Important Tips:

1. Don't try to cover all the QB because it's not possible. Just go with the imp marked questions
2. Don't compromise your sleep, keep yourself hydrated and fresh all day by taking small-small breaks
3. Super 50 & Super 100 are just analysis of paper, don't be completely dependent on it :)
4. If you are stuck at something, refer fair notes or just go and refer RR Video without wasting time
5. I'll be there from start to end taking all of your doubts on telegram. Just keep them on point :)
