Multiple Choice Questions [4 MCQs of 2 Marks each: Total 8 Marks]

2. On 1st April, 2022, Shubham Limited purchased some land for ₹ 30 lakhs for the purpose of constructing a new factory. This cost of 30 lakhs included legal cost of ₹ 2 lakhs incurred for the purpose of acquisition of this land. Construction work could start on 1st May, 2022 and Shubham Limited provides you the details of the following costs incurred in relation to its construction:

	₹
Preparation and levelling of the land	80,000
Employment costs of the construction workers (per month)	29,000
Purchase of materials for the construction	21,24,000

Cost of relocating employees to new factory for work	60,000
Costs of inauguration ceremony on 1 st January, 2023	80,000
Overhead costs incurred directly on the construction of the factory (per month)	25,000
General overhead costs allocated to construction project by the Manager is ₹ 30,000. However, as per company's normal overhead allocation policy, it should be ₹ 24,000. The auditor of the company has support documentation for the cost of ₹ 15,000 only) and raised objection for the balance amount.	

The construction of the factory was completed on 31st December, 2022 and production could begin on 1st February, 2023. The overall useful life of the factory building was estimated at 40 years from the date of completion. However, it was estimated that the roof will need to be replaced 20 years after the date of completion and that the cost of replacing the roof at current prices would be 25% of the total cost of the building.

The construction of the factory was partly financed by a loan of ₹ 28 lakhs borrowed on 1st April, 2022. The loan was taken at an annual rate of interest of 9%. During the period when the loan proceeds had been fully utilized to finance the construction, Shubham Limited received investment income of ₹ 25,000 on the temporary investment of the proceeds.

You are required to assume that all of the net finance costs to be allocated to the cost of factory (not land) and interest cost to be capitalized based on nine months' period.

Based on the information given in the above scenario, answer the following multiple choice questions:

- i. Which of the following cost (incurred directly on construction) will be capitalized to the cost of factory building?
 - (a) ₹ 2,00,000 incurred as legal cost

 - (c) ₹ 80,000 costs of inauguration ceremony
 - (d) ₹ 24,000 – allocated general overhead cost
- ii. What amount of employment cost of construction workers will be capitalized to the cost of factory building?
 - (a) ₹ 2,90,000
 - (b) ₹ 3,48,000
 - (c) ₹ 2,32,000
 - (d) ₹ 29,000
- iii. What is the amount of net borrowing cost capitalized to the cost of the factory?
 - (a) ₹ 1,89,000
 - (b) ₹ 1,68,000
 - (c) ₹ 1,44,000
 - (d) ₹ 1,64,000
- iv. What will be the carrying amount (i.e. value after charging depreciation) of the factory in the Balance Sheet of Shubham Limited as at 31st March, 2023?
 - (a) ₹ 30,00,000

- (b) ₹ 57,78,125
- (c) ₹ 27,78,125
- (d) ₹ 58,00,000

Division B

1. (a) As per AS 13 (Revised) 'Accounting for Investments', for investment in shares if the investment is purchased with an intention to hold for short-term period (less than one year), then it will be classified as current investment and to be carried at lower of cost and fair value, i.e., in case of shares, at lower of cost (₹ 2,50,000) and market value (₹ 2,25,000) as on 31 March 2023, i.e., ₹ 2,25,000.

If equity shares are acquired with an intention to hold for long term period (more than one year), then should be considered as long-term investment to be shown at cost in the Balance Sheet of the company. However, provision for diminution should be made to recognise a decline, if other than temporary, in the value of the investments.

Gold and silver are generally purchased with an intention to hold it for long term period (more than one year) until and unless given otherwise. Hence, the investment in Gold and Silver (purchased on 1st March, 2020) should continue to be shown at cost (since there is no 'other than temporary' diminution) as on 31st March, 2023, i.e., ₹ 4,00,000 and ₹ 2,00,000 respectively, though their market values have been increased.

- (b) As per AS 19 "Leases", the lessee should recognize the lease as an asset and a liability at the inception of a finance lease. Such recognition should be at an amount equal to the fair value of the leased asset at the inception of lease. However, if the fair value of the leased asset exceeds the present value of minimum lease payment from the standpoint of the lessee, the amount

recorded as an asset and liability should be the present value of minimum lease payments from the standpoint of the lessee.

Computation of Value of machinery:

Present value of minimum lease payment = ₹ 6,99,054

(See working note below)

Fair value of leased asset = ₹ 7,00,000

Therefore, the recognition will be at the lower of the two i.e. 6,99,054

Working Note - Present value of minimum lease payments:

Annual lease rental × PVIF+ Present value of guaranteed residual value

= ₹ 3,00,000 × (0.869 + 0.756 + 0.657) + ₹ 22,000 × 0.657

= ₹ 6,84,600 + ₹ 14,454 = 6,99,054

Computation of finance charges:

Year	Finance charge	Payment	Reduction in outstanding liability	Outstanding liability
1 st Year beginning	–	–	–	6,99,054
End of 1 st year	1,04,858	3,00,000	1,95,142	5,03,912
End of 2 nd year	75,587	3,00,000	2,24,413	2,79,499
End of 3 rd year	41,925	3,00,000	2,58,075	21,424

(c) Treatment of Impairment Loss

As per AS 28 “Impairment of assets”, if the recoverable amount (higher of net selling price and its value in use) of an asset is less than its carrying amount, the carrying amount of the asset should be reduced to its recoverable amount. In the given case, net selling price is ₹ 64.50 lakhs (₹ 67.50 lakhs – ₹ 3 lakhs) and value in use is ₹ 60 lakhs. Therefore, recoverable amount will be ₹ 64.50 lakhs. Impairment loss will be calculated as ₹ 10.50 lakhs [₹ 75 lakhs (Carrying Amount after revaluation - Refer Working Note) less ₹ 64.50 lakhs (Recoverable Amount)].

Thus impairment loss of ₹ 10.50 lakhs should be recognised as an expense in the Statement of Profit and Loss immediately since there was downward revaluation of asset which was already charged to Statement of Profit and Loss.

Working Note:

Calculation of carrying amount of the Property, Plant and Equipment at the end of the fourth year on revaluation

	(₹ in lakhs)
Purchase price of a Property, Plant and Equipment	150.00
Less: Depreciation for four years [(150 lakhs / 10 years) x 4 years]	(60.00)
Carrying value at the end of fourth year	90.00
Less: Downward revaluation charged to profit and loss account	(15.00)
Revalued carrying amount	75.00

3. (a) As per AS 9 on Revenue Recognition, revenue arising from the use by others of enterprise resources yielding interest and royalties should only be recognized when no significant uncertainty as to measurability or collectability exists. These revenues are recognized on the following bases:
- (i) Interest: on a time proportion basis taking into account the amount outstanding and the rate applicable. Therefore X Ltd. should recognize interest revenue of ₹ 10 Lakhs.
- (ii) Royalties: on an accrual basis in accordance with the terms of the relevant agreement. X Ltd. therefore should recognize royalty revenue of ₹ 15 Lakhs.

PART II – Descriptive Questions (70 Marks)

1. (a) As per AS 26 “Intangible Assets”, expenditure on research should be recognized as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) should be recognized if, and only if, an enterprise can demonstrate all of the conditions specified in para 44 of the standard. An intangible asset (arising from development) should be derecognised when no future economic benefits are expected from its use according to para 87 of the standard. Thus, the manager cannot defer the expenditure write off to future years in the given case.

Hence, the expenses amounting ₹ 40 lakhs incurred on the research and development project has to be written off in the current year ending 31st March, 2024.
- (b) (i) As per AS 2 ‘Valuation of Inventories’, abnormal amounts of wasted materials, labour and other production costs are excluded from cost of inventories and such costs are recognised as expenses in the

period in which they are incurred. The normal loss will be included in determining the cost of inventories (finished goods) at the year end.

(ii)	Material used	16,000 MT @ ₹ 190 = ₹ 30,40,000
	Normal Loss	(5% of 16,000 MT) 800 MT (included in calculation of cost of inventories)
	Net quantity of material	15,200 MT
(iii)	Abnormal Loss in quantity	(950 - 800) 150 MT
	Abnormal Loss	₹ 30,000
		[150 units @ ₹ 200 (₹ 30,40,000/15,200)]

Amount of ₹ 30,000 (Abnormal loss) will be charged to the Profit and Loss statement.

- (c) As per AS 13 (Revised) 'Accounting for Investments', where long-term investments are reclassified as current investments, transfers are **made at the lower of cost and carrying amount** at the date of transfer; and where investments are reclassified from current to long term, transfers are made **at lower of cost and fair value** on the date of transfer.

Accordingly, the re-classification will be done on the following basis:

- (i) In this case, carrying amount of investment on the date of transfer is less than the cost; hence this re-classified current investment should be carried at ₹ 12 lakhs in the books.
- (ii) In this case, reclassification of current investment into long-term investments will be made at ₹ 7 lakhs as cost is less than its fair value of ₹ 8.5 lakhs on the date of transfer.

3. (a) As per AS 29 "Provisions, Contingent Liabilities and Contingent Assets", where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement should be recognised when, and only when, it is virtually certain that reimbursement will be received if the enterprise settles the obligation. The reimbursement should be treated as a separate asset. The amount recognised for the reimbursement should not exceed the amount of the provision.

It is apparent from the question that the company had not made provision for warranty in respect of certain goods considering that the company can claim the warranty cost from the original supplier. However, the provision for warranty should have been made as per AS 29 and the amount claimable as reimbursement should be treated as a separate asset in the financial statements of the company rather than omitting the disclosure of such liability. Accordingly, it is viewed that the accounting treatment adopted by the company with respect to warranty is not correct.

PART II – Descriptive Questions (70 Marks)

1. (a) As per AS 13 'Accounting for Investments', where long-term investments are reclassified as current investments, transfers are **made at the lower of cost and carrying amount** at the date of transfer; and where investments are reclassified from current to long term, transfers are made **at lower of cost and fair value** on the date of transfer.

Accordingly, the re-classification will be done on the following basis:

- (i) In this case, carrying amount of investment on the date of transfer is less than the cost; hence this re-classified current investment should be carried at ₹ 12 lakhs in the books.

- (ii) In this case also, carrying amount of investment on the date of transfer is less than the cost; hence this re-classified current investment should be carried at ₹ 5 lakhs in the books.
 - (iii) In this case, reclassification of current investment into long-term investments will be made at ₹ 7 lakhs as cost is less than its fair value of ₹ 8.5 lakhs on the date of transfer.
 - (iv) In this case, market value (considered as fair value) is ₹ 3.8 lakhs on the date of transfer which is lower than the cost of ₹ 4 lakhs. The reclassification of current investment into long-term investments will be made at ₹ 3.8 lakhs.
- (b)**
- (i)** Suit filed against the company is a contingent liability but it was not existing as on balance sheet date as the suit was filed on 20th April after the balance Sheet date. As per AS 4, 'Contingencies' used in the Standard is restricted to conditions or situations at the balance sheet date, the financial effect of which is to be determined by future events which may or may not occur. Hence, it will have no effect on financial statements and will be a non-adjusting event.
 - (ii)** In the given case, terms and conditions for acquisition of business were finalised and carried out before the closure of the books of accounts but transaction for payment of financial resources was effected in April, 2024. This is clearly an event occurring after the balance sheet date. Hence, necessary adjustment to assets and liabilities for acquisition of business is necessary in the financial statements for the year ended 31st March 2024.
 - (iii)** Only those significant events which occur between the balance sheet date and the date on which the financial statements are approved, may indicate the need for adjustment to assets and liabilities existing on the balance sheet date or may require disclosure. In the given case, theft of cash was detected on 16th July, 2024 after approval of financial statements by the Board of Directors, hence no treatment is required.
 - (iv)** Adjustments to assets and liabilities are not appropriate for events occurring after the balance sheet date, if such events do not relate to conditions existing at the balance sheet date. In the given case, sale of immovable property was under proposal stage (negotiations also not started) on the balance sheet date. Therefore, no adjustment to assets for sale of immovable property is required in the financial statements for the year ended 31st March, 2024.
 - (v)** The condition of fire occurrence was not existing on the balance sheet date. Only the disclosure regarding event of fire and loss being completely insured may be given in the report of approving authority.

- (b) According to AS 15 (Revised) "Employee Benefits", actuarial gains and losses should be recognized immediately in the statement of profit and loss as income or expense. Therefore, surplus of ₹ 6 lakhs in the pension scheme on its actuarial valuation is required to be credited to the profit and loss statement of the current year. Hence, Synergy Ltd. cannot spread the actuarial gain of ₹ 6 lakhs over the next 2 years by reducing the annual contributions to ₹ 2 lakhs instead of ₹ 5 lakhs. It has to contribute ₹ 5 lakhs annually for its pension schemes.

Working Notes:

- (i) Cost of Debenture purchased on 1st July = ₹ 1,12,000 – ₹ 2,000 (Interest) = ₹ 1,10,000
- (ii) Cost of Debentures sold on 1st Oct.
= (₹ 2,16,000 + ₹ 1,10,000) x 80,000/3,00,000 = ₹ 86,933
- (iii) Loss on sale of Debentures = ₹ 86,933 – ₹ 84,000 = ₹ 2,933
Nominal value of debentures converted into equity shares
= ₹ 55,000
[(₹ 3,00,000 – 80,000) x .25]
Interest received before the conversion of debentures
Interest on 25% of total debentures = 55,000 x 8% x 2/12 = 733
- (iv) Cost of Debentures converted = (₹ 2,16,000 + ₹ 1,10,000) x 55,000/3,00,000 = ₹ 59,767
- (v)
Cost of closing balance of = (₹ 2,16,000 + ₹ 1,10,000) x 1,65,000 / 3,00,000
Debentures
= ₹ 1,79,300
- (vii) Closing balance of Debentures has been valued at cost.
- (viii) 5,000 equity Shares in C Ltd. will be valued at cost of ₹ 59,767 being lower than the market value ₹ 75,000 (₹ 15 x 5,000)

Note: It is assumed that interest on debentures, which are converted into cash, has been received at the time of conversion.

- (b) As per AS 16 'Borrowing Costs', a qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Further, the standard states that what constitutes a

substantial period of time primarily depends on the facts and circumstances of each case. However, ordinarily, a period of twelve months is considered as substantial period of time unless a shorter or longer period can be justified on the basis of facts and circumstances of the case. In estimating the period, time which an asset takes, technologically and commercially, to get it ready for its intended use or sale is considered.

It may be implied that there is a rebuttable presumption that a 12 months period constitutes substantial period of time.

Under present circumstances where construction period has reduced drastically due to technical innovation, the 12 months period should at best be looked at as a benchmark and not as a conclusive yardstick. It may so happen that an asset under normal circumstances may take more than 12 months to complete. However, an enterprise that completes the asset in 8 months should not be penalized for its efficiency by denying it interest capitalization and vice versa.

The substantial period criteria ensures that enterprises do not spend a lot of time and effort capturing immaterial interest cost for purposes of capitalization.

Therefore, if the factory is constructed in 8 months then it shall be considered as a qualifying asset. The interest on borrowings for the same shall be capitalised although it has taken less than 12 months for the asset to get ready to use.

5	50,000	0.552	27,600
5	25,000	0.552	13,800
			1,91,500

Present value of minimum lease payment = ₹ 1,91,500

Fair value of leased asset = ₹ 2,00,000

As per AS 19, on the date of inception of Lease, Lessee should show it as an asset and corresponding liability at lower of Fair value of leased asset at the inception of the lease and present value of minimum lease payments from the standpoint of the lessee. The accounting entry at the inception of lease to record the asset taken on finance lease in books of lessee is suggested below:

		₹	₹
Asset A/c	Dr.	1,91,500	
To Lessor (Lease Liability) A/c			1,91,500
(Being recognition of finance lease as asset and liability)			

- (b) As per AS 12 'Accounting for Government Grants,' income from Deferred Grant Account is allocated to Profit and Loss account usually over the periods and in the proportions in which depreciation on related assets is charged. Accordingly, in the first two years (₹ 32 lakhs / 4 years) = ₹ 8 lakhs x 2 years = ₹ 16 lakhs will be credited to Profit and Loss Account and ₹ 16 lakhs will be the balance of Deferred Grant Account after two years. Therefore, on refund of grant, following entry will be passed:

		₹	₹
Deferred Grant A/c	Dr.	16 lakhs	
Profit & Loss A/c	Dr.	16 lakhs	
To Bank A/c			32 lakhs
(Being Government grant refunded)			

1. Value of Fixed Assets after two years but before refund of grant

Fixed assets initially recorded in the books = ₹ 80 lakhs

Depreciation for each year

$$= (\text{₹ } 80 \text{ lakhs} - \text{₹ } 8 \text{ lakhs})/4 \text{ years} = \text{₹ } 18 \text{ lakhs per year}$$

Book value of fixed assets after two years

$$= \text{₹ } 80 \text{ lakhs} - (\text{₹ } 18 \text{ lakhs} \times 2 \text{ years}) = \text{₹ } 44 \text{ lakhs}$$

2. Value of Fixed Assets after refund of grant

On refund of grant the balance of deferred grant account will become nil. The fixed assets will continue to be shown in the books at ₹ 44 lakhs.

3. Amount of depreciation for remaining two years

Depreciation will continue to be charged at ₹ 18 lakhs per annum for the remaining two years.

6. (a) Accounting Standards standardize diverse accounting policies with a view to eliminate the non-comparability of financial statements and improve the reliability of financial statements. Accounting Standards

provide a set of standard accounting policies, valuation norms and disclosure requirements. Accounting standards aim at improving the quality of financial reporting by promoting comparability, consistency and transparency, in the interests of users of financial statements.

The following are the benefits of Accounting Standards:

- (i) **Standardization of alternative accounting treatments:** Accounting Standards reduce to a reasonable extent confusing variations in the accounting treatment followed for the purpose of preparation of financial statements.
- (ii) **Requirements for additional disclosures:** There are certain areas where important is not statutorily required to be disclosed. Standards may call for disclosure beyond that required by law.
- (iii) **Comparability of financial statements:** The application of accounting standards would facilitate comparison of financial statements of different companies situated in India and facilitate comparison, to a limited extent, of financial statements of companies situated in different parts of the world. However, it should be noted in this respect that differences in the institutions, traditions and legal systems from one country to another give rise to differences in Accounting Standards adopted in different countries.

PART II – Descriptive Questions (70 Marks)

1. (a) Provision to be made for warranty under AS 29 'Provisions, Contingent Liabilities and Contingent Assets'

As at 31st March, 2023 = ₹ 60,000 x .02 + ₹ 40,000 x .03

= ₹ 1,200 + ₹ 1,200 = ₹ 2,400

As at 31st March, 2024 = ₹ 40,000 x .02 + ₹ 1,35,000 x .03

= ₹ 800 + ₹ 4,050 = ₹ 4,850

Amount debited to Profit and Loss Account for year ended 31st March, 2024

	₹
Balance of provision required as on 31.03.2024	4,850
Less: Opening Balance as on 1.4.2023	<u>(2,400)</u>
Amount debited to profit and loss account	<u>2,450</u>

Note: No provision will be made on 31st March, 2024 in respect of sales amounting ₹ 60,000 made on 11th February, 2022 as the warranty period of 2 years has already expired.

- (b) As per AS 26 “Intangible Assets”, subsequent expenditure on an intangible asset after its purchase or its completion should be recognized as an expense when it is incurred unless (a) it is probable that the expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standard of performance; and (b) expenditure can be measured and attributed to the asset reliably. If these conditions are met, the subsequent expenditure should be added to the cost of the intangible asset.
- (i) In the given case, the legal expenses to defend the patent of a product amounting ₹ 23,00,000 should not be capitalized and be charged to Profit and Loss Statement.
 - (ii) The company is required to expense the entire amount of ₹ 7,00,000 in the Profit and Loss account for the year ended 31st March, 2024 because no benefit will arise in the future.
 - (iii) As per AS 26, expenditure on an intangible item that was initially recognized as an expense by a reporting enterprise in previous annual financial statements should not be recognized as part of the cost of an intangible asset at a later date. Thus, the company cannot capitalize the amount of ₹ 25,00,000 and it should be recognized as expense
 - (iv) Expenditure of ₹ 50,00,000 on advertising and promotional activities should always be charged to Profit and Loss Statement. Hence, the company has done the correct treatment by debiting the sum of 50 lakhs to Profit and Loss Account.
- (c) (1) Trade discounts and volume rebates received are not encompassed within the definition of revenue, since they represent a reduction of cost. Trade discounts and volume rebates given should be deducted in determining revenue.
- (2) When goods are sold to distributor or others, revenue from such sales can generally be recognized if significant risks of ownership have passed; however, in some situations the buyer may in substance be an agent and in such cases the sale should be treated as a consignment sale.
- (3) For transactions, where seller concurrently agrees to repurchase the same goods at a later date that are in substance a financing agreement, the resulting cash inflow is not revenue as defined and should not be recognized as revenue.
- (4) Insurance agency commissions should be recognized on the effective commencement or renewal dates of the related policies.

- (5) On 11.03.2024, if X mart takes title and accepts billing for the goods then it is implied that the sale is complete and all risk and reward on ownership has been transferred to the buyers.

Revenue should be recognized for year ended 31st March, 2024 notwithstanding that physical delivery has not been completed so long as there is every expectation that delivery will be made and items were ready for delivery to the buyer at the time.

3. (a)
$$\frac{\text{Fair value of shares immediately prior to exercise of rights} + \text{Total amount received from exercise}}{\text{Number of shares outstanding prior to exercise} + \text{Number of shares issued in the exercise}}$$

$$\frac{102 \times 2,50,000 \text{ Shares} + ₹ 98 \times 1,00,000 \text{ shares}}{3,50,000 \text{ shares}}$$

Theoretical ex-rights fair value per share = ₹ 100.86

Computation of adjustment factor:

$$\frac{\text{Fair value per share prior to exercise of rights}}{\text{Theoretical ex - rights value per share}} = 102/100.86 = 1.01$$

Computation of earnings per share:

EPS for the year 2022-23 as originally reported: ₹ 50,00,000/2,50,000 shares = ₹ 20

EPS for the year 2022-23 restated for rights issue: = ₹ 50,00,000/(2,50,000 shares x 1.01)

$$= ₹ 19.80$$

EPS for the year 2023-24 including effects of rights issue:

$$\text{EPS} = 75,00,000/3,25,625^* = ₹ 23.03$$

$$* [(2,50,000 \times 1.01 \times 3/12) + (3,50,000 \times 9/12)] = 63,125 + 2,62,500 = 3,25,625 \text{ shares}$$

Note: Financial year (ended 31st March) is considered as accounting year while giving the above answer.

Schedule III has come into force for the Balance Sheet and Profit and Loss Account prepared for the financial year commencing on or after 1st April, 2023. As per Part I of the Schedule III, a company should, inter alia, disclose in notes to accounts for the period of 5 years immediately preceding the balance sheet date (31st March, 2024 in the instant case) the aggregate number and class of shares allotted as fully paid-up bonus shares. Schedule III does not require a company to disclose the source from which bonus shares have been issued. Therefore, non-disclosure of source from which bonus shares have been issued does not violate the Schedule III to the Companies Act.

(b) Following will be the treatment in the given cases:

- (i) When sale price of ₹ 24 lakhs is equal to fair value, A Ltd. should immediately recognise the profit of ₹ 4 lakhs (i.e. 24 – 20) in its books.
- (ii) When fair value is ₹ 20 lakhs & sale price is ₹ 24 lakhs then profit of ₹ 4 lakhs is to be deferred and amortised over the lease period.
- (iii) When fair value is ₹ 22 lakhs & sale price is ₹ 25 lakhs, profit of ₹ 2 lakhs (22 - 20) to be immediately recognised in its books and balance profit of ₹ 3 lakhs (25-22) is to be amortised/deferred over lease period.
- (iv) When fair value of leased machinery is ₹ 25 lakhs & sale price is ₹ 18 lakhs, then loss of ₹ 2 lakhs (20 – 18) to be immediately recognised by A Ltd. in its books provided loss is not compensated by future lease payment.
- (v) When fair value is ₹ 18 lakhs & sale price is ₹ 19 lakhs, then the loss of ₹ 2 lakhs (20-18) to be immediately recognised by A Ltd. in its books and profit of ₹ 1 lakhs (19-18) should be amortised/deferred over lease period.
