## Communication with TCWGT

### E Management

#### i) meaning of TCWGT:

- a) A persons or orgn. with responsibility for overseeing the strategic direction of the entity and obligation related to accountability of entity.
- b) Governance structure will vary from entity to entity.  
for Eg. in some entity a supervisory board may exist from executive board.  
in other entities supervision and executive both function can be performed by a single board.
- c) in some cases all of TCWGT may also be involved in managing the entity. However as per companies Act. for certain companies a separate audit committee is required to be constituted o/t management.
- d) therefore auditor should discuss and agree with Engng party about relevant person with whom to communicate.

## 2.] matters to be communicated by Auditor:-

- Auditor shall communicate with TOWER that they are responsible to form an opinion on F.S. which are prepared by the management with oversight of TOWER and such opinion does not relieve mgt. of TOWER of their responsibilities.
- Auditor shall communicate with TOWER about about his planned scope and timing of audit. He should also discuss signi. risk, identified for the purpose of audit

## 3.] significant findings from the audit :- (Imp) (so)

- signi. difficulties if any encountered during the audit
- circumstances that may affect the form and content of auditor's report eg. matters to be included as per SA701, SA705, SA706.
- Auditor's view about significant qualitative aspect of entity's accounting policies, disclosure on accounting estimates.
- unless all of the TOWER are involved in managing the entity auditor should communicate all significant matters that were discussed with management during the course of audit and N.R. requested from management.
- Any other significant matter which is relevant To be discussed with TOWER.

## 4.] In case of listed companies auditor shall communicate with TOWER a statement that audit firm and Eng. team have complied with relevant ethical req. regarding independence.

(NOTE): all relationships and matters b/w the firm, N.W. firm and the entity which may impact independence should be communicated to TOWER for e.g. total fees charge for audit & non-audit services if any provided by the firm N.W. firm to entity or compo.

Sometimes when threat to independence arises auditor may implement s.r. to eliminate or reduce such threat then this matter should also be communicated.

### 5.] significance of communication with TCMICR

- An effective two-way communication b/w auditor and TCMICR is important in assisting the following:-
  - i] auditor and TCMICR will be able to develop constructive working relationship while maintaining auditor's independence and objectivity.
  - ii] this will help the auditor in obtaining relevant information from TCMICR.
  - iii] TCMICR will be able to fulfill their responsibility to oversight F.R. process apptly.

## Communicating Deficiency in Internal Control

### To TCVU and Management

1] meaning of deficiency in internal control:-

- When a control is designed and implemented in such a way that it is not able to prevent fraud timely basis
- A control that is necessary to prevent (PDC) a MS is missing

2] significant deficiency:-

- A deficiency or combination of deficiency which in APJ is of sufficient importance to merit the attention of TCVU

3.] Process to communicate significant deficiency to TCIWCT:-

- Auditor shall communicate in writing to TCIWCT on timely basis.
- Written communication should include the following:-
  - i] Description of deficiency along with explanation of potential effect.
  - ii] Sufficient information (i.e. Example) so that TCIWCT and mgt. can understand the context of communication.

(NOTE) : Auditor should explain that the purpose of his audit was to express opinion on F.S. and his audit included consideration of internal controls not for expressing an opinion on effectiveness of internal control.

- Nowadays we are required to express our opinion on IFC which are relevant for F.R. 415 143(3)(i) of Companies Act, 2013.

4.] Examples of indicators of signi. deficiency in IC:-
