponed at buyer's request. <u>A Ltd. should recognize the entire sale of ₹ 1,00,000 (₹ 25,000 × 4) and no part of the same is to be treated as Advance Receipt against Sales.</u></p> |
| 6. | <p>Arjun Ltd. Sold farm equipment to its dealers. One of the conditions at the time of sale is, payments of consideration in 14 days and in the event of delay interest chargeable @ 15% per annum. The Company has not realized interest from the dealers in the past. However, for the year ended 31.3.20X1, it wants to recognize interest due on the balance due from dealers. The amount is ascertained at ₹9 lakh. Decide whether the income by way of interest from dealers is eligible for recognition as per AS - 9.</p> <p style="text-align: right;">[May 2006/November 2015]</p> |
| Sol. | <p>Provision: - As per AS-9, "Revenue Recognition" <u>revenue means gross inflow of cash, receivable or other consideration arising in the course of ordinary activities of an enterprise such as:-</u></p> <ol style="list-style-type: none"> i) <u>The sale of goods.</u> ii) <u>Rendering of services.</u> iii) <u>Use of the enterprises resources by others yielding interest, dividend and royalties.</u> <p>In other words, revenue is a charge made to customers/clients for goods supplied and services rendered.</p> <p>Analysis and conclusion: - In the given case, the amount of ₹ 9 lakh by way of interest is not revenue arising from sales of goods. It is not the amount i.e., charged from customers by sale of farm equipment. The amount of interest is charged from dealers on delay in payment of consideration in 14 days. So such amount is not income to be recognized as per AS - 9. such amount is to be disclosed as per AS -5.</p> |
| 7. | <p>Old Era Publication Publishes a popular monthly magazine on 15th of every month. The publication sells the advertising space on terms of 90% payable in advance and the balance 10% payable within 30 days of release of the publication. The space for March 20X0 issue of the magazine was sold in the month of February, 20X0. The magazine was published as per schedule on 15th of the month. The amount of ₹ 2,70,000 has been received upto 31st March, 20X0 and ₹ 30,000 was received on 10th April, 20X0 for advertisement published in the March issue of the publication.</p> <p>Please advise the accountant the amount of revenue to be recognized in the context of the provisions of AS 9 'Revenue Recognition' during the year ending on 31st March, 20X0.</p> <p style="text-align: right;">(October 2021 MTP/November 2014)</p> |
| Sol. | <p>Provision: - As per AS-9, "Revenue Recognition" in a transaction involving the rendering of services, performance should be measured either under the completed service contract method or under the proportionate completion method, whichever relates the revenue to the work accomplished.</p> <p>In the case of advertising and insurance company, income accrues when the related advertisement appears before public. <u>The advertisement service would be considered as performed on the day the advertisement is appeared for public and hence revenue is recognized on that date.</u></p> |

| | |
|------|--|
| | <p>Analysis and conclusion: - Old Era Publication publishes a popular monthly magazine on 15th of every month So 15.03.20X0, is the date of publication of the magazine or the advertisement appears for the public.</p> <p>Accounting treatment for given situation: Hence, ₹ 3,00,000 (₹ 2,70,000 + ₹ 30,000) is recognized as income in March, 20X0. The terms of payment are not relevant for considering the date on which revenue is to be recognized. ₹ 30,000 is treated as amount due from advertisers as on 31.03.20X0 and ₹ 2,70,000 will be treated as payment received against the sale.</p> |
| 8. | <p>On 25th September, 20X1, Planet Advertising Limited obtained advertisement rights to World Cup Hockey Tournament to be held in Nov./Dec., 20X1 for ₹ 520 lakhs.</p> <p>They furnish the following information:</p> <ol style="list-style-type: none"> 1) The company obtained the advertisements for 70% of available time for ₹ 700 lakhs by 30th September, 20X1. 2) for the balance time they got bookings in October, 20X1 for ₹ 240 lakhs. 3) All the advertisers paid the full amount at the time of booking the advertisements. 4) 40% of the advertisements appeared before the public in Nov. 20X1 and balance 60% appeared in the month of December, 20X1. <p>You are required to calculate the amount of Profit/loss to be recognized for the month November and December, 20X1 as per Accounting Standard-9. [Nov. 2010]</p> |
| Sol. | <p>Provision: - As per AS 9, "Revenue Recognition" Revenue from rendering of the service is to be recognized when the service should be performed and no significant uncertainty in ultimate collection at the time of recognition. Further standard provides revenue from advertising should be recognized when the service is completed when the related advertisements appear before the public.</p> <p>Analysis and conclusion: - In the given case 40% of the advertisements appeared before the public in November, and balance 60% in December.</p> <p>The amount of profit would be ₹ (700 + 240 - 520) = ₹ 420 lakhs to be recognized as follow: November ₹ 420 lakhs * 40% = ₹ 168 Lakhs December ₹ 420 lakhs * 60% = 252 lakhs</p> |
| 9. | <p>According to Accounting Standard - 9, when revenue from sales should be recognized? [May - 2010]</p> |
| Sol. | <p>As per AS 9 "Revenue Recognition", Revenue is recognized in case of sale of goods only When the following conditions are fulfilled:</p> <ol style="list-style-type: none"> i) The seller of goods has transferred to the buyer the property in the goods for a price. ii) Significant risks and rewards of ownership on goods transferred to the buyer. and the seller retains no effective control of the goods transferred. iii) No significant uncertainty in ultimate collection at the time of sales. |
| 10. | <p>How will you recognize revenue in the following cases:</p> <ol style="list-style-type: none"> 1) Installation Fees; 2) Advertising and insurance agency commissions; 3) Subscriptions for publications. (November 2021 RTP) |
| Sol. | <p>Installation Fees: In cases where installation fees are other than incidental to the sale of a product, they should be recognized as revenue only when the equipment is installed and accepted by the customer.</p> <p>Advertising and insurance agency commissions: Revenue should be recognized when the service is completed. For advertising agencies, media commissions will normally be recognized when the related advertisement or commercial appears before the public and the necessary intimation is received by the agency, as opposed to production commission,</p> |

| | |
|------|--|
| | <p>which will be recognized when the project is completed. <u>Insurance agency commissions should be recognized on the effective commencement or renewal dates of the related policies.</u></p> <p>Subscription for publications: <u>Revenue received or billed should be deferred and recognized either on a straight-line basis over time or, where the items delivered vary in value from period to period, revenue should be based on the sales value of the item delivered in relation to the total sales value of all items covered by the subscription.</u></p> |
| 11. | <p>The Board of Directors decided on 31.3.20X2 to increase the sale price of certain items retrospectively from 1st January, 20X2. In view of this price revision with effect from 1st January 20X2, the company has to receive ₹15 lakhs from its customers in respect of sales made from 1st January, 20X2 to 31st March, 20X2. Accountant cannot make up his mind whether to include ₹15 lakhs in the sales for 20X1-20X2. Advise. (ICAI SM)</p> |
| Sol. | <p>Provision: - As per AS-9, "Revenue Recognition" revenue should be recognized in case of sale of goods when <u>no significant uncertainty in ultimate collection at the time of sales.</u></p> <p>Analysis and conclusion: - In the given case the price revision was effected during the current accounting period 20X1-20X2. As a result, the company stands to receive ₹15 lakhs from its customers in respect of sales made from 1st January, 20X2 to 31st March, 20X2. <u>If the company is able to assess the ultimate collection with reasonable certainty, then additional revenue arising out of the said price revision may be recognized in 20X1-20X2.</u></p> |
| 12. | <p>A claim lodged with the Railways in March, 20X1 for loss of goods of ₹2,00,000 had been passed for payment in March, 20X3 for ₹1,50,000. No entry was passed in the books of the Company, when the claim was lodged. Advise P Co. Ltd. about the treatment of the following in the Final Statement of Accounts for the year ended 31st March, 20X3. (ICAI SM)</p> |
| Sol. | <p>Provision: - As per AS-9, "Revenue Recognition" states that where the <u>ability to assess the ultimate collection with reasonable certainty is lacking at the time of raising any claim, revenue recognition is postponed to the extent of uncertainty involved.</u> When <u>recognition of revenue is postponed due to the effect of uncertainties, it is considered as revenue of the period in which it is properly recognized.</u></p> <p>Analysis and conclusion: - In this case it may be assumed that <u>collectability of claim was not certain in the earlier periods. This is supposed from the fact that only ₹1,50,000 were collected against a claim of ₹2,00,000.</u> So this transaction cannot be taken as a Prior Period Item.</p> <p>In the light of AS-5, it will not be treated as extraordinary item. However, AS-5 states that when items of income and expense within profit or loss from ordinary activities are of such size, nature, or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items should be disclosed separately. Accordingly, the nature and amount of this item should be disclosed separately.</p> |
| 13. | <p>In the year 20X1-X2, XYZ supplied goods on Consignment basis to ABC – a retail outlet worth ₹10,00,000. As per the terms, ABC will only pay XYZ for the goods which are sold by them to the third party. Rest of the goods can be returned back to XYZ and ABC will not have any further liability for these goods.</p> <p>During the year 20X1-X2, ABC has sold goods worth ₹5,50,000 only and rest of the goods are still lying in its store which may get sold by next year. Advise XYZ, how much revenue it can recognize in its books for period 20X1-X2. (ICAI SM)</p> |
| Sol. | <p>Provision: - As per AS-9, "Revenue Recognition" In case of consignment sales <u>revenue should be recognized only when the goods are sold by the agent to the third party.</u></p> <p>Analysis and conclusion: - In the given case XYZ supplied goods of ₹10,00,000 to ABC on consignment basis and out of only ₹ 5,50,000 goods are sold to the third party Therefore, <u>XYZ can recognize revenue of ₹5,50,000 only.</u></p> |

| | |
|------|--|
| 14. | M/s. SEA Ltd. recognized ₹ 5.00 lakhs on accrual basis income from dividend during the year 20X0-X1, on shares of the face value of ₹ 25.0 lakhs held by it in Rock Ltd. as at 31 st March, 20X1. Rock Ltd. proposed dividend @ 20% on 10 th April, 20X1. However, dividend was declared on 30 th June, 20X1. Please state with reference to relevant Accounting Standard, whether the treatment accorded by SEA Ltd. is in order. (Nov 2011) |
| Sol. | <p>Provision: As per AS-9 “Revenue Recognition”, <u>dividends from investments in shares are not recognized in the statement of Profit and Loss until the right to receive dividends is established.</u></p> <p>Analysis and Conclusion: In the given situation the dividend is proposed on 10th April, 20X1, while it was declared on 30th June, 20X1. Hence, the right to receive dividend is established on 30th June, 20X1 only. Therefore, on applying the provisions stated in the standard, <u>income from dividend on shares should be recognized by Sea Ltd. in the financial year 20X1-20X2 only.</u> Therefore, <u>the recognition of income from dividend of ₹ 5 lakhs, on accrual basis, in the financial year 20X0-X1 is not in accordance with AS-9.</u></p> |
| 15. | M/s. Moon Ltd. sold goods worth ₹ 6,50,000 to Mr. Star. Mr. Star asked for a trade discount amounting to ₹ 53,000 and same was agreed to by M/s. Moon Ltd. The sales was effected and goods were dispatched. On receipt of goods, Mr. Star has found that goods worth ₹ 67,000 are defective. Mr. Star returned defective goods to M/s. Moon Ltd. and made payment due amounting to ₹ 5,30,000. The accountant of M/s. Moon Ltd. booked the sale for ₹ 5,30,000. Discuss the contention of the accountant with reference to Accounting Standard (AS) 9. (May 2013) |
| Sol. | <p>Provisions: -As per AS-9, “Revenue Recognition” <u>revenue is the gross inflow of cash, receivable or other consideration arising in the course of the ordinary activities of an enterprise from the sale of goods.</u></p> <ul style="list-style-type: none"> ✓ However, <u>trade discounts and volume rebates given in the ordinary course of business should be deducted in determining revenue.</u> ✓ Revenue from sales should be <u>recognized at the time of transfer of significant risks and rewards.</u> ✓ If the delivery of the sales is not subject to approval from customers, then the transfer of significant risks and rewards would take place when the sale is affected and goods are dispatched. <p>Analysis and Conclusion: -In the given case, if trade discounts allowed by M/s. Moon Ltd. are given in the ordinary course of business, <u>M/s. Moon Ltd. should record the sales at ₹ 5,97,000 (i.e. ₹ 6,50,000 – ₹ 53,000) and goods returned worth ₹ 67,000 are to be recorded in the form of sales return.</u></p> <ul style="list-style-type: none"> ✓ However, when <u>trade discount allowed by M/s. Moon Ltd. is not in the ordinary course of business, M/s. Moon Ltd. should record the sales at gross value of ₹ 6,50,000. Discount of ₹ 53,000 in price and return of goods worth ₹ 67,000 are to be adjusted by suitable provisions.</u> ✓ M/s Moon Ltd. might have sent the credit note of ₹ 1,20,000 to Mr. Star to account for these adjustments. In both the cases, the contention of the accountant to book the sales for ₹ 5,30,000 is not correct. |

| <p>16.</p> | <p>A manufacturing company has the following stages of production and sale in manufacturing Fine paper rolls:</p> <table border="1" data-bbox="321 285 1396 655"> <thead> <tr> <th>Date</th> <th>Activity</th> <th>Costs to Date (₹)</th> <th>Net Realizable Value (₹)</th> </tr> </thead> <tbody> <tr> <td>15.1.X1</td> <td>Raw material</td> <td>1,00,000</td> <td>80,000</td> </tr> <tr> <td>20.1.X1</td> <td>Pulp (WIP 1)</td> <td>1,20,000</td> <td>1,20,000</td> </tr> <tr> <td>27.1.X1</td> <td>Rough & thick paper (WIP 2)</td> <td>1,50,000</td> <td>1,80,000</td> </tr> <tr> <td>15.2.X1</td> <td>Fine Paper Rolls</td> <td>1,80,000</td> <td>3,50,000</td> </tr> <tr> <td>20.2.X1</td> <td>Ready for sale</td> <td>1,80,000</td> <td>3,50,000</td> </tr> <tr> <td>15.3.X1</td> <td>Sale agreed and invoice raised</td> <td>2,00,000</td> <td>3,50,000</td> </tr> <tr> <td>02.4.X1</td> <td>Delivered and paid for</td> <td>2,00,000</td> <td>3,50,000</td> </tr> </tbody> </table> <p>Explain the stage on which you think revenue will be generated and state are how much would be net profit for year ending 31-3-X1 on this product according to AS-9.</p> <p style="text-align: right;">(Nov 2016)</p> | Date | Activity | Costs to Date (₹) | Net Realizable Value (₹) | 15.1.X1 | Raw material | 1,00,000 | 80,000 | 20.1.X1 | Pulp (WIP 1) | 1,20,000 | 1,20,000 | 27.1.X1 | Rough & thick paper (WIP 2) | 1,50,000 | 1,80,000 | 15.2.X1 | Fine Paper Rolls | 1,80,000 | 3,50,000 | 20.2.X1 | Ready for sale | 1,80,000 | 3,50,000 | 15.3.X1 | Sale agreed and invoice raised | 2,00,000 | 3,50,000 | 02.4.X1 | Delivered and paid for | 2,00,000 | 3,50,000 |

Assignment
AS-10
Property, Plant and Equipment

| Q. No. | Question and Solutions |
|--------|---|
| 1. | <p>You are required to give the correct accounting treatment for the following in line with provisions of As-10;</p> <p>a) Trozen Ltd. operates a major chain of supermarkets all over India. It acquires a new store in Pune which requires significant renovation expenditure. It is expected that the renovations will be done in 2 months during which the store will be closed. The budget for this period, including expenditure related to construction and remodeling costs (₹18 lakhs), salaries of staff (₹2 lakhs) who will be preparing the store before its opening and related utilities costs (₹1.5 lakhs), is prepared. The cost of salaries of the staff and utilities are operating expenditures that would be incurred even after the opening of the super market. What will the treatment of all these expenditures in the books of accounts?</p> <p>b) ABC Ltd. is setting up a new refinery outside the city limits. In order to facilitate the construction of the refinery and its operations, ABC Ltd. is required to incur expenditure on the construction/ development of railway siding, road and bridge. Though ABC Ltd. incurs the expenditure on the construction/development, it will not have ownership rights on these items and they are also available for use to other entities and public at large. Can ABC Ltd. capitalize expenditure incurred on these items as property, Plant and equipment (PPE)?</p> <p style="text-align: center;">(May 2021 RTP / ICAI SM/Nov. 2018/March 2021 MTP)</p> |
| Sol. | <p>a) Provision: -As per AS-10, Any cost directly attributable to bringing the asset to the 'location and condition' necessary for it to be <u>capable of operating in the manner intended by the management</u> should be included in the carrying amount of an item of PPE.</p> <p>Analysis and conclusion: - Trozen Ltd. should capitalize the costs of construction and remodeling the supermarket. Because they are necessary to bring the store to the <u>condition necessary for it to be capable of operating in the manner intended</u>. The supermarket cannot be opened without incurring the remodeling expenditure.</p> <ul style="list-style-type: none"> ✓ Therefore, this construction and remodeling expenditure of ₹18 lakh should be considered as part of the cost of the asset. ✓ However, the <u>cost of salaries of the staff ₹2 lakh and utilities cost ₹1.5 lakh are operating expenditures</u> that would be incurred even after the opening of the supermarket. Therefore, these costs are not necessary to bring the store to the condition necessary for it to be capable of operating in the manner intended by the management and should be expensed. <p>b) Provision: -As per 10 the cost of an item of property, Plant and equipment shall be recognized as an asset if, and only if;</p> <ol style="list-style-type: none"> 1) It is probable that <u>future economic benefits associated with the item will flow to the entity;</u> and 2) The <u>cost of the item can be measured reliably.</u> <ul style="list-style-type: none"> ✓ Further, the standard provides that the cost of an item of property, plant and equipment comprise any <u>costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.</u> |

| | <p>Analysis and conclusion: - In the given case, railway siding, road and bridge are required to facilitate the construction of the refinery and for its operations. Expenditure on these items is required to be incurred in order to get <u>future economic benefits from the project</u> as a whole so the cost incurred should be capitalized of the said expenditure even though the company cannot restrict the access of others for using the assets individually. but the <u>expenditure is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.</u></p> <p>In view of this, even though ABC Ltd. may not be able to recognize expenditure incurred on these assets as an individual item of property, Plant and equipment in many cases (where it cannot restrict others from using the asset), expenditure incurred may be capitalized as a part of overall cost of the project, from this, it can be concluded that, in the given case the expenditure incurred on these assets. i.e., railway siding, road and bridge, should be considered as the cost of constructing the refinery and accordingly, expenditure incurred on these items should be allocated and capitalized as part of the items of property, Plant and equipment of the refinery.</p> | | | | | | | | | | | | | | | | |

| Loss on Exchange of machinery | | 4,550 |
| 11. | Entity A, a supermarket chain, is renovating one of its major stores. The store will have more available space for in store promotion outlets after the renovation and will include a restaurant. Management is preparing the budgets for the year after the store reopens, which include the cost of remodeling and the expectation of a 15% increase in sales resulting from the store renovations, which will attract new customers. State whether the remodeling cost will be capitalized or not. (ICAI SM) | |
| Sol. | <p>Provision-: As per AS-10 (REVISED)- The cost of an item of PPE should be recognized as an asset if, and only if:</p> <p>a) <u>Probable future economic benefits inflow to the entity.</u></p> <p>b) The <u>cost of an item can be measured reliably.</u></p> <p>Analysis and conclusion: - In the given case the expenditure in remodeling the store will create future economic benefits (in the form of 15% of increase in sales) and the cost of remodeling can be measured reliably, therefore, it should be capitalized.</p> | |
| 12. | An amusement park has a 'soft' opening to the public, to trial run its attractions. Tickets are sold at a 50% discount during this period and the operating capacity is 80%. The official opening day of the amusement park is three months later. Management claim that the soft opening is a trial run necessary for the amusement park to be in the condition capable of operating in the intended manner. Accordingly, the net operating costs incurred should be capitalized. Comment. (ICAI SM) | |
| Sol. | <p>Provision-: As per AS-10 (REVISED) Cost incurred while an item <u>capable of operating in the manner intended by management has yet to be bought into use or is operated at less than full capacity, initial operating losses</u>, such as those incurred while demand for the output of an item builds up are not included in the carrying amount of an item of PPE.</p> | |

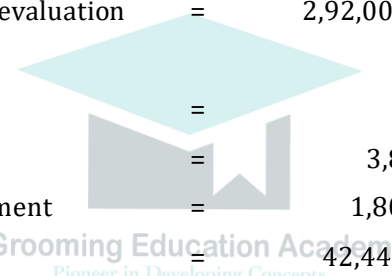

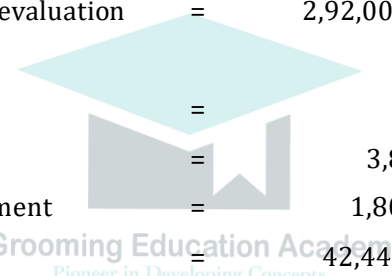

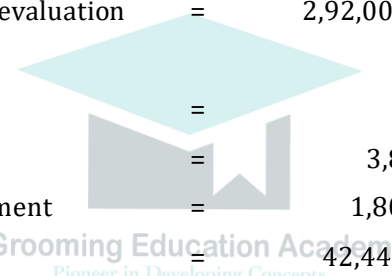

| | |
|------|--|
| | <p><u>Analysis and conclusion</u> The net operating costs should not be capitalized, but should be recognized in the statement of Profit and Loss. Even though it is running at less than full operating capacity (in this case 80% of operating capacity), there is sufficient evidence that the amusement park is capable of operating in the manner intended by management. Therefore, these costs are specific to the start-up and, therefore, should be expensed as incurred</p> |
| 13. | <p>Carrying amount of a machine is ₹1,00,000. (Historical cost less depreciation.) The machine is expected to generate ₹25,000 net cash flow for 5 years. The net realizable value (or net selling price) of the machine on current date is ₹85,000.</p> <p>The enterprises required rate of earning is 10% p.a. State the value at which the enterprise should carry its machine. The present value factors at 10% are 0.909, 0.826, 0.751, 0.683 and 0.621 at the end of first, second, third, fourth and fifth year respectively.</p> <p style="text-align: right;">(May 2011)</p> |
| Sol. | <p>Value in use is the present value of estimated future cash flow expected to arise from the continuing use of an asset. Therefore,</p> <p>✓ Value in use* = ₹ 25,000 × (0.909 + 0.826 + 0.751 + 0.683 + 0.621) ₹ 94,750 Net Selling price = ₹ 85,000</p> <p>Recoverable amount is the higher of an asset's value in use and its net selling price i.e., 94,750.</p> <p>Carrying value of a machine = ₹1,00,000 (recorded in the books)</p> <p>✓ Carrying amount is the amount at which an asset is recognized in the balance sheet after deduction any accumulated depreciation (amortization) and accumulated impairment losses thereon.</p> <p>In the given case, carrying amount of machine will be lower of its recoverable amount ₹94,750 and its book value i.e., ₹1,00,000. Therefore, the enterprise should carry its machine at value of ₹ 94,750.</p> |
| 14. | <p>M/s. Tiger Ltd. allotted 7,500 equity shares of ₹100 each fully paid up to Lion Ltd. in consideration for supply of special machinery. The shares exchanged for machinery are quoted at National Stock Exchange (NSE) at ₹95 per share, at the time of transaction. In the absence of fair market value of the machinery acquired, show how the value of the machinery would be recorded in the books of Tiger Ltd.?</p> <p style="text-align: right;">(Nov. 2011)</p> |
| Sol. | <p><u>Provision:</u> -As per AS-10 (REVISED) If PPE is acquired in exchange of assets and <u>transaction has commercial substance</u> then <u>PPE is recorded at fair value of the asset given or the face value of the asset acquired whichever is more clearly evident.</u></p> <p><u>Analysis and conclusion:</u> - In the given case, the <u>market value of the shares exchanged for the asset is more clearly evident</u>, the company should record the value of machinery at ₹7,12,500 (i.e., 7,500 shares × ₹95 per share) being the market price of the shares issued in exchange.</p> |
| 15. | <p>Entity A exchanges land with a book value of ₹10,00,000 for cash of ₹20,00,000 and plant and machinery valued at ₹25,00,000. What will be the measurement cost of the assets received? (Consider that the transaction has commercial substance)?</p> <p style="text-align: right;">(ICAI SM)</p> |
| Sol. | <p><u>Provision:</u> -As per AS-10 (REVISED) If PPE is acquired in exchange of assets and <u>transaction has commercial substance</u> then <u>PPE is recorded at fair value of the asset given or the face value of the asset acquired whichever is more clearly evident.</u></p> <p><u>Analysis and conclusion:</u> -In the given case the transaction has commercial substance the plant and machinery would be recorded at ₹ 25,00,000, which is equivalent to the fair value of the land of ₹ 45,00,000 less the cash received of ₹20,00,000.</p> |

| 16. | <p>Entity A exchanges car X with a book value of ₹13,00,000 and a fair value of ₹13,25,000 for cash of ₹15,000 and car Y which has a fair value of ₹ 13,10,000. The transaction lacks commercial substance as the company y's cash flows are not expected to change as a result of the exchange. It is in the same position as it was before the transaction. What will be the measurement cost of the assets received?</p> <p style="text-align: right;">(ICAI SM)</p> | | | | | | | | | | | | | | | | | | |
|---|---|-------|-----------------------|--|-------|--|-------|--|-------|---|-------|--|-------|--|-------|------------------------------------|-------|--|-------|
| Sol. | <p>Provision: - As per AS-10 (REVISED) If PPE is acquired in exchange of assets and <u>transaction did not have commercial substance or have F.V then PPE is value at carrying amount of asset given up less settle up paid or received often referred as boot.</u></p> <p>Analysis and conclusion: - In the given case the entity recognizes the assets received at the book value of car X. Therefore, it recognizes cash of ₹15,000 and car Y as PPE with a carrying value of ₹12,85,000.</p> | | | | | | | | | | | | | | | | | | |
| 17. | <p>With reference to S-10 Revised, classify the items under the following heads;</p> <p>Heads;</p> <ol style="list-style-type: none"> 1) Purchase Price of Property, Plant and Equipment (PPE) 2) Directly attributable cost of PPE or 3) Cost not included in determining the carrying amount of an item of PPE. <p>Items;</p> <ol style="list-style-type: none"> 1) Import duties and non-refundable purchase taxes. 2) Initial delivery and handling costs. 3) Initial operating losses, such as those incurred while demand for the output of an item builds up. 4) Costs incurred while an item capable of operating in the manner intended by management has to yet to be brought into use or is operated at less than full capacity. 5) Trade discounts and rebates. 6) Costs of relocating or reorganizing part or all of the operations of an enterprise. 7) Installation and assembly costs. 8) Administration and other general overhead costs. <p style="text-align: right;">(ICAI SM)</p> | | | | | | | | | | | | | | | | | | |

| | |
|------|---|
| 18. | <p>Entity A is a large manufacturing group. It owns a number of industrial buildings, such as factories and warehouses and office buildings in several capital cities. The industrial buildings are located in industrial zones, whereas the office buildings are in central business districts of the cities. Entity A's management want to apply the revaluation model as per AS 10 (Revised) to the subsequent measurement of the office building but continue to apply the historical cost model to the industrial buildings.</p> <p>State whether this is acceptable under AS 10 (Revised) or not with reasons?</p> <p style="text-align: right;">(ICAI SM)</p> |
| Sol. | <p>Provision: - As per AS-10 (REVISED) An enterprise should choose <u>either cost model or the revaluation model as its accounting policy</u> and should apply that policy to an entire class of PPE. A class of PPE is a <u>grouping of assets of a similar nature and use in operations</u> of an enterprise.</p> <p>Analysis and conclusion: - In the given case Entity A's management can apply the revaluation model only to the office buildings. The <u>office buildings can be clearly distinguished from the industrial buildings in terms of their function, their nature and their general location.</u> AS 10 (Revised) <u>permits assets to be revalued on a class-by-class basis.</u> The different characteristics of the buildings enable them to be classified as different PPE classes. The different measurement models can, therefore, be applied to these classes for subsequent measurement.</p> <p>However, all properties within the class of office buildings must be carried at revalued amount.</p> |
| 19. | <p>Narmada Ltd. purchased an existing bottling unit from Kaveri Ltd. Kaveri Ltd. followed SLM of charging depreciation on machinery of the sold unit whereas Narmada Ltd. followed WDV method in its other units. The directors of Narmada Ltd. want to continue to charge depreciation for the acquired unit in SLM which is not consistent with the WDV method followed in other units. Discuss the contention of the directors with reference to the AS 10.</p> <p>Further during the year, Narmada Ltd. set up a new plant on coastal land. In view of the corrosive climate, the company felt that its machine life is reducing faster. Can the Company charge a higher rate of depreciation?</p> <p style="text-align: right;">(May 2009 RTP)</p> |
| Sol. | <p>Provision: - As per AS 10 (REVISED) there are several methods of allocating depreciation over the useful life of the assets. If there has been <u>significant change in the expected pattern of consumption</u> of the future economic benefits embodied in the asset, <u>the method should be changed to reflect the change pattern.</u> <u>A combination of more than once method is sometimes used even for each part of significant assets if it is justified.</u></p> <p>Analysis and conclusion: - In the given case Narmada Ltd. can continue to charge depreciation for the acquired unit as per SLM because directors of Narmada Ltd. Wanted to charge depreciation for the acquired unit in SLM which is not consistent with the WDV method followed in other units. The enterprise should consider related statutes for computation of the depreciation. For example, <u>the Companies Act lays down the useful lives of various assets.</u> Where the management's estimate of the useful life of an asset of the enterprise is shorter than that envisages under the provisions of the relevant statute, the <u>depreciation provision is appropriately computed by applying higher rate.</u> Therefore, in the given case, the Company can charge higher rated of depreciation based on its estimate of the useful life of machinery, provided that such estimate is no less than the rate prescribed by the Companies Act, for that class of assets. However, such higher depreciation rates and/or the reduced lives of the assets should be <u>disclosed by way of Notes to accounts in the Financial Statements.</u></p> |

| 22. | <p>Entity B manufactures industrial chemicals and uses blending machines in the production process. The output of the blending machines is consistent from year to year and they can be used for different products.</p> <p>However, maintenance costs increase from year to year and a new generation of machines with significant improvements over existing machines is available every 5 years. Suggest the depreciation method to the management.</p> <p style="text-align: right;">(ICAI SM)</p> | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-10 (REVISED) a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate.</p> <p>Analysis and conclusion: - In the given case the <u>straight-line depreciation method should be adopted, because the production output is consistent from year to year.</u></p> <p>Factors such as maintenance costs or technical obsolescence should be considered in determining the blending machines' useful life.</p> | | | | | | | | | | | | |
| 23. | <p>Entity A carried plant and machinery in its books at ₹2,00,000. These were destroyed in a fire. The assets were insured 'New for old' and were replaced by the insurance company with new machines that cost ₹20,00,000. The machines were acquired by the insurance company and the company did not receive ₹20,00,000 as cash compensation. State, how Entity A should account for the same.</p> <p style="text-align: right;">(ICAI SM)</p> | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-10 (REVISED) the <u>cost of PPE may undergo changes subsequent to its acquisitions or construction on account of: changes in liabilities, price adjustments, changes in duties, changes in initial estimates of amounts for dismantling, removing restoration and similar factors.</u></p> <p>Analysis and conclusion: - Entity A should account for a loss in the Statement of Profit and Loss on de-recognition of the carrying value of plant and machinery in accordance with AS 10 (Revised).</p> <p>Entity A should separately recognize a receivable and a gain in the income statement resulting from the insurance proceeds under AS 29 (Revised)* once receipt is virtually certain. The receivable should be measured at the fair value of assets that will be provided by the insurer.</p> | | | | | | | | | | | | |
| 24. | <p>On 01.04.20X0 a machine was acquired at ₹4,00,000. The machine was expected to have a useful life of 10 years. The residual value was estimated at 10% of the original cost. At the end of the 3rd year, an attachment was made to the machine at a cost of ₹1,80,000 to enhance its capacity. The attachment was expected to have a useful life of 10 years and zero terminal value. During the same time the original machine was revalued upwards by ₹90,000 and remaining useful life was reassessed at 9 years and residual value was reassessed at NIL.</p> <p>Find depreciation for the year, if</p> <ol style="list-style-type: none"> Attachment retains its separate identity Attachment becomes integral part of the machine. <p style="text-align: right;">(May 2014)</p> | | | | | | | | | | | | |

| 26. | <p>M/s Progressive Company Limited has not charged depreciation for the year ended on 31st March, 20X1, in respect of a spare bus purchase during the financial year 20X0-X1 and kept ready by the company for use as a stand-by, on the ground that, it was not actually used during the year. State your views with reference to Accounting Standard 10 "Property, Plant and Equipment".</p> <p>Further during the year company made additions to its factory by using its own workforce, at a cost of ₹4,50,000 as wages and materials. The lowest estimate from an outside contractor to carry out the same work was ₹6,00,000.</p> <p>The directors contend that, since they are fully entitled to employ an outside contractor, it is reasonable to debit the Factory Building Account with ₹6,00,000. Comment whether the directors' Contention is right in view of the provisions of Accounting Standard 10?</p> <p style="text-align: right;">(May.2012)</p> |
| Sol. | <p>Provisions: -</p> <p>As per AS-10 (REVISED), Depreciation is a measure of wearing out, consumption or other loss of value of a depreciable asset arising from use, effluxion of time or obsolescence through technology and market changes. <u>Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by the management.</u></p> <p>As per AS-10 (REVISED) The gross book value of the self-constructed fixed asset includes the <u>costs of construction that relate directly to the specific asset and the costs that are attributable to the construction activity in general can be allocated to the specific asset. If any internal profit on any items used from its stores or abnormal loss of material should not be the part of self-constructed asset.</u></p> <p>Analysis and Conclusion: -</p> <ul style="list-style-type: none"> ✓ The need for using the stand by bus may not have arisen during the year but that does not imply that the useful life of the bus has not been affected. Therefore, non-provision of depreciation on the ground that the bus was not used during the year is not tenable. ✓ Saving of ₹1,50,000 on account of using its own workforce is an unrealized/internal profit, which should not be capitalized/recorded as per the standard. Therefore only ₹4,50,000 should be debited to the factory building account and not ₹6,00,000. <p>Hence, the contention of the directors of the company to capitalize ₹6,00,000. As cost of factory building, on the ground that the company is fully entitled to employ an outside contractor is not justifiable.</p> |
| 27. | <p>Hema Ltd. purchased a machinery on 1.04.20X0 for ₹15,00,000. The company charged straight line depreciation based on 15 years working life estimate and residual value ₹3,00,000. At the beginning of the 4th year, the company by way of systematic evaluation revalued the machinery upward by 20% of net book value as on date and also re-estimated the useful life as 7 years and scrap value as nil. The increase in net book value was credited directly to revaluation reserves. Depreciation (on SLM basis) later on was charged to Profit & Loss Account. At the beginning of 8 year the company decided to dispose off the machinery and estimated the realizable value to ₹2,00,000.</p> <p>You are required to ascertain the amount to be charged to Profit & Loss Account at the beginning of 8th year with reference to AS-10.</p> <p style="text-align: right;">(November 2016)</p> |

| 30. | <p>A publishing Company undertook repair and overhauling of its Machinery at a cost of ₹250 lakh to maintain them in good condition & capitalized the amount as it is more than the earlier. The company performance this overhauling every three years. Comment.</p> | | | | | | | | | | | | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-10 (REVISED) the cost of an item of PPE should be recognized as an asset if, and only if:</p> <ol style="list-style-type: none"> 1) Probable future economic benefits inflow to the entity. 2) Cost should be measured reliable. | | | | | | | | | | | | | | | | | | | | | | | | |

| | |
|------|--|
| | <p><u>Analysis and conclusion:</u> - In the given case subsequent expenditure should be capitalized as it increases the future economic benefits i.e. the additional expenditure satisfies the definition of asset expenditure on repairs and overhauling is not of general and it is significant in amount, as the economic benefits are available over a period of 3 years. Hence it the <u>expenditure should be capitalized as a separate significant part and it should be amortized over a period of 3 years.</u> If there is any carrying amount of earlier overhaul expense in balance sheet, the entity should transfer that balance to Profit and Loss and make it nil.</p> |
| 31. | <p>Fire Ltd. purchase equipment for its power plant from U Ltd. during the year 20X0 -X1 at a cost of ₹100 lakh. Out of this they paid only 90% and Balance 10% was to be paid after 1 year on satisfactory performance of the equipment. During the financial year 20X1 -X2, U Ltd. waived off the balance 10% amount. Fire Ltd. credited it to Profit and Loss discount received. Comment.</p> |
| Sol. | <p><u>Provision:</u> - As per AS-10 (REVISED) <u>Change in liability should be adjusted with the PPE</u> and the remaining carrying amount should be depreciated over the remaining life of the asset prospectively.</p> <p><u>Analysis and conclusion:</u> - In the given case <u>the treatment made by Fire Ltd. is not correct so reduction in the amount of Liability should be reduced from the cost of the Asset</u></p> |

9. Mr. A bought a forward contract for three months of US\$ 1,00,000 on 1st December at 1 US\$ = ₹47.10 when exchange rate was US\$ 1 = ₹47.02. On 31st December when he closed his books exchange rate was US\$ 1 = ₹47.15. On 31st January, he decided to sell the contract at ₹47.18 per dollar. Show how the profits from contract will be recognised in the books.

(ICAI SM/Nov. 2013 RTP)

Sol. **Provision:** - As per AS 11 on 'The Effects of Changes in Foreign Exchange Rates' a forward exchange contract intended for trading or speculation purposes, the premium or discount on the contract is ignored and at each balance sheet date, the value of the contract is marked to its current market value and the gain or loss on the contract is recognised.

Analysis and conclusion: - In the given case of Mr. A, the forward contract was for **speculation purpose** (AS FOREIGN EXCHANGE CONTRACT HAS BEEN ENTERED WITHOUT ANY LIABILITY TO PAY IN FOREIGN EXCHANGE) so the premium on contract i.e., the difference between the spot rate and contract rate will not be recorded in the books. Only when the contract is sold the difference between the contract rate and sale rate will be recorded in the Profit & Loss Account.

| | |
|---|------------------|
| ✓ Sale Rate | – ₹ 47.18 |
| ✓ Less: Contract Rate | – <u>₹ 47.10</u> |
| ✓ Premium on Contract | – <u>₹ 0.08</u> |
| ✓ Contract Amount | – US \$ 1,00,000 |
| ✓ Total Profit (1,00,000 × 0.08) | – ₹ 8,000 |

10. A Ltd. purchased fixed assets costing ₹3,000 lakhs on 1.1.20X1 and the same was fully financed by foreign currency loan (U.S. Dollars) payable in three annual equal instalments. Exchange rates were 1 Dollar = ₹40.00 and ₹42.50 as on 1.1.20X1 and 31.12.20X1 respectively. First instalment was paid on 31.12.20X1. The entire difference in foreign exchange has been capitalised. You are required to State, how these transactions would be accounted for.

(ICAI SM/Nov.2013)

| | |
|-------------|--|
| Sol. | <p>Provision: - As per AS 11 'The Effects of Changes in Foreign Exchange Rates'. Exchange differences arising on the settlement of monetary items or on reporting an enterprise's monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, <u>should be recognised as income or expenses in the period in which they arise.</u></p> <p>Thus, <u>exchange differences arising on repayment of liabilities incurred for the purpose of acquiring fixed assets are recognised as income or expenses.</u></p> <p>Analysis and conclusion: - In the given case of A Ltd. The following treatment has been:</p> <ul style="list-style-type: none"> ✓ Calculating of Exchange Difference; ✓ Foreign currency loan = $\frac{₹ 3,000 \text{ lakhs}}{₹ 40} = 75 \text{ lakhs US Dollars}$ ✓ Exchange difference = 75 lakhs US Dollars $\times (42.50 - 40.00) = ₹ 187.50 \text{ lakhs}$ (including exchange loss on payment of first instalment) ✓ Therefore, entire loss due to exchange differences amounting ₹ 187.50 lakhs should be charged to profit and loss account for the year. |
| 11. | <p>Distinguish Non-Integral Foreign Operation (NFO) with Integral Foreign Operation (IFO) as per AS 11.</p> <p style="text-align: right;">(ICAI SM)</p> |
| Sol. | <p>AS per AS 11, Integral foreign operation (IFO) is a foreign operation, the activities of which are an integral part of those of the reporting enterprise.</p> <p>A foreign operation that is integral to the operations of the reporting enterprise carries on its business as if it were an extension of the reporting enterprise's operations. In contrast, a non-integral foreign operation (NFO) is a foreign operation that is not an Integral operation.</p> |
| 12. | <p>With reference to AS 11, define the following:</p> <p>i) Integral Foreign Operation.</p> <p>ii) Non-integral Foreign Operation.</p> <p style="text-align: right;">iii) (November. 2016)</p> |
| Sol. | <p>i) Integral Foreign Operation: It is a foreign operation, the activities of which are an <u>integral part of those of the reporting enterprise a foreign operation that is integral to the operations of the reporting enterprise carries on its business</u> as if it were an extension of the reporting enterprise's operation.</p> <p>ii) Non-Integral Foreign Operation It is a <u>foreign operation that is not an integral foreign operation when there is a change between in the exchange rate between the reporting currency and the local currency.</u> There is a little or no direct impact of the present and future cash flow from operations of either the non - integral foreign operation or the reporting enterprise the change in the exchange rate affects the reporting enterprise's net investment in the non-integral foreign operation rather than the individual monetary and non-monetary items held by the non-integral foreign operation.</p> |
| 13. | <p>Sunshine Company Limited imported raw materials worth US Dollars 9,000 on 25th February, 20X1, when the exchange rate was ₹44 per US Dollar. The transaction was recorded in the books at the above-mentioned rate. The payment for the transaction was made on 10" April, 20X1, when the exchange rate was ₹48 per US Dollar.</p> <p>At the year-end 31st March, 20X1, the rate of exchange was ₹49 per US Dollar. The Chief Accountant of company passed an entry on 31st March, 20X1 adjusting the cost of raw material consumed for the difference between ₹48 and ₹44 per US Dollar. Discuss whether this treatment is justified as per the provisions of AS-11 (Revised).</p> <p style="text-align: right;">(Nov. 2011)</p> |

| <p>Sol.</p> | <p>Provision: - As per AS 11, 'The Effects of Changes in Foreign Exchange Rates', <u>initial recognition of a foreign currency transaction is done in the reporting currency by applying the exchange rate at the date of the transaction, and at the balance sheet date all monetary transactions should be reported using the closing rate.</u></p> <p>Further according to this <u>exchange difference arising on the settlement of the monetary items</u> or on reporting an enterprise's monetary items at rates different from those at which they were initially recorded during the period should be <u>recognised as income or as expenses in the period in which they arise.</u></p> <p>Analysis and Conclusion: - Accordingly, on 25th February 20X1, the raw material purchased and its creditors will be recorded at US dollar $9,000 \times ₹44 = ₹3,96,000$. Further as on balance sheet date such transaction is reported at closing rate of exchange, hence it will be valued at the closing rate i.e. ₹49 per US dollar (USD 9,000 \times ₹49=₹4,41,000) at 31st March, 20X1, irrespective of the payment made for the same subsequently at lower rate in the next financial year.</p> <p>The difference of ₹5 (49-44) per US dollar i.e. ₹45,000 (USD 9,000 \times ₹5) will be shown as an exchange loss in the profit and loss account for the year ended 31st March, 20X1 and will not be adjusted against the cost of raw materials.</p> <p>In the subsequent year on settlement date, the company would recognize or provide in the Profit and Loss Account an exchange gains of ₹1 per US dollar, i.e. the difference from balance sheet date to the date of settlement between ₹49 and ₹48 per US dollar i.e. ₹ 9,000. Hence, the <u>accounting treatment adopted by the Chief Accountant of the company is incorrect</u> i.e. it is not in accordance with the provisions of AS-11.</p> | | | | | | | | | | | | | | | | | | | | | | | | |

Assignment AS-12 Government Grant

| Q. No. | Questions and Answers |
|--------|---|
| 1. | <p>How would you treat the following in the account in accordance with AS 12 government grants?</p> <p>a) ₹35 lakhs received from the local authority for providing medical facilities to the employees.</p> <p>b) ₹100 lakhs received as subsidy from the central government for setting up a unit in notified backward area. This subsidy is in nature of nature of promoter's contribution.</p> <p>c) ₹10 Lakhs Grant received from the Central Government on installation of anti- pollution equipment</p> <p style="text-align: right;">(ICAI SM/Nov. 2020 RTP/May 2020 RTP/July 2021(modified))</p> |
| Sol. | <p>a) Provision:- As per AS-12 "Accounting for Government Grant" grants related to revenue are either <u>deducted from the related expense or credited in profit and loss statement either separately or under a general heading such as other income.</u> Analysis and conclusion:- In the given case ₹35 lakhs received from the local authority for providing medical facilities to the employees is a grant received in nature of revenue grant. So, this grant is presented as a credit in the profit and loss statement either separately or under a general heading such as other income. Alternatively, ₹35 lakhs may be deducted in reporting the related expense i.e. employee benefits expense.</p> <p>b) Provision:- As per AS-12 "Accounting for Government Grant" where the government grants are in the nature of promoter's contribution i.e., they are given with reference to the total investment in an undertaking or by way of contribution towards its total capital outlay and no repayment is ordinarily expected thereof. The grants are treated as capital reserve which can be neither distributed as dividend nor considered as deferred income. Analysis and conclusion:- In the given case, the subsidy received from the central government for setting up a unit in notified backward area is neither in relation to specific fixed assets nor in relation to revenue. Thus, amount of ₹100 lakhs should be credited to capital reserve.</p> <p>c) Provision:- As per AS-12 "Accounting for Government Grant" provides option to treat the grant related to depreciable assets either as a <u>deduction from the cost of the asset</u> concerned in arriving at its book value. The grant is thus <u>recognised in profit and loss statement over the useful life of a depreciable asset by way of reduced depreciation charge or treated as deferred income which is recognised in the profit and loss statement on a systematic and rational basis over the useful life of the asset.</u> Analysis and conclusion:- In the given case ₹10 lakhs grant received for installation anti-pollution equipment is a grant related to specific fixed asset. Thus, ₹10 lakhs may either be deducted from the cost of equipment or treated as deferred income to be recognized on a systematic basis in profit & Loss A/c over the useful life of equipment.</p> |
| 2. | <p>On 1.4.20X1 ABC Ltd. Received government grant of ₹300 lakhs for acquisition of machinery costing ₹1,500 lakhs. The grants was credited to the cost of the assets. The life of the machinery is 5 years. The machinery is depreciated at 20% on WDV basis. The company had to refund the grant in may 20X4 due to non-fulfilment of certain conditions.</p> <p>How you would deal with the refund of grant in the books of ABC ltd. Assuming that the company did not charge any depreciation for year 20X4?</p> <p style="text-align: right;">(ICAI SM/November 2020/May 2018)</p> |

| Sol. | <p>Provision: -As per AS 12 “Accounting for Government Grants”, the amount refundable in respect of a grant related to a specific fixed assets when at the time of receipt of government grant it is deducted from the cost of the asset then at the time of refund of grant <u>Increase in the book value of the asset and depreciation on revised book value charged prospectively over the residual useful life of assets.</u></p> <p>Analysis and conclusion: -</p> <table border="1"> <thead> <tr> <th>Date</th> <th>Particulars</th> <th>Amount</th> </tr> </thead> <tbody> <tr> <td>1st April 20X1</td> <td>Acquisition cost of machinery (1,500-300)</td> <td>1,200</td> </tr> <tr> <td>31st march 20X2</td> <td>Less: depreciation @20%</td> <td>(240)</td> </tr> <tr> <td></td> <td></td> <td>960</td> </tr> <tr> <td>31st march 20X3</td> <td>Less: depreciation @20%</td> <td>(192)</td> </tr> <tr> <td></td> <td></td> <td>768</td> </tr> <tr> <td>31st march 20X4</td> <td>Less: depreciation @20%</td> <td>(153.60)</td> </tr> <tr> <td>1st April 20X4</td> <td>Book value</td> <td>614.40</td> </tr> <tr> <td>May 20X4</td> <td>Add: refund of grant</td> <td>300</td> </tr> <tr> <td></td> <td>Revised book value</td> <td>914.40</td> </tr> </tbody> </table> <p>Depreciation @20% on the revised book value amounting ₹914.40 lakhs is to be provided prospectively over the residual useful life of the assets.</p> | Date | Particulars | Amount | 1 st April 20X1 | Acquisition cost of machinery (1,500-300) | 1,200 | 31 st march 20X2 | Less: depreciation @20% | (240) | | | 960 | 31 st march 20X3 | Less: depreciation @20% | (192) | | | 768 | 31 st march 20X4 | Less: depreciation @20% | (153.60) | 1 st April 20X4 | Book value | 614.40 | May 20X4 | Add: refund of grant | 300 | | Revised book value | 914.40 |

| 3. | <p>Ram Ltd. purchased machinery for ₹40 lakhs (useful life 4 years and residual value ₹8 lakhs). Government grant received was ₹16 lakhs. The grant had to be refunded at the beginning of third year.</p> <p>Show the Journal Entry to be passed at the time of refund of grant and the value of the fixed assets in the third year and the amount of depreciation for remaining two years,</p> <p>a) if the grant had been credited to fixed asset A/c b) if the grant had been credited to Deferred Grant A/c.</p> <p style="text-align: right;">(April 2021 MTP/ICAI SM(modified)/May 2017 (modified)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Sol. | <p>In the books of A ltd.</p> <p>1) If the grant is credited to fixed assets account:</p> <p>Provision: - As per AS-12 “Accounting for Government Grant” the amount refundable in respect of a grant related to a specific fixed assets when at the time of receipt of government grant it is deducted from the cost of the asset then at the time of refund of grant <u>Increase in the book value of the asset and depreciation on revised book value charged prospectively over the residual useful life of assets.</u></p> <p>Journal entries (at the time of refund of grant)</p> <table border="1"> <thead> <tr> <th>Particulars</th> <th>L.F</th> <th>Debit</th> <th>Credit</th> </tr> </thead> <tbody> <tr> <td>Fixed assets a/c</td> <td>Dr.</td> <td>16,00,000</td> <td></td> </tr> <tr> <td>To bank a/c (being grant refunded)</td> <td></td> <td></td> <td>16,00,000</td> </tr> </tbody> </table> <p>The balance of fixed assets after two years depreciation will be ₹16 lakhs (WN.1) and after refund of grant it will become (₹16 lakhs + ₹16 lakhs) = ₹32 lakhs on which depreciation will be charged for remaining two years. Depreciation = (32-8)/2 = ₹12 lakh p.a. will be charged for next two years.</p> | Particulars | L.F | Debit | Credit | Fixed assets a/c | Dr. | 16,00,000 | | To bank a/c (being grant refunded) | | | 16,00,000 | | | | | | | | | | | | | | | | | | |
| Particulars | L.F | Debit | Credit | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Fixed assets a/c | Dr. | 16,00,000 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| To bank a/c (being grant refunded) | | | 16,00,000 | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

2) If the grant is credited to deferred grant a/c:

Provision: - As per AS 12 "Accounting for government grants" the amount refundable in respect of a grant related to a specific fixed assets when at the time of receipt of grant treated as deferred income then at the time of refund of grant it is adjusted against unamortized deferred income and balance from statement of profit and loss account.

Analysis and conclusion: - In the given case income from deferred grant a/c is allocated to profit and loss a/c usually over the periods and in the proportion in which depreciation on related assets is charged. Accordingly in the first two years ($\text{₹}16 \text{ lakhs}/4 \text{ years}$) = $\text{₹}4 \text{ lakhs p.a.} \times 2 \text{ years} = \text{₹}8 \text{ lakhs}$ were credited to profit and loss a/c and $\text{₹}8 \text{ lakhs}$ was the balance of deferred grant a/c after two years.

Therefore, on refund in the 3rd year following entry will be passed:

| Particulars | L.F. | Debit | Credit |
|--|------|---------|----------|
| Deferred grant a/c | Dr. | 8 lakhs | |
| Profit and loss a/c | Dr. | 8 lakhs | |
| To bank a/c (being government grant refunded) | | | 16 lakhs |

Deferred grant will become nil. The fixed assets will continue to be shown in the books at $\text{₹}24 \text{ lakhs}$ (WN2) and depreciation will continue to be charged at $\text{₹}8 \text{ lakhs}$ per annum for the remaining two years.

Working notes:**1) Balance of fixed assets after two years but before refund (under first alternative)**

Fixed assets initially recorded in the books = $\text{₹}40 \text{ lakhs} - \text{₹}16 \text{ lakhs} = \text{₹}24 \text{ lakhs}$

Depreciation p.a. = $(24-8)/4 = \text{₹}4 \text{ lakhs}$ per year

Value of fixed assets after two years but before refund of grant = $24 \text{ lakhs} - (4 \times 2) = \text{₹}16 \text{ lakhs}$

2) Balance of fixed assets after two years but before refund (under second alternative)

Fixed assets initially recorded in the books = $\text{₹}40 \text{ lakhs}$

Depreciation p.a. = $(\text{₹}40 \text{ lakhs} - \text{₹}8 \text{ lakhs})/4 \text{ years} = 8 \text{ lakhs}$ per year

Book value of fixed assets after two years = $40 - (8 \times 2) = 24 \text{ lakhs}$

Note: it is assumed that the question requires the value of fixed assets is to be given after refund of government grant.

4. Samrat limited has set up its business in a designated backward area which entitles the company for subsidy of 25% of the total investment from government of India. The company has invested $\text{₹}80 \text{ crores}$ in the eligible investments. The company is eligible for the subsidy and has received $\text{₹}20 \text{ crore}$ from the government in February 20X1. The company wants to recognize the said subsidy as its income to improve the bottom line of the company.
Do you approve the action of the company in accordance with the accounting standard?

(Nov. 2019 RTP/May 2015 [modified]/ICAI SM)

Sol. **Provision:** - As per AS 12 "accounting for government grants" where the government grants are in the nature of promoter's contribution i.e. they are given with reference to the total investment in an undertaking or by way of contribution towards its total capital outlay (for example central investment subsidy scheme) and no repayment is ordinary expected in respect thereof. The grants are treated as capital reserve which can be neither distributed as dividend nor considered as deferred income.

Analysis and conclusion: - The subsidy received by samrat ltd. for setting up its business in a designated backward area will be treated as grant by the govt. in the nature of promoters contribution as the grant is given with reference to the total investment in an undertaking i.e. subsidy is 25% of the eligible investment and also no repayment is apparently expected is respected thereof.

| | |
|------|--|
| | <p>Since, the subsidy received is neither in relation to specific fixed assets nor in relation to revenue. Thus the <u>company cannot recognize the said subsidy as income in its financial statement in the given case. It should be recognised as capital reserve</u> which can be neither distributed as dividend nor considered as deferred income.</p> |
| 5. | <p>Hygiene Ltd. had received a grant of ₹50 lakh in 20X0 from a State Government towards installation of pollution control machinery on fulfilment of certain conditions. The company, however, failed to comply with the said conditions and consequently was required to refund the said amount in 20X8.</p> <p>The Company debited the said amount to its machinery account in 20X8 on payment of the same. It also reworked the depreciation for the said machinery from the date of its purchase and passed necessary adjusting entries in the year 20X8 to incorporate the retrospective impact of the same. State whether the treatment done by the company is correct or not.</p> <p style="text-align: right;">(May 2021 RTP/May 1999 (modified))</p> |
| Sol. | <p>Provision: - As per AS 12 "Accounting for Government Grant" the amount refundable in respect of a grant related to a specific fixed assets when at the time of receipt of government grant if it is deducted from the cost of the asset then at the time of refund of grant <u>Increase in the book value of the asset and depreciation on revised book value charged prospectively over the residual useful life of assets.</u></p> <p>Analysis and conclusion: - As per the facts of the case, Hygiene Ltd. had received a grant of ₹ 50 lakh in 20X0 from a State Government towards installation of pollution control machinery on fulfilment of certain conditions. However, the amount of grant has to be refunded since, it failed to comply with the prescribed conditions.</p> <p>The Standard further makes it clear that the book value of the asset is increased, depreciation on the revised book value should be provided prospectively over the residual useful life of the asset. Accordingly, the <u>accounting treatment given by Hygiene Ltd. of increasing the value of the plant and machinery is quite proper.</u></p> <p>However, the accounting treatment in respect of depreciation given by the company of adjustment of depreciation with retrospective effect is improper and constitutes violation of AS 12.</p> |
| 6. | <p>Z ltd. Purchased a fixed assets for ₹50 lakhs, which has the estimated useful life of 5 years with the salvage value of ₹5,00,000. On purchase of the assets, government granted it a grant for ₹10 lakhs. Pass the necessary journal entries in the books of the company for first two years if the grant is treated as deferred income.</p> <p style="text-align: right;">(ICAI SM/May 2012 (modified))</p> |

| | | | | | |
|-------------|--|--|-------------|--------------|---------------|
| Sol. | Provision: - As per AS 12 "Accounting for government grants" grants related to depreciable assets are treated as deferred income which is <u>recognised in the profit and loss statement on a systematic and rational basis over the useful life of the asset.</u> | | | | |

| | 15 |
| Depreciation for the second year $(15-4)/3$ | 3.67 |

9. X ltd. Received a revenue grant of ₹10 crores during 20X1-X2 from government for welfare activities to be carried on by the company for its employees. The grant prescribed the condition for utilisation.
However, during the year 20X3-X4, it was found that the prescribed conditions were not fulfilled and the grant should be refunded to the government.
State how this matter will have to be dealt with in the financial statement of X ltd. For the year ended 20X3-X4.
(Nov. 2009/May 2011)

Sol. **Provision:** - As per AS 12 "Accounting for Government grants" that become refundable should be treated as an extra-ordinary item as per accounting standard 5 "net profit or loss for the period, prior period items and changes in accounting policies". The amount refundable in respect of a government grant related to revenue, is applied first against any unamortised deferred credit remaining in respect of the grant. To the extent that the amount refundable exceeds any such deferred credit, or where no deferred credit exists, the amount is charged immediately to profit and loss statement.
Analysis and conclusion: - In the Case of X ltd. refund of grant of ₹10 crore should be shown in the profit and loss account of the company as an extra-ordinary item during the financial year 20X3-X4.

10. Z ltd. Purchased a fixed assets for ₹50 lakhs, which has the estimated useful life of 5 years with the salvage value of ₹5,00,000. On purchase of the assets government granted it a grant for ₹10 lakh (this amount was reduced from the cost of fixed assets). Grant was considered as refundable in the end of 2nd year to the extent of ₹7,00,000. Pass the journal entry for refund of the grant as per the first method.
(ICAI SM)

Sol. **Provision:** - As per AS-12 "Accounting for Government grant" the amount refundable in respect of a grant related to a specific fixed assets when at the time of receipt of government grant if it is deducted from the cost of the asset then at the time of refund of grant Increase in the book value of the asset and depreciation on revised book value charged prospectively over the residual useful life of assets.

Journal Entry

| Particulars | L.F. | Debit | Credit |
|---|------|----------|----------|
| Fixed assets a/c | Dr. | 7,00,000 | |
| To bank a/c | | | 7,00,000 |
| (Being government grant on assets refunded) | | | |

11. Supriya ltd. Received a grant of ₹2,500 lakhs during the accounting year 20X1-20X2 from government for welfare activities to be carried on by the company for its employee. The grant prescribed conditions for its utilisation. However, during the year 20X2-20X3, it was found that the conditions of grants were not complied with and the grant had to be refunded to the government in full. Elucidate the current accounting treatment, with reference to the provision of AS 12.
(ICAI SM)

| | |
|-------------|---|
| Sol. | <p>Provision: - As per AS 12 'Accounting for Government Grants', Government grants sometimes become refundable because certain conditions are not fulfilled. A government grant that becomes refundable is treated as an extraordinary item as per AS 5. The amount refundable in respect of a government grant related to revenue is applied <u>first against any unamortized deferred credit remaining in respect of the grant. To the extent that the amount refundable exceeds any such deferred credit, or where no deferred credit exists, the amount is charged immediately to profit and loss statement.</u></p> <p>Analysis and conclusion: - In the present case, the <u>amount of refund of government grant should be shown in the profit & loss account of the company as an extraordinary item during the year.</u></p> |
| 12. | <p>ABC ltd. Received two acres of land received for set up of plant. It also received ₹2lakhs received for purchase of machinery of ₹10 lakhs. Useful life of machinery is 5 years. Depreciation on this machinery is to be charged on straight line basis. How should ABC ltd. Recognize these government grants in its books of accounts?</p> <p style="text-align: right;">(May 21 RTP)</p> |
| Sol. | <p>Provision: - As per AS -12 "Accounting for Government grant" when non-monetary assets received from government then <u>asset is recorded at acquisition cost</u> but when non-monetary assets received at free of cost then they are recorded at nominal value.</p> <p>The standard provides option to treat the grant related to depreciable assets either as a <u>deduction from the cost of the asset concerned in arriving at its book value.</u> The grant is thus <u>recognised in profit and loss statement over the useful life of a depreciable asset by way of reduced depreciation charge or treated as deferred income which is recognised in the profit and loss statement on a systematic and rational basis over the useful life of the asset.</u></p> <p>Analysis and conclusion: - In the case 1 of ABC Ltd. Received the land at free of cost so land should be recognised at nominal value in the balance sheet of ABC Ltd.</p> <p>In the case 2 of ABC ltd. Received a grant of ₹2 lakh to purchase a machinery under method 1 Accordingly the grant of ₹2 lakhs is deducted from the cost of the machinery. <u>Machinery will be recognised in the book at ₹10 lakhs – ₹2 lakhs = ₹8 lakhs and depreciation will be charged on it as follows:</u></p> <p><u>₹8 lakh/₹5 lakhs = ₹1.60 lakhs per years.</u></p> <p>Under method 2 accordingly grant of ₹2 lakh received treated as deferred income which is recognised in the profit and loss statement on a systematic and rational basis over the useful life of assets. Such allocations to income is usually made over the periods and in the proportionate in which depreciation on related assets is charged.</p> <p><u>₹2 lakhs should be recognised as deferred income and will be transferred to profit and loss over the useful life of the assets.</u> In this case, <u>₹40,000 (2 lakhs/5 years) should be credited to profit and loss each year over the periods of 5 years.</u></p> |
| 13. | <p>Darshan ltd. purchased a machinery on 1st April 20X1 for ₹130 lakhs (useful life is 4 years). Government grant received is ₹40 lakhs for the purchase of above machinery. Salvage value at the end of useful life is estimated at ₹60 lakhs. Darshan ltd. decides to treat the grant as deferred income. You are required to calculate the amount of depreciation and grant to be recognised in profit and loss account for the year ending 31st march 20X2, 31st March 20X3, 31st march 20X4 and 31st march 20X5. Darshan ltd. follows straight line method for charging depreciation.</p> <p style="text-align: right;">(January 2021)</p> |

| Sol. | <p>Provision: - As per AS-12 "Accounting for Government grant" related to depreciable assets, if <u>treated as deferred income are recognised in the profit and loss statement on a systematic and rational basis over the useful life of the assets.</u></p> <p>Analysis and conclusion: - In the given case of Darshan Ltd. Amount of depreciation and grant to be recognised in the profit and loss account each year. Depreciation per year:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Particulars</th> <th style="text-align: right;">Amount</th> </tr> </thead> <tbody> <tr> <td>Cost of the assets</td> <td style="text-align: right;">130</td> </tr> <tr> <td>Less: salvage value</td> <td style="text-align: right;">(60)</td> </tr> <tr> <td></td> <td style="text-align: right;">70</td> </tr> <tr> <td>Depreciation per year (70/4)</td> <td style="text-align: right;">17.50</td> </tr> </tbody> </table> <p>₹17.50 lakhs depreciation will be recognised for the year ending 31 march 20X2, 31st March 20X3, 31st march 20X4 and 31st march 20X5</p> <p>Amount of grant recognised in profit and loss account each year: 40 lakhs/4 years = ₹10 lakhs for the year ending 31st march 20X2, 31st march 20X3, 31st march 20X4 and 31st march 20X5.</p> | Particulars | Amount | Cost of the assets | 130 | Less: salvage value | (60) | | 70 | Depreciation per year (70/4) | 17.50 |

| 14. | <p>State whether the following statements are true and false. Also give reason for your answer: As per AS 12, government grants in the nature of promoter's contribution which becomes refundable should be reduced from the capital reserve.</p> <p style="text-align: right;">(May 2019)</p> | | | | | | | | | | |
| Sol. | <p>True Reason: When grants are in the nature of promoter's contribution becomes refundable in part or in full to the government on non- fulfilment of some specified conditions. The relevant <u>amount refundable to the government is reduced from the capital reserve.</u></p> | | | | | | | | | | |
| 15. | <p>Viva ltd. received a specific grant of ₹30 lakhs for acquiring the plant of ₹150 lakhs during 20X1-X2 having useful life of 10 years. The grant received was credited to deferred income in the balance sheet and was not deducted from the cost of plant. During 20X4-X5, due to non-compliance of condition laid down for the grant, the company had to refund the whole grant to the government. Balance in the deferred income on that date was ₹21lakhs and written down value of plant was ₹105 lakhs. What should be treatment of the refund of the grant and the effect on cost of the fixed assets and the amount of depreciation to be charged during the year 20X4-X5 in Profit and loss a/c?</p> <p style="text-align: right;">(March 2021 MTP)</p> | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-12 "Accounting for Government grants" the amount refundable in respect of a <u>grant related to specific fixed assets should be recorded by reducing the deferred income balance.</u> To the extent the <u>amount refundable exceeds any such deferred credit the amount should be charged to profit and loss statement.</u></p> <p>Analysis and conclusion: - In this case the grant refunded is ₹30 lakhs and balance in deferred income ₹21 lakhs, ₹9 lakhs shall be charged to the profit and loss account for the year 20X4-X5. There will be <u>no effect on the cost of the fixed assets and depreciation charged will be on the same basis as charged in the earlier years.</u></p> | | | | | | | | | | |
| 16. | <p>How Government grant relating to specific fixed asset is treated in the books as per AS-12?</p> <p style="text-align: right;">(May 2007)</p> | | | | | | | | | | |

| | |
|-------------|---|
| Sol. | <p>As per AS-12 'Accounting for Government Grants', Government grant relating to specific fixed asset is treated as follows;</p> <ol style="list-style-type: none"> 1) Government grants related to specific fixed assets should be presented in the balance sheet by showing the <u>grant as deduction from the cost of the fixed assets</u> concerned in arriving at their book value. 2) When the grant related to a specific fixed asset equal to the whole, or virtually the whole, of the cost of the asset, the <u>asset should be shown in the balance sheet at a nominal value.</u> 3) Alternatively, government grants related to depreciable fixed assets may be <u>treated as deferred income which should recognised in the profit and loss statement on a systematic and rational basis over the useful life of the asset,</u> i.e., Such grants should be allocated to income over the periods and in the proportions in which depreciation on those assets is charged. 4) <u>Grant related to non - depreciable assets are credited to capital reserve</u> under this method, as there is usually no charge to income in respect of such assets. 5) But, when a grant related to a non-depreciable asset requires the <u>fulfilment of certain obligations,</u> the grant is credited to income over the same period over which the cost of certain obligations, <u>the grant is credited to income over the same period over which the cost of meeting such obligations to charge to income.</u> 6) Any differed income is suitably disclosed in the balance sheet pending its apportionment to profit & Loss account. |
| 17. | <p>How would you record a non- monetary grant received from the government as per AS 12? (May 2008)</p> |
| Sol. | <p>Provision:- As per AS 12 "Accounting for Government grant" when non-monetary assets received from government then <u>asset is recorded at acquisition cost</u> but when non-monetary <u>assets received at free of cost then they are recorded at nominal value.</u></p> |
| 18. | <p>Explain the treatment of Refund of Government Grants as per Accounting Standard-12. Or Explain in brief the treatment of Refund of Government Grants in line with AS 12 in the following three situations: 1) When Government Grant is related to revenue. 2) When Government Grant is related to specific fixed assets. 3) When Government Grant is in the nature of Promoter's Contribution. (2014 May)</p> |
| Sol. | <p>Provision:- As per AS 12, "Accounting for Government Grants", treatment of government grants in following situations.</p> <ol style="list-style-type: none"> 1) When government grant is related to revenue; <ol style="list-style-type: none"> a) When deferred credit account has a balance; The amount of government grant refundable will be <u>adjusted against unamortized deferred credit balance remaining in respect of the grant. To the extent that the amount refundable exceeds any such deferred credit, the amount is immediately charged to profit and loss account.</u> b) Where no deferred credit account balance exists; The amount of <u>Government grant refundable will be charged to profit and loss account.</u> 2) When government grant is related to specific fixed assets; <ol style="list-style-type: none"> a) Where at the time of receipt the amount of Government grant reduced the cost of asset; The amount of <u>Government grant refundable will increase the book value of the asset and depreciation is charged on revised book value prospectively.</u> b) Where at the time of receipt the amount of government grant was credited to "Deferred income"; The amount of Government grant refundable will <u>reduce the unamortized balance of deferred income account and balance from statement of profit and loss.</u> |

| | <p>c) Where at the time of receipt the amount of government grant was credited to capital reserve-: The amount of government grants refundable will <u>adjusted from capital reserve and balance from statement of profit and loss.</u></p> <p>3) When Government grant is in the nature of Promoter's Contribution; The amount of government grant refundable in part or in full on non-fulfilment of specific conditions, the relevant <u>amount recoverable by the Government will be reduced from Capital reserve.</u></p> <p>A Government grant that becomes refundable is treated as an extra-ordinary item.</p> | | | | | | | | | | | | |
|---|---|-------------|---|-------------------------|-----------|---|------------------|--|----------|----------------------|--------------------|---------|------------|
| 19. | <p>D Ltd. acquired a machine on 01-04-20X1 for ₹20,00,000. The useful life is 5 years. The company had applied on 01-04-20X1, for a subsidy to the tune of 80% of the cost. The sanction letter for subsidy was received in November 20X4. The Company's Fixed Assets Account for the financial year 20X4-X5 shows a credit balance as under:</p> <table border="1"> <thead> <tr> <th>Particulars</th> <th>₹</th> </tr> </thead> <tbody> <tr> <td>Machine (Original Cost)</td> <td>20,00,000</td> </tr> <tr> <td>Less: Accumulated Depreciation (from 20X1-X2- to 20X3-X4 on Straight Line Method)</td> <td><u>12,00,000</u></td> </tr> <tr> <td></td> <td>8,00,000</td> </tr> <tr> <td>Less: Grant received</td> <td><u>(16,00,000)</u></td> </tr> <tr> <td>Balance</td> <td>(8,00,000)</td> </tr> </tbody> </table> <p>You are required to explain how should the company deal with this asset in its accounts for 20X4-X5? (November 2021 RTP)</p> | Particulars | ₹ | Machine (Original Cost) | 20,00,000 | Less: Accumulated Depreciation (from 20X1-X2- to 20X3-X4 on Straight Line Method) | <u>12,00,000</u> | | 8,00,000 | Less: Grant received | <u>(16,00,000)</u> | Balance | (8,00,000) |
| Particulars | ₹ | | | | | | | | | | | | |
| Machine (Original Cost) | 20,00,000 | | | | | | | | | | | | |
| Less: Accumulated Depreciation (from 20X1-X2- to 20X3-X4 on Straight Line Method) | <u>12,00,000</u> | | | | | | | | | | | | |
| | 8,00,000 | | | | | | | | | | | | |
| Less: Grant received | <u>(16,00,000)</u> | | | | | | | | | | | | |
| Balance | (8,00,000) | | | | | | | | | | | | |
| Sol. | <p>1) Provision-: As per AS 12 "Accounting for Government grant" Government <u>grants related to specific fixed assets should be presented in the balance sheet by showing the grant as deduction from the cost of the fixed assets</u> concerned in arriving at their book value.</p> <p>Analysis and conclusion: In the given case it is inferred that the Company has deducted grant from the book value of asset for accounting of Government Grants. Accordingly, out of the ₹16,00,000 that has been received, ₹8,00,000 (being the balance in Machinery A/c) should be credited to the machinery A/c. The <u>balance ₹8,00,000 may be credited to P&L A/c, since already the cost of the asset to the tune of ₹12,00,000 had been debited to P&L A/c in the earlier years by way of depreciation charge, and ₹8,00,000 transferred to P&L A/c now would be partial recovery of that cost.</u> There is <u>no need to provide depreciation for 20X4-X5 or 20X5-X6 as the depreciable amount is now Nil.</u></p> | | | | | | | | | | | | |
| 20. | <p>A specified government grant ₹15 lakhs received by USB Ltd. for acquiring the Hi-Tech Dairy plant of ₹95 lakhs during the year 20X1-X2. Plant has useful life of 10 years. The grant received was credited to deferred income in the balance sheet. During 20X4-X5, due to non-compliance of conditions laid down for the grant, the company had to refund the whole grant to the Government. Balance in the deferred income on that date was ₹10.50 lakhs written down value of plant was ₹66.50 lakhs.</p> <p>i) What should be the treatment of the refund of the grant and the effect on cost of plant and the amount of depreciation to be charged during the year 20X4-X5 in profit and loss account?</p> <p>ii) What should be the treatment of the refund, if grant was deducted from that cost of the plant during 20X1-X2 assuming plant account showed the balance of ₹56 lakhs as on 1.4.20X4?</p> <p>You are required to explain in the line with provision of AS 12. (May 2010 RTP)</p> | | | | | | | | | | | | |

| | |
|------|--|
| Sol. | <p>i) Provision:- As per AS 12, 'Accounting for Government Grants', the amount refundable in respect of a grant related to specific fixed asset should be recorded by <u>reducing the deferred income balance. To the extent the amount refundable exceeds any such deferred credit, the amount should be charged to profit and loss statement.</u></p> <p>Analysis and conclusion: - In this case the grant refunded is ₹15 lakhs and <u>balance in deferred income is ₹10.50 lakhs, ₹4.50 lakhs shall be charged to the profit and loss account for the year 20X4-X5. There will be no effect on the cost of the fixed asset and depreciation charged will be on the same basis as charged in the earlier years.</u></p> <p>ii) Provision: - As per AS-12 "Accounting for Government grant" the amount refundable in respect of a grant related to a specific fixed assets when at the time of receipt of government grant if it is deducted from the cost of the asset then at the time of refund of grant <u>Increase in the book value of the asset and depreciation on revised book value charged prospectively over the residual useful life of assets.</u></p> <p>Analysis and conclusion: - In the given case the <u>book value of the plant shall be increased by ₹15 lakhs.</u> The increased cost of ₹15 lakhs of the plant should be amortised over 7 years (residual life). <u>Depreciation charged during the year 20X4-X5 shall be $(56+15)/7$ years = ₹10.14 lakhs</u> presuming the depreciation is charged on SLM.</p> |
| 21. | <p>The Company purchased on 1stApril, 20X1 special purpose machinery for ₹25 lakhs. It received a central Government subsidy for 20% of the price. Effective life of the machinery is ₹10 years. Advise on the accounting treatment.</p> <p style="text-align: right;">(May 2012 RTP)</p> |
| Sol. | <p>Provision:- As per AS-12 "Accounting for Government grant", Grants Related to specific Depreciable Fixed Assets either <u>Deduct the amount of grant from the cost of the asset and Depreciate the Asset on net value. Or it is treated as deferred income which be shown in Profit and loss account over the useful life of the asset.</u></p> <p>Analysis and conclusion: - In the given case <u>₹5 lakhs grant should be deducted from the cost of the assets, alternatively it could be treated as deferred income and recognized in the P & L account on a systematic and rational basis over the useful life of the assets (10 years in this case), such grants should be allocated to income over the periods and in the proportion in which depreciation on those assets is charged.</u></p> |
| 22. | <p>X Limited received a grant of ₹2 crores from the Central Government for the purpose of special Machinery during 20X1 – X2; The cost of Machinery was ₹20 crores and had a useful life of 9 years. During 20X4 – X5, the grant has become refundable due to non – fulfillment of certain conditions attached to it. Assuming the entire grant was deducted from the cost of Machinery in the year of acquisition. State with reasons, the accounting treatment to be followed in the year.</p> <p style="text-align: right;">(November 2011 RTP)</p> |

Sol. **Provision:-** As per AS 12 “Accounting for Government Grants” the amount refundable in respect of a government grant related to a specific fixed asset is recorded by increasing the book value of the asset. Depreciation on the revised book value is provided prospectively over the residual useful life of the assets.

Analysis and conclusion: - In the given case, book value of machinery will be increased by ₹2 crores in the year 20X5-20X6. The computations for the depreciation on machinery can be given as:

| | |
|---|--------------------------|
| Cost of Machinery | ₹20Crores |
| Less: Grant received | ₹2 Crores |
| Cost of machinery | ₹18Crores |
| Useful life of machinery | 9Years |
| Depreciation per year as per straight line method | ₹18 crores/9 |
| (Assuming residual value to be zero) | = ₹2 Crores |
| Total depreciation for 4 years (20X1 - X2 to 20X4-20X5) | ₹8 Crores |
| Book value (in year 20X5-X6) | ₹10crores |
| Add: Grant refunded | ₹2crores |
| Revised book value | ₹12 crores |
| Remaining use full life | 5 years |
| Revised annual depreciation | ₹12crores/5 = 2.4 crores |

Thus, book value of machinery will be ₹12 crores in the year 20X5 -20X6 and the depreciation amounting ₹2.4 crores will be charged on machinery. Annual depreciation of ₹2.4 Crores will be charged in the next five years.

AS-13 Accounting for Investments

| Q. No. | Questions and Answers |
|-----------|--|
| 1. | <p>On 15th June, 20X1, Y limited wants to re-classify its investments in accordance with AS 13 (revised). Decide and state the amount of transfer, based on the following information;</p> <ol style="list-style-type: none"> 1) A portion of long-term investments purchased on 1st March, 20X0 are to be re-classified as current investments. The original cost of these investments was ₹ 14 lakhs but had been written down by ₹ 2 lakhs (to recognise 'other than temporary' decline in value.) The market value of these investments on 15th June, 20X1 was ₹ 11 lakhs. 2) Another portion of long-term investments purchased on 15th January, 20X0 are to be re-classified as current investments. The original cost of these investments was ₹ 7 lakhs but had been written down to ₹ 5 lakhs (to recognize 'other than temporary' decline in value). The fair value of these investments on 15th June, 20X1 was ₹ 4.5 lakhs. 3) A portion of current investments purchased on 15th March, 20X1 for ₹ 7 lakhs are to be re-classified as long-term investments, as the company has decided to retain them. The market value of these investments on 31st March, 20X1 was ₹ 6 lakhs and fair value on 15th June 20X1 was ₹ 8.5 lakhs. 4) Another portion of current investments purchased on 7th December, 20X0 for ₹ 4 lakhs are to be re-classified as long-term investments. The market value of these investments was; <ul style="list-style-type: none"> ✓ On 31st March, 20X1 ₹ 3.5 lakhs ✓ On 15th June, 20X1 ₹ 3.8 lakhs <p style="text-align: center;">(May 2020 RTP/January 2021(modified)/May 2019/November 2014 (modified)/ICAI SM)</p> |
| Ans. | <p>Provision: - As per AS 13 (Revised) "accounting for investment" where <u>long term investments are reclassified as current investments, transfer are made at the lower of cost and carrying amount at the date of transfer, and where investments are reclassified from current to long term investments, transfer are made at lower of cost and fair value at the date of transfer.</u></p> <p>Analysis and conclusion: - In the given case of Y Ltd. The re-classification will be done on the following basis:</p> <ol style="list-style-type: none"> 1) In the first case, carrying amount of investment on the date of transfer is less than the cost; hence this re-classified current investment should be carried at ₹ 12 lakhs in the books. 2) In the second case also, carrying amount of investment on the date of transfer is less than the cost; hence this re-classified current investment should be carried at ₹ 5 lakhs in the books. 3) In the third case, reclassification of current investment into long-term investments will be made at ₹ 7 lakhs as cost is less than its fair value of ₹ 8.5 lakhs on the date of transfer. 4) In the fourth case, market value (considered as fair value) is ₹ 3.8 lakhs on the date of transfer which is lower than the cost of ₹ 4 lakhs. The reclassification of current investment into long-term investments will be made at ₹ 3.8 lakhs. |
| 2. | <p>A limited invested in the shares of XYZ ltd. On 1st December 20X1 at a cost of ₹50,000. Out of these shares ₹25,000 shares were purchased with an intention to hold for 6 months and ₹25,000 shares were purchased with an intention to hold as long-term investment.</p> <p>A ltd. Also earlier purchased gold of ₹1,00,000 and silver of ₹30,00,000 on 1st april 20X1. Market value as on 31st march 20X2 of above investment are as follows:</p> <p>Shares ₹47,500 (decline in the value of shares is temporary) Gold ₹1,80,000 Silver ₹30,55,000</p> <p>How above investments will be shown in the books of accounts of M/s A ltd. For the year ending 31st march 20X2 as per the provision of AS 13(revised)?</p> <p style="text-align: center;">(November 2020/May 2016(modified)/May 2012 (modified)/ICAI SM)</p> |

| | |
|------|--|
| Ans. | <p>Provision: - As per AS 13 (revised) “accounting for investment, for investment in shares- if the investment is purchased with an intention to hold for short term period (less than one year), then it will be classified as <u>current investment and to be carried at lower of cost and fair value.</u> <u>Long-term investments are usually carried at cost but if, there is a decline, other than temporary, in the carrying amounts of long term valued investments the resultant reduction in carrying amount is charged to the profit and loss statement.</u></p> <p>Analysis and conclusion: - In the given case ₹25,000 shares held as <u>current investment will be carried in the books at ₹23,750 (₹47,500/2)</u> because current investments are carried at lower of cost and the fair value. And balance of equity shares are acquired with an intention to hold for long term period (more than one year) then should be considered as long term investment to be shown at cost in the balance sheet of the company. But, there is a <u>decline, other than temporary, in the carrying amounts of long term valued investments</u> hence ₹25,000 shares held as long term investment will be carried in the books at ₹25,000.</p> <p>Gold and silver are generally purchased with an intention to hold them for long term period (more than one year) until and unless given otherwise.</p> <p>Hence the investment in gold and silver (purchased on 1st march 20X1) should continue to be shown at cost (since there is no other than temporary decline) as on 31st march 20X2. Thus, <u>gold at ₹1,00,000 and silver at ₹ 30,00,000 respectively will be shown in the books.</u></p> |
| 3. | <p>Paridhi electronics ltd. Invested in the share of Dhansukh ltd. On 1st may 20X1 at a cost of ₹10,00,000. Three fourth of these investments were current investments and the remaining investment were intended to be held for more than a year. The published accounts of Dhansukh ltd. Received in January 20X2 reveals that the company has incurred cash losses with decline in market share and investment of Paridhi electronics ltd. May not fetch more than 7,50,000. The reduction in value is apparent to be non-temporary.</p> <p>You are required to explain how you will the above in the financial statements of the Paridhi electronics ltd. As on 31-3-X1 with reference to AS 13.</p> <p style="text-align: center;">(May 2021 RTP/November 2016/ICAI SM/November 2020 RTP)</p> |
| Ans. | <p>Provision: - As per AS 13 (Revised) “accounting for investments” <u>carrying amount for current investment is the lower of cost and fair value.</u> In respect of current investment for which an active market exists market value generally provides the best evidence of fair value. <u>Long-term investments are usually carried at cost but if, there is a decline, other than temporary, in the carrying amounts of long term valued investments the resultant reduction in carrying amount is charged to the profit and loss statement.</u></p> <p>such reduction being determined and made for each investment individually. The standard also states that indicators of the value of investments are obtained by reference to its market value, the investee’s assets and results and the expected cash flows from the investment.</p> <p>Analysis and conclusion: - In the given case Paridhi ltd. Made three fourth of ₹10,00,000 i.e. ₹7,50,000 as current investments and remaining ₹2,50,000 as long term. The facts of the case given in the question clearly suggest that if, there is a <u>decline, other than temporary, in the carrying amounts of long term valued investments</u> Therefore, reduce the carrying amount of shares for both categories of share to bring them to market value. Hence the <u>carrying value of investment will be shown at amount of ₹7,50,000 in the financial statement for the year ended 31st march 20X2 and charge the difference of loss of ₹2,50,000 to profit and loss account.</u></p> |
| 4. | <p>Z bank has classified its total investment on 31-3-20X1 into three categories (a) held to maturity (b) available for sale (c) held for trading as per the RBI guidelines.</p> <p>Held to maturity investments are carried at acquisition cost less amortized amount “available for sale” investments are carried at market to market. Held for trading investments are valued at weekly intervals at market rates. Net depreciations if any is charged to revenue and net appreciation if any is ignored.</p> <p>You are required to comment whether the policy of the bank is in accordance with AS 13?</p> <p style="text-align: center;">(November 2019 RTP/ November 2021 RTP)</p> |

| | |
|-------------|---|
| Ans. | As per AS 13 (Revised) "accounting for investment" the accounting standard is not applicable to bank, insurance company, mutual funds. In this case Z bank is a bank therefore AS 13 does not apply to it. For banks the RBI has issued separate guidelines for classification and valuation of its. Investment and Z bank should comply with those RBI guidelines/norms. therefore, through Z bank has not followed the provision of AS 13 yet it would not be said s non-compliance since its complying with the norms stipulated by the RBI. |
| 5. | Mention two categories of investment defined by AS 13 and also state their valuation principle. (November 2008) |
| Ans. | As per AS 13 "accounting for investment" there are two categories of investments viz. current investment and long-term investments. According to the standard the <u>carrying amount for current investment is the lower of cost and fair value. Long-term investments are usually carried at cost but if, there is a decline, other than temporary, in the carrying amounts of long term valued investments the resultant reduction in carrying amount is charged to the profit and loss statement.</u> Such reduction being determined and made for each investment individually. For current investment account to this standard any reduction to fair value and any reversals of such reduction are included in the profit and loss statement. |
| 6. | An unquoted long-term investment is carried in the books at a cost of ₹2 lakh. The published accounts of the unlisted company received in may 20X1 showed that the company was incurring cash losses with declining market share and the long-term investment may not fetch more than ₹20,000. How will you deal with this in preparing the financial statement of R ltd. For the year ended 31 st march 20X1? (ICAI SM) |
| Ans. | Provision: - As per AS-13 (Revised) "accounting for investments" <u>Long-term investments are usually carried at cost but if, there is a decline, other than temporary, in the carrying amounts of long term valued investments the resultant reduction in carrying amount is charged to the profit and loss statement.</u> Analysis and conclusion: - On the basis of these facts of the given case clearly suggest that <u>there is a decline, other than temporary, in the carrying amounts of long term valued investments so reduce the carrying amount of long-term investment to ₹20,000 in the financial statements for the year ended 31st march 20X1.</u> |
| 7. | Briefly explain disclosure requirements for investment as per AS 13. (ICAI SM) |
| Ans. | The disclosure requirements as per AS 13 (revised) are as follows: <ol style="list-style-type: none"> 1) Accounting policies followed for valuation of investment. 2) Classification of investment into current and long term. 3) The amount includes in profit and loss statement for- <ol style="list-style-type: none"> a) Interest, dividend and rentals for long term and current investment disclosing therein gross income and tax deducted at source thereon, b) Profits and loss on disposal of current investment and changes in carrying amount of such investment. c) Profits and loss on disposal of long-term investment and changes in carrying amount of such investment. 4) Aggregate amount of quoted and unquoted investment giving the aggregate market value of quoted investment. 5) Any significant restriction on investment like minimum holding period for sale/disposal, utilisation of sale proceeds or non-remittance of sale proceeds of investment held outside India. 6) Other disclosure required by the relevant statute governing the enterprise. |
| 8. | A Government company, on the direction of the Central Government, had made investment in the shares of certain other companies from long term purpose, During the year, some of these investments were sold at profit of ₹4 crores and the same was treated as revenue profit for the year. The value of remaining investments on the balance sheet date had fallen by ₹6.30 crores for which no provision had been made in the accounts. (May 2015 RTP) |

| | |
|------|--|
| Ans. | <p>Provision: - As per AS-13(Revised)“accounting for investments” <u>Long term Investments are valued at cost.</u> If there is a decline in value of investment, but such <u>decline is not temporary then carrying amount of investment is reduced by the amount of such decline.</u></p> <p>Analysis and conclusion: - In the given case The Government company should show the long term Investments <u>at cost</u> if decline in the value of Investments <u>is temporary.</u> If the decline in the value of investments is <u>not temporary then Provision</u> should be made for ₹6.3 crores, if there is permanent decline in value of investment.</p> |
| 9. | <p>Srikrishna Ltd. purchased 10,000 shares of Gopal Ltd. and issued its 5000 shares. Nominal value of shares of both Srikrishna Ltd. and Gopal Ltd. is ₹10. The fair values of shares of Srikrishna Ltd. and Gopal Ltd. are ₹11.50 and ₹12 respectively. Calculate the cost of acquisition of investment.</p> <p style="text-align: right;">(May 2002)</p> |
| Ans. | <p>Provision: - As per AS-13(Revised) “accounting for investments”, if shares or other securities are issued to acquire investment then <u>Purchase price of investment is the fair value of the securities issued</u></p> <p>Analysis and conclusion: - As Sri Krishna Ltd has issued its <u>own 5,000 shares</u> and fair value of <u>one share is ₹11.50</u> so Investments should be valued at <u>₹ 57,500</u></p> |
| 10. | <p>Venkat Ltd. acquired 10,000 shares of ₹10 each of Gopal Ltd. @ ₹12 per share in 20X1. In 20X1, Venkat Ltd acquired another 5000 shares of ₹10 each of Gopal Ltd. @ ₹21 each on right basis on 1:2. Calculate the cost of acquisition of 15,000 shares; if the right shares were not subscribed but were sold in the market at the rate of ₹15 each, then calculate the cost of acquisition of shares and give the treatment of proceeds received against sale of right.</p> <p style="text-align: right;">(Past exam Question)</p> |
| Ans. | <p>Provision: - As per AS-13(Revised) “accounting for investments”, <u>Cost of investment comprises of purchase price and acquisition charges such as brokerage, fees and duties, etc.</u></p> <p>Analysis and conclusion: - ✓ If Rights shares are purchased then cost of Investments is: ✓ $10,000 \times 12 + 5,000 \times 21 = 2,25,000$ ✓ If Rights options of 5,000 shares are sold then value of Investments is: $10,000 \times 12 = 1,20,000$ and $5,000 \times 15 = ₹75,000$ will be credited to P/L A/c.</p> |
| 11. | <p>A company has invested a substantial amount in the shares of another company under the same management. The market price of the shares of the aforesaid company is about half of that at which these shares were acquired by the company. The management is not prepared to provide for the fall in the value of shares on the ground that the loss is only notional till the time the shares are actually sold?</p> <p style="text-align: right;">(Past exam Question)</p> |
| Ans. | <p>Provision: - As per AS – 13 (Revised) “accounting for investments” for the <u>purpose of determining carrying amount of shares, the investment has to be classified into long – term and current.</u></p> <p>Analysis and conclusion: -</p> <p>Long-term investment is usually carried/ valued at cost;</p> <ul style="list-style-type: none"> ✓ If <u>there is a decline in value of investment, but such decline is not temporary then carrying amount of investment is reduced by the amount of such decline.</u> ✓ In the instant case it appears that the investment is long – term, hence it should be carried at cost, unless there is permanent diminution in value of investment. As the market price investment is half of its cost, the reduction appears to be heavy and permanent, hence the provision for permanent diminution (decrease) in value of investment should be made. <u>The contention of management is not as per AS – 13.</u> |

| 12 | <p>D Ltd. acquired 1,000 shares of X Ltd. at a cost of ₹30,000. In the current year, K Ltd. offered Rights Share @ ₹50 per share in the ratio of 1:2. The cum – Rights Price of the share was ₹60 and D Ltd. purchased 1,000 shares at this price from the market. Thereafter, it sold 25% of Rights entitlement @ ₹10 per share. The remaining entitlement was duly subscribed by D Ltd. Find out the carrying amount of investment at the end of the year if MP falls to ₹45 per share after Rights.</p> <p style="text-align: right;">(Past exam Question)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--|--|--------------|------|--|-----------------------|--|--------|------------------------------------|---------------|--|--------------|--------------------------------------|-------|---|--------|--------------------------------------|---|------------------------|--------|-------------------------------|--------|---|----------|--|----------------|---|----------------|---|---------------------|--|--|------|-------|-------|------|-------|-------|------|------|------|-------------------------------|--|--|------|-------|-------|------|-------|-------|
| Ans. | <p>Provision: - As per AS-13 (Revised) “accounting for investments”, Carrying amount of each current investment is the lower of cost and fair value.</p> <p>AS -13 provides that if the investments are acquired at cum – Rights basis and the market value of the investment after becoming ex – Rights is less than the cost of acquisition then the sale proceeds, if any, from the rate of Rights entitlement should be deducted from the cost of investment to the extent of fall in the value of Investments.</p> <p>Analysis and conclusion: -</p> <p>In the above case, D Ltd. had acquired the shares at cum – Rights basis. So, the sale proceeds of Rights entitlement should be adjusted in the cost of investment as Market price falls below cost after the Rights offer as follows:</p> <table border="1" data-bbox="272 709 1455 1171"> <thead> <tr> <th>Particulars</th> <th>(₹)</th> </tr> </thead> <tbody> <tr> <td>✓ Cost of existing investment (1,000 shares)</td> <td>30,000</td> </tr> <tr> <td>✓ Cost of new investment at cum – Rights Price (1,000 ₹60)</td> <td>60,000</td> </tr> <tr> <td>✓ Total cost (2,000 shares)</td> <td>90,000</td> </tr> <tr> <td>✓ Total Rights entitlement (1:2 ratio)</td> <td>1,000 shares</td> </tr> <tr> <td>✓ Sale of Rights of 250 shares @ ₹10</td> <td>2,500</td> </tr> <tr> <td>✓ Subscription to Rights Shares (750 ₹50)</td> <td>37,500</td> </tr> <tr> <td>Calculation of carrying cost;</td> <td></td> </tr> <tr> <td>✓ Cost of 2,000 shares</td> <td>90,000</td> </tr> <tr> <td>✓ Cost of Rights shares (750)</td> <td>37,500</td> </tr> <tr> <td>✓ Total cost of 2,750 shares (1,27,500/2,750=46.3636)</td> <td>1,27,500</td> </tr> <tr> <td>✓ Less: Sale proceeds of Rights entitlement</td> <td>(2,500)</td> </tr> <tr> <td>✓ Less: Fall in value to be charged to P/L A/c</td> <td>(1,250)</td> </tr> <tr> <td>✓ Carrying cost of investments (45X2,750)</td> <td>1,23,750</td> </tr> </tbody> </table> | Particulars | (₹) | ✓ Cost of existing investment (1,000 shares) | 30,000 | ✓ Cost of new investment at cum – Rights Price (1,000 ₹60) | 60,000 | ✓ Total cost (2,000 shares) | 90,000 | ✓ Total Rights entitlement (1:2 ratio) | 1,000 shares | ✓ Sale of Rights of 250 shares @ ₹10 | 2,500 | ✓ Subscription to Rights Shares (750 ₹50) | 37,500 | Calculation of carrying cost; | | ✓ Cost of 2,000 shares | 90,000 | ✓ Cost of Rights shares (750) | 37,500 | ✓ Total cost of 2,750 shares (1,27,500/2,750=46.3636) | 1,27,500 | ✓ Less: Sale proceeds of Rights entitlement | (2,500) | ✓ Less: Fall in value to be charged to P/L A/c | (1,250) | ✓ Carrying cost of investments (45X2,750) | 1,23,750 | | | | | | | | | | | | | | | | | | | | |

| | <p>1) Can the company adjust depreciation of a particular item of investments within a category? 2) What should be the value of investments as on 31.3.20X1?</p> <p style="text-align: right;">[Nov. 2008]</p> | | | | | | | | | | | | | | | | |
|------------------------------|---|-----------------------|--------------------|---------------------|-----------------------|------------------------------|---------------------------------|--------|---------------|-------------------------------|-------|-------------------------|--------|--------|--------------|--|---------------|
| Ans. | <p>Provision: - As per AS 13 (Revised) "Accounting for investments", the <u>carrying amount for current investments is the lower of cost and market price</u>. Sometimes, the concern of <u>an enterprise may be with the value of a category of related current investments and not with each individual investments</u>, and accordingly, the investments may be computed at the lower of cost and market value computed category wise.</p> <p>Analysis and conclusion:-</p> <p>1) Quoted current investments for each category shall be valued at cost of market value, whichever is lower. For this purpose, the investments in each category shall be considered scrip-wise and the cost and market value aggregated for all investments in each category, the net depreciation shall be provided for or charged to the profit and loss account. If the aggregate market value for the category exceeds the aggregate cost for the category, the net appreciation shall be ignored. Therefore, depreciation of a particular item of investments can be adjusted within the same category in investments.</p> <p>2) Value of investments as on 31.3.20X1;</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Type of investment</th> <th style="text-align: center;">Valuation Principle</th> <th style="text-align: center;">Value (₹) in lakhs</th> </tr> </thead> <tbody> <tr> <td>✓ Equity Shares (Aggregated)</td> <td>✓ Lower of cost or market value</td> <td style="text-align: right;">308.50</td> </tr> <tr> <td>✓ Mutual Fund</td> <td>✓ NAV (market value, assumed)</td> <td style="text-align: right;">54.00</td> </tr> <tr> <td>✓ Government securities</td> <td>✓ Cost</td> <td style="text-align: right;">135.00</td> </tr> <tr> <td colspan="2" style="text-align: center;">Total</td> <td style="text-align: right;">497.50</td> </tr> </tbody> </table> | | Type of investment | Valuation Principle | Value (₹) in lakhs | ✓ Equity Shares (Aggregated) | ✓ Lower of cost or market value | 308.50 | ✓ Mutual Fund | ✓ NAV (market value, assumed) | 54.00 | ✓ Government securities | ✓ Cost | 135.00 | Total | | 497.50 |

| 3. | When capitalisation of borrowing cost should cease as per Accounting Standard 16? Explain in brief. (May 2021 RTP/May 2016 (modified)/ICAI SM/May 2020 RTP) | | | |
| Ans. | <ul style="list-style-type: none"> ✓ <u>Capitalization of borrowing costs should cease when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.</u> ✓ An asset is normally ready for its intended use or sale when its physical construction or production is complete even though routine administrative work might still continue. If <u>minor modifications such as the decoration of a property to the user's specification, are all that are outstanding, this indicates that substantially all the activities are complete.</u> ✓ When the <u>construction of a qualifying asset is completed in parts and a completed part is capable of being used while construction continues for the other parts, capitalization of borrowing costs in relation to a part should cease when substantially all the activities necessary to prepare that part for its intended use or sale are complete.</u> | | | |
| 4. | The Company has obtained Institutional Term Loan of ₹ 580 lakhs for modernisation and renovation of its Plant & Machinery. Plant & Machinery acquired under the modernisation scheme and installation completed on 31 st March, 20X2 amounted to ₹ 406 lakhs, ₹ 58 lakhs has been advanced to suppliers for additional assets and the balance loan of ₹ 116 lakhs has been utilised for working capital purpose. | | | |

| | The accountant is on a dilemma as to how to account for the total interest of ₹ 52.20 lakhs incurred during 20X1-20X2 on the entire Institutional Term Loan of ₹ 580 lakhs. (ICAI SM/May 2010 (modified)/November 2016) | | | | | | | | | | | | | | | | | | | | |
|---|--|---|--|---|--|---|------------------|---|--|---|------------------|---------------------------------------|--|-------------------|------------------------|--|--|--|--|---------------|---------------|
| Ans. | <p>Provision: - As per AS-16 'Borrowing Costs', <u>borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalised as part of the cost of that asset.</u> Other borrowing costs should be <u>recognised as an expense</u> in the period in which they are incurred.</p> <p>A <u>qualifying asset</u> is an asset that necessary <u>takes a substantial period of time</u> to get ready for its intended use or sale.</p> <p>Analysis and conclusion: - In the given case of company the treatment for total interest amount of ₹ 52.20 lakhs can be given as;</p> <table border="1"> <thead> <tr> <th>Purpose</th> <th>Nature</th> <th>Interest to be capitalised (₹ in lakhs)</th> <th>Interest to be charged to profit and loss account (₹ in lakhs)</th> </tr> </thead> <tbody> <tr> <td>• Modernisation and renovation of plant and machinery</td> <td>Qualifying asset</td> <td>$52.20 \times \frac{406}{580} = ₹36.54$</td> <td></td> </tr> <tr> <td>• Advance to supplies for additional assets</td> <td>Qualifying asset</td> <td>$52.20 \times \frac{58}{580} = ₹5.22$</td> <td></td> </tr> <tr> <td>• Working Capital</td> <td>Not a qualifying asset</td> <td></td> <td>$52.20 \times \frac{116}{580} = 10.44$</td> </tr> <tr> <td></td> <td></td> <td>₹41.76</td> <td>₹10.44</td> </tr> </tbody> </table> <p>*A Substantial period of time primarily depends on the facts and circumstances of each case. However, ordinarily, a period of twelve months is considered as substantial period of time unless a shorter or longer period can be justified on the basis of the facts and circumstances of the case.</p> <p>**It is assumed in the above solution that the modernisation and renovation of plant and machinery will take substantial period of time (i.e., more than twelve months). Regarding <u>purchase of additional assets, the nature of additional assets has also been considered as qualifying assets.</u> Alternatively, the plant and machinery and additional assets may be assumed to be non-qualifying assets on the basis that the renovation and installation of additional assets will not take substantial period of time. In that case, the entire amount of interest, ₹ 52.20 lakhs will be recognised as expenses in the profit and loss account for year ended 31st March, 20X2.</p> | Purpose | Nature | Interest to be capitalised (₹ in lakhs) | Interest to be charged to profit and loss account (₹ in lakhs) | • Modernisation and renovation of plant and machinery | Qualifying asset | $52.20 \times \frac{406}{580} = ₹36.54$ | | • Advance to supplies for additional assets | Qualifying asset | $52.20 \times \frac{58}{580} = ₹5.22$ | | • Working Capital | Not a qualifying asset | | $52.20 \times \frac{116}{580} = 10.44$ | | | ₹41.76 | ₹10.44 |
| Purpose | Nature | Interest to be capitalised (₹ in lakhs) | Interest to be charged to profit and loss account (₹ in lakhs) | | | | | | | | | | | | | | | | | | |
| • Modernisation and renovation of plant and machinery | Qualifying asset | $52.20 \times \frac{406}{580} = ₹36.54$ | | | | | | | | | | | | | | | | | | | |
| • Advance to supplies for additional assets | Qualifying asset | $52.20 \times \frac{58}{580} = ₹5.22$ | | | | | | | | | | | | | | | | | | | |
| • Working Capital | Not a qualifying asset | | $52.20 \times \frac{116}{580} = 10.44$ | | | | | | | | | | | | | | | | | | |
| | | ₹41.76 | ₹10.44 | | | | | | | | | | | | | | | | | | |
| 5. | <p>A Company incorporated in June 20X1, has setup a factory within a period of 8 months with borrowed funds. The construction period of the assets had reduced drastically due to usage of technical innovations by the company. Whether interest on borrowings for the period prior to the date of setting up the factory should be capitalized although it has taken less than 12 months for the assets to get ready for use.</p> <p>You are required to comment on the necessary treatment with reference to AS-16. (RTP/April 2021 MTP)</p> | | | | | | | | | | | | | | | | | | | | |
| Ans. | <p>Provision: - AS per AS- 16 'Borrowing Costs' <u>A Qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.</u></p> <p>Accounting standard further clarifies that a <u>substantial period of time primarily depends on the facts and circumstances of each case.</u> However, ordinarily, a period of twelve months is considered</p> | | | | | | | | | | | | | | | | | | | | |

| | |
|------|--|
| | <p>as substantial period of time unless a shorter or longer period can be justified on the basis of facts and circumstances of the case. In estimating the period, time which an asset takes, technologically and commercially, to get it ready for its intended use or sale should be considered. It may be implied that there is a rebuttable presumption that a 12 months period constitutes substantial period of time.</p> <p>Analysis and conclusion: - In the given case where construction period has reduced drastically due to technical innovation, the 12 months period should at best be looked at as a benchmark and not as a conclusive yardstick. It may so happen that an asset under normal circumstances may take more than 12 months to complete. However, <u>an enterprise that completes the asset in 8 months should not be penalized for its efficiency by denying it interest capitalization and vice versa.</u></p> <p>The substantial period criteria ensures that enterprises do not spend a lot of time and effort capturing immaterial interest cost for purposes of capitalization. Therefore, if <u>the factory is constructed in 8 months, then it shall be considered as a qualifying asset.</u> The <u>interest on borrowings for the same shall be capitalised</u> although it has taken less than 12 months for the asset to get ready to use.</p> |
| 6. | <p>Omega limited has borrowed a sum of US \$10,00,000 at the beginning of financial year 20X1-X2 for its residential project at 4%. The interest is payable at the end of the financial year. At the time of availment of loan exchange rate was ₹56 per US \$ and the rate as on 31st march 20X2 was ₹62 per US \$. If omega limited had borrowed the loan in India in Indian rupee equivalent the pricing of loan would have been 10.50%.</p> <p>You are required to computed borrowing cost and exchange difference for the year ending 31st march 20X2 as per applicable accounting standards.</p> <p style="text-align: right;">(March 2021 MTP/ICAI SM)</p> |
| Ans. | <p>Provision: - As per AS-16 "Borrowing costs" <u>exchange differences arising from foreign currency borrowing and considered as borrowing costs</u> are those exchange differences which arises on the amount of principal of the foreign currency borrowing to the extent of the difference between interest on local currency borrowing and interest on foreign currency borrowing. The amount of <u>exchange difference not exceeding the difference between interest on local currency borrowing and interest on foreign currency borrowing is considered as borrowing costs</u> to be accounted for under this standard and the remaining exchange difference if any is accounted under AS-11.</p> <p>Analysis and conclusion: - In the given case</p> <ol style="list-style-type: none"> 1) Interest for the period 20X1-X2 = US \$10 lakhs *4%*₹62 per US\$ = ₹24.80 lakhs 2) Increase in the liability towards the principal amount = US\$10 lakhs *(62-56) = ₹60 lakhs 3) Interest that would have resulted if the loan was taken in Indian currency = US \$ 10 lakhs×₹56×10.5%= ₹58.80 lakhs 4) Difference between interest on local currency borrowing and foreign currency borrowing = ₹58.80 lakhs – ₹24.80 lakhs = ₹34 lakhs <p>Therefore, <u>out of ₹60 lakhs increase in the liability towards principal amount only ₹34 lakh will be considered as the borrowing cost.</u> Thus, total borrowing cost would be ₹58.80 lakhs being the aggregate of interest of ₹24.80 lakhs on foreign currency borrowing plus the exchange difference to the extent of difference between interest on local currency borrowing and interest on foreign currency borrowing of ₹34 lakhs.</p> <p>Hence, ₹58.80 lakhs would be considered as the borrowing cost to be accounted for as per AS 16 and the remaining ₹26 lakhs (60-34) would be considered as the exchange difference to be accounted for as per AS 11</p> |
| 7. | <p>In May, 20X1, Capacity Ltd. took a bank loan to be used specifically for the construction of a new factory building. The construction was completed in January. 20X2 and the building was put to its use immediately thereafter. Interest on the actual amount used for construction of the building till its completion was ₹ 18 lakhs, whereas the total interest payable to the bank on the loan for the period till 31st March, 20X2 amounted to ₹ 25 lakhs.</p> |

| | Can ₹ 25 lakhs be treated as part of the cost of factory building and thus be capitalized on the plea that the loan was specifically taken for the construction of factory building? Explain the treatment in line with the provisions of AS 16. <p style="text-align: right;">(November 2019 RTP/November 2021 RTP)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| 9. | Sital Limited borrowed an amount of ₹ 150 crores on 1.4.20X1 for construction of boiler plant @ 10% p.a. The plant is expected to be completed in 4 years. Since the weighted average cost of capital is 13% p.a. the accountant of Vital Ltd. capitalized ₹ 19.50 crores for the accounting period ending on 31.3.20X2. Due to surplus fund out of ₹ 150 crores, an income of ₹ 1.50 crores was earned and credited to profit and loss account. Comment on the above treatment of accountant with reference to relevant accounting standard. (November 2020 RTP) | | | | | | | | | | | | |
| Ans. | <p>Provision: - As per AS 16 'Borrowing Costs' states that <u>to the extent the funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization on that asset should be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings.</u></p> <p>The capitalization rate should be the weighted average of the borrowing costs applicable to the borrowings of the enterprise that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.</p> <p>Analysis and conclusion: - In the case of Vital Limited, treatment of accountant is incorrect. The amount of borrowing costs capitalized in the financial year 20X1-X2 should be calculated as follows:</p> <table border="1"> <thead> <tr> <th>Particulars</th> <th>(₹)</th> </tr> </thead> <tbody> <tr> <td>✓ Actual interest for 20X1-X2 (10% of ₹ 150 crores)</td> <td>15.00 Crores</td> </tr> <tr> <td>✓ Less: Income on temporary investment from specific borrowings</td> <td>(₹ 1.50 Crores)</td> </tr> <tr> <td>✓ Borrowing costs to be capitalized during year 20X1-X2</td> <td>₹ 13.50 Crores</td> </tr> </tbody> </table> | | | | | Particulars | (₹) | ✓ Actual interest for 20X1-X2 (10% of ₹ 150 crores) | 15.00 Crores | ✓ Less: Income on temporary investment from specific borrowings | (₹ 1.50 Crores) | ✓ Borrowing costs to be capitalized during year 20X1-X2 | ₹ 13.50 Crores |
| Particulars | (₹) | | | | | | | | | | | | |
| ✓ Actual interest for 20X1-X2 (10% of ₹ 150 crores) | 15.00 Crores | | | | | | | | | | | | |
| ✓ Less: Income on temporary investment from specific borrowings | (₹ 1.50 Crores) | | | | | | | | | | | | |

| 13. | Raj & co. has taken a loan of US\$20,000 at the beginning of the financial year for a specific project at an interest rate of 6% per annum, payable annually. On the day of taking loan the exchange rate between currencies was ₹48 per 1 US\$. The exchange rate at the closing of the financial year was ₹50 per 1 US\$. The corresponding amount could have been borrowed by the company in Indian rupee at an interest rate of 11% per annum. Determine the treatment of borrowing cost in the books of accounts. <p style="text-align: right;">(November 2013)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Ans. | <p>Provision: - As per AS-16 “Borrowing costs” <u>exchange differences arising from foreign currency borrowing and considered as borrowing costs</u> are those exchange differences which arises on the amount of principal of the foreign currency borrowing to the extent of the difference between interest on local currency borrowing and interest on foreign currency borrowing. The amount of <u>exchange difference not exceeding the difference between interest on local currency borrowing and interest on foreign currency borrowing is considered as borrowing costs</u> to be accounted for under this standard and the remaining exchange difference if any is accounted under AS-11.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | |
|------|--|
| | <p>Analysis and conclusion: - In the given case the following computations would be made to determine the amount of borrowing cost for the purpose of AS 16 borrowing cost.</p> <p>Interest for the period = US\$20,000 × ₹50 per US\$ × 6% = ₹60,000</p> <p>Increase in the liability towards the principle amount = US\$20,000 × ₹(50-48) = ₹40,000(A)</p> <p>Interest that would have resulted if the loan was taken in Indian currency = US\$20,000 × 48 × 11% = ₹1,05,600</p> <p>Difference between interest on local currency borrowing and foreign currency borrowing = ₹1,05,600 - ₹60,000 = ₹45,600 (B)</p> <p>In the above cases, ₹40,000(A) is less than ₹45,600 (B) therefore the entire exchange difference of ₹40,000 would be considered as borrowing costs.</p> <p>The total borrowing cost would be ₹1,00,000 (₹60,000 + ₹40,000).</p> |
| 14. | <p>Take Ltd. has borrowed ₹ 30 lakhs from State Bank of India During the financial year 20X1-20X2. The borrowings are used to invest in shares of Give Ltd. a subsidiary company of Take Ltd. which is implementing a new project, estimated to cost ₹ 50 lakhs. As on 31st March, 20X2. Since the said project was not complete, the directors of Take Ltd. resolved to capitalise the interest accruing on borrowings amounting to ₹ 4 lakhs and add it to the cost of investments. Comment. (ICAI SM)</p> |
| Ans. | <p>Provision: - As per AS-13 (Revised) "Accounting for Investments", the <u>cost of investment includes acquisition charges such as brokerage, fees and duties.</u></p> <p>Further, as per AS-16 "Borrowing Costs", a <u>qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.</u></p> <p>Analysis and conclusion: - In the present case, Take Ltd. has used borrowed funds for purchasing shares of its subsidiary company Give Ltd. <u>₹ 4 lakhs interest payable by Take Ltd. to State Bank of India cannot be called as acquisition charges, therefore, cannot be constituted as cost of investment.</u> Further, <u>Since shares are ready for its intended use at the time of sale, it cannot be considered as qualifying asset that can enable a company to add the borrowing cost to investments.</u> Therefore, the directors of Take Ltd. cannot capitalise the borrowing cost as part of cost of investment. Rather, it has to be charged to the Statement of Profit and Loss for the year ended 31st March, 20X2.</p> |
| 15. | <p>ABC Limited has started construction of an asset on 1st December, 20X0, which continues till 31st March, 20X1 (and is expected to go beyond a year). The entity has not taken any specific borrowings to finance the construction of the asset but has incurred finance costs on its general borrowings during the construction period. The directly attributable expenditure at the beginning of the month on this asset was ₹10 lakh in December 20X0 and ₹4 lakh in each of the months of January to March 20X1. At the beginning of the year, the entity had taken Inter Corporate Deposits of ₹20 lakh at 9% rate of interest and had an overdraft of ₹4 lakh, which increased to ₹8 lakh on 1st March, 20X1. Interest was paid on the overdraft at 10% until 1st January, 20X1 and then the rate was increased to 12%. You are required to calculate the annual capitalization rate for computation of borrowing cost in accordance with AS 16 'Borrowing Costs'.</p> <p style="text-align: right;">(November 2021 MTP)</p> |
| Ans. | <p>Provision: - As per AS 16 'Borrowing Costs' states that <u>to the extent the funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization on that asset should be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings.</u></p> <p>The capitalization rate should be the weighted average of the borrowing costs applicable to the borrowings of the enterprise that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.</p> |

|------|--|
| | <p>Accounting treatment:</p> <p>1) For Phase I and Phase II Since Phase, I and Phase II have become operational at the mid of the year, half of the interest amount of ₹ 6,65,158.50 (i.e. ₹ 13,30,317/2) relating to Phase I and Phase II should be capitalized (in ratio of asset costs 34:64) and added to respective assets in Phase I and Phase II and remaining half of the interest amount of ₹ 6,65,158.50 (i.e. ₹ 13,30,317/2) relating to Phase I and Phase II should be expensed during the year.</p> <p>2) For Phase III and Phase IV The interest of ₹ 16,69,683 relating to Phase III and Phase IV should be held in Capital Work-in-Progress till assets construction work is completed, and thereafter capitalized in the ratio of cost of assets. No part of this interest amount should be charged/expensed off during the year since the work on these phases has not been completed yet.</p> |
| 17. | <p>a) An enterprise has constructed a complex piece of equipment (qualifying asset) that is to be installed on the production line of a manufacturing plant. The equipment has been constructed over a period of 15 months. However, on installation, certain calibrations are required to achieve the desired level of production before it is finally commissioned. This process is expected to take approximately 2 months during which test runs will be made. Should the borrowing costs attributable to borrowings pertaining to the 2 months test run period be capitalized?</p> <p>b) Should capitalization of borrowing costs be continued when the qualifying asset has been constructed but marketing activities to sell the asset are still in progress?</p> |
| Ans. | <p>a) <u>Provision:</u> - As per AS 16 Borrowing Costs “Capitalization of borrowing costs should cease when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete”. <u>On installation of the equipment, an evaluation has to be made to conclude whether substantially all the activities necessary to prepare the asset are complete. After the equipment has been installed it is usually tested and adjusted for commercial production before it is finally commissioned.</u></p> <p><u>Analysis and conclusion:</u> - The calibrations and adjustments required during this period are performed in order to bring the equipment up to the stage at which it is ready to commence commercial production. Until the asset reaches the stage when it is ready to support commercial levels of production, it is not appropriate to conclude that substantially all the activities necessary to prepare the asset are complete. Thus, the borrowing cost incurred during the normal period of test runs (after the installation) is required to be capitalized.</p> <p>b) As per provisions of AS-16, capitalization of borrowing costs should cease when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Further, the standard also explains that “An asset is normally ready for its intended use or sale when its physical construction or production is complete even though routine administrative work might still continue. If minor modifications, such as the decoration of a property to the user’s specification, are all that is outstanding, this indicates that substantially all the activities are complete”. The emphasis in the Standard is on “to prepare the qualifying asset for its intended use or sale” and not the actual activity of sale. Therefore, where the physical construction of the asset is complete, substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Therefore, in the given case, the borrowing costs pertaining to the period during which the marketing activities to sell the asset are still in progress should not be capitalized as part of the cost of the asset.</p> |

AS-17 Segment Reporting Assignment

| Q. No. | Question & Answers | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|-----------------|---|-------------|----|----|------|----|-------|---|-------|----------------|----|----|----|----|----|----|-----|-----------------|----|-------|----|----|------|----|-------|-----------------|-----|-----|----|----|----|----|-------|
| 1. | <p>The Chief Accountant of Sports Ltd. gives the following data regarding its six segments:</p> <p style="text-align: right;">₹ in lakhs</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Particulars</th> <th style="text-align: center;">M</th> <th style="text-align: center;">N</th> <th style="text-align: center;">O</th> <th style="text-align: center;">P</th> <th style="text-align: center;">Q</th> <th style="text-align: center;">R</th> <th style="text-align: center;">Total</th> </tr> </thead> <tbody> <tr> <td>Segment Assets</td> <td style="text-align: center;">40</td> <td style="text-align: center;">80</td> <td style="text-align: center;">30</td> <td style="text-align: center;">20</td> <td style="text-align: center;">20</td> <td style="text-align: center;">10</td> <td style="text-align: center;">200</td> </tr> <tr> <td>Segment Results</td> <td style="text-align: center;">50</td> <td style="text-align: center;">(190)</td> <td style="text-align: center;">10</td> <td style="text-align: center;">10</td> <td style="text-align: center;">(10)</td> <td style="text-align: center;">30</td> <td style="text-align: center;">(100)</td> </tr> <tr> <td>Segment Revenue</td> <td style="text-align: center;">300</td> <td style="text-align: center;">620</td> <td style="text-align: center;">80</td> <td style="text-align: center;">60</td> <td style="text-align: center;">80</td> <td style="text-align: center;">60</td> <td style="text-align: center;">1,200</td> </tr> </tbody> </table> <p>The Chief accountant is of the opinion that segments “M” and “N” alone should be reported. Is he justified in his view? Discuss.</p> <p style="text-align: center;">(ICAI SM/ May 2020 RTP /January 2021/November 2020)</p> | Particulars | M | N | O | P | Q | R | Total | Segment Assets | 40 | 80 | 30 | 20 | 20 | 10 | 200 | Segment Results | 50 | (190) | 10 | 10 | (10) | 30 | (100) | Segment Revenue | 300 | 620 | 80 | 60 | 80 | 60 | 1,200 |
| Particulars | M | N | O | P | Q | R | Total | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Segment Assets | 40 | 80 | 30 | 20 | 20 | 10 | 200 | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Segment Results | 50 | (190) | 10 | 10 | (10) | 30 | (100) | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Segment Revenue | 300 | 620 | 80 | 60 | 80 | 60 | 1,200 | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Ans. | <p>Provision: - As per AS 17 ‘Segment Reporting’, a business segment or geographical segment should be identified as a reportable segment if: <u>Its revenue from sales to external customers and from other transactions with other segments is 10% or more of the total revenue- external and internal of all segments; or</u> <u>Its segment result whether profit or loss is 10% or more of:</u></p> <ul style="list-style-type: none"> ✓ The combined result of <u>all segments in profit</u>; or ✓ The combined result of <u>all segments in loss</u>, <u>whichever is greater in absolute amount</u>; or <p>Its segment assets are 10% or more of the total assets of all segments. If the total external revenue attributable to reportable segments constitutes less than 75% of total enterprise revenue, additional segments should be identified as reportable segments even if they do not meet the 10% thresholds until at least 75% of total enterprise revenue is included in reportable segments.</p> <p>Analysis and conclusion: - In the given case, On the <u>basis of turnover criteria</u> segments M and N are reportable segments. On the <u>basis of the result criteria</u>, segments M, N and R are reportable segments (since their results in absolute amount is 10% or more of ₹ 200 lakhs). On the <u>basis of asset criteria</u>, all segments except R are reportable segments. Since all the segments are covered in at least one of the above criteria all segments have to be reported upon in accordance with Accounting Standard (AS) 17. Hence, the opinion of chief accountant is wrong.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2. | <p>A Company has an inter-segment transfer pricing policy of charging at cost less 10%. The market prices are generally 25% above cost. Is the policy adopted by the company correct?</p> <p style="text-align: center;">(ICAI SM / May 2021 RTP / November 2020 RTP/November 2021 MTP)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Ans. | <p>Provision: - As per AS 17 ‘Segment Reporting’ requires that <u>inter-segment transfers should be measured on the basis that the enterprise actually used to price these transfers.</u> The basis of pricing inter-segment transfers and any change therein should be disclosed in the financial statements.</p> <p>Analysis and conclusion: -In the given case, the enterprise can have its own policy for pricing inter-segment transfers and hence, <u>inter-segment transfers may be based on cost, below cost or market price.</u> However, whichever policy is followed, the same should be disclosed and applied consistently. Therefore, in the given case inter-segment <u>transfer pricing policy adopted by the company is correct if, followed consistently.</u></p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 3. | <p>SRI SAI Limited has three segments viz. A, B and C. The total assets of the company is ₹ 15 Crores. The assets of Segment a is 1.85 crores, Segment B is 6.15 Crores and Segment C is ₹ 7.00 Crores. Assets of each segment include deferred tax assets of ₹ 0.50 Crores in A, ₹ 0.40 Crores in B and ₹ 0.30 Crores in C. The accountant of SRI SAI Limited contends that all segments are reportable segments. Based on segment assets criteria, determine the veracity of the contention of the accountant.</p> <p style="text-align: center;">(ICAI SM /November 2008/May 2018/Nov. 2014)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | | | | | |
|-------------|---|---------------------------------|---|---|--|
| Ans. | Provision: - As per AS 17 "Segment Reporting", one of the basis of segment asset criteria for identification of a business segment or geographical segment as a reportable segment is when its segment assets are 10% or more of the total assets of all segments and <u>segment assets do not include income tax assets</u> | | | | |
| | Analysis and conclusion: - Statement showing percentage of Segment net assets to Total assets of the company | | | | |
| | | | | ₹ in crores | |
| | Particulars | Segments | | | Total |
| | | A | B | C | |
| | Segment assets | 1.85 | 6.15 | 7.00 | 15.00 |
| | Less: Deferred tax assets | (0.50) | (0.40) | (0.30) | (1.20) |
| | Net segment assets | 1.35 | 5.75 | 6.70 | 13.80 |
| | Percentage to total net segment assets | 9.78% | 41.67% | 48.55% | 100% |
| | Accordingly, <u>the reportable segments will be segments B and C only</u> . Therefore, the contention of the accountant that all the segments are reportable segments is not tenable. | | | | |
| 4. | Prepare a segmental report for publication in Diversifiers Ltd. from the following details of the company's three divisions and the head office: | | | | |
| | Particulars | ₹ ('000) | | | |
| | Forging Shop Division | | | | |
| | Sales to Bright Bar Division | 4,575 | | | |
| | Other Domestic Sales | 90 | | | |
| | Export Sales | 6,135 | | | |

| | External sales | 90 | 6,135 | 300 | 270 | 6,795 |
| 5. | Microtech Ltd. produces batteries for scooters, cars, trucks, and specialised batteries for inverters and UPS. How many segments should it have and why? (ICAI SM) | | | | | |
| Ans. | <p>Provision: - As per As-17, "Segment reporting" A business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is <u>subject to risks and return that are different from those of other business segment</u>. Factors that should be considered in determining whether products or services are related include:</p> <ol style="list-style-type: none"> the nature of the products of services; the nature of the productions processes; the type of class of customers for the products or services; the methods use to distribute the products or provide the services; and if applicable, the nature of the regulatory environment, for example, banking, insurance, or public utilities." | | | | | |

| | |
|------|--|
| | <p>Analysis and conclusion: - In the case of Microtech Ltd., the basic product is the batteries, but the <u>risks and returns of the batteries for automobiles (scooters, cars and trucks) and batteries for inverters and UPS are affected by a different set of factors.</u> In the case of automobile batteries, the risks and returns are affected by the Government policy, road conditions, quality of automobiles, etc. whereas in case of batteries for inverters and UPS, the risks and returns are affected by power condition, the standard of living, etc. Therefore, it can be said that <u>Microtech Ltd. has two business segments viz- 'Automobile batteries' and 'batteries for Invertors and UPS'.</u></p> |
| 6. | <p>Company A is engaged in the manufacture of chemicals. The company manufactures five types of chemicals that have different applications. Can this company include more than one type of chemical in a single business segment? Comment. (Nov 2021 RTP)</p> |
| Sol. | <p>Provision: - As per AS 17, "A business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products of services and that is <u>subject to risks and returns that are different from those of other business segments.</u> Factors that should be considered in determining whether products or services are related include:</p> <ol style="list-style-type: none"> the nature of the products of services; the nature of the productions processes; the type of class of customers for the products or services; the methods use to distribute the products or provide the services; and if applicable, the nature of the regulatory environment, for example, banking, insurance, or public utilities." <p>Analysis and conclusion: - As per provisions of the standard, a <u>single business segment does not include products and services with significantly differing risks and returns.</u> Products and services included in a single business segment may be dissimilar with respect to one or several factors listed above but are expected to be similar with respect to majority of the factors.</p> <p>In the present case, the Company should consider <u>whether the chemicals with different applications, have similar risks end returns.</u> For this purpose, the Company should ascertain whether one or more types of chemicals are related keeping in view the relevant factors including those given in the definition of business segment. <u>Chemicals having different applications can be included in a single business segment if majority of the relevant factors including those listed above are similar.</u> This would ensure that the <u>chemicals having significantly different risks and returns are not included in a single business segment.</u></p> |
| 7. | <p>Is an enterprise required to disclose changes in the basis of allocation of revenue and expenses to segments? Explain. (Nov 2021 RTP)</p> |
| Sol. | <p>As per AS 17, "Changes in <u>accounting policies adopted for segment reporting that have a material effect on segment information should be disclosed.</u> Such disclosure should include a description of the nature of the change, and the financial effect of the change if it is reasonably determinable." It also states that "<u>some changes in accounting policies relate specifically to segment reporting.</u> Examples include changes in the identification of segments and changes in the basis for allocating revenues and expenses to segments. Such changes can have a significant impact on the segment information reported but will not change aggregate financial information reported for the enterprise. To enable users to understand and impact of such changes, this Statement requires the disclosure of the nature of change and the financial effect of the change, if reasonably determinable".</p> <p>In view of the above, a change in the basis of allocation of revenue and expenses to segments is a change in the accounting policy adopted for segment reporting. Accordingly, if the change has a material financial effect on the segment information, a description of the nature of the change, and the financial effect of the change, if it is reasonably determinable, should be disclosed.</p> |

AS-18 Related Party Disclosure Assignment

| Q. No. | Question & Answers |
|--------|---|
| 1. | <p>R Ltd. has 60% voting right in S Ltd. S Ltd. has 15% voting right in T Ltd. R Ltd. directly enjoys voting right of 10% in T Ltd. T Ltd. is a listed company and regularly supplies goods to R Ltd. The management of T Ltd. has not disclosed its relationship with R Ltd. You are required to assess the situation from the view point of AS 18 on Related Party Disclosures.</p> <p style="text-align: right;">(May 2021 RTP /November 2007/November 2012)</p> |
| Ans. | <p>Provision: - As per AS 18 'Related Party Disclosures', defines related party as one that has at any time during the reporting period, the <u>ability to control the other party or exercise significant influence over the other party in making financial and/or operating decisions.</u> Further, Standard provides that <u>associates and joint ventures of the reporting enterprise and the investing party or venture in respect of which the reporting enterprise is an associate or a joint venture is a related party.</u></p> <p>Significant Influence is defined as participation in the financial and/or operating policy decisions of an enterprise but not control of those policies.</p> <p>Analysis and conclusion: - In the given case, R Ltd. has direct economic interest in T Ltd. to the extent of 10%, and through S Ltd. in which it is the majority shareholders, it has further control of 9% in T Ltd. (60% of S Ltd.'s 15%). These two taken together (10% + 9%) make the total control of 19%. So, <u>control of R Ltd. in T Ltd. directly and through S Ltd., is only 19%.</u> Significant influence may also not be exercised as an investing party (R Ltd.) holds, directly or indirectly through intermediaries only 19% of the voting power of the T Ltd. Accordingly, <u>R Ltd. and T Ltd. are not related parties. Hence related party disclosure, as per AS 18, is not required.</u></p> |
| 2. | <p>Arohi Ltd. sold goods for ₹ 90 lakhs to Anya Ltd. during financial year ended 31-3-20X1. The Managing Director of Arohi Ltd. own 100% of Anya Ltd. The sales were made to Anya Ltd. at normal selling prices followed by Arohi Ltd. The Chief accountant of Arohi Ltd contends that these sales need not require a different treatment from the other sales made by the company and hence no disclosure is necessary as per the accounting standard. Is the Chief Accountant correct? Comment in accordance with AS 18.</p> <p style="text-align: right;">(May 2020 RTP /ICAI SM/ November 2020 RTP)</p> |
| Ans. | <p>Provision: - As per AS-18, "Related Party Disclosures", <u>Key management personnel and relative of such personnel are related parties.</u> Key management personnel mean a person having the authority and responsibility for planning, directing and controlling the activities of the reporting enterprise. It includes MD, CEO etc. Further Standard provides <u>disclosure should be made even if the transactions are arm length transactions or transactions are not influenced by relationship.</u></p> <p>Analysis and conclusion: - In the given case, Arohi Ltd. and Anya Ltd. are related parties and hence <u>disclosure of transaction between them is required irrespective of whether the transaction was done at normal selling price.</u> Hence the contention of Chief Accountant of Arohi Ltd. is wrong.</p> |
| 3. | <p>Identify the related parties in the following cases as per AS-18</p> <p>1) Maya Ltd. holds 61% shares of Sheetal Ltd. Sheetal Ltd. holds 51% shares of Fair Ltd. Care Ltd. holds 49% shares of Fair Ltd. (Given your answer Reporting Entity wise for Maya Ltd., Sheetal Ltd., Care Ltd. and Fair Ltd.)</p> <p>2) Mr. Subhash Kumar is Managing Director of A Ltd. and also holds 72% capital of B Ltd. (B Ltd. is subsidiary of A Ltd.)</p> <p style="text-align: right;">(November 2020 RTP /May 2019)</p> |
| Sol. | <p>As per As-18, "Related Party Disclosures"</p> <p>i) Enterprise that is directly or indirectly through or more intermediaries under control or controlled by reporting enterprise or enterprise under common control. (Includes Holding and subsidiaries)</p> |

| | |
|------|---|
| | <p>ii) Associates and joint ventures of the reporting enterprise and the investing party or venture in respect of which the reporting enterprise is and associate or a joint venture.</p> <p>iii) Key management personnel and relative of such personnel are covered under related parties.</p> <p>1) Reporting entity-Maya Ltd.</p> <ul style="list-style-type: none"> ✓ Sheetal Ltd. (Subsidiary) is a related party. ✓ Fair Ltd. (Subsidiary) is a related party. <p>Reporting Entity- Sheetal Ltd.</p> <ul style="list-style-type: none"> ✓ Maya Ltd. (holding company) is a related party. ✓ Fair Ltd. (subsidiary) is a related party. <p>Reporting Entity-Fair Ltd.</p> <ul style="list-style-type: none"> ✓ Maya Ltd. (holding company) is a related party. ✓ Sheetal Ltd. (holding company) is a related party. ✓ Care Ltd. (investor/investing party) is a related party. <p>Reporting Entity-Care Ltd.</p> <ul style="list-style-type: none"> ✓ Fair Ltd. (associate) is a related party. <p>2) Reporting Entity-A Ltd.</p> <ul style="list-style-type: none"> ✓ Mr. Subhash Kumar (Managing Director) is a related party. ✓ B Ltd. (subsidiary) is a related party. |
| 4 | <p>Following transactions are disclosed as on 31st March, 20X2:</p> <p>1) Mr Keshav, relative of Managing Director, received remuneration of ₹ 2,10,000 for his services in the company for the period from 1st April, 20X1 to 30th June, 20X1. He left the service on 1st July, 20X1. Should the relative be identified as on closing date i.e. on 31-3-20X2 for the purpose of AS-18.</p> <p>2) Goods sold amounting to ₹ 50 lakhs to associate company during the 1st quarter ended on 30th June, 20X1. After that related party relationship ceased to exist. However, goods were supplied as was supplied to any other ordinary customer.</p> <p>Decide whether transactions of the entire year have to be disclosed as related party transactions.</p> <p style="text-align: right;">(November 2018/ICAI SM)</p> |
| Sol. | <p>1) Provision: - As per AS-18, "Related Party Disclosures", parties are considered to be related if <u>at any time during the reporting period one party has the ability to control the other party or exercise significant influence over the other party</u> in making financial and/or operating decisions.</p> <p>Key management personnel mean a person having the authority and responsibility for planning, directing and controlling the activities of the reporting enterprise. It includes MD, CEO etc</p> <p>Analysis and conclusion: - Hence, Mr. Keshav, a relative of key management personnel should be identified as relative as at the closing date i.e. on 31.3.20X2.</p> <p>2) Provision: - As per AS-18, "Related Party Disclosures", parties are considered to be related if <u>at any time during the reporting period one party has the ability to control the other party or exercise significant influence over the other party</u> in making financial and/or operating decisions.</p> <p>Analysis and conclusion: - In the given case, transactions of the company with <u>its associate company for the first quarter ending on 30.06.20X1 only are required to be disclosed as related party transactions</u>. The transactions for the period in which related party relationship did not exist need not be reported.</p> |
| 5. | <p>A Limited has two Associates, B Limited and C Limited, and owns 25 per cent of the voting power of B Limited and 30 per cent of the voting power of C Limited. Would B Limited be considered a related party for the purpose of financial statements of C Limited?</p> <p style="text-align: right;">(Nov 2021 RTP)</p> |

| | |
|------|--|
| Sol. | <p>Provision: - As per AS-18, "Related Party Disclosures" states that "enterprise that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the reporting enterprise" are related parties. Further, it is given that "<u>associates and joint ventures of the reporting enterprise and the investing party or venture in respect of which the reporting enterprise is an associate or a joint venture</u>" are also related parties.</p> <p>Analysis and conclusion: - In the given case, both B Limited and C Limited are 'associates' of A Limited. <u>Fellow-associates cannot be regarded as a related parties</u> only by virtue of the relationship. As B Limited is not an associate of C Limited, nor is it being controlled, directly or indirectly, by C Limited or is not so controlling C Limited, it is not a related party of C Limited.</p> |
| 6. | <p>Omega Bank Limited holds 25 per cent of the voting power of B Limited. Omega Bank Limited also provides finance by way of a loan to B Limited at market rates of interest, on account of which, Omega Bank Limited would have the power to nominate one person to the board of directors of B Limited. Any major transactions proposed to be entered into by B Limited would need the consent of Omega Bank Limited. Would Omega Bank Limited be considered as related party for B Ltd. (reporting enterprise)? (Nov 2021 RTP)</p> |
| Sol. | <p>Provision: - As per AS-18, "Related Party Disclosures" <u>associates and joint ventures of the reporting enterprise and the investing party or venture in respect of which the reporting enterprise is an associate or a joint venture</u> are related party relationship. Further, an associate has been defined as "an enterprise in which an investing reporting party has significant influence. Significant influence has been defined to be "participation in the financial and /or operating policy decisions of an enterprise, but not control of those policies". As regards share ownership, there is a presumption that ownership of 20 per cent or more of the voting power enables the enterprise to exercise significant influence, unless it could be clearly demonstrated otherwise.</p> <p>Analysis and conclusion: - In the given case, Omega Bank Limited exercises significant influence over B Limited by virtue of ownership of 25 per cent of the voting power. Omega Bank Limited is also a provider of finance for B Limited (as it has provided a loan to B Limited), and as per the standard, a provider of finance is deemed not to be a related party during its normal dealings with the enterprise by virtue only of those dealing. However, in this case, the exemption would not be available to <u>Omega Bank Limited as the exercise of significant influence of Omega Bank Limited over B Limited has been demonstrated on account of ownership of more than 20 per cent of voting power</u>. Accordingly, Omega Bank Limited would be treated as a related party in the financial statements of B Limited and consequently, the latter would be required to disclose the transactions with Omega Bank Limited in its financial statements.</p> |
| 7. | <p>i) Khushi Limited enter into an agreement with Mr. Happy for running a business for a fixed amount payable to the later every year. The contract states that the day-to-day management of the business will be handled by Mr. Happy, while all financial and operating policy decisions are taken by the Board of Directors of the Company. Mr. Happy does not own any voting power in Khushi Limited.</p> <p>ii) Shri Bhanu a relative of key management personnel received remuneration of ₹ 3,50,000 for his services in the company for the period from 1st April, 20X0 to 30th June, 20X0. On 1st July, 20X0, he left the service.</p> <p>You are required to suggest how the above transactions will be treated as at the closing date i.e. on 31st March, 20X1 for the purposes of AS 18- Related Party Disclosures. (July 2021)</p> |
| Sol. | <p>i) Provision: - As per AS-18, Related Party Disclosures" which states, "<u>individuals owning, directly or indirectly, an interest in the voting power of the reporting enterprise that gives them control or significant influence over the enterprise, and relatives of any such individual are related parties</u>."</p> |

AS 19 Accounting for Lease Assignment

| Q. No. | Question and Answers |
|--------|---|
| 1. | <p>A Ltd. sold JCB having WDV of ₹ 20 lakhs to B Ltd. for ₹ 24 lakhs and the same JCB was leased back by B Ltd. to A Ltd. The lease is operating lease. In context of Accounting Standard 19 “Leases” explain the accounting treatment of profit or loss in the books of A Ltd. if</p> <p>I) Sale price of ₹ 24 lakhs is equal to fair value. II) Fair value is ₹ 20 lakhs and sale price is ₹ 24 lakhs. III) Fair value is ₹ 22 lakhs and sale price is ₹ 25 lakhs. IV) Fair value is ₹ 25 lakhs and sale price is ₹ 18 lakhs. V) Fair value is ₹ 18 lakhs and sale price is ₹ 19 lakhs.</p> <p>(ICAI SM ills3/ November 2020 RTP (M)/January 2021/May 2018/May 2012/October 2021 MTP)</p> |
| Sol. | <p>Provision: - As per AS-19 “leases”, where sale and leaseback results in an operating lease, then the accounting treatment in different situations is as follows:</p> <p>Case 1: Sale Price = Fair value <u>Profit or loss should be recognized immediately.</u></p> <p>Case 2: Sale Price < Fair Value <u>Profit or loss should be recognized immediately.</u> However, if the <u>loss is compensated by future lease payments at below market price</u>, it should be <u>deferred and amortized in proportion to the lease payments</u> over the period for which the asset is expected to be used.</p> <p>Case 3: Sale Price > Fair value The excess of fair value should be deferred and amortized over the period for which the asset is expected to be used.</p> <p>Analysis and conclusion: - Following will be the treatment in the given cases:</p> <p>I) When sales price of ₹ 24 lakhs is equal to fair value. A Ltd. should immediately recognize the profit of ₹ 4 lakhs (i.e., 24-20) in its books. II) When the fair value is ₹ 20 lakhs and sales price is ₹ 24 lakhs then, the profit of ₹ 4 lakhs is to be deferred and amortized over the lease period. III) When the fair value is ₹ 22 lakhs and sales price is ₹ 25 lakhs, profit of ₹ 2 lakhs (22-20) to be immediately recognized in its books and balance profit of ₹ 3 lakhs (25-22) is to be amortized/deferred over the lease period. IV) When the fair value of leased machinery is ₹ 25 lakhs and Sales price is ₹ 18 lakhs, the loss of ₹ 2 lakhs (20-18) to be immediately recognized by A Ltd. in its book’s provided loss is not compensated by future lease payment. v) When the fair value is ₹ 18 lakhs and sales and sales price is ₹ 19 lakhs, then the loss of ₹ 2 lakhs (20-18) to be immediately recognized by A Ltd. in its books and profit of ₹ 1 lakh (19-18) should be amortized/deferred over the lease period.</p> |
| 2. | <p>Sri Shyam Ltd. took a machine on lease from Sri Krishna Ltd., the fair value being ₹ 10,00,000. The economic life of the machine as well as the lease term is 4 years. At the end of each year, Sri Shyam Ltd. pays ₹ 3,50,000. The lessee has guaranteed a residual value of ₹ 40,000 on expiry of the lease to the lessor. However, Sri Krishna Ltd. estimates that the residual value of the machinery will be ₹ 35,000 only. The implicit rate of return is 16% and PV factors at 16% for year 1, year 2, year 3 and year 4 are 0.8621, 0.74432, 0.6407 and 0.5523 respectively. You are required to calculate the value of machinery to be considered by Sri Shyam Ltd. and the finance charges for each year.</p> <p style="text-align: center;">(May 2020 RTP /May 2011/May 2019/ICAI SM ills1/November 2021 MTP)</p> |

| Sol. | <p>Provision: - As per AS-19 "Lease", the lessee should recognize the lease as an asset and a liability at the inception of a finance lease. Such <u>recognition should be at an amount equal to the least of fair value of the leased asset at the inception of the Finance lease or the present value of minimum lease payment from the standpoint of the lessee.</u></p> <p>Analysis and conclusion:- In the given case, fair value of the machinery is ₹ 10,00,000 and the net present value of minimum lease payments is ₹ 10,01,497 (Refer working Note). <u>As the present value of the machine is more than the Fair value of the machine, the machine and the corresponding liability will be recorded at fair value of ₹10,00,000.</u></p> <p>Calculation of finance charges for each year</p> <table border="1"> <thead> <tr> <th>Year</th> <th>Finance charge (₹)</th> <th>Payment (₹)</th> <th>Reduction in outstanding liability (₹)</th> <th>Outstanding liability (₹)</th> </tr> </thead> <tbody> <tr> <td>1st year beginning</td> <td>-</td> <td>-</td> <td>-</td> <td>10,00,000</td> </tr> <tr> <td>End of 1st year</td> <td>1,60,000</td> <td>3,50,000</td> <td>1,90,000</td> <td>8,10,000</td> </tr> <tr> <td>End of 2nd year</td> <td>1,29,600</td> <td>3,50,000</td> <td>2,20,400</td> <td>5,89,600</td> </tr> <tr> <td>End of 3rd year</td> <td>94,336</td> <td>3,50,000</td> <td>2,55,664</td> <td>3,33,936</td> </tr> <tr> <td>End of 4th year</td> <td>53,430</td> <td>3,50,000</td> <td>2,96,570</td> <td>37,336*</td> </tr> </tbody> </table> <p>Working Note:</p> <p>Present value of minimum lease payments</p> <table border="1"> <tbody> <tr> <td>Annual lease rental × PV factor</td> <td></td> </tr> <tr> <td>₹ 3,50,000 × (0.8621 + 0.7432 + 0.6407 + 0.5523)</td> <td>₹9,79,405</td> </tr> <tr> <td>Present value of guaranteed residual value</td> <td></td> </tr> <tr> <td>₹40,000 × (0.5523)</td> <td>₹22,092</td> </tr> <tr> <td></td> <td>₹ 10,01,497</td> </tr> </tbody> </table> | Year | Finance charge (₹) | Payment (₹) | Reduction in outstanding liability (₹) | Outstanding liability (₹) | 1 st year beginning | - | - | - | 10,00,000 | End of 1 st year | 1,60,000 | 3,50,000 | 1,90,000 | 8,10,000 | End of 2 nd year | 1,29,600 | 3,50,000 | 2,20,400 | 5,89,600 | End of 3 rd year | 94,336 | 3,50,000 | 2,55,664 | 3,33,936 | End of 4 th year | 53,430 | 3,50,000 | 2,96,570 | 37,336* | Annual lease rental × PV factor | | ₹ 3,50,000 × (0.8621 + 0.7432 + 0.6407 + 0.5523) | ₹9,79,405 | Present value of guaranteed residual value | | ₹40,000 × (0.5523) | ₹22,092 | | ₹ 10,01,497 |

| 3. | <p>Answer the following:</p> <p>Classify the following into either operating lease or finance lease with reason:</p> <ol style="list-style-type: none"> Economic life of an asset is 10 years, the lease term is 9 years, but the asset is not acquired at the end of the lease term. Lessee has the option to purchase the asset at lower than fair value at the end of lease term. Lease payments should be recognized as an expense in the statement of Profit and Loss of a lessee. Present Value (PV) of Minimum Lease Payment (MLP) = 'X'. Fair value of the asset is 'Y'. and X = Y. Economic life of the asset is 5 years, lease term is 2 years, but the asset is of special nature and has been procured only for use of the lessee. <p style="text-align: center;">(ICAI SM/ November 2020 RTP /November 2019/November 2013)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-19 "leases" Situations which would normally lead to a lease being classified as a finance lease. (EVEN IF ANY 1 CONDITION IS SATISFIED)</p> <ol style="list-style-type: none"> The lessor transfers ownership of the asset to the lessee by the <u>end of the lease term</u> (these situations may commonly arise in hire purchases) The lessee has <u>the option to purchase</u> the asset at a price which is expected to be <u>sufficiently lower than the fair value</u> at the date the option becomes exercisable. The lease term is for a major part of the economic life of the asset (i.e., <u>usually 75% of the life</u>) At the inception (starting) of lease <u>present value</u> of the minimum lease payments amounts to at least all of the fair value of the leased asset (<u>usually 90% of value</u>) The Leased asset is of <u>specialized nature</u> such that only the lessee can use it without any modification being made. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | | | |
|-------------------------------|--|-------------------------------|--|
| | <p>1) Finance lease: The lease term is for a major part of the economic life of the asset.</p> <p>2) Finance Lease: The lessee has <u>the option to purchase</u> the asset at a price which is expected to be <u>sufficiently lower than the fair value</u> at the date the option becomes exercisable.</p> <p>3) Operating Lease: As Lease payments are recognized as an expense in the statement of Profit and Loss of a lessee.</p> <p>4) Finance lease: At the inception (starting) of the lease <u>present value</u> of the minimum lease payments amounts to at least all of the fair value of the leased asset (usually 90% of value)</p> <p>5) Finance Lease: The Leased asset is of specialized nature such that only the lessee can use it without any modification being made.</p> | | |
| 4. | <p>Answer the following:</p> <p>Aksat International Limited has given a machinery on lease for 36 months and its useful life is 60 months. Cost and fair market value of the machinery is ₹ 5,00,000. The amount will be paid in 3 equal annual instalments and the lessee will return the machinery to the lessor at the termination of lease. The unguaranteed residual value at the end of 3 years is ₹ 50,000. IRR of investment is 10% and the present value of annuity factor of ₹ 1 due at the end of 3 years at 10% IRR is 2.4868 and the present value of ₹ 1 due at the end of 3rd year at 10% IRR is 0.7513.</p> <p>You are required to comment with reason whether the lease constitutes a finance lease or an operating lease. If it is a finance lease, calculate unearned finance income.</p> <p style="text-align: center;">(November 2015/November 2011/November 2014/May 2010)</p> | | |
| Sol. | <p>Determination of Nature of Lease</p> <p>Present value of unguaranteed residual value at the end of 3rd year = ₹ 50,000 × 0.7513 = ₹ 37,565</p> <p>Present value of lease payments = ₹ 5,00,000 – ₹ 37,565 = ₹ 4,62,435</p> <p>The percentage of present value of lease payments to fair value of the equipment is (₹ 4,62,435 / ₹ 5,00,000) × 100 = 92.487%</p> <p>Since, lease payments substantially covers the major portion of the fair value; the lease constitutes a finance lease.</p> <p>Calculation of Unearned Finance Income</p> <p>Annual lease payment = ₹ 4,62,435 / 2.4868 = ₹ 1,85,956 (approx.)</p> <table border="1" style="width: 100%;"> <tr> <td style="width: 50%;">Gross investment in the lease</td> <td>= Total minimum lease payments + unguaranteed residual value = (₹ 1,85,956 × 3) + ₹ 50,000 = ₹ 5,57,868 + ₹ 50,000 = ₹ 6,07,868</td> </tr> </table> <p>Unearned finance income = Gross investment - Present value of minimum lease payments and unguaranteed residual value = ₹ 6,07,868 – ₹ 5,00,000 = ₹ 1,07,868</p> | Gross investment in the lease | = Total minimum lease payments + unguaranteed residual value = (₹ 1,85,956 × 3) + ₹ 50,000 = ₹ 5,57,868 + ₹ 50,000 = ₹ 6,07,868 |
| Gross investment in the lease | = Total minimum lease payments + unguaranteed residual value = (₹ 1,85,956 × 3) + ₹ 50,000 = ₹ 5,57,868 + ₹ 50,000 = ₹ 6,07,868 | | |
| 5. | <p>Answer the following:</p> <p>What do you understand by the term “Interest rate implicit on lease”?</p> <p>Calculate the interest rate implicit on lease from the following details:</p> <p>Annual Lease Rent : ₹ 80,000 at the end of each year</p> <p>Lease Period : 5 Years</p> <p>Guaranteed Residual Value : ₹ 40,000</p> <p>Unguaranteed Residual Value : ₹ 24,000</p> <p>Fair Value at the inception of the lease: 3,20,000</p> | | |

| Discounted rates for the first 5 years are as below: | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| 7. | Sri Govind Ltd. has taken an asset on lease from Sri Gopal Ltd. for a period of 3 years. Annual Lease Rentals are ₹ 6 Lakhs payable at the end of every year. The Residual Value guaranteed by Sri Govind is ₹ 2 Lakhs whereas Sri Gopal expects the estimated salvage value to be ₹ 5 Lakhs at the end of the lease term. If the Fair Value of the asset at the lease inception is ₹ 15 Lakhs and the interest rate implicit in the lease is 12%, compute the Net Investment in the Lease from the viewpoint of Sri Gopal Ltd. and the annual Finance Income. | 9. | <p>Sooraj ltd. wishes to obtain a machine costing ₹30 lakhs by way of lease. The effective life of the machine is 14 years, but the company requires it only for the first 3 years. It enters into an agreement with Star Ltd., for a lease rental for ₹ 3 lakh p.a. payable in arrears and the implicit rate of interest is 15%. The chief accountant of Sooraj limited is not sure about the treatment of these lease rentals and seeks your advice. [use annuity factor@ 15 % for 3 years as 3.36]</p> <p style="text-align: right;">(May 2021 RTP)</p> | | | | | | | | | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS 19 “leases”, a lease will be classified as finance leases if at the inception of the leases the <u>present value of minimum lease payment amount to at least substantially all of the fair value of leased assets.</u></p> <p>Analysis and conclusion: - In the given case the implicit rate of interest is given at 15%. The present value of minimum lease payment at 15% using PV annuity factor can be computed as:</p> <table border="1" data-bbox="326 646 1403 751"> <tr> <td>Annuity factor (year 1 to year 3</td> <td style="text-align: right;">3.36</td> </tr> <tr> <td>Present value of minimum lease payments (₹3 lakh each year)</td> <td style="text-align: right;">₹10.08 lakhs</td> </tr> </table> <p>Thus, the present value of minimum lease payment is ₹10.08 lakhs and the fair value of the machine is ₹30 lakh. In finance, the lease term should be for the major part of the economic life assets even if the title is not transferred. However, in the given case, the effective useful life of the machine is 14 years while the lease is only for three years. Therefore, <u>a lease agreement is an operating lease. Lease payments under an operating lease should be recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term unless another systematic basis is more representative of the of the time pattern of the users benefit.</u></p> | Annuity factor (year 1 to year 3 | 3.36 | Present value of minimum lease payments (₹3 lakh each year) | ₹10.08 lakhs | | | | | | | | | | | | | | | | | |
| Annuity factor (year 1 to year 3 | 3.36 | | | | | | | | | | | | | | | | | | | | | |
| Present value of minimum lease payments (₹3 lakh each year) | ₹10.08 lakhs | | | | | | | | | | | | | | | | | | | | | |

AS-20 Earnings Per Share Assignment

| Q. No. | Questions and Answers | | | | | | | | | | | | |
|---|---|---|---|---|---------------|---|-----------|---|------------------|---|--------------|-------------|-----------|
| 1. | <p>Answer the following question: "While calculating diluted EPS, the effect is given to all dilutive potential equity shares that were outstanding during the period." Explain this statement in the light of relevant AS. Also, calculate the diluted EPS from the following information:</p> <table border="1" style="width: 100%; border-collapse: collapse; margin: 10px 0;"> <tr> <td style="width: 80%;">Net Profit for the current year (After Tax)</td> <td style="text-align: right;">₹ 1,00,00,000</td> </tr> <tr> <td>No. of Equity shares outstanding</td> <td style="text-align: right;">10,00,000</td> </tr> <tr> <td>No. of 10% Fully Convertible Debentures of ₹ 100 each (Each Debenture is compulsorily & fully convertible into 10 equity shares)</td> <td style="text-align: right;">1,00,000</td> </tr> <tr> <td>Debenture interest expense for the current year</td> <td style="text-align: right;">₹ 5,00,000</td> </tr> <tr> <td>Assume applicable Income Tax rate @ 30%</td> <td></td> </tr> </table> <p style="text-align: center;">(ICAI SM/ May 2020 RTP /MTP November 2021(M)/November 2018/May 2009/November 2016/December 2021)</p> | Net Profit for the current year (After Tax) | ₹ 1,00,00,000 | No. of Equity shares outstanding | 10,00,000 | No. of 10% Fully Convertible Debentures of ₹ 100 each (Each Debenture is compulsorily & fully convertible into 10 equity shares) | 1,00,000 | Debenture interest expense for the current year | ₹ 5,00,000 | Assume applicable Income Tax rate @ 30% | | | |
| Net Profit for the current year (After Tax) | ₹ 1,00,00,000 | | | | | | | | | | | | |
| No. of Equity shares outstanding | 10,00,000 | | | | | | | | | | | | |
| No. of 10% Fully Convertible Debentures of ₹ 100 each (Each Debenture is compulsorily & fully convertible into 10 equity shares) | 1,00,000 | | | | | | | | | | | | |
| Debenture interest expense for the current year | ₹ 5,00,000 | | | | | | | | | | | | |
| Assume applicable Income Tax rate @ 30% | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS- 20 'Earnings per Share, the <u>net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period should be adjusted for the effects of all dilutive potential equity shares for calculation of diluted earnings per share.</u> Hence, "in calculating diluted earnings per share, <u>effect is given to all dilutive potential equity shares that were outstanding during the period.</u>"</p> <p>Calculation of Diluted Earnings per Share = $\frac{\text{Adjusted net profit for the current year}}{\text{Weighted average number of equity shares}}$</p> <table border="1" style="width: 100%; border-collapse: collapse; margin: 10px 0;"> <thead> <tr> <th style="width: 40%;">Particulars</th> <th style="width: 30%;">Net profit for the period attributable to Equity Shareholders</th> <th style="width: 30%;">Weighted Average no. of Equity Shareholders</th> </tr> </thead> <tbody> <tr> <td>For Basic EPS</td> <td style="text-align: right;">1,00,00,000</td> <td style="text-align: right;">10,00,000</td> </tr> <tr> <td>Add: Adjustment for Dilution</td> <td style="text-align: right;">3,50,000 (W.N.1)</td> <td style="text-align: right;">5,00,000 (W.N.1)</td> </tr> <tr> <td>Adjusted EPS</td> <td style="text-align: right;">1,03,50,000</td> <td style="text-align: right;">15,00,000</td> </tr> </tbody> </table> <p style="margin-left: 20px;"> Basic EPS = $\frac{1,00,00,000}{10,00,000} = ₹ 10$ Diluted EPS = $\frac{1,03,50,000}{15,00,000} = ₹ 6.90$ per share </p> <p>Working Note:</p> <p>1.) Tax adjusted interest on 10% Convertible Debentures = Interest × (100% – Tax Rate) = 5,00,000 × (100% – 30%) = 3,50,000</p> <p>2.) $1,00,000 \times 10 \times \frac{6}{12} = 5,00,000$ Assumption: Annual Interest on Debentures = 10% × ₹ 100 × 1,00,000 Debentures = ₹ 10,00,000 But interest expense for the current year is given as ₹ 5,00,000 Hence: It can be implied that debentures are issued during the year. Period = 6 months (By comparing Annual Interest Rate @ 10% on ₹ 10,00,000 with given interest expense of ₹ 5,00,000)</p> | Particulars | Net profit for the period attributable to Equity Shareholders | Weighted Average no. of Equity Shareholders | For Basic EPS | 1,00,00,000 | 10,00,000 | Add: Adjustment for Dilution | 3,50,000 (W.N.1) | 5,00,000 (W.N.1) | Adjusted EPS | 1,03,50,000 | 15,00,000 |
| Particulars | Net profit for the period attributable to Equity Shareholders | Weighted Average no. of Equity Shareholders | | | | | | | | | | | |
| For Basic EPS | 1,00,00,000 | 10,00,000 | | | | | | | | | | | |
| Add: Adjustment for Dilution | 3,50,000 (W.N.1) | 5,00,000 (W.N.1) | | | | | | | | | | | |
| Adjusted EPS | 1,03,50,000 | 15,00,000 | | | | | | | | | | | |

2. **Answer the following:**
The following information is available for Sri Gopal Ltd. for the accounting year 20X1-X2 and 20X2-X3.

| | | |
|-------------|--------------|-------------|
| Net Profit: | Year 20X1-X2 | ₹ 25,00,000 |
| | Year 20X2-X3 | ₹ 40,00,000 |

No. of shares outstanding prior to right issue 12,00,000 shares.

Right issue: One new share for each three outstanding i.e. 4,00,000 shares

: Right issue Price ₹ 22

: Last date of exercise rights 30-6-20X2

Fair rate of one equity share immediately prior to exercise of rights on 30-6-20X2 = ₹ 28

You are required to compute the basic earnings per share for the years 20X1-X2 and 20X2-X3

(ICAI SM/November 2020 RTP /November 2019/May 2011/May 2014)

- Sol. **Calculation of basic earnings per share (EPS)**

| Particulars | Year 20X1-X2 (₹) | Year 20X2-X3 (₹) |
|---|------------------|------------------|
| EPS for the year 20X1-X2 as (original) | | |
| Net profit of the year attributable to equity shareholders | 2.08 | |
| Weighted average number of equity shares outstanding during the year = $\frac{₹ 25,00,000}{12,00,000 \text{ shares}}$ | | |
| EPS for the year 20X1-X2 restated for rights issue = $\frac{₹ 25,00,000}{12,00,000 \text{ shares} \times 1.06}$ (Ref. Note) | 1.97 (approx.) | |
| EPS for the year 20X2-X3 including effects of right issue = $\frac{40,00,000}{(12,00,000 \times 1.06 \times \frac{3}{12}) + (4,00,000 \times \frac{9}{12})}$ | | 2.64 (approx.) |

Note: The number of equity shares to be used in calculating basic earnings per share for periods prior to the rights issue is the number of equity shares outstanding prior to the issue, multiplied by the adjustment factor. The adjustment factor has been calculated as in Working Note 2.

Working Notes:

1. Calculation of theoretical ex-rights fair value per share

Fair value of all outstanding shares immediately prior to exercise of rights + Total amount received from exercise

$$= \frac{\text{Number of shares outstanding prior to exercise} \times \text{Fair value per share} + \text{Total amount received from exercise}}{\text{Number of shares outstanding prior to exercise} + \text{Number of shares issued in the exercise}}$$

$$= \frac{(\text{₹ } 28 \times 12,00,000 \text{ shares}) + (\text{₹ } 22 \times 4,00,000 \text{ shares})}{12,00,000 \text{ shares} + 4,00,000 \text{ shares}} = \text{₹ } 26.50$$

2. Calculation of adjustment factor

$$= \frac{\text{Fair value per share prior to exercise of rights}}{\text{Theoretical ex-right value per share}} = \frac{\text{₹ } 28}{\text{₹ } 26.5} = 1.06 \text{ (approx.)}$$

3. Ram Ltd. has 12,00,000 equity shares on April, 1,20X1. The company earned a profit of ₹ 30,00,000 during the year 20X1-X2. The average fair value per share during 20X1-X2 was ₹ 25. The company has given share option to its employees of 2,00,000 equity shares at option price of ₹ 15 Calculate basic E.P.S. and diluted E.P.S.

(November 2010/May 2015/ICAI SM ills6/May 2013)

| 01.04.20X1 | 6,00,000 | 5 | $6,00,000 \times 5/10 \times 5/12 = 1,25,000$ | | | | | | | | | | | | | | | | | | | | | |
| 01.09.20X1 | 5,40,000 | 10 | $5,40,000 \times 7/12 = 3,15,000$ | | | | | | | | | | | | | | | | | | | | | |
| 01.09.20X1 | 60,000 | 5 | $60,000 \times 5/10 \times 7/12 = 17,500$ | | | | | | | | | | | | | | | | | | | | | |
| Total Shares | | | 4,57,500 | | | | | | | | | | | | | | | | | | | | | |

5. Answer the following:

Compute Basic earnings per share from the following information:

| Date | Particulars | No. of Shares |
|--|--------------------------------------|---------------|
| 1 st April, X1 | Balance at the beginning of the year | 1,500 |
| 1 st August, X1 | Issue of shares for cash | 600 |
| 31 st March, X2 | Buy back of shares | 500 |
| Net profit for the year ended 31 st March, 20X2 was ₹ 2,75,000. | | |

(ICAI SM/November 2009)

Sol. Computation of weighted average number of shares outstanding during the period:

| Date | No. of equity shares | Period outstanding | Weights (months) | Weighted average number of shares |
|------------------------------|------------------------|--------------------|------------------|-----------------------------------|
| (1) | (2) | (3) | (4) | (5) = (2) × (4) |
| 1 st April, 20X1 | 1,500 (Opening) | 12 months | 12/12 | 1,500 |
| 1 st August, 20X1 | 600 (Additional issue) | 8 months | 8/12 | 400 |
| 31 st March, 20X2 | 500 (Buy back) | 0 months | 0/12 | — |
| Total | | | | 1900 |

$$\text{Basic Earnings Per Share} = \frac{\text{Net Profit or Loss for the period attributable to Equity Shareholders}}{\text{Weighted Average Number of Equity Shares outstanding during the period}}$$

$$= \frac{₹ 2,75,000}{1,900 \text{ shares}} = ₹ 144.74$$

6. Answer the following:

Explain the concept of 'Weighted average number of equity shares outstanding during the period'. State how would you compute, based on AS-20, the weighted average number of equity shares in the following case:

| | No. of Shares |
|--------------------------------|--|
| 1 st April, 20X1 | Balance of Equity Shares 4,80,000 |
| 31 st August, 20X1 | Equity shares issued for cash 3,60,000 |
| 1 st February, 20X2 | Equity shares bought back 1,80,000 |
| 31 st March, 20X2 | Balance of equity shares 6,60,000 |

(May 2012/November 2015)

Sol. **Provision:** - As per AS-20, 'Earning per share' the weighted average number of equity shares outstanding during the period reflects the fact that the amount at any time. Hence, for the purpose of calculating basic or diluted earnings per share, the number of equity shares should be the weighted average number of equity shares outstanding during the period.

Analysis and conclusion: -

Weighted average number of equity shares

| Period | | Weighted shares |
|---|------------------------|-----------------|
| 1 st April, 20X1 to 31 st August, 20X1 | 4,80,000 shares × 5/12 | 2,00,000 shares |
| 1 st September, 20X1 to 31 st January, 20X2 | 8,40,000 shares × 5/12 | 3,50,000 shares |
| 1 st February, 20X2 to 31 st March, 20X2 | 6,60,000 shares × 2/12 | 1,10,000 shares |
| | | 6,60,000 shares |

7. **Answer the following:**
(a) From the following information relating to Y Ltd. Calculate Earnings Per Share (EPS):

| Particulars | ₹ in Crores |
|--|-------------|
| Profit before VRS Payments but after depreciation | 75.00 |
| Depreciation | 10.00 |
| VRS payments | 32.10 |
| Provision for taxation | 15.00 |
| Paid up Share Capital (Shares of ₹ 10 each fully Paid) | 93.00 |

(November 2007/ RTP)

Sol.

| Particulars | Amount |
|------------------------------------|--------------|
| Profit before tax | 75,00,00,000 |
| Less: VRS payment | 32,10,00,000 |
| Provision for tax | 15,00,00,000 |
| Earnings available to shareholders | 27,90,00,000 |
| No. of shares | 9,30,00,000 |

Earnings per share = $\frac{\text{Profits attributable to equity shareholders}}{\text{Weighted average no. of shares}} = \frac{27,90,00,000}{9,30,00,000} = \text{₹ 3 per share}$

8. XYZ Ltd. is engaged in manufacturing Industrial Packaging Equipment. As per the terms of an agreement entered into with its Debenture holders, the Company is required to appropriate an adequate portion of its Profits to a Specific Reserve over the period of maturity of the Debentures such that at the redemption date, the Reserve constitutes at least half the value of such Debentures. As such, appropriations are not available for distribution to the Equity Shareholders. Kashyapa Ltd. Has excluded this from the Numerator, in the Computation of Basic EPS. Is this treatment correct?

(November 2021 RTP)

Sol. **Provision:** - As per AS-20 "For the purpose of calculating Basic earnings Per Share, the Net Profit or Loss for the period attributable to Equity Shareholders should be the Net Profit or Loss for the period after deducting Preference Dividends and any attributable Tax thereto for the period".

Analysis and conclusion: - With an emphasis on the phrase "attributable to Equity Shareholder", it may be construed that amounts appropriated to Mandatory Reserves as described in this case, though not available for distribution as dividend, are still attributable to Equity Shareholders. So, the appropriation made to a Mandatory Reserve created for the redemption of Debentures would be included in the Net Profit attributable to Equity Shareholders for the computation of Basic EPS. The treatment given by the Company is not correct.

9. Sri Gopal Ltd. has the following different classes of Equity Shares of ₹ 10 each, outstanding as at 31st March, having disproportionate rights with respect to voting and dividends:

| Number of Shares | Rights as to Share in Net Profit to the extent of Capital |
|----------------------------------|---|
| 1,00,000 "A" Class Equity Shares | Proportionate to Capital |
| 30,000 "B" Class Equity Shares | In the proportion of 3:2 with respect to "A" Class Shares |
| 30,000 "C" Class Equity Shares | In the proportion of 5:2 with respect to "A" Class Shares |
| 40,000 "D" Class Equity Shares | In the proportion of 3:1 with respect to "A" Class Shares |

Profit for the year ended 31st March was ₹ 8,00,000. The Company believes that Net Profit is to be allocated to the Shares in the ratio or 2:3:5:6 as derived from their rights to Share Net Profit. The Company has calculated the Basic EPS in the following manner. You are required to confirm whether this calculation is correct.

| Class | Apportionment of Net Profit | No. of Shares | Basic EPS |
|---------|--------------------------------|---------------|-----------|
| Class A | ₹ 8,00,000 × 2/16 = ₹ 1,00,000 | 1,00,000 | ₹ 1.00 |
| Class B | ₹ 8,00,000 × 3/16 = ₹ 1,50,000 | 30,000 | ₹ 5.00 |
| Class C | ₹ 8,00,000 × 5/16 = ₹ 2,50,000 | 30,000 | ₹ 8.33 |
| Class D | ₹ 8,00,000 × 6/16 = ₹ 3,00,000 | 40,000 | ₹ 7.50 |

(RTP)

Sol. **Provision:** -As per AS-20, "If an Enterprise has more than one class of Equity Shares, Net Profit or Loss for the period is apportioned over the different classes of Shares in accordance with their dividend rights". In the instant case, Net Profit should first be apportioned to various classes of Equity Shares in accordance with their Dividend Rights in the following manner:

| Class (1) | No. of Shares (2) | Ratio of rights in Profit (3) | Adjusted Number of Shares (4) | Apportioned Profit (in the ratio of adjusted number of Shares) (5) | Basic EPS (6) = (5) ÷ (2) |
|-----------|-------------------|-------------------------------|--|--|---------------------------|
| A | 1,00,000 | 1:1 | $1,00,000 \times \frac{1}{1} = 1,00,000$ | $8,00,000 \times \frac{100}{340} = ₹ 2,35,294$ | ₹ 2.35 |
| B | 30,000 | 3:2 | $30,000 \times \frac{3}{2} = 45,000$ | $8,00,000 \times \frac{45}{340} = ₹ 1,05,882$ | ₹ 3.53 |
| C | 30,000 | 5:2 | $30,000 \times \frac{5}{2} = 75,000$ | $8,00,000 \times \frac{75}{340} = ₹ 1,76,471$ | ₹ 5.88 |
| D | 40,000 | 3:1 | $40,000 \times \frac{3}{1} = 1,20,000$ | $8,00,000 \times \frac{120}{340} = ₹ 2,82,353$ | ₹ 7.06 |
| | | Total | 3,40,000 | ₹8,00,000 | |

Conclusion: - The Company's EPS computation is not correct. The amounts presented above should be considered.

10. In the following list of shares issued, for the purpose of calculations of weighted average number of shares, from which date, weight is to be considered:

- 1) Equity shares issued in exchange of cash,
- 2) Equity shares issued as a result of conversion of a debt instrument,
- 3) Equity shares issued in exchange for the settlement of a liability of the enterprise,
- 4) Equity shares issued for rendering of services to the enterprise,
- 5) Equity shares issued in lieu of interest and/or principal of another financial instrument,
- 6) Equity shares issued as consideration for the acquisition of an asset other than in cash.

(May 2021 RTP)

| Sol. | <p>1) Timing difference is the difference between the accounting income and taxable income that originated in the same period and are capable of reversal in one or more subsequent periods. Examples of timing differences are as follows:</p> <ul style="list-style-type: none"> i) Expenditure of nature mentioned in Section 43 (B), like taxes, duty, cess, fees etc. if are accrued in the P/L A/c on accrual basis; but are allowed only on actual payment for tax purpose. ii) Provision made in P/L A/c, but the relevant liability is allowed in the year in which it actualize. iii) Depreciation <p>2) Permanent difference is the difference between the accounting income and taxable income that originated in the same period; but are not capable of reversal. Examples of permanent differences are as follows: - Personal expenditure Contribution to National Laboratory. Donations, etc.</p> | | | | | | |
| 6. | <p>Write short notes on the following: Provision for taxation and advance payment of tax.</p> <p style="text-align: right;">(Dec 2011/Dec 2009)</p> | | | | | | |
| Sol. | <p>Provision for Taxation: Provision for Income Tax to be created for current year is shown in the debit side of profit and loss account as well as under provision in liabilities side in the balance sheet. If rate of Income Tax is given it will be applied on net profit. Surcharge if any, will be calculated on Income Tax, while calculating income tax provision as a percentage of net profit. Some adjustment may be required. Net profit as shown by profit and loss account may be different from the taxable profit.</p> <p>Advance Tax: Any advance tax paid by company will be shown on the assets side of the balance sheet under short term 'Loans and Advances'. Alternatively, it may be shown as a deduction from provision for Income Tax. If amount of advance tax is more than the amount of tax assessed, the excess is refundable by income. Tax department. This excess will be shown in the assets side under short terms 'Loans and Advances' until refund is received.</p> | | | | | | |

| 7. | <p>Sri Guruji Limited is a full tax-free enterprise for the 1st 12 years of its existence and is in third year of operations. Depreciation timing difference resulting in a deferred tax liability in 1st, 2nd and 3rd year is ₹ 200 lakhs, ₹ 300 lakhs and ₹ 400 lakhs respectively. From the 4th year onwards, it is expected that the timing difference would reverse each year by ₹ 10 lakhs. Assuming tax rate @ 35%, find out the deferred tax liability at the end of 3rd year and any charge to the Profit and Loss Account.</p> <p style="text-align: right;">(November 2012/ICAI SM)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|---|--|------------|--|---|--------------------------------------|--|----------|---|--|------------|-------------------------|--|----------|-----------------------|----------|--|--------------------------------------|-----|------------|----------------------|--|--|------------------------|--|----------|--|------------|------------------------------------|----------|--|------------|----------------|----------|-----------------------------|----------|
| Sol. | <p>Provision: - As per AS-22, "Accounting for Taxes on Income", in the case of tax-free enterprises, no deferred tax liability is recognized, in respect of timing differences that originate and reverse in the tax holiday period. Deferred tax liability or asset is created in respect of timing differences that originate in a tax holiday period but are expected to reverse after the tax holiday period. For this purpose, adjustments are done in accordance with the FIFO method.</p> <p>Analysis and conclusion: - Accordingly, depreciation timing difference of ₹ 90 lakhs (₹ 10 lakhs × 9 years) will reverse in the tax holiday period i.e. from 4th year to 12th year. Therefore, no deferred liability on ₹ 90 lakhs out of ₹ 200 lakhs. Will be created. In the 1st year, deferred tax liability of ₹ 38.5 lakhs will be created @ 35% on ₹ 110 lakhs (₹ 200 lakhs – ₹ 90 lakhs) only. However, the entire depreciation timing difference of 2nd and 3rd year i.e. ₹ 300 lakhs and ₹ 400 lakhs will reverse only after the tax holiday period. So, deferred tax liability will be created in the 2nd year for ₹ 105 lakhs (₹ 300 × 35%) and in the 3rd year for ₹ 140 lakhs (₹ 400 × 35%). Therefore, total deferred tax liability in the Balance Sheet at the end of 3rd year will be ₹ (38.5 + 105 + 140) lakhs = ₹ 283.5 lakhs and charge to Profit and Loss account in the 3rd year will be ₹ 140 lakhs (₹ 400 × 35%)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| 2) Impact of various items in terms of deferred tax liability / deferred tax asset | | | | | |
|---|---|--|------------------------------|------------------|--|
| S. No. | Transactions | Analysis | Nature of difference | Effect | Amount (₹) |
| i) | Difference in depreciation | Generally, written down value method of depreciation is adopted under IT Act which leads to higher depreciation in earlier years of useful life of the asset in comparison to later years. | Responding timing difference | Reversal of DTL | (2,80,000 – 1,90,000) × 40% = (36,000) |
| ii) | Depreciation on new machinery | Due to allowance of full amount as expenditure under IT Act, tax payable in the earlier years is less. | Timing difference | Creation of DTL | (1,20,000 – 30,000) × 40% = 36,000 |
| | Net impact | | | | NIL |
| 9. | What are the disclosure requirements for deferred tax assets and deferred tax liabilities in the balance sheet as per AS 22? (May 2021 RTP) | | | | |
| Sol. | The break-up of deferred tax assets and deferred tax liabilities into major components of the respective balance should be disclosed in the notes to accounts. <u>Deferred tax assets and liabilities should be distinguished from assets and liabilities representing current tax for the period. Deferred tax assets and liabilities should be disclosed under a separate heading in the balance sheet of the enterprise, separately from current assets and current liabilities.</u> The nature of the evidence supporting the recognition of deferred tax assets should be disclosed, if an enterprise has unabsorbed depreciation or carry forward of losses under tax laws. | | | | |
| 10. | PQR Ltd.'s accounting year ends on 31st March. The company made a loss of ₹ 2,00,000 for the year ending 31.3.20X1. For the years ending 31.3.20X2 and 31.3.20X3, it made profits of ₹ 1,00,000 and ₹ 1,20,000 respectively. It is assumed that the loss of a year can be carried forward for eight years and tax rate is 40%. By the end of 31.3.20X1, the company feels that there will be sufficient taxable income in the future years against which carry forward loss can be set off. There is no difference between taxable income and accounting income except that the carry forward loss is allowed in the years ending 20X2 and 20X3 for tax purposes. Prepare a statement of Profit and Loss for the years ending 20X1, 20X2 and 20X3. (ICAI SM) | | | | |
| Sol. | Statement of Profit and Loss | | | | |

AS-24 Discontinuing Operations Assignment

| Q. No. | Question & Answers |
|--------|--|
| 1. | <p>i) What are the disclosure and presentation requirements of AS 24 for discontinuing operations?</p> <p>ii) Give four examples of activities that do not necessarily satisfy criterion (a) of paragraph 3 of AS 24, but that might do so in combination with other circumstances. (May 2020 RTP /November 2009/November 2018/ November 2020 RTP)</p> |
| Ans. | <p>i) An enterprise should include the following information relating to a discontinuing operation in its financial statements beginning with the financial statements for the period in which the initial disclosure event occurs:</p> <ol style="list-style-type: none"> a) a description of the discontinuing operation(s); b) the business or geographical segment(s) in which it is reported as per AS 17, Segment Reporting; c) the date and nature of the initial disclosure event; d) the date or period in which the discontinuance is expected to be completed if known or determinable; e) the carrying amounts, as of the balance sheet date, of the total assets to be disposed of and the total liabilities to be settled; f) the amounts of revenue and expenses in respect of the ordinary activities attributable to the discontinuing operation during the current financial reporting period; g) the amount of pre-tax profit or loss from ordinary activities attributable to the discontinuing operation during the current financial reporting period, and the income tax expense related thereto; and h) the amounts of net cash flows attributable to the operating, investing, and financing activities of the discontinuing operation during the current financial reporting period. <p>ii) As per AS- 24 “Discontinuing Operations” explains the criteria for determination of discontinuing operations. examples of activities that do not necessarily satisfy criterion , but that might do so in combination with other circumstances, include:</p> <ol style="list-style-type: none"> a) Gradual or evolutionary phasing out of a product line or class of service; b) Discontinuing, even if relatively abruptly, several products within an ongoing line of business; c) Shifting of some production or marketing activities for a particular line of business from one location to another; and d) Closing of a facility to achieve productivity improvements or other cost savings. <p>An example in relation to consolidated financial statements is selling a subsidiary whose activities are similar to those of the parent or other subsidiaries.</p> |
| 2. | <p>Sri Maruti ltd. is in the business of manufacture of passenger cars and commercial vehicles. The company is working on a strategic plan to shift from the Passenger car segment over the coming 5 years. However, no specific plans have been drawn up for sale of neither the division nor its assets, As part of its plan it will reduce the production of passenger cars by 20% annually. It also plans to commence another new factory for the manufacture of commercial vehicles and transfer surplus employees in a phased manner.</p> <p>i) You are required to comment if mere gradual phasing out in itself can be considered as a ‘Discontinuing Operation’ within the meaning of AS-24.</p> <p>ii) If the company passes a resolution to sell some of the assets in the passenger car division and also to transfer few other assets of the passenger car division to the new factory, does this trigger the application of AS-24?</p> <p>iii) Would your answer to the above be different if the company resolves to sell the assets of the Passenger Car Division in a phased but time bound manner? (May 2021 RTP /November 2013)</p> |

| | |
|-------------|--|
| Ans. | <p>Provision: - Mere gradual phasing is <u>not considered as discontinuing operation</u> as defined under AS-24, 'Discontinuing operation'.</p> <p>Examples or activities that do not necessarily satisfy criterion of the definition, but that might do so in combination with other circumstances, include:</p> <ul style="list-style-type: none"> i) Gradual or evolutionary phasing out of a product line or class of service. ii) Shifting of some production or marketing activities for a particular line of business from one location to another and iii) Closing of a facility to achieve productivity improvements or other cost savings. <p>A Reportable business segment or geographical segment as defined in AS-17, would normally satisfy criteria (b) of the definition.</p> <p>In view of the above the answers are:</p> <p>No. The company's <u>strategic plan has no final approval from the board</u> through a resolution and no specific time bound activities like shifting of Assets and employees and above all the new segment commercial vehicle production line and factory has started.. <u>Hence, AS-24 will not be applicable</u></p> <p>No. The resolution is salient about stoppage of the Car segment in definite time period. Though, some assets sales and transfer proposal was passed through a resolution to the new factory , closure road map and new segment starting road map is missing. <u>Hence, AS-24 will not be applicable.</u></p> <p>Yes. <u>Phased and time bound programmed resolved in the board</u> clearly indicates the closure of the passenger car segment in a definite time frame and clear road map. <u>Hence, this action will attract AS-24 compliance.</u></p> |
| 3. | <p>What are discontinuing operations as per AS 24? Should an enterprise include prescribed information relating to a discontinuing operation in its financial statements?</p> <p style="text-align: right;">(November 2021 RTP)</p> |
| Sol. | <p>A discontinuing operation is a component of an enterprise:</p> <ul style="list-style-type: none"> a) That the enterprise, pursuant to a single plan, is: <ul style="list-style-type: none"> i) Disposing of substantially in its entirety, such as by selling the component in a single transaction or by demerger or spin-off of ownership of the component to the enterprise's shareholders or ii) Disposing of piecemeal, such as by selling off the component's assets and settling its liabilities individually or iii) Terminating through abandonment and b) That represents a separate major line of business or geographical area of operations. c) That can be distinguished operationally and for financial reporting purposes. <p>An enterprise should include prescribed information relating to a discontinuing operation in its financial statements, as per requirements of AS 24, beginning with the financial statements for the period in which the initial disclosure event occurs.</p> |

| <p>Sol.</p> | <p>1) Provision: - As per AS-26, "Intangible assets" <u>Expenditure on research or on the research phase should be recognized as expense when it is incurred.</u></p> <p>Analysis and conclusion: - In the given case expenditure on <u>research of new process design for its product 530 lakhs should be charged to Profit and Loss Account</u> in the year in which it is incurred. It is presumed that the entire expenditure is incurred in the financial year 20X0-X1. Hence, it should be written off as an expense in that year itself.</p> <p>2) Provision: - As per AS-26, "Intangible assets" Cost of an internally generated intangible assets is <u>all directly attributable expenses</u> (like material consumed and salaries paid) <u>excluding cost of staff training, initial operating losses before the assets meet the recognition criteria and selling, administrative expenses.</u> Or the present value of future cash flows <u>whichever is lower.</u></p> <p>Analysis and conclusion: - In the given case the development phase expenditure amounting ₹ 360 lakhs incurred up to 31st March, 20X3 <u>meets asset recognition criteria</u> for measurement of such <u>internally generated intangible asset, fair value can be estimated by discounting estimated future net cash flows.</u></p> <table border="1" data-bbox="298 680 1419 852"> <thead> <tr> <th></th> <th style="text-align: right;">₹</th> </tr> </thead> <tbody> <tr> <td>Saving (after tax) from implementation of new design For next 5 years</td> <td style="text-align: right;">80 lakhs p.a</td> </tr> <tr> <td>Company's cost of capital</td> <td style="text-align: right;">10%</td> </tr> <tr> <td>Annuity factor @ 10% for 5 years</td> <td style="text-align: right;">3.7908</td> </tr> <tr> <td>Present value of net cash flow (₹ 80 lakhs × 3.7908)</td> <td style="text-align: right;">303.26 lakhs</td> </tr> </tbody> </table> <p>The cost of an internally generated intangible asset would be lower of cost value 360 lakhs or present value off future net cash flows ₹ 303.26 lakhs. Hence, <u>cost of an internally generated intangible asset will be ₹ 303.26 lakhs.</u> The <u>difference of ₹ 56.74 lakhs (i.e. ₹ 360 lakhs – ₹ 303.26 lakhs) will be amortized by the enterprise for the financial year 20X2-X3.</u></p> <p>3) Amortization – The company can Amortize ₹ 303.26 lakhs over a period of five years by charging ₹ 60.65 lakhs per annum from the financial year 20X2-X3 onwards.</p> | | ₹ | Saving (after tax) from implementation of new design For next 5 years | 80 lakhs p.a | Company's cost of capital | 10% | Annuity factor @ 10% for 5 years | 3.7908 | Present value of net cash flow (₹ 80 lakhs × 3.7908) | 303.26 lakhs |
|---|--|--|---|---|--------------|---------------------------|-----|----------------------------------|--------|--|--------------|
| | ₹ | | | | | | | | | | |
| Saving (after tax) from implementation of new design For next 5 years | 80 lakhs p.a | | | | | | | | | | |
| Company's cost of capital | 10% | | | | | | | | | | |
| Annuity factor @ 10% for 5 years | 3.7908 | | | | | | | | | | |
| Present value of net cash flow (₹ 80 lakhs × 3.7908) | 303.26 lakhs | | | | | | | | | | |
| <p>3.</p> | <p>A company acquired a patent at a cost of ₹ 160 lakhs for a period of 5 years and the product life cycle is also 5 years. The company capitalized the cost and started amortising the asset at ₹ 16 lakhs per year based on the economic benefits derived from the product manufactured under the patent. After 2 years it was found that the product life cycle may continue for another 5 years from then (the patent is renewable and the company can get it renewed after 5 years). The net cash flows from the product during these 5 years were expected to be ₹ 50 lakhs, ₹ 30 lakhs, ₹ 60 lakhs, ₹ 70 lakhs and ₹ 40 lakhs. Find out the amortization cost of the patent for each of the years. (May 2018/May 2006/May 2017/ICAI SM)</p> | | | | | | | | | | |
| <p>Sol.</p> | <p>Provision: - As per AS-26, An intangible asset is to be amortized over the best estimate of its useful life, if the <u>expected useful life of the asset is significantly different from previous estimates, the amortization period should be changed accordingly.</u> AS-5 provides that in case of change in estimate, the effect should be given prospectively over the remaining useful life of the intangible asset.</p> <p>Analysis and conclusion: - In the given case the company amortised ₹ 16,00,000 per annum for the first two years i.e. ₹ 32,00,000. The remaining carrying cost can be amortised during next 5 years on the basis of net cash flows arising from the sale of the product. The amortisation may be found as follows:</p> | | | | | | | | | | |

| Year | Net Cash flows (₹) | Amortisation Ratio | Amortisation Amount (₹) |
|------|--------------------|--------------------|-------------------------|
| 1 | - | 0.10 | 16,00,000 |
| 2 | - | 0.10 | 16,00,000 |
| 3 | 50,00,000 | 0.20 | 25,60,000 |
| 4 | 30,00,000 | 0.12 | 15,36,000 |
| 5 | 60,00,000 | 0.24 | 30,72,000 |
| 6 | 70,00,000 | 0.28 | 35,84,000 |
| 7 | 40,00,000 | 0.16 | 20,48,000 |
| | 2,50,00,000 | 1.00 | 1,60,00,000 |

It may be seen from above that from third year onwards, the balance of carrying amount i.e. ₹ 1,28,00,000 has been amortised in the ratio of net cash flows arising from the product of the company.

|-------------|---|
| 4. | M Ltd. launched a project for producing product A in November 20X0. The company incurred ₹ 30 lakhs demonstrate towards Research and Development expenses up to 31 st March, 20X2. Due to unfavorable market conditions, the management feels that it is not possible to manufacture and sell the product in the market for the next so many year. The management hence wants to defer the expenditure write off to future year. Required: Advise the company as per the applicable Accounting Standard. [Nov. 2003/November 2010/ICAI SM] |
| Sol. | Provision: - As per AS 26, expenditure on research should be recognized as an expense when it is incurred. <u>An intangible asset arising from development (or from the development phase of an internal project) should be recognized if and only if, an enterprise can fulfill all of the conditions specified in this accounting standard.</u> An intangible asset (arising from development) <u>should be derecognized when no future economic benefits are expected from its use.</u> Analysis and conclusion: - In the given case of M Ltd. the <u>management cannot defer the expenditure write off to future years because expenses incurred by M LTD. treated as an expense on research and research expenses should be recognized</u> when it is incurred so the company is required to expense the entire amount of ₹ 30 lakhs in the Profit and Loss account of the year ended 31st March, 20X2. |
| 5. | A company with a turnover of 250 crores an annual advertising budget of 2 crores had taken up to the marketing of a new product. It was estimated that the company would have a turnover of 25 crores from the product. The company had debited to its profit and loss account the total expenditure 2 crores incurred of an extensive special initial advertisement campaign for the new product. Is the procedure adopted by the company, correct? (ICAI SM/November 2016/November 2019(M)) |
| Sol. | Provision: - As per AS 26, "intangible assets" expenditure on an intangible item should be recognized as an expense when it is incurred unless it forms the part of the cost of an intangible asset Further, <u>standard provides that expenditure on advertising and promotional activities should be recognized as an expense when incurred.</u> Analysis and conclusion: - In the given case, an advertisement of expenditure of 2 crores had been taken up for the marketing of a new product which may provide future economic benefits to an enterprise by having a turnover of 25 crores. Here, <u>no intangible assets is acquired or created that can be recognized.</u> Therefore, the <u>accounting treatment by the company of debiting the entire advertising of expenditure of 2 crores to the profit and loss account of the year is correct.</u> |

| 6. | <p>Mahesh Ltd. is developing a new production process. During the financial year 31st March, 20X2, the total expenditure incurred on this process was ₹60 lakhs. The production process met the criteria for recognition as an intangible asset on 1st December, 20X1. Expenditure incurred till this date was ₹ 32 lakhs.</p> <p>Further expenditure incurred on the process for the financial year ending 31st March 20X3, was ₹ 90 lakhs. As at 31 -3-20X3, the recoverable amount of know-how embodied in the process is estimated to be ₹82 lakhs. This includes estimates of future cash outflows as well as inflows.</p> <p>You are required to work out:</p> <p>a) What is the expenditure to be charged to the profit and loss account for the financial year ended 31st March 20X2? (Ignore depreciation for this purpose)</p> <p>b) What is the carrying amount of the intangible asset as at 31st March 20X2?</p> <p>d) What is the expenditure to be charged to the profit and loss account for the year ended 31st March 20X3?</p> <p>What is the carrying amount of the intangible asset as at 31st March 20X3?</p> <p style="text-align: right;">(December 2021/May 2015/Nov. 2020)</p> | | | | | | | | | | | | |
|--|---|-----------------------------|--------|--|-------------|--------------------------|----------|--|---------|-----|-----|-----|-----|
| Sol. | <p>As per AS 26, the amount charged and recognized are as follows:</p> <p>1) The expenditure to be charged to profit and loss a/c for year ended 31st march 20X2: ₹32 lakh will be recognized as an expenses because the recognition criteria were not met until 1st December 20X1. This expenditure will not from part of the cost of the production process recognized in the balance sheet</p> <p>2) The carrying amount of the assets as on 31st march 20X2: The production process will be recognized (i/r/ carrying amount) as intangible assets at a cost of ₹28 lakhs (i.e. expenditure incurred since the date the recognition criteria were met i.e. total during 20X1-20X2 ₹60 lakhs. Expenses incurred upto 1st December 20X1 ₹32 lakh.</p> <p>3) The expenditure to be charged to profit and loss a/c for the year ended 31st march 20X3:</p> <table border="1" data-bbox="298 1178 1425 1318"> <thead> <tr> <th>Book value on 31 march 20X3</th> <th>Amount</th> </tr> </thead> <tbody> <tr> <td>Carrying amount on 31 march 20X3 + expenses in 20X2-X3</td> <td>28+90 = 118</td> </tr> <tr> <td>Less: recoverable amount</td> <td>82 lakhs</td> </tr> <tr> <td>Impairment loss to be charged to p&l a/c</td> <td>36 lakh</td> </tr> </tbody> </table> <p>4) The carrying amount of assets as on 31st march 20X3: The production process will be shown at book value ₹118 lakh or, recoverable amount ₹82 lakh, whichever is less, hence carrying amount is ₹ 82 lakh.</p> | Book value on 31 march 20X3 | Amount | Carrying amount on 31 march 20X3 + expenses in 20X2-X3 | 28+90 = 118 | Less: recoverable amount | 82 lakhs | Impairment loss to be charged to p&l a/c | 36 lakh | | | | |

| 13. | Decide when research and development cost of a project can be deferred (postpone) to future periods as per AS – 26. [May 2003] | | | |
| Sol. | <p>Development costs of a project may be deferred to future periods, if the following criteria are satisfied.</p> <ol style="list-style-type: none"> 1) The product or process is clearly defined and the costs attributable to the product or process can be separately identified: 2) The technical feasibility of the product or process has been demonstrated. 3) The management of the enterprise has indicated its intention to complete the intangible asset and use or sell it. 4) There is a reasonable indication that current and future research and development costs to be incurred. On the project together with expected production, selling and administration costs are likely to be more than covered by related future revenues / benefits; and 5) Adequate resources exist, or are reasonably expected to be available to complete title project and market the product or process. | | | |
| 14. | <p>An intangible asset appears in Balance Sheet of A co. Ltd. at ₹ 16 lakhs as on 31.3.20X14. The asset was acquired for ₹.40 lakhs in April, 20X1. The Company has been amortising the assets value on straight line basis. The policy is to amortize for 20 years? Do you advise the company to amortize the entire asset value in the books of the company as on 31.3.20X14? [Nov. 2005]</p> | | | |
| Sol. | <p>Provision: - As per AS-26 standard, the <u>depreciable amount of an intangible asset should be allocated on a systematic basis over the best estimate of its useful life.</u> There is a rebuttable presumption that the useful life of the intangible asset will not exceed ten years from the date when the assets is available for use. But if there is persuasive evidence that the <u>useful life of an intangible assets is more than ten years than an intangible asset has to be amortized over the best estimate of its useful life</u></p> <p>Analysis and conclusion: - In the given case the amortization period of ten years has already expired on 31.3.20X14, therefore, the <u>carrying amount of ₹16 lakhs has to be eliminated with a corresponding adjustment to the balance of revenue reserves of 31.03.20X14.</u> However, if there is <u>persuasive evidence that the useful life of an intangible assets is more than ten years then an intangible asset has to be amortized over the best estimate of its useful life</u> and therefore, assuming that the best estimate of its, useful life is 20 years as given in the question, depreciation amounting ₹ 2 lakhs i.e. (₹ 40 lakhs – Nil) ÷ 20 years] as per straight line basis should be charged by A Co. Ltd. and no other adjustments is required as on 31.3.20X14.</p> | | | |
| 15. | <p>SAD Enterprises, a partnership firm, had purchased business of SWAD enterprises on 01.04.20X0 and paid ₹ 50,000 towards goodwill. On 01.04.20X1, SAD enterprises decided to admit W as partner and the goodwill was valued at ₹ 1,00,000 for the purpose. Please explain with reasons, at what price goodwill can be shown in the books of account. [Nov. 2009]</p> | | | |
| Sol. | <p>Provision: - As per AS 26, "Intangible assets" <u>goodwill can be recorded in the books only when some consideration in money or money's worth has been paid for it.</u> Therefore, only purchased goodwill should be recorded in the books.</p> <p>Analysis and conclusion: - In the given case <u>Payment of ₹ 50,000 was made towards purchase of goodwill, hence to this extent goodwill can be recorded in the books.</u> Additional</p> | | | |

| | <u>goodwill of ₹ 50,000 is self-generated goodwill, which should not be recorded.</u> On admission, death or retirement of a partner, goodwill adjustments can be carried out through capital accounts. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| 17. | <p>X Ltd. carried on the business of manufacturing of bakery products. The company has two trademarks sun and Surya. One month before, the company comes to know through one of the marketing managers that both trademarks have allegedly been infringed by other competitors engaged in the same field. After investigation legal department of the company informed that it had a weak case on trademark sun and a strong case in regards to trademark Surya. X Ltd. incurred additional legal fees to stop infringement on both trademarks. Both trademarks have a remaining legal life of 10 year How should X Ltd. account for these legal costs incurred relating to the two trademarks? (November 2020 RTP)</p> |
| Sol. | <p>Provision: - As per AS 26, "Intangible assets" subsequent expenditure on an intangible asset after its purchase or its completion should be recognized as an expenses. However, <u>if the subsequent expenditure enables the asset to generate future economic benefits in excess of its originally assessed standard of performance or can be measured and attributed to the assets reliably, then such subsequent expenditure should be added to the cost of intangible assets.</u></p> <p>Analysis and conclusion: - In the given case the <u>legal costs incurred for both the trademarks do not enable them to generate future economic benefits in excess of its originally assessed standard of performance.</u> They only ensure to maintain them if the cases is decided in favor of the company. Therefore, such <u>legal costs incurred for both trademarks must be recognized as an expenses.</u></p> |
| 18. | <p>An intangible item is appearing in the Balance Sheet of A Ltd. ₹ 15 lakhs on 1-4-20X1. The item was acquired for ₹ 25 lakhs on 1-4-20X0. The enterprise has been following a policy of amortizing the intangible item over a period of 5 years on a straight-line basis. Applying paragraph 63 of AS 26 the enterprise determines the amortization period to be 8 years, being the best estimate of its useful life, from the date when the item was amiable for use i.e., April 1, 20X0. Comment. (RTP)</p> |
| Sol. | <p>Provision: - As per AS-26, An intangible asset is to be amortized over the best estimate of its useful life, if the <u>expected useful life of the asset is significantly different from previous estimates, the amortization period should be changed accordingly.</u> AS-5 provides that in case of change in estimate, the effect should be given prospectively over the remaining useful life of the intangible asset i.e. 6 year</p> <p>Analysis and conclusion:- In the given case the intangible asset was Acquired i.e. 1st April 20X0, the <u>revision of the amortization period from 5 years to 8 years</u> is a change in Accounting estimate.</p> <p>Note: It is assumed that since the date of purchase of intangible item, the enterprise has been following a policy of amortizing the intangible asset over a period of 5 years on straight-line basis by applying AS 26 i.e.being the best estimate of its useful life. On 1.4.20X2, the company again reviewed the useful life of the intangible asset.</p> |

AS-29 Provisions, Contingent Liability and Contingent Assets Assignment

| Q. No. | Question & Answers | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--------------------------------|--|----------|-------------|----------|--------------------------------|------|---|----------------------|-----|---|--------------------|-----|----------|---------------------|-----|----------|----------------------|--|--|-----|-----|---|--------------------|-----|----------|---------------------|-----|----------|
| 1. | <p>A company is in a dispute involving allegation of infringement of patents by a competitor company who is seeking damages of a huge sum of ₹ 900 lakhs. The directors are of the opinion that the claim can be successfully resisted by the company. How would you deal the same in the annual accounts of the company?</p> <p style="text-align: right;">(November 2012/November 2014/November 2016)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-29, (Revised) 'Provisions, Contingent Liabilities and Contingent Assets', a provision should be recognized when;</p> <p>A) An enterprise has a <u>present obligation</u> as a result of a past event;</p> <p>B) It is probable that an <u>outflow of resources</u> embodying economic benefits will be required to settle the obligation; and</p> <p>C) a <u>reliable estimate can be made of the amount of the obligation</u>.</p> <p>If these conditions are not met, no provision should be recognised.</p> <p>Analysis and Conclusion: - In the given situation, since, the directors of the <u>company are of the opinion that the claim can be successfully resisted by the company, therefore there will be no outflow of the resources.</u> The company will disclose the same as contingent liability by way of the following note;</p> <p>"Litigation is in process against the company relating to a dispute with a competitor who alleges that the company has infringed patents and is seeking damages of ₹ 900 lakhs. However, the directors are of the opinion that the claim can be successfully resisted by the company."</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2. | <p>At the end of the financial year ending on 31st December, 20X1, a company finds that there are twenty law suits outstanding which have not been settled till the date of approval of accounts by the Board of Directors. The possible outcome as estimated by the Board is as follows:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 70%;"></th> <th style="width: 15%; text-align: center;">Probability</th> <th style="width: 15%; text-align: center;">Loss (₹)</th> </tr> </thead> <tbody> <tr> <td>In respect of five cases (Win)</td> <td style="text-align: center;">100%</td> <td style="text-align: center;">-</td> </tr> <tr> <td>Next ten cases (Win)</td> <td style="text-align: center;">50%</td> <td style="text-align: center;">-</td> </tr> <tr> <td> Lose (Low damages)</td> <td style="text-align: center;">40%</td> <td style="text-align: center;">1,20,000</td> </tr> <tr> <td> Lose (High damages)</td> <td style="text-align: center;">10%</td> <td style="text-align: center;">2,00,000</td> </tr> <tr> <td>Remaining five cases</td> <td></td> <td></td> </tr> <tr> <td> Win</td> <td style="text-align: center;">50%</td> <td style="text-align: center;">-</td> </tr> <tr> <td> Lose (Low damages)</td> <td style="text-align: center;">30%</td> <td style="text-align: center;">1,00,000</td> </tr> <tr> <td> Lose (High damages)</td> <td style="text-align: center;">20%</td> <td style="text-align: center;">2,10,000</td> </tr> </tbody> </table> <p>Outcome of each case is to be taken as a separate entity. Ascertain the amount of contingent loss and the accounting treatment in respect thereof.</p> <p style="text-align: right;">(ICA SM/November 2017)</p> | | Probability | Loss (₹) | In respect of five cases (Win) | 100% | - | Next ten cases (Win) | 50% | - | Lose (Low damages) | 40% | 1,20,000 | Lose (High damages) | 10% | 2,00,000 | Remaining five cases | | | Win | 50% | - | Lose (Low damages) | 30% | 1,00,000 | Lose (High damages) | 20% | 2,10,000 |
| | Probability | Loss (₹) | | | | | | | | | | | | | | | | | | | | | | | | | | |
| In respect of five cases (Win) | 100% | - | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Next ten cases (Win) | 50% | - | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Lose (Low damages) | 40% | 1,20,000 | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Lose (High damages) | 10% | 2,00,000 | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Remaining five cases | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Win | 50% | - | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Lose (Low damages) | 30% | 1,00,000 | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Lose (High damages) | 20% | 2,10,000 | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-29 (Revised) 'Provisions, Contingent Liabilities and Contingent Assets', <u>contingent liability</u> should be disclosed in the financial statements if following conditions are satisfied:</p> <p>i) There is a present obligation arising out of past events but not recognised as provision.</p> <p>ii) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation.</p> <p>iii) The possibility of an outflow of resources embodying economic benefits is not remote.</p> <p>iv) The amount of the obligation cannot be measured with sufficient reliability to be recognised as provision.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | <p>Analysis and conclusion: - In this case, the probability of winning of first five cases is 100% and hence, question of providing for contingent loss does not arise. The probability of winning of next ten cases is 50% and for remaining five cases is 50%. As per AS 29 (Revised), we make a provision if the loss is probable. As the <u>loss does not appear to be probable and the possibility of an outflow of resources embodying economic benefits is remote, therefore disclosure by way of note should be made.</u> For the purpose of the disclosure of contingent liability by way of note, amount may be calculated as under:</p> <p>Expected loss in next ten cases = 40% of ₹ 1,20,000 + 10% of ₹ 2,00,000 = ₹ 48,000 + ₹ 20,000 = ₹ 68,000</p> <p>Expected loss in remaining five cases = 30% of ₹ 1,00,000 + 20% of ₹ 2,10,000 = ₹ 30,000 + ₹ 42,000 = ₹ 72,000</p> <p>To disclose contingent liability on the basis of maximum loss will be highly unrealistic. Therefore, the better approach will be to <u>disclose the overall expected loss of ₹ 10,40,000 (₹ 68,000 × 10 + ₹ 72,000 × 5) as contingent liability.</u></p> | | | | | | | | | | | | | | | | | | |
|---|--|------------------------------------|-----------------------------------|--------------------------------|-----------------|--------------------------------|-----------|------------------------------------|-----------------------------------|--|-----------------------------|-------------|---|--|-------|---|---------|---|-------|
| 3. | <p>Answer the following: Sri JMD company provides after sales warranty for 2 years to its customers. Based on past experience, the company has the following policy for making provision for warranties on the invoice amount; on the remaining balance warranty period: Less than 1 year: 2% provision More than 1 year: 3% provision The company has raised invoices as under:</p> <table border="1"> <thead> <tr> <th>Invoice Date</th> <th>Amount (₹)</th> </tr> </thead> <tbody> <tr> <td>19th January, 20X1</td> <td>40,000</td> </tr> <tr> <td>29th January, 20X2</td> <td>25,000</td> </tr> <tr> <td>15th October, 20X2</td> <td>90,000</td> </tr> </tbody> </table> <p>Calculate the provision to be made for warranty under accounting Standard 29 as at 31st March, 20X2 and 31st March, 20X3. Also compute amount to be debited to Profit and Loss Account for the year ended 31st March, 20X3.</p> <p style="text-align: right;">(May 2014/ November 2019/May 2013)</p> | Invoice Date | Amount (₹) | 19 th January, 20X1 | 40,000 | 29 th January, 20X2 | 25,000 | 15 th October, 20X2 | 90,000 | | | | | | | | | | |
| Invoice Date | Amount (₹) | | | | | | | | | | | | | | | | | | |
| 19 th January, 20X1 | 40,000 | | | | | | | | | | | | | | | | | | |
| 29 th January, 20X2 | 25,000 | | | | | | | | | | | | | | | | | | |
| 15 th October, 20X2 | 90,000 | | | | | | | | | | | | | | | | | | |
| Sol. | <p>Provision: - As per AS-29 (Revised) "Provisions, Contingent Liabilities and Contingent Assets" a provision should be recognized when; A) An enterprise has a <u>present obligation</u> as a result of a past event; B) It is probable that an <u>outflow of resources</u> embodying economic benefits will be required to settle the obligation; and C) a <u>reliable estimate can be made of the amount of the obligation.</u> If these conditions are not met, no provision should be recognised</p> <p>Analysis and conclusion: - 'Provision to be made for warranty as under</p> <table border="1"> <tbody> <tr> <td>As at 31st March, 20X2</td> <td>= ₹ 40,000 × .02 + ₹ 25,000 × .03</td> </tr> <tr> <td></td> <td>= ₹ 800 + ₹ 750</td> </tr> <tr> <td></td> <td>= ₹ 1,550</td> </tr> <tr> <td>As at 31st March, 20X3</td> <td>= ₹ 25,000 × .02 + ₹ 90,000 × .03</td> </tr> <tr> <td></td> <td>= ₹ 500 + ₹ 2,700 = ₹ 3,200</td> </tr> </tbody> </table> <p>Amount debited to Profit and Loss Account for year ended 31st March, 20X3</p> <table border="1"> <thead> <tr> <th>Particulars</th> <th>₹</th> </tr> </thead> <tbody> <tr> <td>Balance of provision required as on 31.03.20X3</td> <td>3,200</td> </tr> <tr> <td>Less: Opening Balance as on 1.4.20X2</td> <td>(1,550)</td> </tr> <tr> <td>Amount debited to profit and loss account in year ending 31-03-X3</td> <td>1,650</td> </tr> </tbody> </table> <p>Note: <u>No provision will be computed on 31st March, 20X3 in respect of sales amounting ₹ 40,000 made on 19th January, 20X1 as the warranty period of 2 years has already expired.</u></p> | As at 31 st March, 20X2 | = ₹ 40,000 × .02 + ₹ 25,000 × .03 | | = ₹ 800 + ₹ 750 | | = ₹ 1,550 | As at 31 st March, 20X3 | = ₹ 25,000 × .02 + ₹ 90,000 × .03 | | = ₹ 500 + ₹ 2,700 = ₹ 3,200 | Particulars | ₹ | Balance of provision required as on 31.03.20X3 | 3,200 | Less: Opening Balance as on 1.4.20X2 | (1,550) | Amount debited to profit and loss account in year ending 31-03-X3 | 1,650 |
| As at 31 st March, 20X2 | = ₹ 40,000 × .02 + ₹ 25,000 × .03 | | | | | | | | | | | | | | | | | | |

| | |
|------|--|
| 4. | <p>With reference to AS 29, how would you deal with the following in the annual accounts of the company at the Balance Sheet dates:</p> <p>i) An organization operates an offshore oilfield where its licensing agreement requires it to remove the oil rig at the end of production and restore the seabed. Ninety percent of the eventual costs relate to the removal of the oil rig and restoration of damage caused by building it, and ten percent arise through the extraction of oil. At the balance sheet date, the rig has been constructed but no oil has been extracted.</p> <p>ii) During 20X1-X2 Ace Ltd. gives a guarantee of certain borrowings of Brew Ltd., whose financial condition at that time is sound. During 20X2-X3, the financial condition of Brew Ltd. deteriorates and on 31st Dec. 20X2, it goes into liquidation. (Balance Sheet date 31-3-X2). (May 2020 RTP /November 2020/ICAI SM)</p> |
| Sol. | <p>i) Provision: - As per AS-29 (Revised) "Provisions, Contingent Liabilities and Contingent Assets" a provision should be recognized when;</p> <p>A) An enterprise has a <u>present obligation</u> as a result of a past event;</p> <p>B) It is probable that an <u>outflow of resources</u> embodying economic benefits will be required to settle the obligation; and</p> <p>C) a <u>reliable estimate can be made of the amount of the obligation</u>.</p> <p>If these conditions are not met, no provision should be recognised</p> <p>Analysis and conclusion: - In the given case, all conditions are met which are required for the provision recognition, the construction of the oil rig creates an obligation under the terms of the license to remove the rig and restore the seabed and is thus an obligating event or a present obligation result of past event. At the balance sheet date, however, there is no obligation to rectify the damage that will be caused by extraction of the oil. An outflow of resources embodying economic benefits in settlement is probable. Thus, <u>a provision is recognized for the best estimate of ninety per cent of the eventual costs that relate to the removal of the oil rig and restoration of damage caused by building it</u>. These costs are included as part of the cost of the oil rig. However, there is <u>no obligation to rectify the damage that will be caused by extraction of oil, as no oil has been extracted at the balance sheet date</u>. So, <u>no provision is required for the cost of extraction of oil at balance sheet date</u>. Ten per cent of costs that arise through the extraction of oil are recognized as a liability when the oil is extracted.</p> <p>ii) Provision: - As per AS-29 (Revised), "Provisions, Contingent Liabilities and Contingent Assets" for a liability to qualify for recognition there must be <u>not only a present obligation but also the probability of an outflow of resources embodying economic benefits to settle that obligation</u> and a reliable estimate can be made of the amount of the obligation.</p> <p>Analysis and conclusion: - In the given case, the obligating event is the <u>giving of the guarantee by Ace Ltd. for certain borrowings of Brew Ltd., which gives rise to an obligation</u>. <u>No outflow of benefits is probable at 31 March 20X2. Thus no provision is recognized</u>. The guarantee is disclosed as a contingent liability unless the probability of any outflow is regarded as remote.</p> <p>During 20X2-X3, the financial condition of Brew Ltd. deteriorates and finally goes into liquidation. The obligating event is the giving of the guarantee, which gives rise to a legal obligation. <u>At 31st March 20X3, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Thus, provision is recognized for the best estimate of the obligation.</u></p> |
| 5. | <p>Answer the following:</p> <p>An airline is required by law to overhaul its aircraft once in every five years. The Pacific Airlines which operate aircrafts does not provide any provision as required by law in its final accounts. Discuss with reference to relevant Accounting Standard 29. (May 2012/ November 2021 MTP)</p> |
| Sol. | <p>Provision: - As per AS-29 (Revised), "Provisions, Contingent Liabilities and Contingent Assets" <u>Provision should be recognised only when an enterprise has a present obligation as a result of past event</u>. Further Standard provides that there is <u>no realistic alternative settlement of that obligating event</u>.</p> |

| | |
|------|--|
| | <p>Analysis and conclusion: - In the given case, there is <u>no present obligation</u>. The cost of overhauling aircraft is not recognized as a provision <u>because it is future obligation and the incurring of the expenditure depends on the company's decision to continue operating the aircraft therefore no provision is recognised.</u></p> <ul style="list-style-type: none"> ✓ Even a legal requirement to overhaul does not require the company to make a provision for the cost of overhaul because there is no present obligation to overhaul the aircrafts. ✓ However, an obligation might arise to pay fines or penalties under the legislation after completion of five years. Assessment of probability of incurring fines and penalties depends upon the provisions of the legislation and the stringency of the enforcement regime. <p><u>A provision should be recognized for the best estimate of any fines and penalties if airline continues to operate aircrafts for more than five years.</u></p> |
| 6. | <p>A company, incorporated as NPO under the Companies Act, is having main objective to promote the trade by organizing trade fairs / exhibitions. While organizing the trade fair and exhibitions, it decided to charge 5% contingency charges for the participants/outside agencies on the income received from them by the company, while in the case of fairs organized by outside agencies, 5% contingency charges are levied separately in the invoice, the contingency charges in respect of fairs organized by the company itself are inbuilt in the space rent charged from the participants. Both are credited to Income and Expenditure Account of the company.</p> <p>The intention of levying these charges is to meet any unforeseen liability, which may arise in future. The instances of such unforeseen liabilities could be on account of injury/loss of life to visitors/ exhibitors, etc., due to fire, terrorist attack, stampede, natural calamities and other public and third party liability. The chances of occurrence of these events are high because of large crowds visiting the fair. The decision to levy 5% contingency charges was based on assessment only as actual liability on this account cannot be estimated.</p> <p>The accounting treatment and disclosure was made by the company in its financial statements as: (i) 5% contingency charges are treated as income and matching provision for the same is also being made in accounts and (ii) suitable disclosure to this effect is also made in the notes forming part of accounts.</p> <p>You are required to comment whether creation of provision for contingencies considering the facts and circumstances of the case is required in line with AS 29. (Nov 2021 RTP)</p> |
| Ans. | <p>Provision: - As per AS-29, (Revised) 'Provisions, Contingent Liabilities and Contingent Assets', a provision should be recognized when;</p> <p>A) An enterprise has <u>a present obligation</u> as a result of a past event;</p> <p>B) It is probable that an <u>outflow of resources</u> embodying economic benefits will be required to settle the obligation; and</p> <p>C) a <u>reliable estimate can be made of the amount of the obligation.</u></p> <p>If these conditions are not met, no provision should be recognised.</p> <p>Analysis and conclusion: - In the given case, it is clear that for the contingencies considered by the company, <u>neither a present obligation exists</u> because of past event, <u>nor a reliable estimate can be made of the amount of the obligation.</u> Accordingly, a provision cannot be recognized for such contingencies under the facts and circumstances of the case.</p> |
| 7. | <p>An oil company has been contaminating land for several years. It does not clean up because there is no legislation requiring cleaning up. On 31st March 20X1, it is virtually certain that a law requiring a clean-up of land already contaminated will be enacted shortly after the year end. Is provisioning presently necessary considering the circumstances in line with provisions of AS 29? (Nov 2021 RTP)</p> |
| Ans. | <p>Provision: - As per AS-29 (Revised) 'Provisions, Contingent Liabilities and Contingent Assets', a <u>past event will lead to present obligation when the enterprise has no realistic alternative to settle the obligation created by the past event.</u></p> |

| | |
|------|--|
| | Analysis and conclusion: -In the given case, <u>when environmental damage is caused, there may be no obligation to remedy the consequences.</u> The causing of the damage will become an obligating event when a new law requires the existing damage to be rectified. Where details of a proposed new law have yet to be finalised, an obligation arises only when the legislation is virtually certain to be enacted. In the given case it is virtually certain that law will be enacted requiring clean-up of a land already contaminated. Therefore, <u>an oil company has to provide for such clean-up cost in the year in which the law is virtually certain to be enacted.</u> |
| 8. | The company has not made provision for warranty in respect of certain goods considering that the company can claim the warranty cost from the original supplier. You are required to examine in line with the provisions of AS 29. (May 2021 RTP) |
| Ans. | Provision: - As per provisions of AS-29 (Revised) "Provisions, Contingent Liabilities and Contingent Assets", where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the <u>reimbursement should be recognized when, and only when, it is virtually certain that reimbursement will be received</u> if the enterprise settles the obligation. The reimbursement should be treated as a separate asset. The amount recognized for the reimbursement should not exceed the amount of the provision. Analysis and conclusion: - In the given situation, it is apparent from the question that the company had not made provision for warranty in respect of certain goods considering that the company can claim the warranty cost from the original supplier. However, <u>the provision for warranty should have been made as per AS 29 and the amount claimable as reimbursement should be treated as a separate asset</u> in the financial statements of the company <u>rather than omitting the disclosure of such liability.</u> Accordingly, it can be said that <u>the accounting treatment adopted by the company with respect to warranty is not correct.</u> |
| 9. | Explain whether provision is required in the following situations in line with AS 29: i) There is a present obligation that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation; ii) There is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. iii) There is a possible obligation or a present obligation where the likelihood of an outflow of resources is remote. (May 2021 RTP) |
| Ans. | i) There is a present obligation that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation – Provision is recognised. Disclosures are required for the provision. ii) There is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources – No provision is recognised. Disclosures are required for the contingent liability. iii) There is a possible obligation or a present obligation where the likelihood of an outflow of resources is remote – No provision is recognised. No disclosure is required. |
| 10. | How will you distinguish contingent assets with Contingent Liabilities? Explain in brief. (Nov 2020 RTP) |
| Ans. | A <u>Contingent liability is a possible obligation that arises from past events</u> and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise; or A present obligation that arises from past events but is not recognized because: i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or ii) A reliable estimate of the amount of the obligation cannot be made. An enterprise should not recognize a contingent liability but should be disclosed. <u>A contingent liability is disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote.</u> |

| | |
|------|---|
| | <p><u>Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the enterprise.</u> An example is a claim that an enterprise is pursuing through legal processes, where the outcome is uncertain. An enterprise <u>should not recognize a contingent asset, since this may result in the recognition of income that may never be realized.</u> However, when the realization of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate. A contingent asset is not disclosed in the financial statements. It is usually disclosed in the report of the approving authority (Board of Directors in the case of a company, and, the corresponding approving authority in the case of any other enterprise), where an inflow of economic benefits is probable. Contingent assets are assessed continually and if it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements of the period in which the change occurs.</p> |
| 11. | <p>Alpha Ltd. has entered into a sale contract of ₹ 7 crores with Gamma Ltd. during 20X1-X2 financial year. The profit on this transaction is ₹ 1 crore. The delivery of goods to take place during the first month of 20X2-X3 financial year. In case of failure of Alpha Ltd. to deliver within the schedule, a compensation of ₹2 crores is to be paid to Gamma Ltd. Alpha Ltd. planned to manufacture the goods during the last month of 20X1-X2 financial year. As on balance sheet date (31.3.20X2), the goods were not manufactured and it was unlikely that Alpha Ltd. will be in a position to meet the contractual obligation. You are required to advise Alpha Ltd. on requirement of provision for contingency in the financial statements for the year ended 31st March, 20X2, in line with provisions of AS 29? (Nov 2020 RTP)</p> |
| Ans. | <p>Provision: - As per AS-29, (Revised) 'Provisions, Contingent Liabilities and Contingent Assets', a provision should be recognized when;</p> <p>A) An enterprise has <u>a present obligation</u> as a result of a past event;</p> <p>B) It is probable that an <u>outflow of resources</u> embodying economic benefits will be required to settle the obligation; and</p> <p>C) <u>a reliable estimate can be made of the amount of the obligation.</u></p> <p>If these conditions are met, provision should be recognised</p> <p>Analysis and conclusion: - In the given case, Alpha Ltd. has the <u>obligation to deliver the goods</u> within the scheduled time as per the contract. It is <u>probable that Alpha Ltd. will fail to deliver the goods</u> within the schedule and it is also possible to estimate the amount of compensation. Therefore, <u>Alpha Ltd. should provide for the contingency amounting ₹ 2 crores</u> as per AS 29.</p> |
| 12. | <p>EXOX Ltd. is in the process of finalising its accounts for the year ended 31st March, 20X2. The company seeks your advice on the following:</p> <p>i) The Company's sales tax assessment for assessment year 20X1-X2 has been completed on 14th February, 20X4 with a demand of ₹ 2.76 crore. The company paid the entire due under protest without prejudice to its right of appeal. The Company files its appeal before the appellate authority wherein the grounds of appeal cover tax on additions made in the assessment order for a sum of 2.10 crore.</p> <p>ii) The Company has entered into a wage agreement in May, 20X2 whereby the labour union has accepted a revision in wage from June, 20X1. The agreement provided that the hike till May, 20X2 will not be paid to the employees but will be settled to them at the time of retirement. The company agrees to deposit the arrears in Government Bonds by September, 20X2. (ICAI SM)</p> |
| Sol. | <p>i) Since the company is not appealing against the addition of ₹ 0.66 crore the same should be provided for in its accounts for the year ended on 31st March, 20X4. The amount paid under protest can be kept under the heading 'Loans & Advances' and also disclosed as a contingent liability of ₹ 2.10 crore.</p> <p>ii) The arrears for the period from June, 20X1 to March, 20X2 are required to be provided for in the accounts of the company for the year ended on 31st March, 20X2.</p> |

| | |
|------|---|
| 13. | <p>Answer the following: With reference to AS 29 “Provisions, Contingent Liabilities and Contingent Assets”, define:</p> <ol style="list-style-type: none"> i) A Provision ii) A Liability iii) A Contingent Asset iv) Present Obligation <p style="text-align: right;">(May 2016)</p> |
| Sol. | <p>i) A Provision: A Provision is a liability, which can be measured only by using a substantial degree of estimation.</p> <p>ii) A Liability: A liability is an obligation which the enterprise has to pay to some parties based on some contractual or any other trading arrangements within some specified or reasonable time period, So that it is considered as amount payable.</p> <p>iii) A Contingent Asset: A Contingent Asset is a possible asset that arises from past events the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise.</p> <p>iv) Present Obligation: Present Obligation is an obligation of outflow of resources that is probabic and reliable. It is estimated that amount is payable in present situation.</p> |
| 14. | <p>Saharsh Ltd. Is engaged in manufacturing of electric appliances. The company is in the process of finalizing its accounts for the year ended 31.3.20X1 and needs your expert advice on the following issue in line with the provisions of AS-29.</p> <ol style="list-style-type: none"> I. A case has been filed against the company in the consumer court and a notice for levy of a penalty of ₹20 Lakh has been received. The company has appointed a lawyer to defend the case for a fee of ₹2 lakhs. 50% of the fees has been paid and balance 50% will be paid after finalization of the case. There are 75% chances that the penalty may not be levied. II. The company has committed to supply a consignment worth ₹1 Crore to one of its dealers by the year end. As per the contract, if delivery is not made on time, a compensation of 15% is to be paid on the value of delayed/lost consignment. While the consignment was in transit, one of the trucks carrying goods worth ₹30 lakh met with an accident. It was however covered by insurance. According to the surveyor’s report, the policy amount is collectable, subject to 10% deduction. Before closing the books of accounts, the company has received the information that the policy amount has been processed and the dealer has also claimed the compensation for the consignment of goods worth ₹30 Lakhs which was in transit. |
| Sol. | <p>1) Provision: - As per AS-29, (Revised) ‘Provisions, Contingent Liabilities and Contingent Assets’, a provision should be recognized when;</p> <ol style="list-style-type: none"> A) An enterprise has a <u>present obligation</u> as a result of a past event; B) It is probable that an <u>outflow of resources</u> embodying economic benefits will be required to settle the obligation; and C) a <u>reliable estimate</u> can be made of the amount of the obligation. <p>Analysis and conclusion: - In the given case, there are 75% chances that the penalty may not be levied so it is probable that there is no outflow of resources. Accordingly, <u>Saharsh Ltd. Should not make the provision for penalty.</u></p> <p>However, a provision should be made for remaining 50% fees of the lawyer in the financial statements of financial year 2019-2020.</p> <p>Provision: - As per provisions of AS-29 (Revised) “Provisions, Contingent Liabilities and Contingent Assets”, where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the <u>reimbursement should be recognized when, and only when, it is virtually certain that reimbursement will be received</u> if the enterprise settles the obligation. The reimbursement should be treated as a separate asset. The amount recognized for the reimbursement should not exceed the amount of the provision.</p> |

| | |
|------|---|
| | <p><u>Analysis and conclusion: -</u></p> <p>Loss due to accident = ₹30,00,000</p> <p>Insurance claim received by company = $3,00,000 \times 90\%$ = ₹27,00,000</p> <p>Loss to be recognized in the books for 20X0-X1 = ₹3,00,000</p> <p>Insurance claim receivable to be recorded in the books = ₹27,00,000</p> <p>Compensation claim by dealer against company to be provided for in the books = $30,00,000 \times 15\%$ = ₹4,50,000.</p> |
| 15. | <p>Answer the following:</p> <p>M/s. Sri Hari Ltd., a public Sector Company, provides consultancy and engineering services to its clients. In the year 20X3-20X4, the Government set up a commission to decide about the pay revision. The pay will be revised with respect from 1-1-20X1 based on the recommendations of the commission. The company makes the provision of ₹ 1,250 lakhs for pay revision in the financial year 20X3 - 20X4 on the estimated basis as the report of the commission is yet to come. As per the contracts with client on cost plus job, the billing is done on the actual payment made to the employees and allocated to jobs based on hours booked by these employees on each job.</p> <p>The company discloses through notes to accounts:</p> <p>“Salaries and benefits include the provision of ₹ 1,250 lakhs in respect of pay revision. The amount chargeable from reimbursable jobs will be billed as per the contract when the actual payment is made.”</p> <p>The Accountant feels that the company should also book/recognize the income by ₹ 1,250 lakhs in Profit & Loss Account as per the terms of the contract. Otherwise, it will be the violation of matching concept and understatement of profit.</p> <p>Comment on the opinion of the accountant with reference to relevant Accounting Standards.</p> <p style="text-align: right;">(May 2015)</p> |
| Sol. | <p><u>Provision: -</u> As per AS-29(Revised), ‘Provisions, Contingent Liabilities and Contingent Assets’, where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, <u>the reimbursement should be recognized when, and only when, it is virtually certain that reimbursement will be received if the enterprise settles the obligation. The reimbursement should be treated as a separate asset.</u> The amount recognized for the reimbursement should not exceed the amount of the provision.</p> <p>Thus, potential loss to an enterprise may be reduced or avoided because a contingent liability is matched by a related counter-claim or claim against a third party. In such cases, <u>the amount of the provision is determined after taking into account the probable recovery under the claim if no significant uncertainty as to its measurability or collectability exists.</u></p> <p><u>Analysis and conclusion: -</u> In the given case, the provision of salary to employees of ₹ 1,250 lakhs will be ultimately collected from the client, as per the terms of the contract. Therefore, the liability of ₹ 1,250 lakhs is matched by the counter claim from the client. Hence, the provision for salary of employees should be matched with the reimbursable asset to be claimed from the client. It appears that the whole amount of ₹ 1,250 lakhs is recoverable from client and there is no significant uncertainty about the collection. Hence, the net charge to profit and loss account should be nil.</p> <p>The opinion of the accountant regarding recognition of income of ₹ 1,250 lakhs is not as per AS-29 and also the concept of prudence will not be followed if ₹ 1,250 lakhs is simultaneously recognized as income. <u>₹ 1,250 lakhs are not the revenue at present but only reimbursement of claim for which an asset is created.</u> However, the accountant is correct to the extent as that non-recognition of ₹ 1,250 lakhs as income will result in the understatement of profit. To avoid this, in the statement of profit and loss, expense relating to provision may be presented net of the amount recognized for reimbursement.</p> |

Buy-Back of Securities and Equity Shares with Differential Rights Assignment

| Summary statement determining the maximum number of shares to be bought back | |
|---|-------------------------|
| Particulars | Number of shares |
| Shares Outstanding Test | 31,250 |
| Resources Test | 39,062 |
| Debt Equity Ratio Test | 28,750 |
| Maximum number of shares that can be bought back [least of the above] | 28,750 |

Company qualifies all tests for buy-back of shares and came to the conclusion that it can buy maximum 28,750 shares on 1st April, 20X1.

However, company wants to buy-back only 25,000 equity shares @ ₹ 20. Therefore, buy-back of 25,000 shares, as desired by the company is within the provisions of the Companies Act, 2013.

Journal Entries for buy-back of shares

| | Particulars | Debit (₹) | Credit (₹) |
|-----------|---|------------------|-------------------|
| a) | Equity shares buy-back A/c Dr. | 5,00,000 | |
| | To Bank A/c | | 5,00,000 |
| | (Being buy-back of 25,000 equity shares of ₹ 10 each @ ₹ 20 per share) | | |
| b) | Equity share capital A/c Dr. | 2,50,000 | |
| | Securities premium A/c Dr. | 2,50,000 | |
| | To Equity shares buy-back A/c | | 5,00,000 |
| | (Being cancellation of shares bought back) | | |
| c) | Revenue reserve A/c Dr. | 2,50,000 | |
| | To Capital redemption reserve A/c | | 2,50,000 |
| | (Being transfer of free reserves to capital redemption reserve to the extent of nominal value of capital bought back through free reserves) | | |

| | Land and Building | | 19,30,000 |
| | Plant and machinery | | 18,00,000 |
| | Furniture and fitting | | 9,20,000 |
| | Net carrying value | | 46,50,000 |

Working Note

Amount transferred to CRR and maximum equity to be bought back will be calculated by simultaneous equation method.

Suppose amount transferred to CRR account is 'x' and maximum permitted buy-back of equity is 'y'.

| | Then $(31,25,000 - x) - 22,62,500 = y \quad (1)$ $\left(\frac{y}{20} \times 10\right) = x \quad \text{or} \quad 2x = y \quad (2)$ by solving the above equation, we get $x = ₹ 2,87,500$ $y = ₹ 5,75,000$ | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|---|--|-------------|-------------------------------|--------|----------------|-------------------------------|--------|---|-------------------------------|--------|---|-------------------------------|-----------|---------------------|-------------------------------|--------|-----------------|-------------------------------|--------|------------------|-------------------------------|--------|-----------------|-------------------------------|--------|-----------------|-----------|-----------|----------------|--|-----------|------------------------------------|--|----------|-------------------------------|--|-------------|-----------------|--|--|------------|----------|--|
| 4 | W, X, Y and Z hold Equity capital is held by in the proportion of 40:30:10:20. A, B, C and D hold preference share capital in the proportion of 30:40:20:10. If the paid-up capital of the company is ₹ 40 Lakh and Preference share capital is ₹ 20 Lakh, find their voting rights in case of resolution of winding up of the company. | | To Capital redemption reserve A/c | | 240 |
| | (Being transfer of free reserves to capital redemption reserve to the extent of nominal value of share capital bought back out of redeemed through free reserves) | | |
| Working Notes: | | | |
| 1) Shares Outstanding Test | | | |
| | Particulars | (Shares in crores) | |
| | Number of shares outstanding | 120 | |
| | 25% of the shares outstanding | 30 | |

2) Resources Test

| Particulars | |
|---|------------------|
| Paid up capital (₹ in crores) | 1,200 |
| Free reserves (₹ in crores) (1,080 + 400 + 200) | 1,680 |
| Shareholders' funds (₹ in crores) | 2,880 |
| 25% of Shareholders fund (₹ in crores) | ₹ 720 crores |
| Buy-back price per share | ₹ 30 |
| Number of shares that can be bought back | 24 crores shares |

3) Debt Equity Ratio Test: Loans cannot be in excess of twice the Equity Funds post Buy-Back

| Particulars | | When loan fund is | |
|-------------|--|-------------------|------------------|
| | | ₹ 3,200 crores | ₹ 6,000 crores |
| a) | Loan funds (₹) | 3,200 | 6,000 |
| b) | Minimum equity to be maintained after buy-back in the ratio of 2:1 (₹) (a/2) | 1,600 | 3,000 |
| c) | Present equity shareholders fund (₹) | 2,880 | 2,880 |
| d) | Future equity shareholders fund (₹) (see W.N.4) | 2,560 | N.A. |
| e) | Maximum permitted buy - back of Equity (₹) [(d) - (b)] | 960 | Nil |
| f) | Maximum number of shares that can be bought back @ ₹ 30 per share | 32 crore shares | Nil |
| | As per the provisions of the Companies Act, 2013, company | Qualifies | Does not Qualify |

4) Amount transferred to CRR and maximum equity to be bought back will be calculated by simultaneous equation method

Suppose amount transferred to CRR account is 'x' and maximum permitted buy-back of equity is 'y' Then

Equation 1: (Present Equity – Transfer to CRR) – Minimum Equity to be maintained = Maximum Permitted Buy – Back

$$\begin{aligned}
 &= (2,880 - x) - 1,600 = y \\
 &= 1280 - x = y \qquad \qquad \qquad (1)
 \end{aligned}$$

Equation 2: Maximum Permitted Buy-Back X Nominal Value Per Share/Offer Price Per Share

$$\begin{aligned}
 &y/30 \times 10 = x \text{ or} \\
 &3x = y \qquad \qquad \qquad (2)
 \end{aligned}$$

| | | | |
|----|--|--|------------------------|
| | by solving the above two equations we get $x = ₹ 320$ $y = ₹ 960$ | | |
| 7. | Dee Limited (a non-listed company) furnishes the following Balance Sheet as at 31st March, 20X1: | | |

| | Loan Funds | | 42,00,000 |
| | You are required to compute by Debt Equity Ratio Test, the maximum number of shares that can be bought back in the light of above information, when the offer price for buy-back is ₹ 30 per share. | | |
| | (ICAI SM/RTP November 2020) | | |
| Sol. | Debt Equity Ratio Test | | |
| | Particulars | ₹ | |
| | a) Loan funds | 42,00,000 | |
| | b) Minimum equity to be maintained after buy-back in the ratio of 2:1 (₹ in crores) | 21,00,000 | |
| | c) Present equity shareholders fund (₹ in crores) | 72,80,000 | |
| | d) Future equity shareholder fund (₹ in crores) (See Note 2) | 59,85,000 (72,80,000 – 12,95,000) | |
| | e) Maximum permitted buy-back of Equity (₹ in crores) [(d) – (b)] (See Note 2) | 38,85,000 (by simultaneous equation) | |

| | | | |
|---|---|-------------------------------------|-------------------|
| f) | Maximum number of shares that can be bought back @ ₹ 30 per share (shares in crores) (See Note 2) | 1,29,500 (by simultaneous equation) | |
| Working Note: | | | |
| 1) Shareholders' funds | | | |
| Particulars | | ₹ | |
| Paid up capital | | 30,00,000 | |
| Free reserves (32,50,000 + 6,00,000 + 4,30,000) | | 42,80,000 | |
| | | 72,80,000 | |
| 2) As per section 68 of the Companies Act, 2013, amount transferred to CRR and maximum equity to be bought back will be calculated by simultaneous equation method. | | | |
| Suppose amount equivalent to nominal value of bought back shares transferred to CRR account is 'x' and maximum permitted buy-back of equity is 'y'. | | | |
| Equation 1 : (Present equity – Nominal value of buy-back transfer to CRR) – Minimum equity to be maintained = Maximum permissible buy-back of equity | | | |
| $(72,80,000 - x) - 21,00,000 = y$ (1) | | | |
| Since $51,80,000 - x = y$ | | | |
| Equation 2: $\left(\frac{\text{Maximum buy-back}}{\text{Offer price for buy-back}} \times \text{Nominal Value}\right)$ | | | |
| = Nominal value of the shares bought – back to be transferred to CRR | | | |
| $= \left(\frac{y}{30} \times 10\right) = x$ | | | |
| $3x = y$ (2) | | | |
| $x = ₹ 12,95,000$ crores and $y = ₹ 38,85,000$ crores | | | |

11.

Perrotte Ltd. (a non-listed company) has the following Capital Structure as on 31.03.20X1:

| | Particulars | ₹ in crores | |
|----|---|-------------|-------|
| 1) | Equity Share Capital (Shares of ₹ 10 each fully paid) | - | 330 |
| 2) | Reserves and Surplus | | |
| | General Reserve | 240 | - |
| | Securities Premium Account | 90 | - |
| | Profit & Loss Account | 90 | - |
| | Infrastructure Development Reserve | 180 | 600 |
| 3) | Loan Funds | | 1,800 |

The Shareholders of Perrotte Ltd., on the recommendation of their Board of Directors, have approved on 12.09.20X1 a proposal to buy-back the maximum permissible number of Equity shares considering the large surplus funds available at the disposal of the company.

The prevailing market value of the company's shares is ₹ 25 per share and in order to induce the existing shareholders to offer their shares for buy-back, it was decided to offer a price of 20% over market.

You are also informed that the Infrastructure Development Reserve is created to satisfy Income-tax Act requirements.

You are required to compute the maximum number of shares that can be bought back in the light of the above information and also under a situation where the loan funds of the company were either ₹ 1,200 crores or ₹ 1,500 crores.

Assuming that the entire buy-back is completed by 09.12.20X1, show the accounting entries in the company's books in each situation.

(ICAI SM)

Sol.

Statement determining the maximum number of shares to be bought back

Number of shares

| Particulars | When loan fund is | | |
|---|-------------------|----------------|----------------|
| | ₹ 1,800 crores | ₹ 1,200 crores | ₹ 1,500 crores |
| Shares Outstanding Test (W.N.1) | 8.25 | 8.25 | 8.25 |
| Resources Test (W.N.2) | 6.25 | 6.25 | 6.25 |
| Debt Equity Ratio Test (W.N.3) | Nil | 3.75 | Nil |
| Maximum number of shares that can be bought back [least of the above] | Nil | 3.75 | Nil |

Journal Entries for the Buy-Back
(applicable only when loan fund is ₹ 1,200 crores)

₹ in crores

| | Particulars | | Debit | Credit |
|----|---|------------|------------|--------|
| a) | Equity share buy-back account To Bank account (Being buy-back of 3.75 crores equity shares of ₹ 10 each @ ₹ 30 per share) | Dr. | 112.5 | 112.5 |
| b) | Equity share capital account Securities premium account To Equity share buy-back account (Being cancellation of shares bought back) | Dr. Dr. | 37.5 75 | 112.5 |
| c) | General reserve account To Capital redemption reserve account (Being transfer of free reserves to capital redemption reserve to the extent of nominal value of share capital bought back out of redeemed through free reserves) | Dr. | 37.5 | 37.5 |

Working Notes:**1) Shares Outstanding Test**

| Particulars | (Shares in crores) |
|-------------------------------|--------------------|
| Number of shares outstanding | 33 |
| 25% of the shares outstanding | 8.25 |

2) Resources Test

| Particulars | |
|---|--------------------|
| Paid up capital (₹ in crores) | 330 |
| Free reserves (₹ in crores) | 420 |
| Shareholders' funds (₹ in crores) | 750 |
| 25% of Shareholders fund (₹ in crores) | ₹ 187.5 crores |
| Buy-back price per share | ₹ 30 |
| Number of shares that can be bought back (shares in crores) | 6.25 crores shares |

| 3) Debt Equity Ratio Test | | | | |
|----------------------------------|--|-------------------|----------------------------------|----------------|
| | Particulars | When loan fund is | | |
| | | ₹ 1,800 crores | ₹ 1,200 Crores | ₹ 1,500 Crores |
| a) | Loan funds (₹ in crores) | 1,800 | 1,200 | 1,500 |
| b) | Minimum equity to be maintained after buy-back in the ratio of 2:1 (₹ in crores) | 900 | 600 | 750 |
| c) | Present equity shareholders fund (₹ in crores) | 750 | 750 | 750 |
| d) | Future equity shareholder fund (₹ in crores) (See Note 2) | N.A. | 712.5 (750-37.5) | N.A. |
| e) | Maximum permitted buy-back of Equity (₹ in crores) [(d) – (b)] (See Note 2) | Nil | 112.5 (by simultaneous equation) | Nil |
| f) | Maximum number of shares that can be bought back @ ₹ 30 per share (shares in crores) (See Note 2) | Nil | 3.75 (by simultaneous equation) | Nil |

Note:

1) Under Situations 1 & 3 the company does not qualify for buy-back of shares as per the provisions of the Companies Act, 2013.

2) As per section 68 of the Companies Act, 2013, the ratio of debt owed by the company should not be more than twice the capital and its free reserve after such buy-back. In the question, it is stated that the company has surplus funds to dispose of therefore, it is presumed that buy-back is out of free reserves or securities premium and hence a sum equal to the nominal value of the share bought back shall be transferred to Capital Redemption Reserve (CRR). Utilization of CRR is restricted to issuance of fully paid-up bonus shares only. It means CRR is not available for distribution as dividend. Hence, CRR is not a free reserve. Therefore, for calculation of future equity i.e. share capital and free reserves, amount transferred to CRR on buy-back has to be excluded from present equity.
Amount transferred to CRR and maximum equity to be bought back will be calculated by simultaneous equation method.

Suppose amount equivalent to nominal value of bought back shares transferred to CRR account is 'x' and maximum permitted buy-back of equity is 'y'.

Then

Equation 1 : (Present equity – Nominal value of buy – back transfer to CRR) – Minimum equity to be maintained = Maximum permissible buy-back of equity

$$(750 - x) - 600 = y \quad (1)$$

Since $150 - x = y$

Equation 2: $\left(\frac{\text{Maximum buy-back}}{\text{Offer price for buy-back}} \times \text{Nominal Value}\right)$

= Nominal value of the shares bought -back to be transferred to CRR

$$= \left(\frac{y}{30} \times 10\right) = x$$

[here $30 = 25\% \times 120$]

$$\text{Or} \quad 3x = y \quad (2)$$

| | | | | |
|-------------|---|--|------------------------|------------------|
| | by solving the above two equations we get $x = ₹ 37.5 \text{ crores}$ $y = ₹ 112.5 \text{ crores}$ | | | |
| 12. | The Directors of Umang Ltd. passed a resolution to buyback 5,00,000 of its fully paid equity shares of ₹ 10 each at ₹ 15 per share. This buyback is in compliance with the provisions of the Companies Act, 2013. For this purpose, the company i) Sold its investments of ₹ 30,00,000 for ₹ 25,00,000. ii) Issued 20,000, 12% preference shares of ₹ 100 each at par, the entire amount being payable with application. iii) Used ₹ 15,00,000 of its Securities Premium Account apart from its adequate balance in General Reserve to fulfill the legal requirements regarding buy-back. iv) The company has necessary cash balance for the payment to shareholders. You are required to pass necessary Journal Entries (including narration) regarding buy-back of shares in the books of Umang Ltd. <p style="text-align: right;">(Jan 2021)</p> | | | |

3. Neel Ltd. and Gagan Ltd. amalgamated to form a new company on 1.04. 20X1. Following is the Balance Sheet of Neel Ltd. and Gagan Ltd. as at 31.3. 20X1:

| | Particulars | Notes | Neel | Gagan |
|-----------|-------------------------------|--------------|-------------|--------------|
| | Equity and Liabilities | | | |
| 1. | Shareholders' funds | | | |
| a. | Share capital | | 7,75,000 | 8,55,000 |
| 2. | Current liabilities | | 6,23,500 | 5,57,600 |
| | Total | | 13,98,500 | 14,12,600 |
| | Assets | | | |
| 1. | Non-current assets | | | |
| a. | Property, Plant and Equipment | 1 | 12,35,000 | 12,54,000 |
| 2. | Current assets | | 1,63,500 | 1,58,600 |
| | Total | | 13,98,500 | 14,12,600 |

Notes to accounts:

| 1. Property, plant and Equipment | | |
|---|-----------|-----------|
| Land and Building | 7,50,000 | 6,40,000 |
| Plant and machinery | 4,85,000 | 6,14,000 |
| | 12,35,000 | 12,54,000 |

Following is the additional information:

i) The assets of Neel Ltd. and Gagan Ltd. are to be revalued as under:

| | Neel | Gagan |
|---------------------|-------------|--------------|
| | ₹ | ₹ |
| Plant and machinery | 5,25,000 | 6,75,000 |
| Building | 7,75,000 | 6,48,000 |

ii) The purchase consideration is to be discharged as under:

a) Issue 24,000 equity shares of ₹25 each fully paid up in the proportion of their profitability in the preceding 2 years.

b) Profits for the preceding 2 years are given below:

| | Neel | Gagan |
|----------------------|-------------|--------------|
| | ₹ | ₹ |
| 1 st year | 2,62,800 | 2,75,125 |
| 2 nd year | 2,12,200 | 2,49,875 |
| Total | 4,75,000 | 5,25,000 |

- c) Issue 12% preference shares of ₹10 each fully paid up at par to provide income equivalent to 8% return on net assets in the business as of 31.3.20X1 after revaluation of assets of Neel Ltd. and Gagan Ltd. respectively.

You are required to compute the

- i) Equity and preference shares issued to Neel Ltd. and Gagan Ltd.,
ii) Purchase consideration.

(ICAI SM/May 2011/MTP October 2021)

Ans.

i) Calculation of equity shares to be issued to Neel Ltd. and Gagan Ltd.

| Profits of | Neel | Gagan |
|--------------|-----------------|-----------------|
| | ₹ | ₹ |
| I year | 2,62,800 | 2,75,125 |
| II year | 2,12,200 | 2,49,875 |
| Total | 4,75,000 | 5,25,000 |

The total profits- ₹4,75,000+ ₹5,25,000= ₹10,00,000

No. of shares to be issued = 24,000 equity shares in the proportion of the preceding 2 years' profits.

| | Neel | Gagan |
|-------------------|----------------------|----------------------|
| 24,000 x 475/1000 | 11,400 equity shares | |
| 24,000 x 525/1000 | | 12,600 equity shares |

Calculation of 12% Preference shares to be issued to Neel Ltd. and Gagan Ltd.

| | Neel | Gagan |
|--|---------------|---------------|
| | ₹ | ₹ |
| Net assets (Refer working note) | 8,40,000 | 9,24,000 |
| 8% return on Net assets | 67,200 | 73,920 |
| 12% Preference shares to be issued | 56,000 shares | |
| $[67,200 \times \frac{100}{12}] = 5,60,000 @ ₹10 \text{ each}$ | | |
| $[73,920 \times \frac{100}{12}] = 6,16,000 @ ₹10 \text{ each}$ | | 61,600 shares |

ii) Total Purchase Consideration

| | Neel | Gagan |
|-------------------------------------|-----------------|-----------------|
| | ₹ | ₹ |
| Equity shares @ of ₹25 each | 2,85,000 | 3,15,000 |
| 12% Preference shares @ of ₹10 each | 5,60,000 | 6,16,000 |
| Total | 8,45,000 | 9,31,000 |

Working Note:

Calculation of Net assets as on 31.3.20X1

| | Neel | Gagan |
|---------------------------|-----------------|-----------------|
| | ₹ | ₹ |
| Plant and machinery | 5,25,000 | 6,75,000 |
| Building | 7,75,000 | 6,48,000 |
| Current assets | 1,63,500 | 1,58,600 |
| Less: Current liabilities | (6,23,500) | (5,57,600) |
| | <u>8,40,000</u> | <u>9,24,000</u> |

Note- Since the income from the preference shares shall be equal to the 8% return on assets, the shares are computed in such way that 12% dividend on them shall be equal to 8% of the return on Net assets.

4. X Ltd. and Y Ltd. give the following information of assets, equity and liabilities as on 31st March, 20X5:

| Particulars | X Ltd. (₹) | Y Ltd. (₹) |
|--------------------------------------|------------|------------|
| Equity and Liabilities | | |
| Equity Shares of ₹ 10 each | 30,00,000 | 9,00,000 |
| 9% Preference Shares of ₹ 100 each | 3,00,000 | - |
| 10% Preference Shares of ₹ 100 each | - | 3,00,000 |
| General Reserve | 2,10,000 | 2,10,000 |
| Retirement Gratuity Fund (long term) | 1,50,000 | 60,000 |
| Trade Payables | 3,90,000 | 2,40,000 |
| Assets | | |
| Goodwill | 1,50,000 | 75,000 |
| Land & Buildings | 9,00,000 | 3,00,000 |
| Plant & Machinery | 15,00,000 | 4,50,000 |
| Inventories | 7,50,000 | 5,25,000 |
| Trade Receivables | 6,00,000 | 3,00,000 |
| Cash and Bank | 1,50,000 | 60,000 |

X Ltd. absorbs Y Ltd. on the following terms:

- 10% Preference Shareholders are to be paid at 10% premium by issue of 9% Preference Shares of X Ltd.
- Goodwill of Y Ltd. on absorption is to be computed based on two times of average profits of the preceding three financial years (20X3-X4: ₹ 90,000; 20X2-X3: ₹ 78,000 and 20X1-X2: ₹ 72,000). The profits of 20X1 -X2 included a credit of an insurance claim of ₹ 25,000 (fire occurred in 20X0-X1 and loss by fire ₹ 30,000 was booked in Profit and Loss Account of that year). In the year 20X2-X3, there was embezzlement of cash by an employee amounting to ₹ 10,000.
- Land & Buildings are valued at ₹ 5,00,000 and the Plant & Machinery at ₹ 4,00,000. Inventories are to be taken over at 10% less value and Provision for Doubtful Debts is to be created @ 2.5%.
- There was an unrecorded current asset in the books of Y Ltd. whose fair value amounted to ₹ 15,000 and such asset was also taken over by X Ltd.
- The trade payables of Y Ltd. included ₹ 20,000 payable to X Ltd.
- Equity Shareholders of Y Ltd. will be issued Equity Shares @ 5% premium.

You are required to:

- Prepare Realization A/c in the books of Y Ltd.
- Show journal entries in the books of X Ltd.
- Prepare the Balance Sheet of X Ltd. after absorption as at 31st March, 20X5.

Sol. Calculation of a number of shares issued to Heera Ltd. and Rita Ltd.

| Amount of Share Capital as per balance sheet | ₹ |
|---|-----------|
| Heera Ltd. | 6,00,000 |
| Rita Ltd. | 8,40,000 |
| | 14,40,000 |
| Share of Heera Ltd. = ₹ 14,40,000 × [21,60,000 / (21,60,000 + 14,40,000)] | |
| = ₹ 8,64,000 or 86,400 shares | |
| Securities premium = ₹ 21,60,000 - ₹ 8,64,000 = ₹ 12,96,000 | |
| Premium per share = ₹ 12,96,000 / ₹ 86,400 = ₹ 15 | |
| Issued 86,400 shares @ ₹ 10 each at a premium of ₹ 15 per share | |
| Share of Rita Ltd. = ₹ 14,40,000 × [14,40,000 / (21,60,000 + 14,40,000)] | |
| = ₹ 5,76,000 or 57,600 shares | |
| Securities premium = ₹ 14,40,000 - ₹ 5,76,000 = ₹ 8,64,000 | |
| Premium per share = ₹ 8,64,000 / ₹ 57,600 = ₹ 15 | |
| Issued 57,600 shares @ ₹ 10 each at a premium of ₹ 15 per share | |

| Working Notes: | | |
| 1. Computation of Purchase Consideration | ₹ in lakhs | |
| | Sun Ltd. | Moon Ltd. |
| (a) Preference shareholders: | | |
| 1,50,00,000/100 = 1,50,000 shares | | |
| Share capital = 1,50,000 shares x ₹100 each | 150 | |
| Securities premium = 1,50,000 shares x ₹50 each | 75 | 225 |
| 1,00,00,000/100 = 1,00,000 shares | | |
| Share capital = 1,00,000 shares x ₹100 each | 100 | |
| Securities premium = 1,00,000 shares x ₹50 each | 50 | 150 |
| (b) Equity Shareholders: | | |
| 4,00,0,000/100 x 5 = 20,00,000 shares | | |
| Share capital = 20,00,000 shares x ₹10 each | 200 | |
| Securities premium = 20,00,000 shares x ₹20 each | 400 | 600 |
| 3,75,00,000/100 x 4 = 15,00,000 shares | | |
| Share capital = 15,00,000 shares x ₹10 each | 150 | |
| Securities premium = 15,00,000 shares x ₹20 each | 300 | 450 |
| Amount of purchase Consideration | 825 | 600 |
| 2. Calculation of number of Debentures issued | ₹ in La hs | |
| | Sun Ltd. | Moon Ltd. |
| 10% Debentures of ₹100 each | 30 | 15 |
| 15% Debentures to be is used to maintain same amount of interest: | | |
| Interest = ₹30,00,000 × 10% = ₹3,00,000 | | |
| Number of 15% Debentures = $\frac{₹3,00,000}{15} \times 100$ | 20 | |
| Interest = ₹15,00,000 × 10% | | |
| Number of 15% Debentures = $\frac{₹1,50,000}{15} \times 100$ | | 10 |
| 3. Net assets taken over | ₹ in lakhs | |
| | Sun Ltd. | Moon Ltd. |
| Assets taken over | | |
| Land and building | 275 | 300 |

The following further information is given -

- Better Limited issued bonus shares on 1st April, 20X1, in the ratio of one share for every two held, out of Reserves and Surplus.
- It was agreed that Best Ltd. will take over the business of Better Ltd., on the basis of the latter's Balance Sheet, the consideration taking the form of allotment of shares in Best Ltd.
- The value of shares in Best Ltd. was considered to be ₹150 and the shares in Better Ltd. were valued at ₹100 after the issue of the bonus shares. The allotment of shares is to be made on the basis of these values.

| | <p>d) Liabilities of Better Ltd., included ₹1 lakh due to Best Ltd., for purchases from it, on which Best Ltd., made a profit of 25% of the cost. The goods of ₹50,000 out of the said purchases, remained in stock on the date of the above Balance Sheet. Make the closing ledger in the Books of Better Ltd. and the opening journal entries in the Books of Best Ltd., and prepare the Balance Sheet as at 1st April, 20X1 after the takeover.</p> <p style="text-align: right;">(ICAI SM)</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| Number of equity shares issued to the public at par for cash | | 9,460 |

17. A Ltd. gives the following information on 31st March, 20X1:

| | ₹ |
|-------------------------------------|----------|
| 8,000 Equity shares of ₹ 100 each | 8,00,000 |
| 10% Debentures | 4,00,000 |
| Loans | 1,60,000 |
| Trade payables | 3,20,000 |
| General Reserve | 80,000 |
| Building | 3,40,000 |
| Machinery | 6,40,000 |
| Inventory | 2,20,000 |
| Trade receivables | 2,60,000 |
| Bank | 1,36,000 |
| Patent | 1,30,000 |
| Profit & Loss account (Dr. balance) | 34,000 |

B Ltd. agreed to absorb A Ltd. on the following terms and conditions:

- 1) B Ltd. would take over all assets, except bank balance and Patent at their book values less 10%. Goodwill is to be valued at 4 year's purchase of super profits, assuming that the normal rate of return be 8% on the combined amount of share capital and general reserve.
- 2) B Ltd. is to take over trade payables at book value.
- 3) The purchase consideration is to be paid in cash to the extent of ₹ 6,00,000 and the balance in fully paid equity shares of ₹ 100 each at ₹ 125 per share.

The average profit is ₹ 1,24,400. The liquidation expenses amounted to ₹ 16,000. B Ltd. sold prior to 31st March, 20X1 goods costing ₹ 1,20,000 to A Ltd. for ₹ 1,60,000. ₹ 1,00,000 worth of goods are still in Inventory of A Ltd. on 31st March, 20X1. Trade payables of A Ltd. include ₹ 40,000 still due to B Ltd.

Show the Realisation A/c, Bank A/c, B Ltd. A/c and Equity shareholders A/c to close the books of A Ltd. and prepare the Balance Sheet of B Ltd. as at 1st April, 20X1 after the takeover from the available information.

(MTP November 2021)

| b | Trade receivables | 7 | 1,94,000 |
| | | | 14,75,000 |
| ¹ In the absence of the particulars of assets and liabilities (other than those of A Ltd.), the complete Balance Sheet of B Ltd. after takeover cannot be prepared. | | | |
| Notes to Accounts | | | |
| | | | ₹ |
| 1 | Share Capital | | |
| | Equity share capital | | |
| | 4,880 Equity shares of ₹ 100 each (Shares have been issued for consideration other than cash) | | 4,88,000 |
| | Total | | 4,88,000 |
| 2 | Reserves and Surplus (an extract) | | |
| | Securities Premium | | 1,22,000 |
| | Profit and loss account | | |
| | Less: Unrealized profit | (15,000) | (15,000) |
| | Total | | 1,07,000 |

| | | | |
|---|--|----------------------|----------------------|
| 3 | Trade payables Opening balance | 3,20,000 | |
| | Less: Inter-company transaction cancelled upon amalgamation | (40,000) | 2,80,000 |
| 4 | Property, Plant and Equipment Buildings Machinery | | 3,06,000 5,76,000 |
| | Total | | 8,82,000 |
| 5 | Intangible assets Goodwill | | 2,16,000 |
| 6 | Inventories Opening balance Less: Cancellation of profit upon amalgamation | 1,98,000 (15,000) | 1,83,000 |
| 7 | Trade receivables Opening balance Less: Intercompany transaction cancelled upon amalgamation | 2,34,000 (40,000) | 1,94,000 |

Working Notes:

| | | |
|----|---------------------------------------|------------|
| 1. | Valuation of Goodwill | ₹ |
| | Average profit | 1,24,400 |
| | Less: 8% of ₹ 8,80,000 | (70,400) |
| | Super profit | 54,000 |
| | Value of Goodwill = 54,000 x 4 | 2,16,000 |
| 2. | Net Assets for purchase consideration | |
| | Goodwill as valued in W.N.1 | 2,16,000 |
| | Building | 3,06,000 |
| | Machinery | 5,76,000 |
| | Inventory | 1,98,000 |
| | Trade receivables | 2,34,000 |
| | Total Assets | 15,30,000 |
| | Less: Trade payables | (3,20,000) |
| | Net Assets | 12,10,000 |

Out of this ₹ 6,00,000 is to be paid in cash and remaining i.e., (12,10,000 – 6,00,000) ₹ 6,10,000 in shares of ₹ 125. Thus, the number of shares to be allotted 6,10,000/125 = 4,880 shares.

| | | |
|----|---|----------|
| 3. | Unrealized Profit on Inventory | ₹ |
| | The Inventory of A Ltd. includes goods worth ₹ 1,00,000 which was sold by B Ltd. on profit. Unrealized profit on this Inventory will be | |
| | $\frac{40,000}{1,00,000} \times 1,00,000$ | 25,000 |
| | As B Ltd. purchased assets of A Ltd. at a price 10% less than the book value, 10% need to be adjusted from the Inventory i.e., 10% of ₹ 1,00,000. | (10,000) |
| | Amount of unrealized profit | 15,000 |

18. The following was the Balance Sheet of V Ltd. as on 31st March, 20X1:

On 1st April, 20X1 P Ltd. took over the entire business of V Ltd. on the following terms:
V Ltd.'s equity shareholders would receive 4 fully paid equity shares of P Ltd. of ₹ 10 each issued at a premium of ₹ 2.50 each for every five shares held by them in V Ltd. Preference shareholders of V Ltd. would get 35 lakh 13% Cumulative Preference Shares of ₹ 10 each fully paid up in P Ltd., in lieu of their present holding.

All the debentures of V Ltd. would be converted into equal number of 10.5% Secured Cumulative Debentures of ₹ 100 each, fully paid up after the takeover by P Ltd., which would also pay outstanding debenture interest in cash.

Expenses of amalgamation would be borne by P Ltd. Expenses came to be ₹ 2 lakh. P Ltd. discovered that its creditors included ₹ 7 lakh due to V Ltd. for goods purchased. Also, P Ltd.'s stock included goods of the invoice price of ₹ 5 lakh earlier purchased from V Ltd., which had charged profit @ 20% of the invoice price.

You are required to:

- i)** Prepare Realization A/c in the books of V Ltd.
- ii)** Pass journal entries in the books of P Ltd. assuming it to be an amalgamation in the nature of merger.

| | | Cash and Bank | 20,000 |
| | 5,76,000 | | 5,76,000 |

It has been agreed that both these companies should be wound up and a new company AB Ltd. should be formed to acquire the assets of both the companies on the following terms and conditions:

- i) AB Ltd. is to have an authorized capital of ₹36,00,000 divided into 60,000, 8% cumulative preference shares of ₹10 each and 3,00,000 equity shares of ₹10 each.

- ii)** AB Ltd. is to purchase the whole of the assets of A Ltd. (except cash and Bank balances) for ₹28,25,000 to be settled as to ₹5,75,000 in cash and as to the balance by issue of 1,80,000 equity shares, credited as fully paid, to be treated as valued at ₹12.50 each.
- iii)** AB Ltd. is to purchase the whole of the assets of B Ltd. (except cash and Bank balances) for ₹4,91,000 to be settled as to ₹16,000 in cash and as to the balance by issue of 38,000 equity shares, credited as fully paid, to be treated as valued at ₹12.50 each.
- iv)** A Ltd. and B Ltd. both are to be wound up, the two liquidators distributing the shares in AB Ltd. in kind among the equity shareholders of the respective companies.
- v)** The liquidator of A Ltd. is to pay the preference shareholders ₹12 in cash for every share held in full satisfaction of their claims.
- vi)** AB Ltd. is to make a public issue of 60,000, 5% cumulative preference shares at a premium of 10% and 30,000 equity shares at the issue price of ₹12.50 per share, all amount payable in full on application.
- It is estimated that the cost of liquidation (including the liquidators' remuneration) will be ₹ 10,000 in case of A Ltd. and ₹5,000 in case of B Ltd. and that the preliminary expenses of AB Ltd. will amount to ₹24,000 exclusive of the underwriting commission of ₹38,900 payable on the public issue.
- You are required to prepare the initial Balance Sheet of AB Ltd. on the basis that all assets other than goodwill are taken over at the book value.

(may 2016)

Ans.

| | 10,35,000 | | 10,35,000 |

4) Calculation of goodwill/capital reserve of A Ltd. & B Ltd.

| Particulars | A Ltd. | | B Ltd. | |
|-----------------------|-----------|-----------|----------|----------|
| Business Purchase A/c | | 28,25,000 | | 4,91,000 |
| Less: Goodwill | | | 62,000 | |
| Patent A/c | 1,00,000 | | — | |
| Building A/c | 5,40,000 | | — | |
| Plant and Mach. A/c | 15,10,000 | | — | |
| Motor Car A/c | — | | 1,26,000 | |
| Furniture A/c | 75,000 | | 58,000 | |
| Investment A/c | 1,55,000 | | — | |
| Stock A/c | 3,58,000 | | 2,40,000 | |

| | | | | | |
|-------------|--|-----------------|-----------------|------------------------|---------------------------------|
| | Debtors A/c | 72,000 | (28,10,000) | 70000 | (5,56,000) |
| | Goodwill/Capital reserve (Bal. fig.) | | 15,000 | | (65,000) |
| | Net goodwill (15,000 + 62,000— 65,000) = 12,000 | | | | |
| | Note: | | | | |
| | 1) As per the information given in the question, only the assets of A Ltd and B Ltd. are taken over by AB Ltd. Thus the creditors are considered to be paid by the liquidators of the respective companies and hence being not taken over by AB Ltd. | | | | |
| | 2) As per the information given in the second last para of the question, it is stated that the preliminary expenses of AB Ltd. will amount to ₹24,000 exclusive of the underwriting commission of ₹38,900 payable on the public issue. It has been assumed that ₹24,000 has been paid and underwriting commission is still payable in the balance sheet of the amalgamated company. Alternatively, any other reasonable assumption about this may be considered. | | | | |
| | Preliminary expenses and underwriting commission have been written off as per the provisions of Accounting Standards. | | | | |
| 20. | A and B decide to amalgamate themselves into Sharp Limited. The following are their Balance Sheets as on 31 st December, 20X1. | | | | |
| | Liabilities | A Ltd. | B Ltd. | Assets | A Ltd. B Ltd. |
| | Face value and paid up capital | | | Investments | |
| | Share capital (₹ 100 each) | 5,00,000 | 4,00,000 | 1,000 shares in B Ltd. | 1,30,000 — |
| | General Reserves | 2,00,000 | 1,00,000 | 2,000 shares in A Ltd | — 2,10,000 |
| | 10% Debentures | 2,00,000 | 1,50,000 | Sundry Assets | 7,70,000 4,40,000 |
| | | 9,00,000 | 6,50,000 | | 9,00,000 6,50,000 |
| | Compute the amount of purchase consideration each of these companies under purchase method as per AS-14. | | | | |
| | Nov 2010 | | | | |
| Ans. | Let the net assets of A Ltd. be a and net assets of B Ltd. be b. Then $a = 7,70,000 - 2,00,000 + \frac{1}{4} b$ $a = 5,70,000 + \frac{1}{4} b$ $4a - b = 22,80,000$ (i) Similarly $b = 4,40,000 - 1,50,000 + \frac{2}{5} a$ $b = 2,90,000 + \frac{2}{5} a$ $- 2a + 5b = 14,50,000$ (ii) By multiplying equation (ii) by 2, we get $- 4a + 10b = 29,00,000$ (iii) By adding equation (i) with equation (iii), we get $4a - b = 22,80,000$ $- 4a + 10b = 29,00,000$ $9b = 51,80,000$ i.e. $b = \frac{51,80,000}{9} = 5,75,556$ Putting the value of b in equation (i) we get $4a - 5,75,556 = 22,80,000$ $4a = 22,80,000 + 5,75,556 = 28,55,556$ $a = \frac{28,55,556}{4} = 7,13,889$ | | | | |
| | Computation of Purchase Consideration | | | | |
| | Particulars | A Ltd. | B Ltd. | | |
| | Total value of net assets | 7,13,889 | 5,75,556 | | |
| | Less: 1/4 for shares held by A Ltd. | — | 1,43,889 | | |
| | Less: 2/5 for shares held by B Ltd. | 2,85,556 | — | | |
| | Purchase consideration | 4,28,33 | 4,31,667 | | |

| | | | | |

3. M/s Platinum Limited has decided to reconstruct the Balance Sheet since it has accumulated huge losses. The following is the Balance Sheet of the company as on 31st March, 2012 before reconstruction:

| Liabilities | Amount (₹) | Assets | Amount (₹) |
|--|--------------------|-----------------------|--------------------|
| Share Capital | | | |
| 50,000 shares of ₹ 50 each fully Paid up | 25,00,000 | Goodwill | 22,00,000 |
| 1,00,000 shares of ₹ 50 each ₹ 40 paid up | 40,00,000 | Land & building | 42,70,000 |
| Capital Reserve | 5,00,000 | Machinery | 8,50,000 |
| 8% Debentures of ₹ 100 each | 4,00,000 | Computers | 5,20,000 |
| 12% Debentures of ₹ 100 each | 6,00,000 | Stock | 3,20,000 |
| Trade Creditors | 12,40,000 | Trade Debtors | 10,90,000 |
| Outstanding Expenses | 10,60,000 | Cash at Bank | 2,68,000 |
| Total | 1,03,00,000 | Profit & Loss Account | 7,82,000 |
| | | Total | 1,03,00,000 |

Following is the interest of Mr. Shiv and Mr. Ganesh in M/s Platinum Limited:

| | Mr. Shiv | Mr. Ganesh |
|----------------|-----------------|-----------------|
| 8% Debentures | 3,00,000 | 1,00,000 |
| 12% Debentures | 4,00,000 | 2,00,000 |
| Total | 7,00,000 | 3,00,000 |

The following scheme of internal reconstruction was framed and implemented, as approved by the court and concerned parties:

- 1) Uncalled capital is to be called up in full and then all the shares to be converted into Equity Shares of ₹ 40 each.
- 2) The existing shareholders agree to subscribe in cash, fully paid-up equity shares of ₹ 40 each for ₹ 12,50,000.
- 3) Trade Creditors are given option of either to accept fully paid equity shares of ₹ 40 each for the amount due to them or to accept 70% of the amount due to them in cash in full settlement of their claim. Trade Creditors for ₹ 7,50,000 accept equity shares and rest of them opted for cash towards full and final settlement of their claim.
- 4) Mr. Shiv agrees to cancel debenture amounting to ₹ 2,00,000 out of total debentures due to him and agree to accept 15% Debentures for the balance amount due. He also agree to subscribe further 15% Debentures in cash amounting to ₹ 1,00,000.
- 5) Mr. Ganesh agrees to cancel debenture amounting to ₹ 50,000 out of total debentures due to him and agree to accept 15% Debenture for the balance amount due.

| | | | | | |
|-------------|---|--|-----------------------------|-----------------|----------------------------------|
| | <p>6) Land & Building to be revalued at ₹ 51,84,000, Machinery at ₹ 7,20,000, Computers at ₹ 4,00,000, Stock at ₹ 3,50,000 and Trade Debtors at 10% less to as they are appearing in Balance Sheet as above.</p> <p>7) Outstanding expenses are fully paid in cash.</p> <p>8) Goodwill and Profit & Loss A/c will be written off and balance, if any, of Capital Reduction A/c will be adjusted against Capital Reserve.</p> <p>You are required to pass necessary Journal Entries for all the above transactions and draft the company's Balance Sheet immediately after the reconstruction.</p> | | | | |
