1. FR Can be Completed in 6 Days, if you are not taking any other subject with FR.
2. The Planner is best suited for students who have done their classes and have also done daily revision after their lectures.
3. If you are watching revision lecture, please mark the concepts which you were not able to recall. (It is not necessary to watch revision lecture for each and every IND AS. It depends upon your comfort zone)
4. During Self Practice, directly do Questions and Revise only those concepts which you were not able to recall after watching revision lecture
5. The above time duration is an approx. estimate and it might vary depending upon your quality of studies when you were watching the lectures. If you had done proper revision on daily basis while watching the lectures, then you will not face any issue in completing the above targets.
6. You can surely adjust the above planner based on your attempt.
