## Accounting Treatment

Cash / Bank A/c Dr      xxxx  
 To Preference Share Capital A/c      xxxx  
 To Securities Premium A/c      xxxx  
 [if any]

Free Reserve A/c Dr      xxxx  
 To CRR A/c      xxxx

Note: How much amount is to be matched for capital Requirement?

→ Face value of Equity Share capital to be bought back.

## Step-2 Buyback

### 1) Due entry

Equity share capital A/c Dr      [Face value]

Premium on buyback A/c Dr

To Equity share buyback A/c

[Buyback Price]

To Capital Reserve A/c

Any one will come.

### 2) Payment entry

Equity share Buyback A/c Dr      xxxx

To Cash / Bank A/c

xxxx

## Step-3 Closing of Premium of Buyback A/c

Free Reserves A/c Dr

xxxxx

To Premium on Buyback of Shares A/c

xxxxx

## Provisions as Per Section 68 of companies Act 2013

- 1) For Buy Back Existing Shares **must be Fully Paid up.**
- 2) It is **authorised** by articles of association (AOA).
- 3) Resolutions Required
  - (a) Board Resolution in Board meeting by board of Directors
  - (b) Special Resolution in General meeting by Share holders.

**Exception:** Board Resolution is enough if buyback is  $\leq 10\%$  of **Paid up Equity share capital + Free Reserves**

**Note:** **Free Reserves** For the Purpose of this chapter includes **Securities Premium.**

- 4) Time limit to **complete** the entire buyback of Securities **within 1 year** from the date of **Special Resolution.**
- 5) A share which is bought back has to be **Physically destroyed / cancelled** within **7 days** from the date of buy back.
- 6) A company can **go for next** buy back only **after 1 year** from the date of **closure of previous buy back.**
- 7) A company can **issue** such kind of shares (same kind) only **after 6 months** from the date of **closure of previous buyback.**

## TOPIC 1: PROMOTION &amp; FORMATION OF A COMPANY

Q.No.2. State the legal requirements for the formation of a company

BASIC REQUIREMENT WITH RESPECT TO THE FORMATION OF A COMPANY

- 1) A company may be formed by specified number of persons
  - a) For any lawful purpose and
  - b) By subscribing their names to the Memorandum and complying with the requirements of the Act.
  - c) By complying with the requirements of the Act.

**Exception:** A company can issue Bonus shares (or) Discharge Existing Obligations such as Existing scheme of ESOP [Employees Stock Option Plan], conversions of debentures Conversion of Preference shares or Sweat Equity shares.

• How many maximum no of shares that a company can Buy Back.

As per companies Act 2013, companies must satisfy all the following 3 tests and consider whichever is lower. [least of the no. of shares arrived by performing 3 tests]

**Test-1 Shares outstanding tests:**

- 1) Ascertain the total no of Equity shares outstanding
- 2) maximum no of shares that can be bought back = 25% of o/s Equity shares

**Test-2 Resource test:**

- 1) Ascertain share holders Funds [Paid up share capital + Free reserves]
- 2) maximum Resources can be utilised for buyback = 25% OF (Paid up share capital + Free Reserves)
- 3) Maximum no of shares that can be bought back =  $\frac{\text{maximum resources}}{\text{Buy back Prices}}$

Test-3 Debt equity test: minimum debt equity ratio to be maintained by company after buy back is 2:1 i.e.  $\frac{\text{Debt}}{\text{Equity}} = \frac{2}{1}$

minimum equity to be maintained =  $\frac{1}{2}$  (Debt)

→ To crack this ICHT follows simultaneous method.

Eq-1 Amt transferred to CRR ( $x$ ) =  $\frac{\text{max Permissible}^{\text{bb price}}}{\text{Buyback Price}} \times \text{Face Value}$

Eq-2 max Permissible Buy back of equity ( $y$ ) =  
Present Equity - Amt to be transferred to CRR  
- minimum equity to maintained.

By solving (1) & (2) we will find  $x$  and  $y$ .

\* No. of shares to be bought back =  $\frac{\text{max Permissible Buyback}}{\text{Buy Back Price}}$

→ Example: Nominal value = 10, MV = 15, BB Price = 30  
Debt = 1000 cr, present equity = 800 cr  
minimum equity to be maintained after BB =  $\frac{1}{2}$  (Debt)  
=  $\frac{1}{2}$  (1000)  
= 500

maximum Reduction in equity =  $800 - 500$  cr  
= 300 cr

Eq:1  $x = \frac{y}{\text{BB Price}} \times \text{Face Value}$

$x = \frac{y}{30} \times 10$

$y = 3x \rightarrow \text{①}$

CTION:

pany is a Separate Legal Entity from its Members

- 1) A co. For any law...
- By subscribing their names to the Memorandum and
  - By complying with the requirements of the Act.
- By complying with the requirements of the Act.
- number of persons (Statutory Limit):
- Company
- Company

Eq: 1  $y = 800 \text{ cr} - x - 500 \text{ cr}$

$y = 300 \text{ cr} - x \rightarrow 2$

Solve ① & ②

$$y = 3x$$

$$300 - x = 3x$$

$$300 = 4x$$

$$x = 75 \text{ cr}$$

$$y = 3(75)$$

$$= 225 \text{ cr.}$$

maximum no. of shares to be BB =  $\frac{y}{\text{BB Price}}$

$$= \frac{225}{30} = 7.5 \text{ cr}$$

Alternative Approach For the above no of shares to be bought back

case (1)

If entire buyback made from free reserves and securities premium.

No of shares to BB =  $\frac{\text{Present equity} - \text{min equity to be maintained}}{\text{Buyback Price} + \text{Face value.}}$

case: 2 If entire shares Buy Back made from Proceeds of fresh issue of shares

No of shares to BB =  $\frac{\text{Present Equity} - \text{minimum equity to be maintained}}{\text{Buy Back Price.}}$
