

True or False Questions

Chapter - 1 Theoretical Framework

1	<p>There is no difference between book keeping and accounting, both are same.</p> <p>False: Book-keeping and accounting are different from each other. Accounting is a broad subject. It calls for a greater understanding of records obtained from bookkeeping and an ability to analyse and interpret the information provided by bookkeeping records.</p> <p>Book-keeping is the recording phase while accounting is concerned with the summarizing phase of an accounting system.</p>
2	<p>Management Accounting covers the preparation and interpretation of financial statements and communication to the users of accounts.</p> <p>False: Financial accounting covers the preparation and interpretation of financial statements and communication to the users of accounts.</p>
3	<p>Financial accounting is concerned with internal reporting to the managers of a business unit.</p> <p>False: Management accounting is concerned with internal reporting to the managers of a business unit.</p>
4	<p>Customers of business should not be considered as users of accounts prepared by business. They are not interested to know performance of the business</p> <p>False: Customers are also concerned with the stability and profitability of the enterprise because their functioning is more or less dependent on the supply of goods.</p>
5	<p>Summarising is the basic function of accounting. All business transactions of a financial characters evidenced by some documents such as sales bill, pass book, salary slip etc. are recorded in the books of account.</p> <p>False: Recording is the basic function of accounting. Summarising is concerned with the preparation and presentation of the classified data in a manner useful to the internal as well as the external users of financial statements.</p>
6	<p>Balance sheet shows the position of the business on the day of its preparation and not on the future date.</p> <p>True: Balance Sheet is a statement of the financial position of an enterprise at a given date.</p>
7	<p>Objectives of book-keeping are complete recording of transactions & ascertainment of financial effect on the business.</p> <p>True: Book-keeping is concerned with complete recording and combined effect of transactions made during the accounting period.</p>
8	<p>The concept helps in keeping business affairs free from the influence of the personal affairs of the owner is known as the matching concept.</p> <p>False: Under matching concept all expenses matched with the revenue of that period should only be taken into consideration. In the financial statements of the organization if any revenue is recognized then expenses related to earn that revenue should also be recognized.</p>
9	<p>Entity concept means that the enterprise is liable to the owner for capital investment made by the owner.</p> <p>True: Since the owner invested capital, he has claim on the profits of the enterprise.</p>
10	<p>Accrual means recognition as money is received or paid and not of revenue and costs as they are earned or incurred.</p> <p>False: Under accrual concept, the effects of transactions and other events are recognised on mercantile basis i.e., when they occur (and not as cash or a cash equivalent is received or paid) and they are recorded in the accounting records and reported in the financial statements of the periods to which they relate.</p>
11	<p>The Conservatism Concept states that no change should be counted unless it has materialized.</p> <p>False: The Realisation Concept states that no change should be counted unless it has materialised.</p>

12	<p>The concept of consistency implies non-flexibility as not to allow the introduction of improved method of accounting.</p> <p>False: The concept of consistency does not imply non-flexibility as not to allow the introduction of improved method of accounting.</p>
13	<p>The materiality depends only upon the amount of the item and not upon the size of the business, nature and level of information, level of the person making the decision etc.</p> <p>False: As per materiality principle, all the items having significant economic effect on the business of the enterprise should be disclosed in the financial statements.</p>
14	<p>Accrual basis of accounting is the method of recording transactions by which revenues and costs and assets and liabilities are reflected in the accounts in the period in which actual receipts or actual payments are made.</p> <p>False: Cash Basis of Accounting is the method of recording transactions by which revenues and costs and assets and liabilities are reflected in the accounts in the period in which actual receipts or actual payments are made.</p>
15	<p>The nature of business is not an important criteria in separating an expenditure between capital and revenue.</p> <p>False: The nature of business is a very important criteria in separating an expenditure between capital and revenue. For example- For a trader dealing in furniture, purchase of furniture is revenue expenditure but for any other trade, the purchase of furniture should be treated as capital expenditure and shown in the balance sheet as asset. .</p>
16	<p>Expenditure incurred for major repair of the asset so as to increase its productive capacity is Revenue in nature.</p> <p>False: Expenditure incurred for major repair of the asset so as to increase its productive capacity is capital in nature.</p>
17	<p>Amount spent as lawyer's fee to defend a suit claiming that the firm's factory site belonged to the plaintiff's land is Capital Expenditure.</p> <p>False: Legal expenses incurred to defend a suit claiming that the firm's factory site belongs to the plaintiff is maintenance expenditure of the asset. By this expense, neither any enduring benefit can be obtained in future in addition to that what is presently available nor the capacity of the asset will be increased. Maintenance expenditure in relation to an asset is revenue expenditure.</p>
18	<p>Amount spent for replacement of worn-out part of machine is Capital Expenditure.</p> <p>False: Amount spent for replacement of any worn out part of a machine is revenue expense since it is part of its maintenance cost.</p>
19	<p>Legal fees to acquire property is Capital Expenditure.</p> <p>True: Legal fee paid to acquire any property is a part of cost of that property. It is incurred to possess the ownership right of the property and hence a capital expenditure.</p>
20	<p>A contingent liability need not be disclosed in the financial statements.</p> <p>False: A Contingent liability is required to be disclosed unless possibility of outflow of a resource embodying economic benefits is remote.</p>
21	<p>A Provision fails to meet the recognition criteria.</p> <p>False: A contingent liability fails to meet the recognition criteria.</p>
22	<p>When it is probable that the firm will need to pay off the obligation, this gives rise to Contingent liability.</p> <p>False: When it is probable that the firm will need to pay off the obligation, this gives rise to provision.</p>
23	<p>Present financial obligation of an enterprise, which arises from past event is termed as contingent liability.</p> <p>False: Present Financial obligation of an enterprise, which arises from past events is termed as liability,</p>
24	<p>There is a single list of accounting policies, which are applicable to all enterprises in all circumstances.</p> <p>False: There cannot be single list of accounting policies, which are applicable to all enterprises in all circumstances. There would always be different policies chosen by different industries under different circumstances.</p>

25	Selection of accounting policy doesn't impact financial performance and financial position of the business False: Accounting policy has big impact on value of items goes under financial statements, hence it impacts financial performance and financial position of the business.
26	A change in accounting policies should be made as and when business like to show result as per their choice. False: A change in accounting policies should be made in the following conditions: (a) It is required by some statute or for compliance with an Accounting Standard. (b) Change would result in more appropriate presentation of financial statement.
27	Choosing FIFO or weighted average method for inventory valuation is selection of accounting policy. True: An enterprise may adopt FIFO or weighted average method for inventory valuation and the method selected for valuation is called an accounting policy.
28	Selection of an inappropriate accounting policy decision will overstate the performance and financial position of a business entity every time. False: It could understate/overstate the performance and financial position of a business entity.
29	There are four generally accepted measurement bases. (i) Historical Cost; (ii) Current Cost; (iii) Realizable Value; (iv) Future Value. False: There are four generally accepted measurement bases . (i) Historical Cost; (ii) Current Cost; (iv) Realizable Value; (iv) Present Value.
30	Historical Cost means price paid at time acquisition. True: Historical cost means the acquisition price.
31	As per future value, assets are carried at the amount of cash or cash equivalents that could currently be obtained by selling the assets in an orderly disposal. False: At Realisable value, assets are carried at the amount of cash or cash equivalents that could currently be obtained by selling the assets in an orderly disposal.
32	At Present value, liabilities are carried at the value of future net cash outflows that are expected to be required to settle the liabilities in the normal course of business. False: Liabilities are carried at the present discounted value of future net cash outflows that are expected to be required to settle the liabilities in the normal course of business.
33	ABC purchased a machinery amounting Rs. 10,00,000 on 1st April, 2001. On 31st March, 2022, similar machinery could be purchased for Rs. 20,00,000. Historical cost of machine is 20,00,000 False: Historical cost is Rs.10,00,000.
34	ABC purchased a machinery amounting Rs. 10,00,000 on 1st April, 2001. On 31st March, 2022, similar machinery could be purchased for Rs. 20,00,000. Current cost of machine is Rs. 20,00,000 True: Since similar machine is purchased at 20,00,000, the current cost of machine is Rs. 20,00,000.
35	Change in accounting estimate has to be given retrospective effect. False: Change in accounting estimate has not to be given retrospective effect.
36	Accounting standards are written policy documents issued by the expert accounting body or by the government or other regulatory body covering the aspects of recognition, measurement, presentation and disclosure of accounting transactions and events in the financial statements. True: Accounting standards are documents covering recognition, measurement, presentation and disclosure of accounting transactions and events in the financial statements.
37	Difficulties in making choice between different treatments is one of the benefits of accounting standards.

	False: Difficulties in making choice between different treatments is one of the limitation of accounting standard.
38	Requirements for additional disclosures is limitation of accounting standards. False: Benefits of accounting standards are: • Standardisation of alternative accounting treatments • Comparability of financial statements • Requirements for additional disclosures.
39	ASB stands for Accounting standardisation benchmarking. False: ASB stands for Accounting Standard Board.
40	There are no limitation to accounting standards. False: limitations of accounting standards • Difficulties in making choice between different treatments • Restricted scope
41	Accounting can be viewed as an information system which has its input processing methods and output. True: Accounting is a process of identifying, measuring and communicating information to permit informed judgement and decisions. It covers the preparation of financial statements and communication to the users of accounts.
42	The value of human resources is generally shown as assets in the Balance Sheet. False: The value of human resources cannot be measured in monetary terms; thus, it will not be shown in the balance sheet.
43	The gain from sale of capital assets need not be added to revenue to ascertain the net profit of a business. True: The profit on sale of capital assets should not be added to revenue to ascertain profit since it has not been earned due to normal business operations.
44	Sale of office furniture should be credited to Profit and Loss Account. False: Sale of office furniture should be credited to Furniture account since it is a capital receipt.
45	Overhauling expenses for the engine of motor car to get better fuel efficiency is revenue expenditure. False: Overhauling expenses for the engine of the motor car is incurred to get better fuel efficiency. These expenses will reduce the running cost in future and thus the benefit is in the form of a long-term advantage. So overhauling expenses should be capitalized.
46	Fees received for Life Membership is a revenue receipt as it is of recurring nature. False: Life Membership Fee received for life membership is a capital receipt as it is of non-recurring nature. It is directly added to capital fund or general fund.
47	M/s. XYZ & Co. runs a cafe. They renovated. some of the old cabins. Because of this renovation some space was made free and number of cabins was increased from 15 to 18. The total expenditure incurred was Rs. 30,000 and was treated as a revenue expenditure. False: Renovation of cabins increased the number of cabins. This has an effect on the future revenue generating capability of the business. Thus, the renovation expense is capital expenditure in nature.
48	A concern proposes to discontinue its business from December 2020 and decides to dispose off all its plants within a period of 3 months. The Balance Sheet as on 31st December, 2020 should continue to indicate the plants at its historical costs as the assets will be disposed off after the Balance Sheet date. False: If the fundamental accounting assumption of going concern is not followed, then the assets and liabilities should be stated at realizable value not historical cost.
49	Any amount spent to minimize the working expenses is revenue expenditure. False: It may be reasonably presumed that money spent for reducing revenue expenditure would have generated long-term benefits to the entity. So, this is capital expenditure.
50	Expenses incurred on the repairs for the first time on purchase of an old building are capital expenditure. True: Repairs for the first time of an old building are incurred to put the building in usable condition.

	This is a part of the cost of building. Accordingly, this is a capital expenditure.
51	Any amount spent for replacement of worn out part of a machine is capital expenditure. False: Amount spent for replacement of any worn- out part of a machine is revenue expense since it is part of its maintenance cost.
52	The financial statements are not prepared on the assumption that an enterprise is a going concern and will continue its operation for the foreseeable future. False: The financial statements are normally prepared on the assumption that an enterprise is a going concern and will continue in operation for the foreseeable future.
53	The provision for discount on creditors is often not provided in keeping with the principle of conservatism. True: According to the principle of conservatism provision is maintained for the losses to be incurred in future. Discount on creditors is an income so provision is not maintained.
54	As per concept of conservatism the accountant should provide for all possible losses but should not anticipate income. True: Conservatism states that the accountant should not anticipate any future income, however they should provide for all possible losses.
55	Expenses in connection with obtaining a license for running the Cinema Hall are Revenue Expenditure. False: The Cinema Hall could not be started without license. Expenditure incurred to obtain the license is pre-operative expense and hence it is to be capitalized. Such expenses are amortized over a period of time.
56	The financial statement must disclose all the relevant and reliable information in accordance with the full disclosure principle. True: The financial statement must disclose all the reliable and relevant information about (the business enterprise to the management and also to their external users for which they are meant, which in turn will help them to take a reasonable and rational decision. The disclosure should be full and final as per AS - 1, so that users can correctly assess the financial position of the enterprise.

67	The financial statements must disclose all the relevant and reliable information in accordance with the Full Disclosure Principle. True: The financial statements must disclose all the relevant and reliable information in accordance with the Full Disclosure Principle.
68	Nominal Accounts are kept under Single Entry System. False: Under the single entry system of bookkeeping, generally cash book and personal accounts of creditors and debtors are maintained, and no other ledger is maintained
69	The balance in petty cash book represents an asset. True - The balance represents the cash physically in existence and is therefore an asset.
70	Amount spent for the construction of temporary huts, which were necessary for construction of the Cinema House and were demolished when the Cinema House was ready, is capital expenditure. True: Since the temporary huts were necessary for the construction, their cost should be added to the cost of the cinema hall and thus capitalised.

Chapter 2: Accounting Process

1	In accounting equation approach, $\text{equity} + \text{Long-term liabilities} = \text{fixed asset} + \text{current assets} - \text{current liabilities}$. True: As per the modern accounting equation approach- it is the basic formula in the accounting process
2	In the traditional approach, for an entity a debtor will be receiver after sale of goods. False: In the traditional approach, a debtor will be giver since he will be paying money for the sale of goods by the entity.
3	The rule of nominal account states that all expenses & losses are recorded on credit side. False: The rule of nominal account states that all expenses & losses are recorded on debit side.
4	Journal proper is also called a subsidiary book. True: It is one of the book where in the transactions not entered in the other books are entered in this book.
5	Capital account has a debit balance. False: Capital account has a credit balance.
6	Purchase account is a nominal account. True: As it is considered as an expense.
7	All the personal & real account are recorded in P&L A/c. False: All the personal & real account are recorded in balance sheet.
8	Asset side of balance sheet contains all the personal & nominal accounts. False: Asset side of balance sheet contains all the personal & real accounts.
9	Capital account is a personal account. True: As it is in the name of the proprietor who is bringing in the capital to the business.

10	Journal is also known as the book of original entry. True: As the transactions are entered first in this book as a first hand record.
11	A ledger is also known as the principal book of accounts. True: Since it classifies all the amounts related to a particular account and then it is used as the base for preparing the Trial balance, a ledger is also known as principal books of accounts.
12	Cash account has a debit balance. True: Being an asset under the modern equation approach, cash account has a debit balance.
13	Posting is the process of transferring the accounts from ledger to journal. False: Posting is the process of transferring the balances from journal to ledger.
14	Ledger records the transactions in a chronological order. False: Ledger records the transactions in analytical order. But journal records the transactions in a chronological order.
15	If the total debit side is greater than the total of credit side, we get a credit balance as opening balance. False: If the total of debit side is greater than the total of credit side, we get a debit balance as the opening balance.
16	Ledger accounts of assets will always be debited when they are increased. True: The increase to an asset shall be debited since the original balance is also debit.
17	Preparing trial balance is the third phase of accounting process. True: Preparing trial balance is the third phase of accounting process which forms the base for the preparation of the final accounts.
18	Trial balance forms a base for the preparation of Financial statement. True: Based on trial balance only, we can prepare financial statement.
19	Agreement of trial balance is a conclusive proof of accuracy. False: Agreement of trial balance gives only arithmetical accuracy, there can still be errors in preparing the trial balance.
20	A trial balance will tally in case of compensating errors. True: Since compensating errors cancel out due to their compensating nature of the amounts, hence the Trial balance tallies.
21	A trial balance can find the missing entry from the journal. False: A trial balance cannot find the missing entry from the journal.
22	Suspense account opened in a trial balance is a permanent account. False: Suspense account opened in a trial balance is a temporary account
23	The balance of purchase returns account has a credit balance. True: As purchases is debited, any returns shall be credited (treated in opposite way).
24	Transactions recorded in the purchase book include only purchases of goods on credit transactions. True: Since cash purchases are taken to the cash book, it is only credit transactions that are recorded in the purchases book.
25	Transactions regarding the purchase of fixed asset are recorded in the purchase book. False: Transactions regarding the purchase of fixed asset are not recorded in the purchase book, only the credit purchases of goods are recorded in it.
26	Cash sales are recorded in the sales book. False: Credit sales are recorded in the sales book.
27	Subsidiary books are also known as the books of original entry. True: Subsidiary books are maintained as an alternate to the journal.
28	Bills receivable book is a subsidiary book. True: Bills receivable is one of the subsidiary book.
29	Return inward book is also known as purchase return book. False: Return inward book is also known as sales return book.
30	Purchase of a second hand machinery will be recorded in purchase book.

	False: Purchase of a second hand machinery will not be recorded in purchase book.
31	Total of sales return book may be posted to the debit side of sales account. True: Since sales return is reduction from the total sales value, it is debited in the sales account.
32	If the sales are on a frequent basis, the transactions are recorded in the sales book. True: When there are numerous transactions then there are subsidiary books like the sales book where there are recorded instead of regular journal entries.
33	Two column cash book consists of two columns cash column & bank column. False: Two column cash book consists of two columns either cash column & discount column or cash column & bank column.
34	Discount column of cash book is never balanced. True: Discount column is totalled and transferred to the discount allowed or received account.
34	Contra entry is passed in a two column cash book. True: Contra entry can be passed in a two column cash book which includes bank and cash columns.
35	If the bank column is showing the opening balance on credit side, it is an overdraft. True: The debit side of opening balance shows a favourable balance, whereas the credit balance is an unfavourable balance and treated as overdraft.
36	A cash book records cash transactions as well as credit transactions. False: A cash book records only cash transactions.
37	The method of rectification of errors depends on the stage at which the errors are detected. True: There are 3 different stages when the mistakes are identified and then the rectification depends on the stage of identification of errors.
38	In case of error of complete omission, the trial balance does not tally. False: In case of error of complete omission, the trial balance tallies.
39	When errors are detected after preparation of trial balance, suspense account is opened. True: In order to balance the difference of balances in the trial balance suspense account is opened.
40	When purchase of an asset is treated as an expense, it is known as error of principle. True: Where the accounts being debited is principally incorrect it is termed as error of principle.
41	Trial balance agrees in case of compensating errors. True: Compensating errors cancel out each other when Trial balance is prepared as the mistake pertains to the same amount being credited and later debited on account of two different mistakes.
42	When amount is written on wrong side, it is known as an error of principle. False: When amount is written on wrong side, it is known as an error of commission.
43	On purchase of old furniture, the amount spent on repairs should be debited to repairs account. False: On purchase of furniture, the amount spent on repairs should be debited to furniture account as it is a capital expense.
44	'Profit & Loss adjustment account' is opened to rectify the errors detected in the current accounting period. False: 'Profit & Loss adjustment account' is opened to rectify the errors detected in the next accounting period.
45	Rent paid to landlord of the proprietors house, must be debited to 'Rent account'. False: Rent paid to land lord of the proprietors house, must be debited to 'Drawings account'.
46	If the errors are detected after preparing trial balance, then all the errors are rectified through suspense account. False: If the errors are detected after preparing trial balance, then all the errors are not rectified through suspense account. There may be principal errors, which can be rectified without opening a suspense account.
47	A withdrawal of cash from the business by the proprietor should be charged to profit and loss account as an expense. False - Cash withdrawal by the proprietor from his business should be treated as his drawings and not a business expense chargeable to profit and loss account. Such drawings should be deducted from the

	proprietor's capital.
48	The rationale behind the opening of a suspense account is to tally the trial balance. False: The rationale behind the opening of a suspense account is to avoid delay in the preparation of financial statements.
49	A Talled trial balance means that the books of accounts have been prepared as per accepted accounting principles. False: Trial balance only checks the arithmetical accuracy of the books. Errors of principle and errors of commission will not affect the agreement of the trial balance.
50	Gauri purchased goods worth Rs.75,800 at 5% trade discount and she paid half of the amount in cash. The amount appearing in the purchase book is Rs.36,005. (i) True: the trade discount is to be deducted from the total value of Rs. 75,800. The amount paid in cash includes cash purchases and only the credit purchase will be shown in the purchases book- 36,005 (72,010 x 50%).
51	All the personal & real accounts are recorded in P&L A/c. False: All the personal & real account are recorded in balance sheet.
52	Amount spent on the replacement of worn out part of machine is Capital Expenditure. False: Amount spent for replacement of any worn out part of a machine is revenue expense since it is a part of its maintenance cost.
53	Outstanding salaries for the previous year shall be shown as liability in the current year balance sheet. False: It shall be disclosed as a current liability in the opening balance sheet.
54	Purchase of office furniture & fixtures of Rs 2,500 has been debited to General Expense Account. It is an error of omission. False: When a transaction is recorded in contravention of accounting principles, like treating the purchase of an asset as an expense, it is an error of principle. Purchase of office furniture and fixtures is a capital expenditure, if debited to General Expenses account, is an error of principle and not an error of omission.
55	The Sale Book is kept to record both the cash and credit sales. False: Sales Book is a register specially kept for recording credit sales of goods dealt in by the firm, cash sales are entered in the Cash Book and not in the Sales Book.
56	Cash book is a subsidiary book as well as a principal book. True: Cash transactions are straightaway recorded in the Cash Book and on the basis of such a record, ledger accounts are prepared. Therefore, the Cash Book is a subsidiary book. But the Cash Book itself serves as the cash account and the bank account; the balances are entered in the trial balance directly. The Cash Book therefore, is part of the ledger also. Hence, it has also to be treated as a principal book. The Cash Book is thus both a subsidiary book and a principal book.
57	A claim that an enterprise is pursuing through legal process, where the outcome is uncertain, is a Contingent Liability. False: A claim that an enterprise is pursuing through legal process, where the outcome is uncertain, is a contingent asset.
58	Under or over - casting of a subsidiary book is an example of error of commission. True: If an amount is posted in the wrong account or it is written on the wrong side or the totals are wrong or a wrong balance is struck, it will be a case of "errors of commission." Thus, under or over casting of subsidiary books is an example of error of commission.
59	Overhead is defined as the total cost of direct material, direct wages and direct expenses. False: Overhead is defined as total cost of indirect material, indirect wages and indirect expenses. Indirect material, wages and expenses cannot be directly linked to unit produced
60	Discount column of cash book records the trade discount. False: Discount column of cash book records the cash discount. Trade discount is not shown in the books of accounts.

61	<p>If the amount is posted in the wrong account or it is written on the wrong side of the account, it is called error of principle.</p> <p>False: If the amount is posted in the wrong account or it is written on the wrong side of the account, it is called error of commission and not error of Principle.</p>
62	<p>All errors are rectified by means of journal entries.</p> <p>False: Errors not affecting the trial balance can be rectified by passing a rectification journal entry. While other errors that affect one account of trial balance cannot be rectified by passing journal entries. Totaling errors cannot be rectified by passing journal entries</p>
63	<p>The Sales book is kept to record both cash and credit sales.</p> <p>False- The Sales book is a register specially kept to record credit sales of goods dealt in by the firm, cash sales are entered in the cash book and not in the sales book.</p>
64	<p>Capital + Long Term Liabilities = Fixed Assets + Current Assets + Cash - Current Liabilities.</p> <p>False: The right hand side of the equation includes cash twice- once as a part of current assets and another separately. The basic accounting equation is Equity + Long Term Liabilities = Fixed Assets + Current Assets - Current Liabilities</p>
65	<p>Prior Period Items need not be separately disclosed in the current statement of profit and loss.</p> <p>False: Prior Period Items should be separately disclosed in the current statement of profit and loss together with their nature and amount in a manner that their impact on current profit or loss can be perceived.</p>
66	<p>"Salary paid in advance" is not an expense because it neither reduces assets nor increases liabilities.</p> <p>True: Salary paid in advance relates to the coming accounting period. It has nothing to do with the current period. Hence it is not taken in the Profit and Loss Account as an expense. It is shown as a Current Asset in the Balance Sheet.</p>
67	<p>The provision for bad debts is debited to sundry debtor's account.</p> <p>False: The provision for bad debts is debited to Profit and loss Account, in Balance Sheet it is either shown on liability side or deducted from the head debtors.</p>
68	<p>Discount column of the cash book is never balanced.</p> <p>True: Discount column is totalled and transferred to the discount allowed or received account.</p>
69	<p>The debit notes issued are used to prepare Sales Return Book.</p> <p>False: The debit notes issued are used to prepare purchases return book.</p>
70	<p>Bills receivable and bills payable books are type of subsidiary books.</p> <p>True - Yes they are types of subsidiary books which is alternate to the journals.</p>
71	<p>If the effect of errors committed cancel out, the errors will be called compensating errors and the trial balance will disagree.</p> <p>False: If the effect of errors committed cancel out, the errors will be called compensating errors and the trial balance will agree.</p>

CHAPTER 3: BANK RECONCILIATION STATEMENT

1	<p>Bank Reconciliation is the process of reconciling cash column of the cash book and bank column of the cash book.</p> <p>False : Bank Reconciliation Statement reconciles bank column of cash book with the balance in the pass book i.e. customer account in the books of bank.</p>
2	<p>There are 3 types of differences between cash book and pass book namely Timing, Transactions & Errors.</p> <p>True : These are the three broad categories.</p>
3	<p>Adjusting the cash book for any errors and/or omissions before preparing bank reconciliation is optional when the reconciliation is done at the end of the financial year.</p> <p>False : Adjusting the cash book is mandatory when bank reconciliation is done at the end of the financial year.</p>

4	Debit balance in cash book is same as overdraft as per pass book. False : Debit balance as per cash book should be represented by credit or favourable balance in pass book.
5	Bank charges debited by the bank is an example of timing difference for the purposes of bank reconciliation. False : Bank charges are example of the transactions that bank carries out by itself and the same has not been recorded in the cashbook until statement is obtained from the bank.
6	Overcasting of the debit side of the cash book is an example of a difference that is due to error. True : Overcasting is an example of an error.
7	When we start bank reconciliation with a debit balance in cash book, then cheques issued but not yet presented should be added back to arrive at the balance as per pass book. True : Since the cheques issued would have been recorded as payments and bank balance was credited in cash book, we need to add it back as the same is not yet deducted from our bank balance.
8	The bank charges charged by the bank should be deducted when bank reconciliation statement is being prepared starting from a credit balance of pass book. False : Bank charges should be added when we start with credit or favourable balance in pass book as bank would have debited the charges.
9	When the causes of differences between pass book balance and cash book is not known, then the bank reconciliation statement can be prepared by matching the two books and identifying any unticked items in both sets. True : Since, we don't know the causes of difference, matching the two statements is only efficient way to identify the difference.
10	While preparing the bank reconciliation statement starting with debit balance as per pass book or bank statement, the deposited cheques that are not yet cleared need not be adjusted. False : Cheques deposited but not yet cleared should be subtracted from debit or unfavourable balance in pass book.
11	Cash book shows a debit balance of Rs. 50,000 and the only difference from the balance as shown in pass book relates to cheques issued for Rs. 60,000 but not yet presented for payment. The balance as per pass book should be Rs. 1,10,000. True : Cheques issued but not yet presented should be added back to a debit balance in cash book to arrive at pass book balance i.e. Rs. 50,000 + Rs. 60,000 = Rs. 1,10,000.
12	Overcasting of credit side of the cash book shall result in a higher bank balance in cash book when compared with pass book balance. False : Overcasting of credit side means excessive payments are recorded and hence would lower the bank balance.
13	A cheque for Rs. 25,000 that was issued and was also presented for payment in same month but erroneously recorded on debit side of the cash book would cause a difference of Rs. 50,000 from the balance in pass book. True : Rs. 25,000 payment is recorded as a receipt and hence it will have to be adjusted twice (once to nullify and then once to record actual payment) hence causing the difference of double amount.
14	A direct debit by bank on account of any payment as may be instructed by customer should be recorded on credit side of cash book. True : It is an example of a payment instructed by customer to be directly debited by bank, and hence credited in the cash book.
15	Bank Reconciliation Statement can be prepared in two formats - "Balance" presentation and "Plus & Minus" presentation. True : Reconciliation statement can be prepared in either of the two formats.
16	The difference between cash book & pass book that relates to errors are those mostly made by Bank. False : Bank rarely makes mistakes, and hence differences that relate to errors are generally made in

	cash book.
17	<p>A cheque for Rs. 80,000 that was discounted from bank was dishonoured and the bank charged Rs. 1,600 as the charges on account of same. While starting with debit balance in cash book for preparing bank reconciliation statement, we need to deduct Rs. 78,400 to reconcile with pass book.</p> <p>False : We need to deduct Rs. 81,600 (i.e. both cheque returned & charges) from debit balance in cash book to arrive at balance as per pass book.</p>
18	<p>Interest on savings bank that is allowed or credited by bank is generally recorded in cash book prior to it being recorded by bank.</p> <p>False : Interest allowed by bank is mostly recorded in cash book after the entry has been made in the pass book or bank statement.</p>
19	<p>A regular bank reconciliation discourages the accountants to be involved in any kind of funds embezzlement.</p> <p>True : In absence of any reconciliation, the accountants can mis-utilize the funds temporarily by recording the entry without actual depositing the cash.</p>
20	<p>Timing difference relates the transactions that are recorded in the same period in both cash book and also the bank pass book.</p> <p>False : Timing differences relate to the transactions that are recorded in cash book and pass book in two different periods.</p>
21	<p>Bank reconciliation statement is prepared to arrive at the bank balance.</p> <p>False - Bank reconciliation statement is prepared to reconcile and explain the causes of differences between bank balance as per cash book and the same as per bank statement as on a particular date.</p>

Chapter 4 : Inventories

1	<p>Inventories are stocks of goods and materials that are maintained for mainly the purpose of revenue generation.</p> <p>True: Inventories refers to stocks of goods and materials that are maintained in business for revenue generation.</p>
2	<p>A building is considered inventory in a construction business.</p> <p>True: For a construction business, a building under construction will be inventory. The building is being built in the normal course of business and will eventually be sold as inventory.</p>
3	<p>Inventory is valued as carrying cost less percentage decreases.</p> <p>False: Inventory is valued at lower of cost or net realizable value.</p>
4	<p>Management has daily information about the quantity and valuation of closing stock under physical Inventory System.</p> <p>False: Under Perpetual Inventory System management have daily information of closing stock.</p>
5	<p>Periodic Inventory System is more suitable for small enterprises.</p> <p>True: A periodic inventory system is suitable to small and micro enterprises, where physical counting of inventory is not a tedious process.</p>
6	<p>When closing inventory is overstated, net income for the accounting period will be understated.</p> <p>False: When closing inventory is overstated, net income for the accounting period will be overstated.</p>
7	<p>Closing inventory = Opening inventory + Purchases + Direct expenses + Cost of goods sold.</p> <p>False: Closing stock = Cost of goods sold - (Opening inventory + Purchases + Direct expenses).</p>
8	<p>Cost of inventories should comprise all cost of purchase.</p> <p>False: Cost of inventories should comprise all cost of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.</p>
9	<p>Inventory by-products, should be valued at net realisable value where cost of by products can be separately determined.</p> <p>False: Inventory by-products, should be valued at net realisable value where cost of by products cannot be separately determined.</p>

10	Abnormal amounts of wasted materials, labour or other production overheads expenses are included in the costs of inventories. False: Abnormal amounts of wasted materials, labour or other production overheads expenses are generally not included in the costs of inventories.
11	Perpetual system requires closure of business for counting of inventory. False: Periodic system requires closure of business for counting of inventory.
12	The value of closing inventory under simple average price method is realistic as compare to LIFO. True: Value of Closing stock as per average method is more realistic then LIFO.
13	The value of stock is shown on the assets side of the balance-sheet as fixed assets. False: The value of stock is shown on the assets side of the balance-sheet as current assets. As it is realisable within 12 months.
14	Under inflationary conditions, FIFO will not show lowest value of cost of goods sold. False: Under inflationary conditions, LIFO and weighted average will not show lowest value of cost of goods sold.
15	Under LIFO, valuation of inventory is based on the assumption that costs are charged against revenue in the order in which they occur. False: Under FIFO, valuation of inventory is based on the assumption that costs are charged against revenue in the order in which they occur.
16	Valuation of inventory, at cost or net realisable value, whichever less, is based on the principle of Conservatism. True: The conservatism concept states that one shall not account for anticipated profits but shall provide all prospective losses. Valuing inventory at cost or net realisable value whichever is less, therefore is based on principle of Conservatism.
17	Damaged Inventory should be valued at cost or market price, whichever is lower. False: Damaged Inventory should be valued at net releasable value.
18	Warehouse rent paid for storage of finished inventory should be included in the cost of finished inventory. False: Warehousing costs related to finished goods are expensed when incurred and are not included in inventory costs unless storage is incurred for getting the inventory ready for sale i.e. until and unless storage is required as a part of process of production of inventory like in case of wine.
19	Periodic inventory system is a method of ascertaining inventory by taking an actual physical count. True: Under Periodic inventory system actual physical count of inventory is taken of all the inventory on hand at a particular date.
20	Stock at the end, if appears in the Trial Balance, is taken only to the Balance Sheet. True: If closing stock appears in the trail balance, it depicts that one aspect of the double entry has been completed.
21	Finished goods are normally valued at cost or market price whichever is higher. False - Finished goods are normally valued at cost or net realizable value whichever is lower.

Chapter 5 : Depreciation and Amortisation

1	Increase in market value of a fixed asset is one of the reasons for depreciation being charged. False : It is the decrease in market value as one of the reasons for depreciation. Increase in market value may result in Revaluation.
2	Depreciation is a cash expenditure like other normal expenses. False: Depreciation is not a cash expenditure like other normal expenses as it does not result in any cash outflow.
3	Cost of property, plant and equipment includes purchase price, refundable taxes & import duties after deducting any discount or rebate.

	False : Non refundable taxes & duties form part of the cost.
4	Cost of fixed asset should also include cost of opening a new facility such as inauguration costs. False : Inauguration costs shouldn't be part of cost.
5	Depreciation is charged with a constant amount under straight line method and charged with a constant percentage under diminishing balance method. True : SLM method results in same amount and diminishing method involves same rate of depreciation.
6	In case an item of Property, Plant & Equipment is revalued, whole class of assets to which that asset being revalued belongs should be revalued. True : Revaluation should be done for the whole class of the asset.
7	In case the carrying amount of an asset is decreased due to revaluation, such decrease should always be recognized in the Profit and Loss account. False : Any decrease in value of asset on account of revaluation should be first debited to Revaluation Reserve, if any, and then to Profit & Loss account.
8	Akash purchased a machine for Rs. 12,00,000. Estimated useful life is 10 years and scrap value is Rs. 1,00,000. Depreciation for the first year using sum of the years digit method shall be Rs. 2,00,000. True : Sum of years digit method depreciation is calculated as $10/55 \times (12,00,000 - 1,00,000) = 2,00,000$
9	Depreciation cannot be provided in case of loss, in a financial year. False : Depreciation is a charge against profit and not an appropriation of profit. Therefore, depreciation has to be provided for, even in case of loss in a financial year.
10	Providing for depreciation also helps in providing for accumulation of funds to facilitate the replacement at the end of its useful life. True : Depreciation being non cash expense reduces the distributable profits and hence facilitates replacement of asset when required.
11	If the equipment account has a balance of Rs. 12,50,000 and the accumulated depreciation account has a balance of Rs. 4,00,000, the written down value of same shall be Rs. 16,50,000. False : WDV = Rs. 12,50,000 - Rs. 4,00,000 = Rs. 8,50,000
12	Sum of the years digit method is an example of accelerated method of charging depreciation. True : Higher depreciation is charged in earlier years under sum of the years digit method.
13	Over the life of an asset subject to depreciation, the accelerated method will result in less Depreciation Expense in early years and more depreciation in later years of its life. False : It is vice versa as under diminishing balance method; higher depreciation is charged in beginning.
14	While depreciating land cost, Straight line method shall give more depreciation than the written down value. False : Land is not depreciated.
15	Provision for depreciation account is debited at the time of recording the depreciation on an asset. False : Provision for Depreciation account is credited while charging the depreciation.
16	If adequate maintenance expenditure is incurred with relation to running repairs of an asset, we need not charge any depreciation. False : Depreciation is allocation of the cost of an asset over its useful life. Regular repairs may be required during its life are expensed and depreciation has to be charged anyways.
17	When a property, plant or equipment is sold then provision for depreciation account is debited, asset account is credited and any gain or loss is recorded to profit and loss account. True : At the time of sale of an asset, respective asset account is credited with provision for depreciation account being debited and any resulting gain or loss being charged to profit & loss account.
18	While calculating the depreciation as per diminishing balance method, the salvage value of the asset at the end of its life is reduced from its cost. False : Under diminishing balance method, salvage value is not considered initially as it assumes that at the end of the asset's life the remaining value shall be its salvage value.
19	Any change in the estimated useful life of an asset should be accounted for as a change in an accounting

	estimate in accordance with Accounting Standards. True : Any change in useful life of an asset is accounted for as a change in estimate.
20	An intangible asset is a non identifiable, non monetary asset. False : An intangible asset is an identifiable non-monetary asset, held for use in production and supply of goods and services.
21	Depreciation is a non-cash expense and does not result in any cash outflow. True: Depreciation is a non-cash expense and unlike other normal expenditure (e.g. wages, rent, etc.) does not result in any cash outflow. Therefore, depreciation is a non-cash expense and does not result in any cash outflow.
22	Depreciation is non-cash and non-operating expense which is to be provided for if there are profits. False: Depreciation is non-cash but operating expenses which are to be provided for whether there are profits or losses in the financial year.
23	Sum of the year's digit method is an example of accelerated method of charging depreciation. True: Sum of year digit method is an example of accelerated method of charging depreciation. Higher depreciation is charged in earlier years sum of year's digit method.
24	Reducing balance method of depreciation is followed to have a uniform charge for depreciation and repairs and maintenance together. True - In the early periods of useful life of a fixed assets, repairs and maintenance expenses are relatively low because the asset is new. Whereas in later periods, as the asset become old, repairs and maintenance expenses increase continuously. Under written down value method, depreciation charged is high in the initial period and reduces continuously in the later periods. Thus, depreciation and repair and maintenance expenses become more or less uniform throughout the useful life of the asset
25	Insurance claim received on account of plant and machinery completely damaged by fire is a capital receipt. True: Insurance claim received on account of plant and machinery completely damaged by fire is a capital receipt as it is not obtained in course of normal business activities.
26	Wages paid for erection of machinery are debited to Profit and Loss Account. False: Such wages being related to capital asset should be debited to the machinery account.

Chapter 6 : Bills of Exchange and Promissory Notes

1	Bills payable account is a nominal account. False: The bills payable account is a personal account that represents a liability.
2	Promise to pay is included in a bill of exchange. False: Bill of exchange contains an order to pay the required amount and not a mere promise to pay.
3	Days of rebate are added to the due date to arrive at the maturity date. False: 3 Days of grace are added to the due date to arrive at the maturity date.
4	Foreign bill is drawn in the country and payable outside the country. True: When a bill is drawn in the country and is payable outside the country it is termed as a foreign bill.
5	A has drawn a bill on B. B accepts the same and endorses the bill to C. False: B cannot endorse the bill to C as he is a drawee. Only A, the drawer can do so.
6	A bill given to a creditor is called bills payable. True: A bill given to a creditor is called Bills Payable as the debtor commits to pay by giving a bill to creditor.
7	In case of a public holiday, the due date of the bill falls on the next working day. False: In case of a public holiday, the due date of the bill falls on the preceding working day.
8	Trade Discount is a reduction granted by a supplier from the list price of goods or services on business

	<p>considerations for prompt payment.</p> <p>False: Trade Discount is a reduction granted by a supplier from the list price of goods or services on business considerations other than for prompt payment.</p>
9	<p>In case of bill of exchange, the drawer and the payee may not be the same person but in case of a promissory note, the maker and the payee may be the same person.</p> <p>False: The drawer and payee may be same person in case of bill of exchange whereas in promissory note maker and payee can't be same person</p>
10	<p>The specific due date excludes the addition of grace days to arrive at the due date.</p> <p>True: Where the due date is specifically given, then there is no need of further addition of 3 days grace to it.</p>
11	<p>Promissory Note is different from Bill of Exchange because the amount is paid by maker in case of former and by the acceptor in the later.</p> <p>True: In case of the promissory note, it is generally the maker who makes the payment, but in case of the bill of exchange, the person accepting the bill shall be liable to make the payment to the holder of the bill.</p>
12	<p>A Promissory Note can be made payable to the Bearer.</p> <p>False: A promissory note should not be made payable to the bearer. The payee must be to a certain person.</p>
13	<p>Discount at the time of retirement of a bill is a gain for the drawee.</p> <p>True - Discount at the time of retirement of a bill is a gain for the drawee and loss for the drawer.</p>
14	<p>Promissory note is different from bill of exchange because the amount is paid by the maker in case of former and by the acceptor in the later.</p> <p>True: In case of the promissory note, it is generally the maker who makes the payment, but in case of the bill of exchange, the person accepting the bill shall be liable to make the payment to the holder of the bill.</p>

Chapter 7 : Preparation of Final Accounts of Sole Proprietors

1	<p>The income statement shows either net profit or net loss for a particular period.</p> <p>True: Profit and loss account shows either net profit or net loss for a particular period.</p>
2	<p>Gains from the sale or exchange of assets are not considered as the revenue of the business.</p> <p>False: Gains from the sale or exchange of assets are considered as the revenue of the business. But this revenue not in the ordinary course of business so it is capital receipts.</p>
3	<p>The salary paid in advance is not an expense because it neither reduces assets or nor increase liabilities.</p> <p>True: The salary paid in advance is an asset it is not an expense because it neither reduces assets or nor increase liabilities.</p>
4	<p>A loss is an expenditure which does not bring any benefit to the concern.</p> <p>True: A loss is an expenditure of the business which does not bring any gain to the business.</p>
5	<p>All liabilities which become due for payment within the year are classified as long-term liabilities.</p> <p>False: All liabilities which become due for payment within one year are classified as current liabilities.</p>
6	<p>The term current asset is used to designate cash and other assets or resources which are reasonably expected to be realized or sold or consumed within one year.</p> <p>True: Current assets are all the assets which are expected to be realized or sold or consumed within one year.</p>
7	<p>An asset gives rise to expenditure when it is acquired and to an expense when it is consumed.</p> <p>True: When an asset is purchase capital expenditure is incurred and when the asset is put to use expenses are incurred in consumption.</p>
8	<p>If the balance of an account on the debit side of the trial balance where the benefit has already expired then it is treated as an expense.</p> <p>True: Debit balance of accounts are treated as expenses whose benefit is already received or expired.</p>

9	Sales less cost of goods sold = gross profit. True: Gross profit is obtained by deducting cost of goods sold from sales.
10	If the debit side of the trading account exceeds its credit side then the balance is termed as gross profit. False: If the debit side of the trading account exceeds its credit side then the balance is termed as gross loss.
11	The provision for discount on creditors is often not provided in keeping with the principle of conservatism. True: According to the provision of conservatism provision is maintained for the losses to be incurred in future. Discount on creditors is an income so provision is not maintained.
12	The debts written off as bad, if recovered subsequently are credited to Debtors Account. False: The debts written off as bad, if recovered subsequently are credited to Bad Debts Recovered Account and becomes an income.
13	The adjustment entry in respect of income received in advance is debit Income received in advance account and credit income account. False: Income received in advance is reduces it from the concerned income in profit and loss account. And, it is shows it as a liability in the current balance sheet under the head Current Liabilities.
14	Premium paid on the life policy of a proprietor is debited to profit and loss account. False: Premium paid on the life policy of a proprietor is to be debited to capital account, as it is personal expense.
15	Depreciation account appear in the trial balance is taken only to profit and loss account. True: Depreciation is charge on each of the asset on a certain percentage. Depreciation is a charge to profit and loss account and should be debited to profit & loss account by crediting the respective assets. If it appears in trial balance then it is taken only to profit and loss account.
16	Personal purchases included in the purchases day book are added to the sales account in the Trading account. False: Personal purchases included in the purchases day book are deducted from the purchases account in the Trading account.
17	Medicines given to the office staff by a manufacturer of medicines will be debited to salaries account. True: Any benefit given to the staff is debited to the salary account.
18	If Closing Stock appears in the Trial Balance, the Closing inventory is then not entered in Trading Account. It is only shown in the Balance Sheet. True: The closing Stock appears in the trial balance only when it is adjusted against purchases by passing the entry. In this case, closing stock is not entered in Trading Account and is shown only in Balance Sheet.
19	The results and position disclosed by final accounts are not exact. True: They are prepared on the basis of assumptions, conventions, concepts and personal judgements of the person who prepare them.
20	Goods worth Rs. 600 taken by the proprietor for personal use should be credited to Capital Account. False -Goods taken by the proprietor for personal use should be credited to Purchases Account as less goods are left in the business for sale.
21	The sale value of the by-product is credited to Trading Account. False: The sale value of the by product is credited to Manufacturing Account so as to reduce to that extent, the cost of manufacture of main product.
22	Subsidy received from the government for working capital by a manufacturing concern is a revenue receipt. True: Subsidy received from the government for working capital by a manufacturing concern is a revenue receipt because it has no effect on improvement of future capability of business in revenue generation.

Chapter : 8 Financial Statements of Not-for-Profit Organisations

1	Both the revenue and capital nature transactions are recorded in the Income and expenditure account. False: The income and expenditure account records only the revenue income and expenditure. The capital transactions are being recorded in the Balance sheet.
2	Sale of grass by a sports club is to be treated as sale of an asset. False: The grass for a sports club is not a capital item, hence the sale of such grass shall be treated as a revenue receipt.
3	Subscriptions outstanding for the current year are disclosed under the Fixed assets side of the Balance sheet. False: They are disclosed under the current assets of the Balance sheet as they will be paid within the next year and not to be treated as non-current assets.
4	Receipts and payments account gives the details about the expenses outstanding for the year. False: Receipts and payments account gives information about the expenses paid in cash for the current year, previous or the next year. It is only from the additional information we identify the outstanding expenses.
5	Adjustments in the form of additional information shall be adjusted in the final accounts of a Non-profit organisation only in one place. False: Additional information means that information which has been identified just before the preparation of the final accounts. As NPO follows the double entry system of book keeping, there shall be 2 effects for each of the additional information.
6	Tournament expenses incurred are more than the Tournament fund, then the excess to be shown as an asset in the closing Balance sheet. False: The excess of expenditure over the tournament fund shall be debited to the income and expenditure account and not taken to the closing balance sheet.
7	For Non-profit organisation, Excess of income over expenditure in the Income and Expenditure account is termed as profit. False: The excess of the income over the expenditure is called as Surplus and not profit for an Non-profit organisation.
8	Surplus of non-profit organizations is distributed among its members. False: The Non-profit organisation credits the surplus earned in a year to the general fund maintained by it.
9	Tournament fund, building fund, library fund is based on the fund based accounting. True: It is Fund based accounting that records the fund balances in the balance sheet.
10	Subscription fees refers to the one-time fees paid by the members to get admission for the benefits of the club. False: Subscription is a regular fees paid by the members to keep the membership alive.
11	Token payment made to a person, who voluntarily undertakes a service which would normally be paid in case of profitable organization is termed as Honorarium. True: Honorarium refers to the nominal amount paid for the services with a non- commercial intent.
12	An Insurance company is an example of non-profit organization. False: Insurance Company has a profit motive, hence it is not a non-profit organization.
13	Part amount of entrance fees which is to be capitalized shall be disclosed in the income and expenditure account. False: It shall be shown in the Balance sheet- where it is to be capitalized.
14	Both the income and expenditure of the current and the previous year are recorded in the Income and Expenditure account. False: It is only the current year income and expenditure which is recorded in the Income and Expenditure account as per the accrual concept.

15	Amount received as donation by an Non-profit organisation under the will of a deceased person is termed as legacy. True: While on the death bed, if there is any will written that the assets of a person shall be donated to any NPO- then such a donation to the NPO, is termed as Legacy.
16	Where a Non-profit organisation has a separate trading activity, the profit/loss from the trading account shall be transferred to Income and Expenditure Account at the time of consolidation. True: Where in case of the trading activities, the profit /loss from such activity to be transferred to the Income and expenditure account in case of consolidated accounts.
17	Not for profit concerns concentrate their efforts to maximize the profit earning avenues. False: The Non-profit organisation has its very existence to serve the members and the society. Profit earning shall never be its motive.
18	All the receipts are of revenue nature in case of Non-profit organisation. False: Receipts can be both of revenue as well as capital nature. Receipts of both the nature are recorded in the receipts and payments account.
19	There is opening balance of Income and expenditure account. False: It represents a nominal account and is prepared in accordance with the accrual concept, hence there can be no opening balances.
20	In case a Sports Fund is kept, expenses on account of sports events should be charged to Sports Fund. True: Institutions sometimes keep special funds for some special purposes. In such a case the income related to such funds should be added to these funds and expenses should be deducted from such funds.
21	Laboratory & library Deposits taken from the students in case of an Educational Institution are shown on the liabilities side of the Balance Sheet. True: Because the laboratory and library deposits are of the nature of security deposits to be refunded to the students on their leaving the College or University.
22	Where a Non-Profit organization separate trading activity, the profit and loss from the trading account shall be transferred to Income and Expenditure Account at the time of consolidation. True: Where in case of a Non-Profit organization separate trading activity, the profit and loss from the trading account shall be transferred to Income and Expenditure Account at the time of consolidation.
23	Both revenue and capital nature transactions are recorded in the Receipts and Payments Account. True: All the receipts and payments whether of revenue or capital nature are included in Receipt and Payment account.
24	The Receipts and payment account for a non-profit organization follows the accrual concept of accounting. False: It depicts the cash system of accounting rather than the accrual system, as the cash receipts and payments pertaining to any year are entered in the Receipts and payments account. The principle of accrual is not followed with regard to the receipts and payments account of a non-profit organization.
25	Net income in case of persons practicing vocation is determined by preparing profit and loss account. False: Net income is determined by preparing income and expenditure in case of persons practicing vocation.
26	In Not for Profit (NPO) organizations, the excess of total assets over total outside liabilities is known as Capital Fund. True: The capital fund represents the amount contributed by members through legacies, special donations entrance fee and accumulated surplus over the years.
27	Receipts and Payments Account highlights total income and expenditure. False - Receipts and payments account is a classified summary of cash receipts and payments over a certain period together with cash and bank balances at the beginning and close of the period.
28	Subscriptions received for the current year shall be shown in the balance sheet as a current asset.

	False - Current year subscription shall be shown in the credit side of the income and expenditure account and not in the balance sheet, as it is not a capital item.
--	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Chapter 9 : Accounts from Incomplete Records

1	A Trial Balance cannot be drawn up from books kept under Single Entry. True: Since incomplete records are maintained, trial balance cannot be prepared
2	Single Entry System can be adopted by small firms. True: A single entry system is the one where financial transactions are recorded as a single entry in a log and is usually used by new small businesses.
3	Profit under single entry system is always correct and accurate. False: Profit under single entry system is only an estimate based on available information and correct profits cannot be determined.
4	Profits computed under single entry system by different business entities are not comparable. True: Since entry system has no fixed set of principles for recording the financial transaction, different organisations maintain records as per their needs. Hence their accounts are not comparable.

CHAPTER 10: PARTNERSHIP AND LLP ACCOUNTS

1	In absence of any agreement partners share profits of the business in the ratio of their capital contribution. False: In absence of any agreement partners share profits equally and not in capital contribution ratio.
2	Profit sharing ratio and capital contribution ratio need not be same. True: Profit sharing can be different from the that of the capital introduced by each of the partner. Not necessary that partner contributing more capital should have a higher profit sharing ratio and vice versa.
3	Every partnership firm must register itself with Registrar of firms. False: Registration of firms is not compulsory under Indian Partnership Act, 1932.
4	A partner can advance loan to the partnership firm in addition to capital contributed by him. True: Where the partnership deed is absent, then the interest shall be paid at 6% per annum. So the interest on the loan to be paid to the partner.
5	A partner can demand interest on capital even if it is not provided in the partnership deed. False: Interest on capital can be paid only if it is provided in the partnership deed.
